- (f) The contractor is required to ensure the schedule is submitted to the project team in order to integrate with existing project schedule and mitigate risks due to space/location constraints to avoid work stoppages.

C-3.0 IDENTIFICATION OF CONDITION FOUND: In accordance with the requirements of NSI 009-01, the Contractor shall identify needed repairs and recommend corrective action during contract performance for work/deficiencies discovered which are not covered by the existing work package. For conditions that impact the critical path(s) /controlling item(s), the Contractor shall notify the Government via electronic media within 24-hours of discovery. This initial notification need not include all content required for a Condition Found Report (CFR), but must include a description of the condition/deficiency and an estimated timeframe for the offeror's professional recommendation for resolution, which shall not exceed five (5) working days as specified below. Recommended repairs and corrective actions shall be submitted to the Government in the form of a CFR (intended to represent the "Work Request" described in DFARS 252.217-7028 "Over and Above Work").

C-3.1 Condition Found Notification to Government: Submit CFRs within five (5) working days via hard copy or approved electronic media to SRF-JRMC after discovery of the condition. At a minimum, the CFR must include the following:

- (1) Identify contract, ship, and hull number
- (2) Identification of the applicable Work Item number
- (3) Date requirement was discovered
- (4) Description of the work requirement
- (5) Specific location of the work
- (6) Recommendation for corrective action
- (7) Recommendation for the appropriate/best time to accomplish the work (i.e. during current availability with or without schedule change, future CNO or Continuous Maintenance Availability). Provide supporting rationale for the recommendation, such as cost efficiencies, availability of work force, availability of material, premium expenditures, etc.
- (8) Identification of related changes, if any, to the internal milestones and production and contract completion dates.

C-3.2 Government Review and Response to CFR: The Maintenance Team will review the CFR. If the CFR is inadequate or incomplete, it will be rejected with time continuing to accrue (relative to five (5) working day requirement). As appropriate, the Government and contractor shall meet and discuss the recommendation for corrective action further, conducting ship checks as necessary, to determine the full scope of work required prior to final approval of the CFR. Accuracy of CFR submissions may be evaluated in CPARS and utilized for past performance ratings on future requirements.

C-4.0 DESCOPE OF REQUIREMENTS: The Government reserves the right to descope any requirement under this contract at any time and for any reason. Descopes are incorporated into the contract via Deficiency List (DLs) and can either be a partial deletion of paragraph(s) from the work specification or deletion of a work item in its entirety. The Government will rely on the fully burdened labor rates entered in settled in the basic award for negotiating and settling descope DLs. At no time may the Contractor amend its pricing for full or partial work deletion.

C-4.1 Descope DLs: The Contractor agrees to price descope DLs at the same labor rate proposed in the original award. Partial or full work item deletion from the original work item or TGI will be processed via the usual contract modification process.

C-4.2 Minimum Technically Required (MTR) repairs deletion: MTR refers to the anticipated repairs that could not be clearly defined at the start of availability but were included in the TGI (based upon historical analysis published by Commander Navy Regional Maintenance Center and NAVSEA Contracting) to enable the Contractor to proceed with the work efficiently, if necessary. In certain instances where the ship's condition were found satisfactory after a thorough inspection, these MTR repair are cancelled and descope before the end of the availability. As a result of the deletion of work, the Contractor is expected to return the awarded costs in full. The Contractor must be able to demonstrate production cost and provide justification of work incurred to the Administrative Contracting Officer if the proposing cost different from the awarded amounts. Program management, idle time not worked and other indirect costs will not be considered.

C-5.0 DELAYS / DISRUPTIONS: The Contractor shall coordinate the work effort with SRF-JRMC Project Manager on a daily basis to prevent changing situations from causing delays and disruptions. Disruption due to minor delays in obtaining access to spaces and operation of equipment are to be expected. A minor delay is defined as eight clock (8) hours or less in duration (and is not the cumulative effect of labor hour impact). Minor delays and/or disruptions are considered normal rather than unusual occurrences during the performance of tasks ordered under the resulting contract. The Government will not provide any schedule relief for minor delays/disruptions.

C-6.0 NON-NAVY OWNED CRANES:

Sections 11.1 and 11.2 of NAVSUPFLCYINST 4200.9 series are invoked for the incidental use of non- Navy owned cranes at Navy shore installations.

