

LIMITED SOURCES DOCUMENTATION (MAR 2021)

Required for Limited Source Acquisitions Over \$10,000 but not Exceeding \$250,000

Acquisitions that do not allow for competition to the maximum extent practicable must be documented in accordance with Federal Acquisition Regulations (FAR) [13.106-3\(b\)](#) for open market purchase orders or FAR [8.405-6\(b\)\(2\)](#) for Federal Supply Schedule (GSA) orders. Limited source documentation is required in the following circumstances: (1) when soliciting fewer than the minimum number of sources (*at least three sources*) required by FAR [13.104\(b\)](#), [8.405-1\(c\)](#), or [8.405-2\(c\)\(2\)](#), whichever is applicable; and (2) when using brand name only specifications.

This template may be used for the documentation described in FAR [8.405-6\(b\)\(2\)\(i\)](#) or [13.106-1\(b\)\(1\)](#). The customer shall provide the following information:

Purchase Request Number:
D-26-DA-0030

Estimated Amount (inclusive of options):
\$ [REDACTED]

Delivery Date or Period of Performance:
04/05/2026 TO 12/31/26

Brand Name Only Description:
☐ YES ☒ NO

Recurring Requirement:
☒ YES ☐ NO

FSS Contract Number (if applicable):

Brief description of supplies or services required and the intended use:

Preventative maintenance includes labor and parts on Delta Scientific Corp Barrier Control Model RCP-2, Barrier Model #TW2015, High Security Hydraulic Gate Open Model #222EX, and maintenance of Guard House/Shack at the entry of the Dallas Field Division. Guard Shack is currently under new project for replacement.

Unique characteristics that limit availability to only one source, and any justification that no other supplies or services can be used or that urgent and compelling circumstances exist – include all critical delivery or performance dates and impact to the government if dates are not met:

This vendor is the original installer of the security barrier equipment, and has provided all the required services & maintenance for the system since 2001 installation. Vendor continues to provide excellent quality of service for the life cycle of the security barrier system, and has the knowledge & capability to conduct repairs quickly, effectively, and efficiently. Changing vendors could disrupt the functional capabilities of the equipment, and timely repairs due to lack of knowledge of the equipment on site, prior service & repairs, and ability to resolve equipment failures.

Describe in detail any market research conducted. Include results and state whether any vendors expressed interest:

Attempts to locate another local service vendor for our existing equipment have failed. They only provide bid for new equipment orders and installations. Our Division Security officer is working with Facility/Security on having our existing system replaced /updated this year as it is over twenty years old, out-dated technology, need for upgrades to guard shack building, and parts are getting more difficult & expensive to obtain. Requests were sent to multiple companies by current DSO and none other than Anchor Group returned call, quote, etc. No responses from other companies at all.

The Contracting Officer hereby certifies that:

- A. Only one source is reasonably available;
- B. An order for the supplies or services will not be placed unless the price is determined to be fair and reasonable; and
- C. If brand name specifications are used for the basis of this determination and the acquisition exceeds \$25,000, this Limited Source Documentation will be made available together with the solicitation and (i) posted on the Governmentwide Point of Entry ([Contract Opportunities on beta.SAM.gov](#)) in accordance with FAR [5.102\(a\)\(6\)](#), posted on [GSA eBuy](#) in accordance with [FAR 8.405-6\(b\)\(3\)\(A\)](#), or posted on the [NASA SEWP V](#) Quote Request Tool pursuant to [40 U.S.C. 11302\(e\)](#).
