

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT				1. CONTRACT ID CODE J		PAGE 1 OF 24 PAGES	
2. AMENDMENT/MODIFICATION NUMBER 0001		3. EFFECTIVE DATE 27 Mar 2026		4. REQUISITION/PURCHASE REQUISITION NUMBER See Continuation Sheet		5. PROJECT NUMBER (If applicable)	
6. ISSUED BY CODE NAVSUP FLT LOG CTR NORFOLK ATTENTION CODE 301, 1968 GILBERT STREET SUITE 600 NORFOLK, VA 23511-3392 UNITED STATES Nicholas Stewart, Email: nicholas.t.stewart2.civ@us.navy.mil Telephone: 771-229-3552		7. ADMINISTERED BY (If other than Item 6) CODE SCD: PAS:					
8. NAME AND ADDRESS OF CONTRACTOR (Number, street, county, State and ZIP Code)				☒ (X)		9A. AMENDMENT OF SOLICITATION NUMBER N0018926RW014	
				☒ (X)		9B. DATED (SEE ITEM 11) 12 Mar 2026	
				☐		10A. MODIFICATION OF CONTRACT/ORDER NUMBER	
				☐		10B. DATED (SEE ITEM 13)	
CODE		FACILITY CODE					

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended. ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:
 (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted;
 or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)
See Continuation

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.**

CHECK ONE	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation data, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this amendment is to make a formatting correction to section 9.26 of the Performance Work Statement, add Questions and Answers attachment and make corrections to clauses 252.204-7021 and 252.204-7025.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Paul B. Cofield	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA 	16C. DATE SIGNED 27 Mar 2026

PERFORMANCE WORK STATEMENT

Analytical Operational Test and Evaluation Support Services For Aviation Warfare (Code 50) At OPTEVFOR Norfolk VA

1. Scope. Contractor shall provide technical and analytical support to Operational Test and Evaluation Force (OPTEVFOR) in the definition, conduct and analysis of structured Operational Test and Evaluation (OT&E) of US Navy systems. This support will be required in one or more of the following forms: Documentation Review, Test Planning Support, Operational Test Design, Test Analysis and Reporting, Test Operations Support, Modeling and Simulation Support, and Program Management Support. OPTEVFOR is charged with leading the Operational Test community with highly skilled testers and staff that adapt to change, and provide credible, prompt, warfighting-focused test results to Navy, Marine Corps and Coast Guard forces and acquisition leadership.

2. Background. There are five warfare divisions that are supported by competency divisions. The Aviation Warfare Division (Code 50) resides on the 2nd deck. Code 50 division has a Navy Captain as the division Director with a senior civil servant as the division Deputy Director. Aviation warfare division represent the traditional core of the OPTEVFOR organization. This is where the Fleet operators reside. The work there allows OPTEVFOR to bridge the gap from technical to the tactical, successfully. The aviation warfare division is staffed by uniformed military personnel and Navy government civilians, augmented by a contractor workforce.

There are four competency divisions: Operations (01A), Test Design and Analysis (01B), Test Planning and Evaluation (01C) and Cybersecurity (01D). In addition, the Technical Director (00TD) oversees the technical aspects of the Command's mission. Other support divisions include the Administration Services (10), Command Information Office (CIO) (20), Contracts (01K), and Finance (30). The members of the competency divisions generally work within the test team to ensure that the Director's policies are adhered to and that best practices are applied.

Operations (Code 01A) is responsible for representing the Commander to external organizations in the development of T&E policy. It is responsible for ensuring compliance with governing directives, specifically Secretary of the Navy (SECNAV) Instructions and DoD Directives. As the Operations Director, 01A tracks the status of ongoing testing and reporting, as well as managing the response to external requests for document coordination and review. The editorial staff and training staff fall under the Policy and Operations Director.

Test Design and Analysis (Code 01B) develops policy and provides services that enable OPTEVFOR Warfare Divisions to design efficient and comprehensive Operational Test (OT), to leverage Scientific Test and Analysis Techniques (STAT), and to coordinate long-lead data sources. 01B personnel join test teams in identifying needing information, preparing their products, and meeting with stakeholders. The goal of these efforts are to create test that is defensible and robust, leading to conclusions that are defendable and repeatable.

Test Planning and Evaluation (Code 01C) is responsible for the analytical rigor applied to all test planning documents and reports generated at OPTEVFOR. It oversees the development process for all test plans and reports. 01C Division is comprised of the Director, a Deputy Director, and Assistant Directors assigned as process owners. The management and professional development of all Lead Test Engineers (LTE), Center for Naval Analysis (CNA) representatives, and division analysts, whether assigned directly to 01C staff or the warfare divisions/squadrons (01C forward), falls under the Test Planning and Evaluation Director. As the Subject Matter Expert (SME) in test planning, execution, and report writing, the Test Planning and Evaluation Director is responsible for the development of the related training curricula.

Cybersecurity (Code 01D) is responsible for all aspects of cybersecurity test and evaluation during OT&E and cybersecurity assessments during Combatant Commander and Fleet exercises. The 01D Division is divided internally into two separate functions, Cybersecurity OT&E and Cybersecurity Assessment

Program (CAP). Code 01D is comprised of the Director, Deputy Director, Test Operations Director, and a Cybersecurity Assessments Program Director. Cybersecurity OT&E integrates critical cybersecurity testing into the acquisition lifecycle and tests Systems under Test (SUT) per DoDI 5000.02 and DOT&E memo of 01 August 2014. The Cybersecurity OT&E group provides support in cybersecurity acquisition test design, planning, execution and reporting across all OPTEVFOR warfare divisions, including VXs and VMX. Through a rigorous and iterative test process, Cybersecurity OT&E assists in the development and fielding of more secure and resilient Information Technology (IT) systems supporting the warfighters. Code 01D Cybersecurity OT&E group includes the following support positions: Technical Director, Future Capabilities and Threat Emulation Developer, Cybersecurity Test Engineers, Test Design and Analysis Manager, Training and Lab Manager, Test Team Leads and Certified Ethical Hackers.

3. Aviation Warfare Division and Supported Programs. The Aviation Warfare Division (Code 50) Tests and evaluates all of the Navy and Marine Corps' aviation acquisition programs warfare systems such as strike/fighter weapons; assault weapons; aviation electronic warfare; air antisubmarine warfare; aviation maintenance; and trainers, under the most operationally realistic conditions possible. The aviation warfare division also coordinates with the following squadrons; VX-1 (Patuxent River, MD), VX-9 (China Lake, CA), VMX-1 (Yuma, AZ) and HMX-1 (Quantico, VA). Below is a list of current Aviation Warfare test and evaluation programs that require OT&E support; however, additional programs may be assigned to OPTEVFOR for contractor support under this contract.

Advance Arresting Gear (AAG)

Advanced Anti-Radiation Guided Missile (AARGM)

Advanced Anti-Radiation Guided Missile Extended Range (AARGM-ER)

Advanced Threat Warning (ATW) Infrared Countermeasures System

AIM-120D AMRAAM

AIM-9X SIDEWINDER

AN/AAR-47 IR Warning Receiver

USS GEORGE W. BUSH (CVN 83)

4. Period of Performance and Location.

4.1 Period of Performance: See Schedule.

4.2 Place of Performance: Unless required to support mission accomplishment, work shall primarily be performed at the customer's site. If the number of personnel exceeds onsite capabilities, unclassified work will be expected to be performed offsite. The customer's location is:

Operational Test and Evaluation Force 7970 Diven Street
Norfolk, VA 23505-1498

While onsite at OPTEVFOR, the contractor shall comply with OPNAVINST 5239 (series), with specific regard to non-government hardware and software. Normal workdays at OPTEVFOR are Monday through Friday and normal working hours are from 0730 through 1600 EST. The manned quarter deck watch will unlock the front and back doors to CA-10 at 0500 (M-F) and lock the front and back doors to CA-10 at 1830 (M-F). Any contractor who desires to remain past 1830 in CA-10 to perform services under their support contract MUST notify the quarterdeck CDO/watch stander NLT 1700 on the day they will be working past 1830. Once the contractor has secured all work and access in their respective workspace, they will notify the CDO/watch stander that they are securing for the day.

4.3 Travel. Travel can be expected to occur CONUS and OCONUS and will be required throughout the course of this contract. The need for travel associated with this PWS shall be determined in advance by the COR at the Task Order level and authorized by the COR. Travel shall be paid by the Contractor and reimbursed by the Government. Travel costs/expenses will be considered reasonable and allowable only to the extent that they do not

exceed, on a daily basis, the maximum per diem rates in effect at the time of the travel. Travel expenses include airfare, per-diem, rental car, local travel and miscellaneous expenses as authorized by the Joint Travel Regulations (JTR). Costs for transportation may be based upon mileage rates, actual costs incurred or a combination thereof, provided the method used results in a reasonable charge. No mileage costs will be incurred when travel is within a 50-mile radius of the primary work location. The JTR, while not wholly applicable to Contractors, shall provide the basis for the determination as to reasonable and allowable. Maximum use is to be made of the lowest available customary standard coach or equivalent airfare accommodation available during normal business hours. Exceptions to these guidelines shall be approved in advance by the Contracting Officer or Designee. Travel dates and locations are to be confirmed through the TA and approved by the COR in writing via email, prior to commencement of any travel.