NAVSUP FLCY STANDARD CONTRACT TEXT "NON-NAVY OWNED CRANES"

CONTRACTOR AND OTHER NON-NAVY OWNED WEIGHT HANDLING EQUIPMENT

11.1 Contractor Operated Cranes (and Multi-Purpose Machines, Materials Handling Equipment (MHE) and Construction Equipment When Used as

Cranes to Lift Suspended Loads) and Rigging Equipment. Non-Navy-owned

cranes, multi-purpose machines, MHE and construction equipment are frequently used on Navy property to lift suspended loads. Rigging equipment may be used with these machines or by itself in contractor weight handling operations. These cranes and equipment can be from a variety of sources and are generally incidental to construction contracts, ship repair contracts, demolition contracts, maintenance and other service contracts and deliveries of supplies and equipment. Numerous organizations, including tenant activities, ships, supply departments and Facilities engineering and Acquisition Division/Resident Office in Charge of Construction (FEAD/ROICCs) have contracting authority and often the need for cranes is not anticipated when contract documents are written. The following requirements apply to any contracted work utilizing non-Navy-owned cranes (and multi-purpose machines, MHE and construction equipment used to lift loads suspended by rigging gear) and to all rigging equipment used in weight handling operations at a naval activity. These requirements do not apply to shipboard cranes or rigging equipment. These requirements also do not apply to: commercial truck mounted and articulating boom cranes used solely to deliver material and supplies where the lift consists of moving materials and supplies (not prefabricated components, structural steel or components of a systems-engineered metal building) from a truck or trailer to the ground; to cranes installed on mechanic's trucks that are utilized solely in the repair of shore-based equipment; to cranes that enter the activity but are not used for lifting; nor other machines not used to lift loads suspended by rigging equipment. The Public Works Office (PRY33) is responsible for the oversight of all contractor cranes on bases within Commander, Fleet Activities Yokosuka in accordance with COMFEACTINST 11262.1B series. However, any Weight Handling Equipment (WHE) or crane accidents shall be reported in accordance with paragraphs 11.1.h and 11.1.i:

a. The contractor is required to comply with specific activity regulations pertaining to crane safety and operation (including allowable access routes and ground loading limitations) and to notify the PRY33 office, in advance, of any cranes entering the activity or of any multi-purpose machines, MHE or construction equipment that may be used in a crane-like application to lift suspended loads. For contractor-owned cranes, machines and rigging equipment at naval activities in foreign countries, the contractor-owned cranes, standards. For floating cranes and barge mounted mobile cranes, require a third party certification from an Occupational Safety and Health Administration (OSHA) accredited organization (or a third party certification from a state accredited organization for those states with OSHA approved state plans), a load indicating device, a wind speed indicating device and a marine type list and trim indicator readable in one-half degree increments. Third party certification is not required for floating cranes and barge-mounted mobile cranes at Navy activities in foreign countries.

b. For cranes (or other machines used to lift suspended loads) and rigging equipment at naval activities in foreign countries, the contractor shall certify that the crane (or other machine) and the rigging equipment conform to the appropriate host nation safety standards. The contractor shall also certify that all of its crane (or other machine) safety devices are enabled and functioning properly, that all personnel working on the naval activity job site have been trained to not stand under or in the fall zone of a suspended load unless specifically allowed by USACE EM 385-1-1, and that operators have been trained to not bypass safety devices (e.g., anti-two block devices, Load Moment Indicator's) during lifting operations. The contractor-owned crane certifications is required to be available on the crane or in the contractor's on-site office for rigging operations.

c. The contractor-owned mobile cranes, commercial truck mounted cranes and articulating boom cranes with Original Equipment Manufacturer (OEM) rated capacities of greater than 2000 pounds, require that the crane operator be designated as qualified by a source that qualifies crane operators (i.e., a union, a government agency or an organization that tests and qualifies crane operators). Proof of current qualification shall be provided to PRY33. Operators of cranes used in construction at activities under US jurisdiction shall follow the qualification and certification requirements of 29 CFR 1926.1427. For Navy activities in foreign countries, follow host nation requirements as applicable in lieu of the CFR.

d. The contractor is required to certify (appendix P, figure P-1) that the crane operator is qualified and trained for the operation of the crane or machine to be used.

For multi-purpose machines, MHE and construction equipment used to lift loads suspended by rigging equipment, the contractor is required to provide proof of authorization from the machine OEM that the machine is capable of making lifts of loads suspended by rigging equipment. Written approval from a qualified registered professional engineer, after a safety analysis is performed, is allowed in lieu of the OEM's approval. The contractor is required to demonstrate that the equipment is properly configured to make such lifts and is equipped with a load chart.

