Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

NOTE: If a Justification was approved for the preceding acquisition, a copy of the approved Justification for the predecessor action must be included in the staff package for approval of the instant Justification. This applies to Justification staff packages that are submitted for review and approval at a level above the contracting officer. The predecessor Justification will be used as a reference document by the approving official.

Is this a new or amended J&A Document? ☒ New ☐ Amended (Prior to Award Only!)

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Funding level for this acquisition: ☒ >SAT and ≤ \$750K ☐ > \$750K and ≤ \$15M

Contracting Activity: AFSC/PZIMC

Purchase Request / Local ID Number: F3YCEB6068A101

Program / Project (and PE, if applicable): Serv P26-046 ET Cold Spray Smart Spec

Program Type (PEO or Other Contracting): Other Contracting

Authority: ☒ RFO FAR 12.201-1, 10 U.S.C. 3572, Implementation of Simplified Acquisition Procedures (41 U.S.C. 1901)

☐ RFO FAR 12.201-1, 10 U.S.C. 3403, Special Emergency Procurement Authority (41 U.S.C. 1903)

Estimated Contract Cost (including options): \$747.375.24

Justification Type: ☐ Class ☒ Individual

Date 13 Mar 2026	Project Lead / Program Mgr / Requiring Activity [Redacted]	Signature [Redacted]
Date 24 Mar 2026	Contracting Officer [Redacted]	Signature A7811 JENNIFER LYNN [Redacted] [Redacted]

Date	Chief of the Contracting Office (COCO) [Official Signature Block]	Signature
------	--	-----------

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

I. Contracting Activity.

Air Force Material Command, Maintenance Contracting Branch (AFSC/PZIMC), Road A, Bldg 3705, Tinker AFB, OK 73145

II. Nature and/or description of the action being processed.

This individual Justification and Approval (J&A) authorizes use of other than full and open competition procedures to obtain a firm-fixed price contract for continued performance of services under a one-year basic and 2 one-year options under RFO FAR 52.217-9. The contemplated contract with ReliaCoat Technologies, LLC. Commercial and Government Entity (CAGE) code 541380 is for Training, SMART Spec [REDACTED]/SMART Spec [REDACTED] Testing on the ICP-8 and ICP-9 sensors under Federal Supply Code (FSC U099). ReliaCoat Technologies, LLC. is the original equipment manufacturer (OEM) for the ICP-8 and ICP-9 sensors. The estimated total value for this award is [REDACTED]

III. Description of supplies/services required to meet agency needs.

Requested Services: 76 PMXG request a three (3) year contract. One (1) Base Year with two (2) Option Years to execute [REDACTED] program [REDACTED] to improve spray dynamics, train operators, [REDACTED] new spray parameters, and [REDACTED] of ICP-8 and ICP-9 sensors coupons ISO 76 PMXG Cold Spray efforts.

The Contractor shall assist with the following:

- [REDACTED] SMART Spec for existing thermal spray coating as a [REDACTED] for [REDACTED] SMART Spec into Cold Spray and all other thermal spray technologies. The SMART Spec technologies provide insight into the repair efficacy and spray performance before and during repair application.
- [REDACTED] of SMART Spec [REDACTED] shop through training, [REDACTED] testing efforts, and [REDACTED] for characterizing powder/substrate combinations through the use of [REDACTED] measurement.
- [REDACTED] for repair technique selection through the use of [REDACTED] measurement.

Thermal Spray SMART Specification:

- Task I:** Obtain [REDACTED] from OC-ALC and identify suitable analytics and [REDACTED] approaches for SMART spec. [REDACTED]
- Task II:** Establish [REDACTED] component specifications via on-site meetings with OC-ALC
- Task III:** Set-up and integration of tools for [REDACTED] collection on specifications of interest at OC-ALC
- Task IV:** [REDACTED] of manufacturing processes of interest using advanced diagnostic sensors alongside traditional QA/QC tools
- Task V:** Establish linkage between in booth diagnostics and QA/QV lab outcomes
- Task VI:** [REDACTED] SMART specification using information gained through previous tasks
- Task VII:** Demonstration of process control through SMART specification

Cold Spray Repair Efficacy:

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

Task I: Selection of [REDACTED] application and coating material for aero component repair and dimensional restoration

Task II: Investigation of process parametric changes (gas types, pressure/temperature, feedstock, spray distance, robot raster speed, substrate roughness conditions etc.) and establish 1st and 2nd order process map. Various substrate materials (including but not limited to [REDACTED]) will be considered for cold spray coating deposition.