4.4 Observed Federal Holidays

Columbus Day
Veterans Day
Thanksgiving
Christmas Day
New Year's Day
MLK Jr. Day / Inauguration Day Mon
Washington's Birthday Mon
Spring Holiday (MIL Only) Sun
Memorial Day
Juneteenth National Independence Day
Independence Day
Labor Day

4.5 Travel Instructions

4.5.1 Any travel OCONUS by the Contractor will need to review the Foreign Clearance Guide at <http://www.fcg.pentagon.mil/fcg.cfm> (CAC enabled) and select the country of intended travel. During OCONUS travel, the contractor shall operate in accordance with International Traffic in Arms Regulation (ITAR) Part 124, approved by US Department of State, Office of Defense Trade Controls. Specific guidance can be found at: https://www.pmddtc.state.gov/regulations_laws/itar.html.

4.5.2 The Contractor is not authorized to perform any travel that is not in conjunction with this contract. It is the Department of the Navy (DON) policy not to allow a charge of profit or fee on reimbursable items.

4.5.3 The Government will make no reimbursements for a contractor's local travel defined as less than 50 miles from the place of performance, place of performance in support of this contract is OPTEVFOR, 7970 Diven Street, Norfolk Va 23505-1498.

4.5.4 In no instance shall the contractor exceed the amount specified in the contract for travel CLIN expenses.

4.5.5 Locations include CONUS, OCONUS and at sea locations and any other location, which may be added on a task order basis based on future test requirements.

4.5.6 For planning purposes any travel location OCONUS must be considered as a possible travel location unless travel restrictions at time of test do not permit entry. Possible OCONUS locations include, but are not limited to the following: Andros Island, Bahamas, Darwin, Brisbane, Melbourne, Newcastle, Perth, and Sydney, Australia; London, England; Honduras, Singapore; La Spezia, Italy; Guam; Hawaii; Halifax, Nova Scotia; Nanose, British Colombia; Columbia; Belize; Guatemala; Souda Bay, Crete; Mexico; and any other location, which may be added on a task order basis based on future test requirements.

5. Specific Tasking. The contractor shall provide support in evaluating the operational effectiveness and suitability of the system under test that has been assigned to OPTEVFOR for OT&E in accordance with the processes and procedures prescribed in OPTEVFOR M-3980.2 (series), the Operational Test and Evaluation Manual. This manual and other governing OT&E references are listed in paragraph 8 and are available from the OT Resource Library on the OPTEVFOR Sharepoint site: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.1 All government furnished Non-Secure Internet Protocol Router (NIPR) templates to be used by the contractor shall only be obtained from the authoritative source, the OT Resource Library on the OPTEVFOR Sharepoint site: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.2 All government furnished Secure Internet Protocol Router (SIPR) templates to be used by the contractor shall only be obtained from the authoritative source, the OPTEVFOR SIPR Share Drive:

5.3 The contractor shall sign up for the OPTEVFOR "Alerts for OT Resource Changes" to receive updates (which can be tailored on what you receive) on all instructions, Best Practices, and templates. Instructions to sign up are found on the OPTEVFOR SharePoint page under 01A - Operations, OT Instructions and Guidance: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.4 Mission Based Test Design

5.4.1 Mission Analysis

5.4.1.1 The Contractor shall perform Mission Based Test Design mission analysis in accordance with references (IEF Checklist) and (IEF Template).

5.4.1.2 The contractor shall analyze source data to perform Mission Based Test Design mission analysis.

5.4.1.3 The contractor shall identify and document the mission areas.

5.4.1.4 The contractor shall identify and document system capabilities.

5.4.1.5 The contractor shall derive and document operator tasks.

5.4.1.6 The contractor shall define and document the operational conditions applicable to the system to be tested.

5.4.1.7 The contractor shall document the mission analysis in the Mission Based Test and Evaluation System (MBTES).

5.4.1.8 The contractor shall document the mission analysis in an Integrated Evaluation Framework (IEF) document.

5.4.1.9 The contractor shall review the mission analysis during MBTD reviews.

5.4.1.10 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of mission analysis MBTD reviews.

5.4.2 Requirements Analysis

5.4.2.1 The contractor shall perform Mission Based Test Design requirements analysis in accordance with references (IEF Checklist) and (IEF Template).

5.4.2.2 The contractor shall analyze source data to perform Mission Based Test Design requirements analysis.

5.4.2.3 The contractor shall identify and document measures of system performance, inclusive of critical measures.

5.4.2.4 The contractor shall link measures of system performance to subtasks and document this linkage.

5.4.2.5 The contractor shall identify and document the data required to quantify the measures of system performance.

5.4.2.6 The contractor shall identify and document the data required to quantify the operational conditions applicable to the system to be tested.

5.4.2.7 The contractor shall document requirements analysis in the Mission Based Test and Evaluation System (MBTES).

5.4.2.8 The contractor shall review the requirements analysis during MBTD reviews.

5.4.2.9 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of requirements analysis MBTD reviews.

5.4.3 Test Design

5.4.3.1 The Contractor shall perform Mission Based Test Design test design in accordance with references (IEF Checklist) and (IEF Template).

5.4.3.2 The contractor shall analyze source data to perform Mission Based Test Design test design.

5.4.3.3 The contractor shall identify and document the candidate response variables for statistical test design.

5.4.3.4 The contractor shall identify and document factors/conditions (with corresponding levels) associated with each response variable or critical measure used in test design.

5.4.3.5 The contractor shall participate in and document the statistical test design for candidate response variables and/or critical measures.

5.4.3.6 The contractor shall identify and document the test vignettes.

5.4.3.7 The contractor shall determine and document the appropriate test method.

5.4.3.8 The contractor shall determine and document a test schedule supporting execution of the test design.

5.4.3.9 The contractor shall identify and document the expected use of Modeling and Simulation in the execution of the test design.

5.4.3.10 The contractor shall determine and document the resources required to conduct the test.

5.4.3.11 The contractor shall determine and document the limitations to test based on known availability of resources and assets to conduct the test.

5.4.3.12 The contractor shall develop and document data sheets to support test execution.

5.4.3.13 The contractor shall document the test design in the Mission Based Test and Evaluation System (MBTES).

5.4.3.14 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of test design MBTD reviews.

5.5 Stakeholder Collaboration (WIPTs, outreach, etc.)

5.5.1 The contractor shall make recommendations to the warfare division in accordance with OPTEVFOR processes found in references (IEF Checklist) and (IEF Template).

5.5.2 The contractor shall identify and recommend outside organization(s) for participation and inclusion in Test Design activities.

5.5.3 The contractor shall coordinate briefings/meetings in support of OPTEVFOR Test Design activities in accordance with references (IEF Checklist) and (IEF Template).

5.5.4 The contractor shall participate in briefings/meetings in support of OPTEVFOR Test Design activities in accordance with references (IEF Checklist) and (IEF Template).

5.5.5 The contractor shall lead briefings/meetings in support of OPTEVFOR Test Design activities in accordance with references (IEF Checklist) and (IEF Template).

5.5.6 The contractor shall provide a trip report (Deliverable A002) when contract activities occur away from the OPTEVFOR site in Norfolk, VA.

5.6 Document and Brief Preparation

5.6.1 The contractor shall prepare and document briefings to include the Integrated Evaluation Framework, Executive In-Process Review and stakeholder collaboration briefings.

5.6.2 The contractor shall prepare and document briefings to include the Test Plan, Data Collection Plan, Concept of Test, Test Plan Review Board and stakeholder collaboration briefings.

5.6.3 The contractor shall prepare and document briefings to include the M&S Requirements Letter, Accreditation Plan, Verification and Validation Report Addendum, Accreditation Letter and stakeholder collaboration briefings.

5.6.4 The contractor shall prepare and document briefings to include the Evaluation Report, Post-Test Brief, Scoring Board, CEWG Brief, SERB/E-SERB Brief, Data Analysis Summary and Blue/Gold Sheets.

5.6.5 The contractor shall prepare the Risk/Deficiency cover letter, the DAS, and the Test report per references OT&E Manual (Formerly OTD Manual), Templates, and Best Practice Series.

5.7 Test and Evaluation Master Plan (TEMP) Input Preparation

5.7.1 The contractor shall analyze source data to provide input to the TEMP, to include program schedules, the Integrated Evaluation Framework, applicable policy documents and any other program-provided materials

5.7.2 The contractor shall develop and document input to the TEMP IAW the DOT&E TEMP Guidebook.

5.7.3 The contractor shall develop and document comments to the TEMP related to or affecting OT.

5.7.4 Stakeholder Collaboration

5.7.4.1 The contractor shall make recommendations to the warfare division in accordance with OPTEVFOR processes found on OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.7.4.2 The contractor shall coordinate briefings/meetings in support of OPTEVFOR Temp Input activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.7.4.3 The contractor shall participate in briefings/meetings in support of OPTEVFOR Temp Input activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.

5.7.4.4 The contractor shall lead briefings/meetings in support of OPTEVFOR Temp Input activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.7.4.5 The contractor shall provide a trip report when the activities occur away from the OPTEVFOR site in Norfolk, VA.

5.8 Test Planning

5.8.1 Plan of Action and Milestones (POA&M)

5.8.1.1 The contractor shall develop and document a POA&M for the Test Planning process in accordance with reference (test planning checklist).

5.8.1.2 The contractor shall analyze source data to perform Test Planning POA&M development.

5.8.1.3 The contractor shall obtain and maintain access to the program MBTES database.

5.8.2 Purpose of Test

5.8.2.1 The contractor shall perform the activities associated with development of Purpose of Test in accordance with reference (test planning checklist).

5.8.2.2 The contractor shall analyze source data to perform Test Planning Purpose of Test development.

5.8.2.3 The contractor shall update and document the System Under Test (SUT) and System of Systems (SoS) descriptions from the Integrated Evaluation Framework for use in the Test Plan.