Note: MHE attachments covered by and used in accordance with NAVSEA SW023-AHWHM-010 have been pre-approved for use with all MHE. These attachments are exempt from the OEM authorization requirement above.

e. The The contractor is required to provide all hooks used on cranes, hoists, other machines and rigging gear shall have self-closing latches or the throat opening shall be "moused" (secured with wire, rope, heavy tape, etc.) or otherwise secured to prevent the attached item from coming free of the hook under a slack condition. The following exceptions apply and shall be approved by the contractor's technical organization (i.e., the Japan Construction Information Center Foundation) with PRY33 coordination: items where the hook throat is fully obstructed and not available for manual securing; and lifts where securing the hook throat increases the danger to personnel, such as forge shop, dip tank or underwater work.

f. The contractor is required to have a critical lift plan for each of the following lifts: lifts over 75 percent of the capacity of the crane, hoist or other machine (lifts over 50 percent of the capacity of a barge-mounted mobile crane's hoists) at any radius of lift; lifts involving more than one crane, hoist or other machine; lifts of personnel (lifts of personnel suspended by rigging equipment from multi-purpose machines, MHE or construction equipment shall not be permitted); lifts made in the vicinity of overhead power lines (see subparagraph (7)); erection of cranes; lifts of submerged or partially submerged objects (see exceptions in paragraph 10.4.1.e); lifts involving binding conditions; lifts of hazardous materials (see exceptions in paragraph 10.4.1.a); and lifts involving non-routine rigging or operation, sensitive equipment or unusual safety risks. The plan shall include the following as applicable:

- (1) The size and weight of the load to be lifted, including crane (or other machine) equipment and rigging equipment that add to the weight. The OEM's maximum load capacities for the entire range of the lift shall also be provided.
- (2) The lift geometry, including the crane (or other machine) position, boom length and angle, height of lift and radius for the entire range of the lift. Applies to both single and multiple-crane/machine lifts.
- (3) A rigging plan, showing the lift points, rigging equipment and rigging procedures.
- (4) The environmental conditions under which lift operations are to be stopped.

- (5) For lifts of personnel, the plan shall demonstrate compliance with the requirements of 29 CFR 1926.1431. For Navy activities in foreign countries follow host nation requirements as applicable in lieu of the CFR.
- (6) For barge mounted mobile cranes, barge stability calculations identifying crane placement/footprint; barge list and trim based on anticipated loading; and load charts based on calculated list and trim specific to the barge the crane is mounted on. The amount of list and trim shall be within the crane OEM's requirements.
- (7) For lifts in the vicinity of overhead power lines (i.e., if any part of the crane or other machine, including the fully extended boom of a telescoping boom crane or machine or the load could approach the distances noted in figure 10-3 during a proposed operation), the plan shall demonstrate compliance with 29 CFR 1926.1408-1411. For Navy activities in foreign countries follow host nation requirements as applicable in lieu of the CFR.

g. The contractor shall notify the PRY33 office as soon as practical, but not later than four hours, after any WHE accident is identified in NAVFAC P-307 section 12. The contractor is required to secure the accident site and protect evidence until released by the PRY33 office. The contractor shall conduct an investigation to establish the root cause(s) of any WHE accident, near miss or unplanned occurrence. Crane operations shall not proceed until the cause is determined and corrective actions have been implemented to the satisfaction of PRY33 office and/or the contracting officer. The contractor shall certify (appendix P, figure P-1) that the operators, riggers and company officials are aware of the actions required in the event of an accident as specified in the contract.

h. The contractor shall provide a report for an accident or near miss within 30 days to the BSV&E office and the contracting officer using the appropriate form provided in section 12 consisting of a summary of circumstances, an explanation of causes(s), photographs (if available) and corrective actions taken. These notifications and reporting requirements are in addition to those promulgated by OPNAVINST 5100.23 and related command instructions.

i. The contractor shall certify (appendix P, figure P-1) that signal persons employed in construction work are qualified in accordance with 29 CFR 1926.1428. For Navy activities in foreign countries follow host nation requirements as applicable in lieu of the CFR.

j. The contractor shall certify (appendix P, figure P-1) that signal persons employed in construction work are qualified in accordance with 29 CFR 1926.1428. For Navy activities in foreign countries follow host nation requirements as applicable in lieu of the CFR.

k. The following additional documentation is required for contracts involving tower cranes:

- (1) Foundation design and requirements.
- (2) Installation instructions.
- (3) Assembly and disassembly instructions including climbing/jumping instructions if applicable.
- (4) Operating manual, limitations and precautions.
- (5) Periodic inspection and maintenance requirements. For tower cranes at Navy activities in foreign countries, the tower cranes shall comply with the appropriate host nation safety standards and industry consensus safety standards (e.g., EN or ISO standards).

l. The following additional requirements apply to contracts involving work on telecommunication towers or with personnel hoists on telecommunication towers:

