

Questions and Answers: Large A&E Services, FA469026RA-E

1. On paragraph 1, in the statement “Title I Design services may be required for programming, comprehensive planning, area development design of new facilities; or the renovation, repair, and maintenance of residential, commercial, and Industrial facilities; Including road/bridges, infrastructure, utilities, corrosion control, and environmental restoration”, does “environmental restoration” refer to ancillary environmental restoration work associated with facilities and infrastructure Title I services (e.g. asbestos, lead-based paint, or other HAZMAT abatement), or does Ellsworth anticipate using this IDIQ for standalone Title I services in environmental restoration (e.g. wetlands restoration or groundwater remediation)?
 - a. Both. It does refer to ancillary environmental restoration work (Asbestos, lead-based paint, or other HAZMAT abatement). We also have used our A&E contracts in the past to conduct wetland delineation and wetland mitigation plans.