5.8.2.4 The contractor shall identify and document the SUT test configuration.

5.8.2.5 The contractor shall identify and document the Developmental Test (DT)/Integrated Test (IT) contributions to OT.

5.8.2.6 The contractor shall identify and document regression test requirements for any Follow-on OT&E phases, if applicable.

5.8.2.7 The contractor shall identify and document changes to the limitations to test.

5.8.2.8 The contractor shall update and document the Mission Critical Subsystem Matrix (MCSM) from the Integrated Evaluation Framework.

5.8.2.9 The contractor shall identify and document Scoring Board Guidance.

5.8.2.10 The contractor shall document the Purpose of Test activities in a Test Plan document in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.2.11 The contractor shall review the Purpose of Test activities during test plan reviews.

5.8.2.12 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Purpose of Test plan reviews.

Note

Templates can be found at the following location: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.3 Test Schedule

5.8.3.1 The contractor shall perform the activities associated with development of the Test Schedule in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.3.2 The contractor shall analyze source data to perform Test Planning Test Schedule development.

5.8.3.3 The contractor shall identify, recommend and document data to be qualified for use in OT.

5.8.3.4 The contractor shall develop and document the Test Schedule, to include test events, for each test phase and period.

5.8.3.5 The contractor shall document the Test Schedule data in the Mission Based Test and Evaluation System (MBTES).

5.8.3.6 The contractor shall document the Test Schedule activities in a Test Plan document in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.3.7 The contractor shall review the Test Schedule activities during test plan reviews.

5.8.3.8 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Test Schedule test plan reviews.

5.8.4 Detailed Method of Test

5.8.4.1 The contractor shall perform the activities associated with development of the Detailed Method of Test in accordance with reference (test planning checklist).

5.8.4.2 The contractor shall analyze source data to perform Test Planning Detailed Method of Test development.

5.8.4.3 The contractor shall identify and document the data to be collected at each test event.

5.8.4.4 The contractor shall develop and document the start and stop criteria for each test event.

5.8.4.5 The contractor shall develop and document the GO/NO GO criteria for each test event.

5.8.4.6 The contractor shall develop and document the Detailed Method of Test for each test event.

5.8.4.7 The contractor shall document the Detailed Method of Test in a Test Plan document in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.4.8 The contractor shall review the Detailed Method of Test during test plan reviews.

5.8.4.9 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Detailed Method of Test plan reviews.

5.8.5 Data Collection Plan (DCP)

5.8.5.1 The contractor shall perform the activities associated with development of the Data Collection Plan in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.5.2 The contractor shall analyze source data to perform Test Planning Data Collection Plan development.

5.8.5.3 The contractor shall review, update and document, as required, any changes to data requirements.

5.8.5.4 The contractor shall develop and document the Data Collection Plan.

5.8.5.5 The contractor shall create and document data sheets, interview sheets, focus group sheets, and survey sheets in support of the Data Collection Plan.

5.8.5.6 The contractor shall document the Data Collection Plan data in the Mission Based Test and Evaluation System (MBTES).

5.8.5.7 The contractor shall document the Data Collection Plan in a Test Plan document in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx> .

5.8.5.8 The contractor shall review the Data Collection Plan during test plan reviews.

5.8.5.9 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Data Collection Plan test plan reviews.

5.8.6 Data Analysis Plan (DAP)

- 5.8.6.1 The contractor shall perform the activities associated with development of the Data Analysis Plan in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.6.2 The contractor shall analyze source data to perform Test Planning Data Analysis Plan development.
- 5.8.6.3 The contractor will develop and document the COI resolution method.
- 5.8.6.4 The contractor will develop and document data scoring criteria.
- 5.8.6.5 The contractor shall document the Data Analysis Plan in a Test Plan document in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.6.6 The contractor shall review the Data Analysis Plan during test plan reviews.
- 5.8.6.7 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Data Analysis Plan test plan reviews.
- 5.8.7 Stakeholder Collaboration (WIPTs, outreach, etc.)
- 5.8.7.1 The contractor shall make recommendations to the warfare division in accordance with OPTEVFOR processes found on OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.7.2 The contractor shall identify and recommend outside organization(s) for participation and inclusion in Test Planning activities.
- 5.8.7.3 The contractor shall coordinate briefings/meetings in support of OPTEVFOR Test Planning activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.7.4 The contractor shall participate in briefings/meetings in support of OPTEVFOR Test Planning activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.7.5 The contractor shall lead briefings/meetings in support of OPTEVFOR Test Planning activities in accordance with OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-OT-Resources.aspx>.
- 5.8.7.6 The contractor shall provide a trip report when the activities occur away from the OPTEVFOR site in Norfolk, VA.
- 5.8.8 Document and Brief Preparation
- 5.8.8.1 The contractor shall prepare and document briefings (Deliverable A001) to include the Integrated Evaluation Framework, Executive In-Process Review and stakeholder collaboration briefings.
- 5.9 Modeling and Simulation (M&S) Support
- 5.9.1 M&S Requirements Development
- 5.9.1.1 The Contractor shall perform M&S Requirements Development in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practice series).
- 5.9.1.2 The contractor shall identify and document candidate critical measures/response variables, along with their associated conditions, during the Test Design portion of the MBTD process that will be supplemented by M&S data.
- 5.9.1.3 The contractor shall develop and document a M&S Requirements letter in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practice series).
- 5.9.1.4 The contractor shall review the M&S requirements during MBTD reviews.
- 5.9.1.5 The contractor shall provide meeting minutes, including any required comment resolution matrix for issues, to document the results of M&S Requirements Development.
- 5.9.2 Develop accreditation plans
- 5.9.2.1 The contractor shall develop an M&S Accreditation Plan in accordance with references (OPTEVFORINST 5000.1 SERIES), (Best Practice series) and (Accreditation Plan Development Guide).
- 5.9.2.2 The contractor shall develop and document the accreditation approach method consistent with OPTEVFOR policy.
- 5.9.2.3 The contractor shall develop and document the Accreditation Plan.
- 5.9.2.4 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of M&S Accreditation Plan Development.
- 5.9.3 Review Verification & Validation (V&V) Plans and Reports
- 5.9.3.1 The contractor shall review program M&S V&V plans and reports in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practice series).
- 5.9.3.2 The contractor shall review and document disagreements or issues with V&V plan methodologies.
- 5.9.3.3 The contractor shall provide recommendations for alternative V&V methodologies supporting OPTEVFOR Accreditation Requirements.
- 5.9.3.4 The contractor shall review program M&S V&V reports and document disagreements or issues with methodologies/results based on comparison with live test results.
- 5.9.3.5 The contractor shall develop and document the OPTEVFOR V&V Report addendum.
- 5.9.3.6 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of M&S V&V Plans or Reports reviews.
- 5.9.4 Accreditation Support
- 5.9.4.1 The contractor shall perform M&S Accreditation in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practice series).
- 5.9.4.2 The contractor shall perform and document, in coordination with OPTEVFOR Test Design analysts, any additional required analysis not provided in the V&V report in support of accreditation.
- 5.9.4.3 The contractor shall identify, and document conclusions and recommendations based on comparison of live test results with M&S test results.
- 5.9.4.4 The contractor shall identify and document significant M&S limitations that impact the accreditation recommendation.
- 5.9.4.5 The contractor shall identify and document where the M&S results support the intended use for OT.
- 5.9.4.6 The contractor shall develop and document an accreditation recommendation in an Accreditation Letter.
- 5.9.4.7 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of M&S Accreditation activities and reviews.
- 5.9.5 Stakeholder Collaboration
- 5.9.5.1 The contractor shall make recommendations to the warfare division in accordance with OPTEVFOR processes found in references (OPTEVFORINST 5000.1 series) and (Best Practice series). <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/OTResourceLibrary/Forms/AllItems.aspx?FilterField1=LibraryCategory&FilterValue1=OTF%20Instructions&FilterType1=Choice&sortField=Modified&isAscending=false&viewid=6f07f94d%2D9cbf%2D4d7b%2D2a5af%2D2d960f8a2>
- 5.9.5.2 The contractor shall identify and recommend outside organization(s) for participation and inclusion in M&S VV&A activities.
- 5.9.5.3 The contractor shall coordinate briefings/meetings in support of OPTEVFOR M&S VV&A activities in accordance with references (OPTEVFORINST 5000.1 series) and (Best Practice series). <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/OTResourceLibrary/Forms>

/AllItems.aspx?FilterField1=LibraryCategory&FilterValue1=OTF%20Instructions&FilterType1=Choice&sortField=Modified&isAscending=false&viewid=6f07f94d%2D9cbf%2D4d7b%2Da5af%2Dd960f8a2

5.9.5.4 The contractor shall participate in briefings/meetings in support of OPTEVFOR M&S VV&A activities in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practice series).

5.9.5.5 The contractor shall lead briefings/meetings in support of OPTEVFOR M&S VV&A activities in accordance with references (OPTEVFORINST 5000.1 SERIES) and (Best Practices). <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/OTResourceLibrary/Forms/AllItems.aspx?FilterField1=LibraryCategory&FilterValue1=OTF%20Instructions&FilterType1=Choice&sortField=Modified&isAscending=false&viewid=6f07f94d%2D9cbf%2D4d7b%2Da5af%2Dd960f8a2>

tegory&FilterValue1=OTF%20Instructions&FilterType1=Choice&sortField=Modified&isAscending=false&viewid=6f07f94d%2D9cbf%2D4d7b%2Da5af%2Dd960f8a2

5.9.5.6 The contractor shall provide a trip report when the activities occur away from the OPTEVFOR site in Norfolk, VA.

5.9.6 Document and Brief Preparation

5.9.6.1 The contractor shall prepare and document briefings to include the Integrated Evaluation Framework, Executive In-Process Review and stakeholder collaboration briefings.