- (1) Base mounted drum hoists used in communication tower work shall comply with TIA- 1019, TIA- 222G, ASME B30.7 and 29 CFR 1926.552 and 29 CFR 1926.553. For Navy activities in foreign countries follow host nation requirements as applicable in lieu of the CFR.
- (2) When used for hoisting personnel, base mounted drum hoists shall comply with OSHA Instruction CPL 02- 01-056; National Association of Tower Erectors standard "Base Mounted Hoist Mechanism Design Use Standard for Lifting Personnel While Working on Telecommunication Structures"; ANSI/ASSE A10.22; and AMSE B30.23 (or equivalent host nation safety standards for Navy activities in foreign countries).
- (3) The use of a pickup truck or any other equipment besides a base mounted drum hoist for hoisting materials and/or personnel is prohibited.
- (4) Rough-terrain forklifts, bulldozers and similar equipment may be utilized for towing and anchorage purposes of guys. The use of such equipment for trolley/tag and load lines is prohibited, with the exception of using construction equipment for the sole purpose of anchorage that will not be moved during operations.
- (5) Rigging gear utilized in communication tower work shall comply with the applicable ASME/OSHA standards. Operator, signal person and rigger qualifications shall be in accordance with OSHA standards and this section. For Navy activities in foreign countries, follow host nation requirements as applicable in lieu of the CFR or ASME standards.

m. For construction contracts, follow the Unified Facilities Guide Specification UFGS-01 35 26 and U.S. Army Corps of Engineers EM-385-1-1 in lieu of paragraphs 11.1.a through 11.1.g, 11.1.j through 11.1.m and appendix P, figures P-1 and P-2.

11.2 Contracting Officer Responsibilities

a. The contracting officer will rely on PRY33 office technical expertise for oversight of all contractor-owned crane and rigging operations. Additionally, the PRY33 office to provide oversight of contractor accident investigations and corrective actions. The degree of oversight shall be based upon the risk to personnel and property; however, oversight shall be performed at least once and the minimum periodicity shall be not more than every 30 days. When critical lifts are involved, oversight periodicity shall be not more than every 14 days. Appendix P, figure P-2, provides a checklist that shall be used during oversight of contractor crane and rigging operations. Copies of appendix P, figure P-2, shall be kept on file for one year. Personnel performing oversight shall complete the Contractor Crane Awareness training course (see section 7) or the NAVFAC 40-hr Contract Hazard Awareness Training Course.

b. The PRY33 office will notify the contracting officer via email of any WHE or crane accident upon notification by the contractor. Additionally, the PRY33 office will consolidate the required documents and reports for the contracting officer concurrence and submission to the Navy Crane Center. For all other accidents, notify the Navy Crane Center as soon as practical but no later than three working days after the accident.

c. The PRY33 office will provide the contracting officer a copy of every accident and near miss report, regardless of severity, upon receipt from the contractor. These requirements are in addition to any notification and reporting requirements promulgated in OPNAVINST 5100.23 and command instructions. Upon receipt of required documents from the PRY33 office, the contracting officer shall sign all crane and rigging accident and near miss reports to indicate that they are satisfied that the contractor's investigation and corrective action are sufficient.

d. For construction contracts, the forms in U.S. Army Corps of Engineers EM-385-1-1 are acceptable in lieu of paragraph appendix P, figure P-2.

11.3 Host Activity Responsibilities. The host activity shall ensure that contracts contain the above requirements, concur with the contracting officer's oversight plan, ensure that the oversight plan is being carried out and provide oversight of contractor accident and near miss investigations and corrective actions.

Any rented or leased cranes shall be inspected, load tested and certified to the requirements of section 4 prior to use (except for appendix E hook NDT requirements). Other WHE shall be inspected, tested and marked in accordance with section 14 requirements. For third party certified mobile cranes that cannot be load tested to the specified overload tests of this publication due to OEM restrictions or designs that prevent periodic overload tests, the cranes shall be down rated to 90 percent of the OEM's rated capacity (80 percent for non-mobile cranes) and tested to the requirements of this publication. For long term-leases (over 4 months) and for BOS contractor owned cranes, the maintenance and inspection requirements of section 3 and appendix E hook NDT requirements shall also apply. Additionally, an equipment history file in accordance with section 5, containing those documents required by sections 3 and 4 and their applicable appendices, shall be maintained on each crane. These history files shall be retained for one year after the end of the lease (seven years if the crane is involved in a crane or rigging accident). These requirements shall be included in applicable contracts. See paragraph 4.8 for third party certification requirements. Crane operators shall be licensed/qualified in accordance with the requirements of section 8 (this includes BOS contractor personnel). Crane operations and accident reporting shall be in accordance with sections 9, 10, and 12 (BOS contractor crane and rigging accidents shall be treated and reported as Navy crane and rigging accidents). Rigging equipment and usage practices shall be in accordance with section 14.

C-7.0 The following NAVSUP local text is hereby made part of the statement of work/performance work statement:

CONTRACTOR UNCLASSIFIED ACCESS TO FEDERALLY CONTROLLED FACILITIES, SENSITIVE INFORMATION, INFORMATION TECHNOLOGY (IT) SYSTEMS OR PROTECTED HEALTH INFORMATION

Executive Order 13467, Reforming Processes Related to Suitability for Government Employee, Fitness for Contractor Employees and Eligibility for Access to Classified National Security Information, Homeland Security Presidential Directive (HSPD)-12, requires government agencies to develop and implement Federal security standards for Federal employees and contractors. The 5 CFR 32 Part 157 in concert with DoD Manual 1000.13, Vol 1, implements the Federal Standards.