Task III: [REDACTED] stress evolution assessment through ICP sensor with additional in-booth measurements (IR camera, pyrometer for part temperature).

Task IV: Coating mechanical property assessment of adhesion (ASTM C633), stiffness through impulse excitation, microstructure, indentation stress strain, thermal conductivity etc. of cold spray coatings

Task V: DIC-integrated coated dog-bone tensile testing of selected parameters to assess efficacy of repair and understand the strength and deformation aspects

Task VI: Integrate information generated above to provide both methodologies for optimization and ability to monitor in the booth for [REDACTED] reliability and manufacturing assurance.

Task VII: With various coating property assessments, contractors shall establish and recommend optimum process conditions for specific application needs including repair for cosmetic, dimensional restoration, structural stabilization, load recovery. This recommendation will be finalized into cold spray SMART specifications.

IV. Statutory authority permitting other than full and open competition.

The authority for this action is 41 U.S.C 1901, as implemented by RFO FAR 12.201-1.

V. Demonstration that the contractor's unique qualifications or nature of the acquisition requires the use of the authority cited above (applicability of authority).

OBCA reached out to original equipment manufacturer (OEM) ReliaCoat Technologies LLC and verified with [REDACTED] that ReliaCoat Technologies LLC is the OEM of the ICP-8 and ICP-9 sensors. ReliaCoat Technologies does not authorize any third-party service providers to provide Training, SMART Spec Pilot/ Development and Coupon Testings on the ICP-8 and ICP-9 sensors. ReliaCoat only authorizes these services by trained ReliaCoat Technologies' engineers. ReliaCoat Technologies, LLC is open to sell data rights to the Government for limited/restricted to the Government activities and purposes and only used within Government agencies.

VI. Description of efforts made to ensure that offers are solicited from as many potential sources as practicable.

ReliaCoat Technologies LLC is the sole source and only company who will be able to bid on this requirement. This office will reach out to the customer in the future to see if purchasing the data rights would be beneficial to the Government, as well as contact ReliaCoat to see if any third-party service providers have been authorized.

VII. Determination by the Contracting Officer that the anticipated cost to the Government will be fair and reasonable.

The contracting activity (AFSC/PZIMC Tinker) will be required to make an individual determination of price fair and reasonableness in accordance with RFO FAR 12.204. Some of the methods which may be used (where applicable) will be market research, comparison of the proposed price with prices found reasonable

Sole Source (Including Brand Name) Justification - Simplified Procedures for Certain Commercial Items

on previous purchases, current price lists, catalogs or advertisements, comparison with similar items in a related industry, and comparison to an independent Government estimate. Other than certified cost or pricing data can be requested from the contractor and used for justification.

VIII. Description of the market research conducted and the results, or a statement of the reasons market research was not conducted.

Market research was performed reviewing System for Award Management (SAM) databases using North American Industry Classification System (NAICS) Code (541380) looking for companies that could provide requirement name under Federal Supply Code (U099).

After verification from the OEM, no other market research was necessary.

In review, there is one (1) source that can provide this service for this acquisition.

IX. Any other facts supporting the use of Other Than Full and Open Competition.

N/A

X. List of any sources that expressed, in writing, an interest in the acquisition.

ReliaCoat Technologies LLC

Address: 35 Orville Dr., STE 1, Bohemia, NY 11716

POC: [REDACTED]

Phone number: [REDACTED]

CAGE code: 5L4D4

Type Business: Small Business

XI. A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before making subsequent acquisitions for the supplies or services required.

In an effort to identify and remove barriers to competition, the Government will continue to monitor the marketplace for source development and continue discussions with the OEM regarding additional approved sources. The Government will synopsise the requirement and attempt to acquire the data usage rights necessary to qualify additional sources or perform the services organically.

XII. Certification by the Contracting Officer.

As evidenced by my signature above, I have determined this document to be both accurate and complete to the best of my knowledge and belief.

XIII. Certification by the technical/requirements personnel.

As evidenced by my (our) signature(s) above, I (we) certify that any supporting data contained herein, which is my (our) responsibility, is both accurate and complete.