5.10 Test Execution

5.10.1 Pre-test Coordination

5.10.1.1 The contractor shall identify and schedule required test services (ranges, targets, personnel, etc.) for the test phase.

5.10.1.2 The contractor shall develop and submit asset scheduling requests to OPTEVFOR Fleet Services schedulers in accordance with reference OT&E Manual (Formerly OTD Manual).

5.10.1.3 The contractor shall develop and provide the OPTEVFOR pre-test letters for test units and ISICs in accordance with reference OT&E Manual (Formerly OTD Manual).

5.10.1.4 The contractor shall develop and provide briefing materials as required to support Operational Test Requirements Reviews (OTRRs).

5.10.2 Pre-test Brief

5.10.2.1 The contractor shall prepare and document the Pre-Test briefing.

5.10.3 Test Operations

5.10.3.1 The contractor shall collect and document test data using data cards/sheets, interview sheets, focus group sheets, and survey sheets in accordance with OPTEVFOR procedures and the signed test plan.

5.10.3.2 The contractor shall distribute test execution materials to all test participants.

5.10.3.3 The contractor shall develop and document any test deviations resulting from test variances.

5.10.3.4 The contractor shall develop and document a daily summary of test operations email.

5.10.4 Post-Test Activities

5.10.4.1 The contractor shall conduct and document post-test interviews for all test events requiring interviews of participants.

5.10.4.2 The contractor shall conduct and document test team debriefs.

5.10.4.3 The contractor shall conduct and document test-site scoring boards.

5.11 Post-Test Iterative Process (PTIP) and Reporting

5.11.1 Data Scoring

5.11.1.1 The Contractor shall perform PTIP Data Scoring in accordance with references OT&E Manual (Formerly OTD Manual) and (Best Practice series).

5.11.1.2 The contractor shall inventory, compile and document all collected data, comparing data collected to that required by the Test Plan scope, DMOT and DCP.

5.11.1.3 The contractor shall develop and document a test execution summary.

5.11.1.4 The contractor shall review the data during Data Scoring reviews.

5.11.1.5 The contractor shall develop and document the End of Test message.

5.11.1.6 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Data Scoring reviews.

5.11.2 COI Evaluation

5.11.2.1 The Contractor shall perform PTIP COI Evaluation in accordance with OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.2.2 The contractor shall develop and document risks and/or deficiencies on OPTEVFOR Blue and Gold Sheets.

5.11.2.3 The contractor shall develop and document test results in OPTEVFOR test report results paragraphs.

5.11.2.4 The contractor shall document any limitations to test identified during test execution.

5.11.2.5 The contractor shall develop and document COI evaluation via the COI Evaluation Chart.

5.11.2.6 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of COI Evaluation reviews.

5.11.3 Data Analysis

5.11.3.1 The Contractor shall perform PTIP Data Analysis in accordance with reference OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.3.2 The contractor shall conduct and document an analysis of all critical measures.

5.11.3.3 The contractor shall develop and conduct an RV Analysis Out brief in coordination with Test Design Analyst support.

5.11.3.4 The contractor shall develop a draft Data Analysis Summary (DAS).

5.11.3.5 The contractor shall review the DAS during Analysis Working Groups (AWG).

5.11.3.6 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Data Analysis reviews.

5.11.4 Deficiency/Risk Documentation

5.11.4.1 The Contractor shall perform PTIP Deficiency/Risk Documentation in accordance with reference OT&E Manual (Formerly OTD Manual)

and (Best Practice Series).

5.11.4.2 The contractor shall distribute and collect comments on draft Blue/Gold Sheets.

5.11.4.3 The contractor shall review the Deficiencies/Risks during PTIP reviews.

5.11.4.4 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of Deficiency/Risk reviews.

5.11.5 System Evaluation

5.11.5.1 The Contractor shall perform PTIP System Evaluation in accordance with reference OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.5.2 The contractor shall develop and document evaluation reports to support Command SERB/E-SERB PTIP reviews.

5.11.5.3 The contractor shall review the system evaluation during PTIP reviews.

5.11.5.4 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of System Evaluation reviews.

5.11.6 Stakeholder Collaboration

5.11.6.1 The contractor shall make recommendations to the warfare division in accordance with OPTEVFOR processes found in references OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.6.2 The contractor shall identify and recommend outside organization(s) for participation and inclusion in PTIP activities.

5.11.6.3 The contractor shall coordinate briefings/meetings in support of OPTEVFOR PTIP activities in accordance with references OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.6.4 The contractor shall participate in briefings/meetings in support of OPTEVFOR PTIP activities in accordance with references OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.6.5 The contractor shall lead briefings/meetings in support of OPTEVFOR PTIP activities in accordance with references OT&E Manual (Formerly OTD Manual) and (Best Practice Series).

5.11.6.6 The contractor shall provide a trip report when the activities occur away from the OPTEVFOR site in Norfolk, VA.

5.11.7 Document and Brief Preparation

5.11.7.1 The contractor shall prepare and document briefings to include the Integrated Evaluation Framework, Executive In-Process Review and stakeholder collaboration briefings.

5.12 Cyber Security Subject Matter Expert/Operational (SME).

5.12.1 Cyber Security Support.

5.12.1.1 IAW the DoD Cybersecurity Test and Evaluation Guidebook 2.0 Series, the contractor shall utilize paragraph F.2.1.2, Cybersecurity Subject Matter Experts and Figure F-2 RASCI Table to assist the OTD and 01D Exploitation Analyst (EA) in cyber test preparations and coordination.

5.12.2 Cyber Survivability Test Planning and Research.

5.12.2.1 The Contractor shall support Cyber Survivability Test Planning Research in accordance with Cyber Test Planning Process guidance.

5.12.2.2 The contractor shall review and identify technical documents required to support Cyber Survivability Test Planning.

5.12.2.3 The contractor shall identify need dates for all required technical documents and provide dates to the OTD/OTC.

5.12.2.4 The contractor shall identify previous and planned Cyber Survivability tests that may contribute to current Cyber Survivability efforts.

5.12.2.5 The contractor shall conduct a Cyber Survivability level of test review with Warfare Division and Code 01D.

5.12.2.6 The contractor shall coordinate with Fleet Resources and the OTD/OTC to determine asset availability in support of Cyber Security objectives.

5.12.2.7 The contractor shall develop and provide a Cyber Survivability POA&M to support the test planning effort.

5.12.2.8 The contractor shall identify and provide risk management and recertification baseline concerns for communication to the Program Management Office (PMO).

5.12.2.9 The contractor shall document the test planning research in a Cyber Survivability Test Plan document.

5.12.2.10 The contractor shall review the test planning research during Cyber Survivability reviews.

5.12.2.11 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of test planning research during Cyber Survivability Test Planning reviews.

5.12.3 Cyber SUT/SoS and Schedule Development.

5.12.3.1 The Contractor shall support Cyber Survivability SUT/SoS and Schedule Development in accordance with Cyber Test Planning Process guidance.

5.12.3.2 The contractor shall identify and document the system attack surface.

5.12.3.3 The contractor shall identify and document the system attack vectors.

5.12.3.4 The contractor shall develop and document Cyber Survivability Test Plan site visit objectives.

5.12.3.5 The contractor shall develop and document the test execution schedule.

5.12.3.6 The contractor shall document the SUT/SoS and Schedule in a Cyber Survivability Test Plan document.

5.12.3.7 The contractor shall review the SUT/SoS and Schedule during Cyber Survivability reviews.

5.12.3.8 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of SUT/SoS and Schedule during Cyber Survivability Test Planning reviews.

5.12.4 Cyber Survivability Test Plan Site Visit.

5.12.4.1 The contractor shall support Cyber Survivability Test Plan Site Visit in accordance with Cyber Test Planning Process guidance.

5.12.4.2 The contractor shall coordinate dates, attendance lists, and documentation requirements with the PMO prior to execution of the site visit.

5.12.4.3 The contractor shall develop and conduct an informal site visit in-brief covering the purpose of the site visit and what the site visit personnel should expect.

5.12.4.4 The contractor shall collect and document information to validate initial elements of the critical components list, system configuration differences from provided documentation, and technical SME support requirements for test execution.

5.12.4.5 The contractor shall provide a post-visit trip report (Deliverable A002) documenting site visit activities and actions when contract activities occur away from the OPTEVFOR site in Norfolk, VA.

5.12.5 Cyber Survivability Final Technical Planning.

5.12.5.1 The Contractor shall support Cyber Survivability Test Plan Finalization in accordance with Cyber Test Planning Process guidance.

5.12.5.2 The contractor shall develop and document data requirements for test execution.

5.12.5.3 The contractor shall coordinate with Code 01D to determine test equipment and required resources for execution.

5.12.5.4 The contractor shall document the test plan finalization in a Cyber Survivability Test Plan document.

5.12.5.5 The contractor shall review the test plan finalization during Cyber Survivability reviews.

5.12.5.6 The contractor shall provide meeting minutes, to include any required comment resolution matrix for issues, to document the results of test plan finalization during Cyber Survivability reviews.