APPLICABILITY

This text applies to all DoD sponsored individuals who require CAC eligibility (or login and P/W if acceptable per contract) for: Physical access to DoD facilities or non-DoD facilities on behalf of DoD; Logical access to information systems (whether on site or remotely); or remote access to DoD networks that use only the CAC logon for user authentication, or access to sensitive and protected information. This applies to the Office of the Secretary of Defense, the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant Commands, the Office of the Inspector General of the DoD, the Defense Agencies, the DoD Field Activities and all other organizational entities within the DoD (hereinafter referred to collectively as the "DoD Components").

Each contractor employee providing services at a Navy Command under this contract is required to obtain a Department of Defense Common Access Card (DoD CAC). Additionally, depending on the level of computer/network access, the contract employee will require a successful investigation as detailed below.

ACCESS TO FEDERAL FACILITIES

Definition. As used in this clause - Military installation means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department, or, in the case of an activity in a foreign country, under the operational control of the Secretary of a military department or the Secretary of Defense (see 10 U.S.C. 2801(c)(4)).

Per HSPD-12 and implementing guidance, all contractor employees working at a federally controlled base, facility or activity under this clause will require a DoD CAC. When access to a base, facility or activity is required contractor employees shall in-process with the Command's Security Manager upon arrival to the Command and shall out-process prior to their departure at the completion of the individual's performance under the contract.

Training. Contractor employees who require routine physical access to a Federally controlled facility or military installation shall complete "Level I Antiterrorism Awareness Training" prior to gaining access to a facility and annually thereafter in accordance with DoDI O-2000.16 Vol. 1. In accordance with Department of Defense Instruction O-2000.16 Volume 1, DoD Antiterrorism (AT) Program Implementation: DoD AT Standards, Level I Antiterrorism Awareness Training shall be completed by:

1. Completion of "Level I Antiterrorism Awareness Training" available at <https://jkodirect.jten.mil/pdf/at1/launch.html>; or
2. Under the instruction of a qualified Level I Antiterrorism Awareness instructor; or
3. By providing a training certificate for "Level I Antiterrorism Awareness Training" training showing completion within the last calendar year.

The contractor will submit certificates of completion for each affected contractor employee and subcontractor employee to the COR or to the contracting officer, if a COR is not assigned, prior to being granted access to a Federally controlled facility or military installation.

Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (d), in subcontracts, including subcontracts for commercial items, when subcontractor performance requires routine physical access to a Federally-controlled facility or military installation.

OPERATION SECURITY (OPSEC)

It is DoD policy according to DoD Directive 5205.02E, "DoD Operations Security (OPSEC) Program," June 20, 2012, as amended to establish and maintain OPSEC programs to ensure national security-related missions and functions are protected.

Training: Contractor employees shall comply with all DoD OPSEC requirements and complete "OPSEC Awareness for Military Members, DoD Employees and Contractor" training within 30 days of onboarding the contract and annual refresher training thereafter. Training shall be completed through a DoD sponsored and certified computer or web-based learning instruction available at <https://securityawareness.usalearning.gov/opsec/index.htm>.

The contractor will submit certificates of completion for each affected contractor employee and subcontractor employee to the COR or to the contracting officer, if a COR is not assigned, within 30 calendar days after training is completed by all employees and subcontractor personnel.

START-UP PERIOD

All contractor resource onboarding documents must be submitted via the prime contractor. The prime contractor shall make all necessary preparations to assume full responsibility for productive performance of the performance start date.

Definition of "productive":

- a. OF-306 signed by contractor employee
- b. FD-258 Fingerprint Card (Contingent upon availability of electronic fingerprinting submission)
- c. Completed EQIP (Electronic Investigation)
- d. All contractor employees with need for a Common Access Card (CAC) must have an active Defense Information System for Security (DISS) profile
- e. Common Access Card (CAC)
- f. DISS Visit Request submitted (Contingent upon classification of work being performed, Confidential, Secret, Top Secret)

Note (1): Invoicing by the contractor will begin as of the commencement of the performance period of services and no reimbursement will be paid by the government for efforts expended during the start-up period.

Note (2): Foreign Nationals are not allowed access to the functional/system side of Enterprise Resource Planning (ERP).

ACCESS TO DOD INFORMATION TECHNOLOGY (IT) SYSTEMS

In accordance with DON CIO Memorandum (IT LEVEL DESIGNATION ON DD FORM 2875 SYSTEM AUTHORIZATION ACCESS REQUEST) 08 September 2020, contractor employees who require access to Department of the Navy (DoN) or DoD networks are categorized as Privileged, Enhanced, or Authorized users. All user level accesses may include positions which require access to Controlled Unclassified Information (CUI). CUI includes sensitive information protected under the Privacy Act, to include Protected Health Information (PHI). IT System levels are determined by the requiring activity's Command Information System Security Manager (ISSM)/Information Assurance Manager (IAM).