5.13 Government Training

5.13.1 The Contractor is eligible to take OPTEVFOR provided training, including (but not limited to) Operational Test Director (OTD) Course, Integrated Evaluation Framework (IEF) Course, Test Planning Course, Post Test Iterative Process (PTIP) Course and Reliability, Maintainability, Logistic Supportability and Availability (RMLA) Course, Blue and Gold Sheet Writing Course, Modeling and Simulation Course, Effective Technical Writing Course. Contractors are encouraged to stay updated on course updates to ensure training currency (add more training, if needed).

5.13.2 Training class availability and registration can be obtained by contacting the Training Department located in CA-495. The primary points of contact are the Workforce Development Officer or Training Administrator. Instructions for sign up can be found on the OPTEVFOR public home page under Command Training: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/01A-Division-Workforce-Development.aspx>.

5.13.3 The Contractor shall comply with training required at the Task Order level.

5.13.4 Task Orders may/will specify what training is required. NOTE: Some Task Orders may/will require completion of specific training at date of award due to Program scheduled events.

5.14 Administrative Support

5.14.1 The Contractor shall provide the Technical Point of Contact (TPOC) with Monthly Status Reports. Monthly Status Reports should provide sufficient detail and organization to allow OTDs to track progress, performance, and funds expenditure at the program level.

5.14.2 The Contractor shall provide program management input and attendance to divisional leadership meetings as needed to coordinate overall level of effort and support to assigned tasks, conferences/meetings attended, work plans, and the expenditure of funds and/or labor hours during the month.

5.15 Financial Tracking and Support

5.15.1 The contractor shall provide financial tracking for the complete execution of this contract. Financial status shall be reported to the government in the Monthly Status Report (DELIVERABLE A003).

6. Deliverables. The Government reserves the right to specify deliverables at the task order level. Data items required from the contractor are specified in the Contract Data Requirements List (DELIVERABLE), DD Form 1423. Not every DELIVERABLE will apply to each order. Quantities, delivery dates, and other particulars will be identified in the individual task orders issued under this contract.

6.1 DELIVERABLE A001, Test and Evaluation Documents or Briefs.

- o Final Test and Evaluation documents, including but not limited to IEFs, test plans, and test reports.

- o Draft products supporting OPTEVFOR test design, test planning, and post-test reporting milestone meetings (touchpoints, IPRs, SERBs, etc.).

- o Products supporting TEMP or MTS development.

- o Products supporting Modeling and Simulation efforts.

- o Other products as necessary supporting Test and Evaluation efforts as required by the government.

- o Meeting minutes.

6.2 DELIVERABLE A002, Trip Report.

- o The contractor shall prepare a trip report detailing information issued at the program meeting attended within five (5) working days after returning to home base from the meeting.

- o Contractor format acceptable.

6.3 DELIVERABLE A003, Monthly Status Report (MSR).

- o The contractor shall prepare a progress, performance and funds expenditure report by the 10th of the month starting one month after contract award, unless otherwise agreed upon with the OTD.

- o Contractor format acceptable.

7.0 Receipt and Acceptance of Deliverables.

7.1 All Deliverables (NIPR or SIPR) listed at the task order level will be delivered by the Contractor in accordance with the Quality Assurance Surveillance Plan (QASP) under the overarching awarded contract. These delivered items shall be sent in an email by the contractor to the divisional representatives (applicable recipients identified at the task order award kick-off) and upon receipt the government will acknowledge receipt via email. Final acceptance by the government shall be considered once the draft document has made smooth and has been signed by the responsible signatory (i.e. ACOS or Commander) or the submitted document is accepted at the requisite level as determined by OT&E Manual (formerly OTD Manual). This email will facilitate the formal government's position for the respective product. Review of these deliverables may require more than two independent reviews (QA/QC) by the contractor during its process through the iBOSS document routing system before it is determined smooth and accepted by the government.

8. Minimum Personnel Requirements. The contractor is asked to submit within the proposal at the Task Order Level (SUT/s specific) their proposed labor category/s and skill set/s to ensure successful performance of the

requirements identified within the PWS. As described in the minimum personnel requirements relative and comparative emphasis is given where applicable between the testing, analytical and/or writing competencies within respective labor categories.

8.1 If the Government questions the qualifications or competence of any person performing under the contract, the burden of proof to sustain the person as qualified as prescribed herein shall be upon the Contractor.

8.2 If the customer does not identify a Labor Category at the task order level during the request for proposal, it will be up to the Offeror to determine which Labor Categories and Qualifications to propose (which must include those identified within the signed contract at the awarded rates) they will propose at the Task Order level to achieve success.

8.3 Requirements for All Offerors. All personnel proposed in support of this contract shall:

8.2.1 Possess U.S. Citizenship.

8.2.2 Possess familiarity with MS-Office software.

9 Government Labor Categories.

9.1 Aircraft Handling Specialist

9.1.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.1.2 Combined 7 years of experience from the following:

9.1.2.1 Navy Operational Test and Evaluation

9.1.2.2 Developmental, integrated or experimental test and evaluation

9.1.2.3 Operation and/or maintenance of CVN Flightdeck systems

9.1.3 Qualification as: Aircraft Handling Officer, Catapult Officer/Arresting Gear Officer

9.1.4 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:

9.1.4.1 Aircraft Launch Recovery Equipment (ALRE)

9.1.4.2 Visual Landing Aide (VLA) equipment

9.1.5 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.2 Joint Strike Fighter Specialist

9.2.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.2.2 Combined 7 years of experience from the following:

9.2.2.1 Navy Operational Test and Evaluation

9.2.2.2 Developmental, integrated or experimental test and evaluation

9.2.2.3 Operation and/or maintenance of Air Warfare systems

9.2.3 Qualification as: Naval Aviator or Naval Flight Officer

9.2.4 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:

9.2.4.1 Joint Strike Fighter

9.2.5 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.3 Strike Warfare Aviation Specialist - Data Links

9.3.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.3.2 Combined 7 years of experience from the following:

9.3.2.1 Navy Operational Test and Evaluation

9.3.2.2 Developmental, integrated or experimental test and evaluation

9.3.3 Operation and/or maintenance of Air Warfare systems

9.3.4 Qualification as: Naval Aviator or Naval Flight Officer

9.3.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:

9.3.5.1 Tactical Aviation Weapons

9.3.5.2 F/A-18 systems

9.3.5.3 Link 16

9.3.5.4 TACAN

9.3.5.5 MIDS

9.3.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.4 Strike Warfare Aviation Specialist - Air to Ground Weapons

9.4.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.4.2 Combined 7 years of experience from the following:

9.4.2.1 Navy Operational Test and Evaluation

9.4.2.2 Developmental, integrated or experimental test and evaluation

9.4.2.3 Operation and/or maintenance of Strike Warfare systems

9.4.3 Qualification as: Naval Aviator or Naval Flight Officer

9.4.4 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:

9.4.4.1 Tactical Aviation Weapons

9.4.4.2 F/A-18 systems

9.4.4.3 Air to Ground Weapons Employment

9.4.5 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.5 Strike Warfare Aviation Specialist - Air to Air Weapons

9.5.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.5.2 Combined 7 years of experience from the following:

9.5.2.1 Navy Operational Test and Evaluation

9.5.2.2 Developmental, integrated or experimental test and evaluation

9.5.3 Operation and/or maintenance of Air Warfare systems

9.5.4 Qualification as: Naval Aviator or Naval Flight Officer

9.5.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.5.5.1 Tactical Aviation Weapons

- 9.5.5.2 F/A-18 systems
- 9.5.5.3 Air to Air Weapons Employment
- 9.5.5.4 Aim-9x
- 9.5.5.5 Aim-120
- 9.5.5.6 Other Air to Air Weapons
- 9.5.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.6 E-2D Specialist

- 9.6.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
- 9.6.2 Combined 7 years of experience from the following:
 - 9.6.2.1 Navy Operational Test and Evaluation
 - 9.6.2.2 Developmental, integrated or experimental test and evaluation
- 9.6.3 Operation and/or maintenance of Air Warfare systems
- 9.6.4 Qualification as: Naval Aviator or Naval Flight Officer
- 9.6.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:
 - 9.6.5.1 E-2D Advanced Hawkeye Integrated Training System
 - 9.6.5.2 Naval Integrated Fire Control - Counter Air (NIFC-CA)
- 9.6.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.7 Marine Rotary/Tiltrotor Specialist
- 9.7.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
- 9.7.2 Combined 7 years of experience from the following:
 - 9.7.2.1 Navy Operational Test and Evaluation
 - 9.7.2.2 Developmental, integrated or experimental test and evaluation
- 9.7.3 Operation and/or maintenance of Air Warfare systems
- 9.7.4 Qualification as: Naval Aviator or Naval Flight Officer
- 9.7.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:
 - 9.7.5.1 Rotary and Tiltrotor platforms
 - 9.7.5.2 CH-53K
 - 9.7.5.3 MV-22B
 - 9.7.5.4 H-1 Upgrades
- 9.7.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.8 Joint Precision Approach and Landing System (JPALS) Specialist
- 9.8.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
- 9.8.2 Combined 7 years of experience from the following:
 - 9.8.2.1 Navy Operational Test and Evaluation
 - 9.8.2.2 Developmental, integrated or experimental test and evaluation
- 9.8.3 Operation and/or maintenance of Air Warfare systems
- 9.8.4 Qualification as: Naval Aviator or Naval Flight Officer
- 9.8.5 5 years' experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:
 - 9.8.5.1 JPALS Models and Simulation
 - 9.8.5.2 Avionics Test Kits
 - 9.8.5.3 ADMACS
 - 9.8.5.4 MORIAH
 - 9.8.5.5 NAVSSI
 - 9.8.5.6 ILARTS
 - 9.8.5.7 IFLOLS
 - 9.8.5.8 LSODS
 - 9.8.5.9 AN/TPX-42
 - 9.8.5.10 AN/SPN-41
 - 9.8.5.11 AN/SPN-46

- 9.8.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.9 Naval Aviation Maintenance Technician
- 9.9.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
- 9.9.2 Combined 7 years of experience from the following:
 - 9.9.2.1 Navy Operational Test and Evaluation
 - 9.9.2.2 Developmental, integrated or experimental test and evaluation
- 9.9.3 Operation and/or maintenance of Aviation Maintenance systems
- 9.9.4 Qualification as: Enlisted Air Warfare Specialist or Professional Aviation Maintenance Officer
- 9.9.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of:
 - 9.9.5.1 Aviation Maintenance Control
 - 9.9.5.2 Flight Deck Coordination
 - 9.9.5.3 Quality Assurance
 - 9.9.5.4 Organizational and Intermediate level Naval Aviation Maintenance Programs
- 9.9.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.10 Aviation Logistics Specialist
- 9.10.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

- 9.10.2 Combined 7 years of experience from the following:
 - 9.10.2.1 Navy Operational Test and Evaluation
 - 9.10.2.2 Developmental, integrated or experimental test and evaluation
 - 9.10.3 Operation and/or maintenance of Carrier Onboard Delivery systems
 - 9.10.4 Qualification as: Naval Aviator or Naval Flight Officer
 - 9.10.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of
 - 9.10.5.1 C-2A
 - 9.10.5.2 CMV-22
 - 9.10.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.11 Aviation Electronic Attack Specialist
 - 9.11.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
 - 9.11.2 Combined 7 years of experience from the following:
 - 9.11.2.1 Navy Operational Test and Evaluation
 - 9.11.2.2 Developmental, integrated or experimental test and evaluation
 - 9.11.3 Operation and/or maintenance of Airborne Electronic Warfare systems
 - 9.11.4 Qualification as: Naval Aviator or Naval Flight Officer
 - 9.11.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of
 - 9.11.5.1 REACT
 - 9.11.5.2 PINEAPPLE
 - 9.11.5.3 AMBER
 - 9.11.5.4 Missile and Space Intelligence Center ITASE models
 - 9.11.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.12 Aviation Electronic Warfare Self Protect Specialist
 - 9.12.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
 - 9.12.2 Combined 7 years of experience from the following:
 - 9.12.2.1 Navy Operational Test and Evaluation
 - 9.12.2.2 Developmental, integrated or experimental test and evaluation
 - 9.12.3 Operation and/or maintenance of Airborne Electronic Warfare systems
 - 9.12.4 Qualification as: Naval Aviator or Naval Flight Officer
 - 9.12.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of
 - 9.12.5.1 Naval Air Integrated Defensive Electronic Counter-measures System
 - 9.12.5.2 IDECM Block IV
 - 9.12.5.3 IDECM SWIP
 - 9.12.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.13 Aviation Infrared Self Protect Specialist
 - 9.13.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
 - 9.13.2 Combined 7 years of experience from the following:
 - 9.13.2.1 Navy Operational Test and Evaluation
 - 9.13.2.2 Developmental, integrated or experimental test and evaluation
 - 9.13.3 Operation and/or maintenance of Airborne Electronic Warfare systems
 - 9.13.4 Qualification as: Naval Aviator or Naval Flight Officer
 - 9.13.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of
 - 9.13.5.1 ATW/IRCM
 - 9.13.5.2 DoN LAIRCM ATW
 - 9.13.5.3 AN/APR-39 RSDS
 - 9.13.5.4 Common Infrared Countermeasures System (CIRCM)
 - 9.13.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.14 Naval Rotary Anti-Surface Warfare/Anti-Submarine Warfare Specialist
 - 9.14.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
 - 9.14.2 Combined 7 years of experience from the following:
 - 9.14.2.1 Navy Operational Test and Evaluation
 - 9.14.2.2 Developmental, integrated or experimental test and evaluation
 - 9.14.3 Operation and/or maintenance of Surface Warfare systems
 - 9.14.4 Qualification as: Naval Aviator
 - 9.14.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of
 - 9.14.5.1 Naval Anti-Submarine Warfare
 - 9.14.5.2 H-60
 - 9.14.5.3 MH-60R
 - 9.14.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.
- 9.15 Navy Unmanned Aviation Systems Specialist
 - 9.15.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.
 - 9.15.2 Combined 7 years of experience from the following:
 - 9.15.2.1 Navy Operational Test and Evaluation
 - 9.15.2.2 Developmental, integrated or experimental test and evaluation
 - 9.15.3 Operation and/or maintenance of Airborne Electronic Warfare systems

9.15.4 Qualification as: Naval Aviator or Naval Flight Officer

9.15.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.15.5.1 Naval Air Integrated Defensive Electronic Counter-measures System

9.15.5.2 IDECM Block IV

9.15.5.3 IDECM SWIP

9.15.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.16 Marine Corps Unmanned Aviation Systems Specialist

9.16.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.16.2 Combined 7 years of experience from the following:

9.16.2.1 Navy Operational Test and Evaluation

9.16.2.2 Developmental, integrated or experimental test and evaluation

9.16.3 Operation and/or maintenance of Air Warfare systems

9.16.4 Qualification as: Naval Aviator or Naval Flight Officer

9.16.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.16.5.1 Unmanned Aviation Systems

9.16.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.17 Naval Fixed-Wing Anti-Surface Warfare/Anti-Submarine Warfare Specialist

9.17.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.17.2 Combined 7 years of experience from the following:

9.17.2.1 Navy Operational Test and Evaluation

9.17.2.2 Developmental, integrated or experimental test and evaluation

9.17.3 Operation and/or maintenance of Air Warfare systems

9.17.4 Qualification as: Naval Aviator or Naval Flight Officer

9.17.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.17.5.1 Naval Air Anti-Submarine Warfare Platform

9.17.5.2 P-3C/P-8A

9.17.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.18 JMPS-M T&E Specialist

9.18.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.18.2 Combined 7 years of experience from the following:

9.18.2.1 Navy Operational Test and Evaluation

9.18.2.2 Developmental, integrated or experimental test and evaluation

9.18.3 Operation and/or maintenance of Mission Planning systems

9.18.4 Qualification as: Naval Aviator or Naval Flight Officer

9.18.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.18.5.1 JMPS-M MPEs and Frameworks

9.18.5.2 Platform-Specific UPCs and Federated Applications

9.18.5.3 JMPS-M Key Performance Parameters

9.18.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.19 Automated Test Information System Specialist

9.19.1 Completion of the Mission Based Test Design (MBTD) and OT/Framework course or ability to complete within 3 months of employment.

9.19.2 Combined 7 years of experience from the following:

9.19.2.1 Navy Operational Test and Evaluation

9.19.2.2 Developmental, integrated or experimental test and evaluation

9.19.3 Operation and/or maintenance of Aviation Maintenance systems

9.19.4 Qualification as: Enlisted Air Warfare Specialist or Professional Aviation Maintenance Officer

9.19.5 5 years experience (within the last 10 years) in the direction/management of all aspects of operation and/or maintenance OR Test and Evaluation (T&E) of

9.19.5.1 Organizational and Intermediate level Naval Aviation Maintenance Programs

9.19.5.2 Automated Test Information System

9.19.6 Completion of the Technical Assistance Agreement(s) (TAA) within 6 months after task order award.

9.20 Senior Program Manager

9.20.1 Must have 8 years (within the last ten years) of experience in planning and organizing work tasks, developing test plans, collecting data, and performing reconstruction and analysis for the test and evaluation or tactical operations related efforts. Of the 8 years, four must be in a project or program management capacity.

9.20.2 Must have current working knowledge of the Navy and multi-service missions, operations, logistics, management, and organizational responsibilities.

9.20.3 Must have working knowledge of the DoD 5000 series, OPNAVINST 5000.42 series, as well as SECNAVINST 5000 series instructions.

9.20.4 Must have demonstrated the ability to interact effectively within the naval community and have a demonstrated ability to communicate the results of the operational analysis to sponsoring activities and decision makers.

9.20.5 Proficient in developing Plan of Actions and Milestones (POA&M) for delivering Operational Test and Evaluation products to OPTEVFOR.

9.20.6 Proficient in the use of Microsoft Office products, to include MS Word, Excel, Access and Power Point.

9.21 Journeyman Program Manager

9.21.1 Must have 4 years (within the last 6 years) of experience in planning and organizing work tasks, developing test plans, collecting data, and performing reconstruction and analysis for the test and evaluation or tactical operations related efforts.

9.21.2 Must have current working knowledge of the Navy and multi-service missions, operations, logistics, management, and organizational responsibilities.

9.21.3 Must have working knowledge of the DoD 5000 series, OPNAVINST 5000.42 series, as well as SECNAVINST 5000 series instructions.

9.21.4 Must have demonstrated the ability to interact effectively within the naval community and have a demonstrated ability to communicate the results of the operational analysis to sponsoring activities and decision makers.

9.21.5 Proficient in developing Plan of Actions and Milestones for delivering Operational Test and Evaluation products to OPTEVFOR.