Contractor employees requiring privileged access, (when specified by the terms of the contract) require a Tier 5 (T5) or T5R equivalent investigation, which is a higher level investigation than the Tier 3 (T3) and T3R described below. Due to the privileged system access, an investigation suitable for High Risk national security positions is required. Individuals who have access to system control, monitoring, or administration functions (e.g. system administrator, database administrator) require training and certification to Information Assurance (IA) Technical Level 1, and must be trained and certified on the Operating System or Computing Environment they are required to maintain.

Contractors requiring Enhanced access, (when specified by the terms of the contract) require a T3, T3R, or equivalent investigation, which is a higher level investigation than the Tier 1 (T1) described below. Due to the enhanced system access, an investigation suitable for Moderate Risk national security positions is required.

Access to sensitive IT systems is contingent upon a favorably adjudicated background investigation. When access to IT systems is required for performance of the contractor employee's duties, such employees shall in-process with the Navy Command's CSM and ISSM/IAM upon arrival to the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy Information Technology resources. The decision to authorize access to a government IT system/network is inherently governmental. The contractor supervisor is not authorized to sign the SAAR-N; therefore, the government employee with knowledge of the system/network access required or the COR shall sign the SAAR-N as the "supervisor".

The SAAR-N shall be forwarded to the CSM upon contractor employee acquiring a Common Access Card (CAC) credential. Failure to obtain a CAC credential may result in delaying the individual's start date.

When required to maintain access to required IT systems or networks, the contractor shall ensure that all contractor employees requiring access complete annual Cyber Awareness training, and maintain a current requisite background investigation. The Contractor's Security Representative shall contact the Command

Security Manager for guidance when reinvestigations are required.

INTERIM ACCESS

The Command's Security Manager may authorize issuance of a DoD CAC and interim access to a DoN or DoD unclassified computer/network upon a

favorable review of the investigative questionnaire and advance favorable fingerprint results. When the results of the investigation are received and a favorable determination is not made, the contractor employee working on the contract under interim access will be denied access to the computer network and this denial will not relieve the contractor of his/her responsibility to perform.

DENIAL OR TERMINATION OF ACCESS

The potential consequences of any requirement under this clause including denial or termination of physical or system access in no way relieves the contractor from the requirement to execute performance under the contract within the timeframes specified in the contract. Contractors shall plan ahead in processing their employees and subcontractor employees. The contractor shall insert this clause in all subcontracts when the subcontractor is permitted to have unclassified access to a federally controlled facility, federally-controlled information system/network and/or to government information, meaning information not authorized for public release.

ACCESS TO CONTROLLED UNCLASSIFIED INFORMATION

Safeguarding sensitive unclassified information is critical to achieve NAVSUP Modernization efforts and deliver cutting-edge and uncompromised capabilities. The Secretary of Defense's operations security (OPSEC) campaign plan stresses the importance of protecting controlled unclassified information (CUI). CUI encompasses OPSEC, critical technology, intelligence, and personally identifiable information that, if not properly identified, marked, and controlled, could impair NAVSUP's ability to conduct its mission. Contractor employees with access to Controlled Unclassified Information (CUI) shall comply with DoDI 5200.48 - Controlled Unclassified Information (CUI) and complete DoD approved initial and annual refresher CUI training.

- a. Whenever Government provides CUI to, or CUI is generated by, non-DoD entities, all CUI records must be handled as required by the approved mandatory disposition authority.
- b. All CUI records must follow the approved mandatory disposition authority whenever the Government provides CUI to, or CUI is generated by, non-DoD entities in accordance with Section 1220-1236 of Title 36, CFR, Section 3301a of Title 44, U.S.C., and the DoDI 5200.48.
- c. Contractor employees shall monitor CUI aggregation and compilation based on the potential to generate classified information pursuant to security classification guidance addressing the accumulation of unclassified data or information
- d. Contractor employees shall submit unclassified government information for review and approval for release in accordance with the Standard DoD Component Processes, DoDI 5230.09, and DoDM 5205.07, Volume 1.