9.21.6 Proficient in the use of Microsoft Office products, to include MS Word, Excel, Access and Power Point.

9.22 Senior Test and Evaluation Engineer

9.22.1 Within the last two years completed the OPTEVFOR test planning process leading to OPTEVFOR Test Plan Review Board

9.22.2 Within the last two years completed the OPTEVFOR Integrated Evaluation Framework development process leading to OPTEVFOR approval of an IEF

9.22.3 Within the last two years completed the OPTEVFOR Post Test Iterative Process leading to OPTEVFOR approval of an Operational Evaluation Report

9.22.4 Experience within the last two years conducting an Operational Test and Evaluation IAW an OPTEVFOR-approved Operational Test Plan

9.22.5 Experience in developing Modeling and Simulation (M&S) Accreditation Packages and Accreditation Letters

9.22.6 Must possess proficient experience in analysis methodologies, as applied to testing of undersea systems, airborne systems, satellite systems, terminals, C4I systems/equipment, shipboard systems, expeditionary systems, mine warfare systems and/or chemical/biological/radiological defense systems

9.22.7 Proficiency in use of Microsoft Office products, to include MS Word, MS Excel, MS Access, and MS Power Point

9.22.8 Proficiency in technical writing

9.23 Journeyman Test and Evaluation Engineer

9.23.1 Experience within the last two years conducting an Operational Test and Evaluation IAW an OPTEVFOR-approved Operational Test Plan

9.23.2 Formal training in or demonstrated experience in developing Modeling and Simulation (M&S) Accreditation Packages and Accreditation Letters

9.23.3 Must possess proficient experience in analysis methodologies, as applied to testing of undersea systems, airborne systems, satellite systems, terminals, C4I systems/equipment, shipboard systems, expeditionary systems, mine warfare systems and/or chemical/biological/radiological defense systems

9.23.4 Proficiency in use of Microsoft Office products, including MS Word, MS Excel, MS Access, and MS Power Point

9.23.5 Proficiency in technical writing

9.24 Senior Operations Analyst

9.24.1 In addition to the minimum requirements for all positions, the candidate relating to this position must possess demonstrated experience with operational test design; Operations Research Systems Analysis (ORSA) Knowledge of: arithmetic, algebra, geometry, calculus, statistics, and their applications; using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems; identifying complex problems and reviewing related information to develop and evaluate options and implement solutions; using scientific rules and methods to solve problems.

9.24.2 Demonstrated ability to apply analytical methodologies to evaluate the operational effectiveness and suitability.

9.24.3 Demonstrated ability/experience in identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system and the ability to choose the right mathematical methods or formulas to solve a problem.

9.24.4 Experience in developing Modeling and Simulation (M&S) Accreditation Packages and Accreditation Letters for active and passive EW systems.

9.24.5 Must be familiar with operational test design software, such as "JMP", or "Design-Expert".

9.24.6 Must have expertise in scripting functions for automatic data analysis using Excel, Access and/or other database software applications.

9.24.7 Must have a minimum undergraduate degree in Statistics, Mathematics, Engineering or related field.

9.25 Journeyman Operations Analyst

9.25.1 In addition to the minimum requirements, this position must possess demonstrated experience with operational test design; Operations Research Systems Analysis (ORSA) Knowledge of: arithmetic, algebra, geometry, calculus, statistics, and their applications; using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems; identifying complex problems and reviewing related information to develop and evaluate options and implement solutions; using scientific rules and methods to solve problems.

9.25.2 Formal training in the application of analytical methodologies in evaluation of system performance.

9.25.3 Formal training in identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system and the ability to choose the right mathematical methods or formulas to solve a problem.

9.25.4 Formal training in developing Modeling and Simulation (M&S) Accreditation Packages and Accreditation Letters.

9.25.5 Must be familiar with operational test design software, such as "JMP", or "Design-Expert".

9.25.6 Must have expertise in scripting functions for automatic data analysis using Excel, Access and/or other database software applications.

9.25.7 Must have a minimum undergraduate degree in Statistics, Mathematics, Engineering or related field.

9.26 Cyber Security Subject Matter Expert/Operational (SME)

9.26.1 The following qualifications and certifications where specified are required for the Cyber Security Subject Matter Expert (SME), must be TS Eligible.

9.26.2 DoDM 8140.03-, Cyberspace Workforce Qualification AND Management Program

9.26.3 DoD Directive 8140.01 Cyberspace Workforce Management

9.26.4 4 Year Degree in one of the following:

9.26.5 Computer Science
9.26.6 Computer/Electrical engineering
9.26.7 Systems Engineering (technical)
9.26.8 Aeronautical engineering

AND

9.26.9 DoDD 8570 IAM/IAT II certification or ability to obtain within 6 months after award at the Task Order Level
9.26.10 Proficiency in decomposing complex computer systems/networking configurations in support of system exploitation analysis
9.26.11 Ability to perform detail-oriented work quality assurance/quality control prior to delivery to the government.

OR

9.26.12 Minimum 2 years of DoD cybersecurity experience AND Minimum 2 years' experience in one of the following:
9.26.12.1 Network engineering
9.26.12.2 Programming (C/C++, python, Bash, etc.)
9.26.12.3 Systems test engineering
9.26.12.4 Project management
9.26.12.5 Penetration testing

AND

9.26.13 DoDD 8570 IAM/IAT II certification or ability to obtain 6 months after award at the Task Order level.
9.26.14 Proficiency in decomposing complex computer systems/networking configurations in support of system exploitation analysis
9.26.15 Ability to perform detail-oriented work quality assurance/quality control prior to delivery to the government.

10 Security. Security Clearance Required. Specific clearance level requirements will be individually identified at each task order level.

10.1 The minimum-security clearance required of all personnel is SECRET .

10.2 It is anticipated that some personnel will require a minimum-security clearance of TOP SECRET 10.3Clearance requirements above SECRET will be identified at the Task Order level, therefore the offeror

must be able to provide a contractor (when required at the Task Order Level) with a minimum-security clearance of TOP SECRET Eligible.

10.4 Any personnel proposed to work on any effort shall be eligible for necessary clearances to immediately begin performance at the time of task award.

10.5 SAIRC - TS/SCI will be specified at the task order level as required. Any personnel proposed to work on any effort shall be eligible for necessary clearances to immediately begin performance at the time of task award. SCI level requirements shall be handled in accordance with OPTEVFOR Instruction 4310.1 series, Operational Test and Evaluation Force Sensitive Activity and Intelligence Related Contracting Program (SAIRC).

10.6 Specific security requirements will be identified on a separate DD-254 at time of task order award. 10.7All Contractors shall also have a current TOP SECRET FACILITIES clearance at the time of proposal submission.

11 General Information

11.1 Quality Assurance Surveillance Plan. The Government will monitor the Contractor's performance to ensure compliance with contract requirements, inclusive of the terms and conditions, in accordance with Quality Assurance Surveillance Plan (QASP).

11.2 Personal Services. This is not a personal services Task Order. The contractors/sub-contractors should be well educated in respect to "personal services". No one (Government employee or military) may task the contractor to perform work that is not listed in the delivery order, nor do the contractors take direction in the performance of their task from anyone other than their corporate manager and/or prime contractor, as appropriate.

11.3 Privity Defined. The legal term that defines the relationship between two parties of a contract does not exist between the Government and the sub-contractor. Therefore, the Prime contractor is responsible for ensuring, through its own internal processes, that quality work is performed and delivered on time by any contractors or subcontractors to meet the objectives of the prime contract. Formal direction to sub-contractors flows only through the prime contractor. There can be simultaneous communication between the prime contractor and the subcontractor, but the Government and the subcontractor cannot bypass the prime contractor to communicate directly with each other.

11.4 ADP Requirements: The Government will provide, if required, the necessary computer, workstation/system access for on-site work. On-site/Off-site is stated on the contractor provided Work Authorization Memorandum (WAM) at time of task order assignment.

11.4.1 Those offerors assigned as Off-site may not be assigned government furnished ADP assets (pending availability of assets). On-Site get priority.

11.4.2 Additionally, the offerors assigned ADP GFP will be held accountable to respond to the governments ADP inventory requirements conducted semi-annually to ensure 100% accountability of all ADP assets.

11.4.3 Any offeror not adhering to this call for inventory of ADP assets may be directed to forfeit their ADP GFP at no additional cost to the government. IAW FAR 52.245-1 that pertains to Government Property and outlines the responsibilities of contractors regarding government property.

11.4.4 Any offeror shall use the Resources and References tab within each division code on the OPTEVFOR SharePoint site to procure the most up to date templates for use throughout the test and evaluation process. OPTEVFOR SharePoint site located at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR>.

11.5 Common Access Card (CAC)/Public Key Infrastructure (PKI), System Authorization Access Request (SAAR-N): All contractor personnel requiring access to Government Information Technology (IT) systems shall have an approved System Authorization Access Request Navy (SAAR-N) Form DD 2875 (May 2022) on file, and complete required Annual Information Awareness Training. New employees must submit their SAAR-N

forms upon check-in of their first day of work. SAAR-N forms are available at: <https://flankspeed.sharepoint-mil.us/sites/OPTEVFOR/SitePages/WelcomeAboard.aspx>.

11.5.1 Completed DD Form 2875, System Authorization Access Request (SAAR-N), Work Authorization Memo (WAM), and training certificates for the online training courses required for DoD network access (list provided to each Prime at task order award) shall be submitted to the Command Information Office (CIO). All forms and certificates must be submitted using the OPTEVFOR Service Desk portal at <https://optevforservicedesk.navy.mil>.

11.6 Common Access Cards (CAC) / Local Badges: Contractor CACs and facility specific identification badges will be approved using the Trusted Agent Sponsorship (TAS) system and issued by the Government to on-site contractor personnel and shall always be visible while personnel are at the Government site. CAC Card Office locator for scheduling appointments can be found at: <https://idco.dmdc.osd.mil/idco>.