CONTRACTOR'S SECURITY REPRESENTATIVE

The contractor shall designate an employee to serve as the Contractor's Security Representative. Within three work days after contract award, the contractor shall provide to the requiring activity's Security Manager and the Contracting Officer, in writing, the name, title, address and phone number for the Contractor's Security Representative. The Contractor's Security Representative shall be the primary point of contact on any security matter. The Contractor's Security Representative shall not be replaced or removed without prior notice to the Contracting Officer and Command Security Manager.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO NATIONAL SECURITY POSITIONS OR PERFORMING SENSITIVE DUTIES

Navy security policy requires that all positions be given a sensitivity value based on level of risk factors to ensure appropriate protective measures are applied. If the Security Office validates the contractor's position is Non-Critical Sensitive or if the IT system user level is determined to be Enhanced, at a minimum, each contractor employee must be a US citizen and have a favorably completed T3, T3R, or equivalent investigation to obtain a favorable determination for assignment to a non-critical sensitive or Enhanced position. The investigation consists of a standard National Agency Check and a FBI fingerprint check plus law enforcement checks and credit check. Each contractor employee filling a non-critical sensitive or Enhanced position is required to complete:

SF-86 Questionnaire for National Security Positions (or equivalent Office of Personnel Management (OPM) investigative product)
Two FD-258 Applicant Fingerprint Cards or electronic fingerprint submission (preferred))
Original Signed Release Statements

Failure to provide the required documentation at least thirty (30) days prior to the individual's start date shall result in delaying the individual's start date. Background investigations shall be reinitiated as required to ensure investigations remain current (not older than ten (10) years) throughout the contract performance period. The Contractor's Security Representative shall contact the CSM for guidance when reinvestigations are required. Regardless of their duties or IT access requirements ALL contractor employees shall in-process with the CSM upon arrival to the command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Employees requiring IT access shall also check-in and check-out with the Navy Command's ISSM/IAM. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy IT resources. The SAAR-N shall be forwarded to the CSM upon the contractor employee acquiring a Common Access Card (CAC) credential. Failure to obtain a CAC credential or provide the required documentation shall result in delaying the individual's start date.

The contractor shall ensure that each contract employee requiring access to IT systems or networks complete annual Cyber Awareness training, and maintain a current requisite background investigation. Contractor employees shall accurately complete the required investigative forms prior to submission to the CSM. The CSM will review the submitted documentation for completeness prior to submitting it to the OPM. Potential suitability or security issues identified may render the contractor employee ineligible for the assignment. An unfavorable determination is final (subject to SF-86 appeal procedures) and such a determination does not relieve the contractor from meeting any contractual obligation under the contract. The CSM will forward the required forms to OPM for processing. Once the investigation is complete, the results will be forwarded by OPM to the DoD Central Adjudication Facility (CAF) for a determination.

For classified contracts, if the contractor employee already possesses a current favorably adjudicated investigation, the contractor shall submit a Visit Access Request (VAR) via the Defense Information Security System (DISS). If

the contractor employee does not have a current favorably adjudicated investigation, the contractor shall submit the Visit Access Request in DISS until the contractor employee has at a minimum an interim clearance. If the contract only requires access to unclassified information, even if the

contractor takes a DISS "owning" role over the contractor employee, the Navy Command will also take a DISS "owning" role over the contractor employee during the hiring process and for the duration of assignment under that contract. If the contract requires access to classified information, the contractor's Facility Security Office (FSO) will take a DISS "ownership" role and the Navy command will take a DISS "servicing" role during the hiring process and the duration of assignment under that contract. All VARs requires annual renewal for the duration of the employee's performance under the contract.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO OR PERFORMING NON-SENSITIVE DUTIES

Contractor employee whose work is unclassified and non-sensitive (e.g., performing certain duties such as lawn maintenance, vendor services, etc.) and who require physical access to publicly accessible areas to perform those duties shall meet the following minimum requirements:

Must be either a U.S. citizen or a U.S. permanent resident with a minimum of 3 years of legal residency in the United States (as required by The Deputy Secretary of Defense DTM 08-006 or its subsequent DoD instruction) and
Must have a favorably completed National Agency Check with Written Inquiries (NACI) or T1 investigation equivalent including a FBI fingerprint check prior to installation access.

To be considered for a favorable trustworthiness determination, the Contractor's Security Representative must submit for all employees each of the following:

SF-85 Questionnaire for Non-Sensitive Positions
Two FD-258 Applicant Fingerprint Cards (or the preferred method electronic fingerprint submission)
Original Signed Release Statements

The contractor shall ensure each individual employee has a current favorably completed National Agency Check with Written Inquiries (NACI) or T1 equivalent investigation, or ensure successful FBI fingerprint results have been gained and investigation has been processed with OPM.

Failure to provide the required documentation at least 30 days prior to the individual's start date may result in delaying the individual's start date.

EXPEDITING CONTRACT CLOSEOUT

(a) As part of the negotiated fixed price or total estimated amount of this contract, both the Government and the Contractor have agreed to waive any entitlement that otherwise might accrue to either party in any residual dollar amount of \$1,000 or less at the time of final contract closeout. The term "residual dollar amount" shall include all money that would otherwise be owed to either party at the end of the contract, except that, amounts connected in any way with taxation, allegations of fraud and/or antitrust violations shall be excluded. For purposes of determining residual dollar amounts, offsets of money owed by one party against money that would otherwise be paid by that party may be considered to the extent permitted by law.