11.6.1 The contractor shall furnish all government requested information required to facilitate issuance of identification badges and shall conform to all instructions/guidance required by the facility.

11.6.2 All CACs and identification badges issued to Contractor employees shall be returned to the Government Security Department at the Government site in accordance with the instructions/ guidance required by your facility following completion of the contract, relocation or termination of an employee, or upon request from the Contracting Officer's Representative.

11.6.3 The Government will provide the contractor with access to Government facilities, as required, for performance of tasks under this contract. Contractor personnel shall comply with the instructions/ guidance required by your facility. Any contractor who is awarded a contract/task order in support of OPTEVFOR will be needing a OPTEVFOR issued

security badge and is required to conduct a "Check IN" beginning at our main admin department as well as submission of a Work Authorization Memo (WAM).

11.7 Contracting Officer and Representative. Only a duly appointed Procuring Contracting Officer (PCO), and no other government personnel, is authorized to change the specifications, terms and conditions under this contract. The OPTEVFOR Contracting Officer's Representative (COR) is responsible for technical management of this contract, and will serve as the Contracting Officer's Primary Point of Contact. The COR shall oversee execution of this PWS and resolve any potential issues. The COR is responsible for: liaising with OPTEVFOR personnel and Contractor personnel on site; contractual advice, recommendations and clarification regarding the statement of work; delivery of this PWS placed under this contract; providing an independent government estimate of the effort described in the statement of work; quality assurance of services performed and acceptance of the services or deliverables; government furnished property; security requirements aboard government installations; providing the PCO or his/her designated Ordering Officer with appropriate funds for issuance of the delivery; and the certification of invoice for payment.

11.8 Authorized Changes only by the Contracting Officer

(a) Except as specified in paragraph (b) below, no order, statement, or conduct of Government personnel who visit the Contractor's facilities or in any other manner communicate with Contractor personnel during the performance of this contract shall constitute a change under the "Changes" clause of this contract.

(b) The Contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer, or is pursuant to specific authority otherwise included as a part of this contract.

(c) The Contracting Officer is the only person authorized to approve changes in any of the requirements of this contract and notwithstanding provisions contained elsewhere in this contract, the said authority remains solely with the Contracting Officer. In the event the Contractor effects any change at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract price to cover any increase in charges incurred as a result thereof. The address and telephone number of the Contracting Officer is: See Individual Task Order.

Contract Clauses

Additional Information/Notes

The following clauses were modified:

252.204-7021 Contractor Compliance with the Cybersecurity Maturity Model Certification Level Requirements. Nov 2025

hereby reads as follows:

CONTRACTOR COMPLIANCE WITH THE CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions.* As used in this clause-

"Controlled unclassified information" means information the Government creates or possesses, or information an entity creates or possesses for or on behalf of the Government, that a law, regulation, or Governmentwide policy requires or permits an agency to handle using safeguarding or dissemination controls (32 CFR 2002.4(h)).

"Current" means-

(1) With regard to Conditional Cybersecurity Maturity Model Certification (CMMC) Status-

(i) Not older than 180 days for Conditional Level 2 (Self) assessments and Conditional Level 2 (certified third-party assessment organization (C3PAO)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance by an affirming official (see 32 CFR 170.4); and

(ii) Not older than 180 days for Conditional Level 3 (Defense Industrial Base Cybersecurity Assessment Center (DIBCAC)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance by an affirming official;

(2) With regard to Final CMMC Status-

(i) Not older than 1 year for Final Level 1 (Self), with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.15); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official;

(ii) Not older than 3 years for Final Level 2 (Self) assessments and Final Level 2 (C3PAO) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(iii) Not older than 3 years for Final Level 3 (DIBCAC) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(3) With regard to affirmation of continuous compliance (32 CFR 170.22), not older than 1 year with no changes in compliance with the requirements at 32 CFR part 170.

"Cybersecurity Maturity Model Certification (CMMC) status" means the result of meeting or exceeding the minimum required score for the corresponding assessment. The potential statuses are as follows:

- (1) Final Level 1 (Self).
- (2) Conditional Level 2 (Self).
- (3) Final Level 2 (Self).
- (4) Conditional Level 2 (C3PAO).
- (5) Final Level 2 (C3PAO).
- (6) Conditional Level 3 (DIBCAC).
- (7) Final Level 3 (DIBCAC).

"Cybersecurity Maturity Model Certification unique identifier (CMMC UID)" means 10 alpha-numeric characters assigned to each CMMC assessment and reflected in the Supplier Performance Risk System (SPRS) for each contractor information system.

"Federal contract information (FCI)" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government. It does not include information provided by the Government to the public, such as on public websites, or simple transactional information, such as information necessary to process payments.

"Plan of action and milestones" means a document that identifies tasks to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones, as defined in National Institute of Standards and Technology Special Publication 800-115 (32 CFR 170.21).

(b) *Framework.* The Cybersecurity Maturity Model Certification (CMMC) is a framework for assessing a contractor's compliance with applicable information security protections (see 32 CFR part 170).

(c) *Duplication.* The CMMC assessments will not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a reassessment may be necessary, for example, when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

(d) *Requirements.* The Contractor shall-

(1)(i) Have and maintain for the duration of the contract a current CMMC status at the following CMMC level, or higher: **CMMC Level 1 (Self)** for all information systems used in performance of the contract, task order, or delivery order that process, store, or transmit FCI or CUI; and

(ii) Consult 32 CFR 170.23 related to the flowdown of the CMMC requirements, and flow down the correct CMMC level to subcontracts and other contractual instruments;

(2) Only process, store, or transmit FCI or CUI on contractor information systems that have a CMMC status at the CMMC level required in paragraph (d)(1) of this clause, or higher;

(3) Complete on an annual basis, and maintain as current, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required in paragraph (d)(1) of this clause in the Supplier Performance Risk System (SPRS) (<https://piee.eb.mil>) for each CMMC UID applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract;

(4) Ensure all subcontractors and suppliers complete prior to subcontract award, and maintain on an annual basis, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required for the subcontract or other contractual instrument for each of the subcontractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the subcontract; and

(5) If the Contractor has a CMMC Status of Conditional, successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(e) *Reporting.* The Contractor shall-

(1) Submit to the Contracting Officer-

(i) The CMMC UID(s) issued by SPRS for contractor information systems that will process, store, or transmit FCI or CUI during performance of the contract; and

(ii) Any changes in the CMMC UIDs generated in SPRS throughout the life of the contract, task order, or delivery order, if applicable;

(2) Enter into SPRS the results of a current self-assessment for each CMMC UID, not covered by a C3PAO assessment or DIBCAC assessment, applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract; and

(3) Complete in SPRS on an annual basis and maintain as current an affirmation of continuous compliance by the affirming official (see 32 CFR 170.4) for each self-assessment, C3PAO assessment, or DIBCAC assessment required under the contract in SPRS.

(f) *Subcontracts*. The Contractor shall-

(1) Insert the substance of this clause, including this paragraph (f) and excluding paragraph (e)(1), in subcontracts and other contractual instruments, including those for the acquisition of commercial products or commercial services, excluding commercially available off-the-shelf items, if the subcontract or other contractual instrument will contain a requirement to process, store, or transmit FCI or CUI; and

(2) Prior to awarding a subcontract or other contractual instrument, ensure that the subcontractor has a current CMMC certificate or current CMMC status at the CMMC level that is appropriate for the information that is being flowed down to the subcontractor based on the requirements at 32 CFR 170.23.

Addendum to Solicitation Provisions

Additional Information/Notes

The following clauses were modified:

252.204-7025 Notice of Cybersecurity Maturity Model Certification Level Requirements.
hereby reads as follows:

Nov 2025

NOTICE OF CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions.* As used in this provision, "controlled unclassified information (CUI)," "current," "Cybersecurity Maturity Model Certification (CMMC) status," "Cybersecurity Maturity Model Certification unique identifier (CMMC UID)," "Federal contract information (FCI)", and "plan of action and milestones" have the meaning given in the Defense Federal Acquisition Regulation Supplement 252.204-7021, Contractor Compliance With the Cybersecurity Maturity Model Certification Level Requirements, clause of this solicitation.

(b)(1) *Cybersecurity Maturity Model Certification (CMMC) level.* The CMMC level required by this solicitation is: **CMMC Level 1 (Self)**. This CMMC level, or higher (see 32 CFR part 170), is required prior to award for each contractor information system that will process, store, or transmit Federal contract information (FCI) or controlled unclassified information (CUI) during performance of the contract.

(2) The Offeror will not be eligible for award of a contract, task order, or delivery order resulting from this solicitation if the Offeror does not have, for each of the contractor information systems that will process, store, or transmit FCI or CUI and that will be used in performance of a contract resulting from this solicitation-

(i) The current CMMC status entered in the Supplier Performance Risk System (SPRS) (<https://piee.eb.mil>) at the CMMC level required by paragraph (b)(1) of this provision; and

(ii) A current affirmation of continuous compliance with the security requirements identified at 32 CFR part 170 in SPRS.

(c) *Plan of action and milestones.* If the Offeror has a CMMC Status of Conditional, the Offeror shall successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(d) *CMMC unique identifiers.* The Offeror shall provide, in the proposal, the CMMC unique identifier(s) (CMMC UIDs) issued by SPRS for each contractor information system that will process, store, or transmit FCI or CUI during performance of a contract, task order, or delivery order resulting from this solicitation. The Offeror also shall update the list when new CMMC UIDs are generated in SPRS. The CMMC UIDs are provided in SPRS after the Offeror enters the results of self-assessment(s) for each such information system.

(End of provision)