This agreement to waive entitlement to residual dollar amounts has been considered by both parties. It is agreed that the administrative costs for either party associated with collecting such small dollar amounts could exceed the amount to be recovered.

(b) The Offeror must list any hazardous material, as defined in paragraph (a) of this clause, to be delivered under this contract. The hazardous material shall be properly identified and include any applicable identification number, such as National Stock Number or Special Item Number. This information shall also be included on the Safety Data Sheet submitted under this contract.

(c) This list must be updated during performance of the contract whenever the Contractor determines that any other material to be delivered under this contract is hazardous.

(d) The apparently successful offeror agrees to submit, for each item as required prior to award, a Safety Data Sheet, meeting the requirements of 29 CFR 1910.1200(g) and the latest version of Federal Standard No. 313, for all hazardous material identified in paragraph (b) of this clause. Data shall be submitted in accordance with Federal Standard No. 313, whether or not the apparently successful offeror is the actual manufacturer of these items. Failure to submit the Safety Data Sheet prior to award may result in the apparently successful offeror being considered nonresponsible and ineligible for award.

(e) If, after award, there is a change in the composition of the item(s) or a revision to Federal Standard No. 313, which renders incomplete or inaccurate the data submitted under paragraph (d) of this clause, the Contractor shall promptly notify the Contracting Officer and resubmit the data.

(f) Neither the requirements of this clause nor any act or failure to act by the Government shall relieve the Contractor of any responsibility or liability for the safety of Government, Contractor, or subcontractor personnel or property.

(g) Nothing contained in this clause shall relieve the Contractor from complying with applicable Federal, State, and local laws, codes, ordinances, and regulations (including the obtaining of licenses and permits) in connection with hazardous material.

(h) The Government's rights in data furnished under this contract with respect to hazardous material are as follows:

(1) To use, duplicate and disclose any data to which this clause is applicable. The purposes of this right are to-

(iii) Have others use, duplicate, and disclose the data for the Government for these purposes.

(2) To use, duplicate, and disclose data furnished under this clause, in accordance with subparagraph (h)(1) of this clause, in precedence over any other clause of this contract providing for rights in data.

(3) The Government is not precluded from using similar or identical data acquired from other sources.

52.243-7 Notification of Changes.

(Feb 2026)

NOTIFICATION OF CHANGES (FEB 2026)

(a) *Definitions.*

Contracting Officer, as used in this clause, does not include any representative of the Contracting Officer.

Specifically Authorized Representative (SAR), as used in this clause, means any person the Contracting Officer has designated by written notice (a copy shall be provided to the Contractor) that shall refer to this subparagraph and shall be issued to the designated representative before the SAR exercises such authority.

(b) *Notice.* The primary purpose of this clause is to obtain prompt reporting of Government conduct that the Contractor considers to constitute a change to this contract. Except for changes identified in writing and signed by the Contracting Officer, the Contractor shall notify the Administrative Contracting Officer in writing promptly, within ____ (to be negotiated) calendar days from the date that the Contractor identifies any Government conduct that the Contractor regards as a change to the contract terms and conditions. Examples of conduct that may be regarded as a change to terms and conditions include actions, inactions, and written or oral communications. On the basis of the most accurate information available to the Contractor, the notice shall state-

(1) The date, nature, and circumstances of the conduct regarded as a change;

(2) The name, function, and activity of each Government individual and Contractor official or employee involved in or knowledgeable about such conduct;

(3) The identification of any documents and the substance of any oral communication involved in such conduct;

(4) In the instance of alleged acceleration of scheduled performance or delivery, the basis upon which it arose;

(5) The particular elements of contract performance for which the Contractor may seek an equitable adjustment under this clause, including-

(i) What line items have been or may be affected by the alleged change;

(ii) What labor or materials or both have been or may be added, deleted, or wasted by the alleged change;

(iii) To the extent practicable, what delay and disruption in the manner and sequence of performance and effect on continued performance have been or may be caused by the alleged change;

(iv) What adjustments to contract price, delivery schedule, and other provisions affected by the alleged change are estimated; and

(6) The Contractor's estimate of the time by which the Government must respond to the Contractor's notice to minimize cost, delay or disruption of performance.

(c) *Continued performance.* Following submission of the notice required by paragraph (b) of this clause, the Contractor shall diligently continue performance of this contract to the maximum extent possible in accordance with its terms and conditions as construed by the Contractor, unless the notice reports a direction of the Contracting Officer or a communication from a SAR of the Contracting Officer, in either of which events the Contractor shall continue performance. However, if the Contractor regards the direction or communication as a change as described in paragraph (b) of this clause, notice shall be given in the manner provided. All directions, communications, interpretations, orders and similar actions of the SAR shall be reduced to writing promptly and copies furnished to the Contractor and to the Contracting Officer. The Contracting Officer shall promptly countermand any action which exceeds the authority of the SAR.

(d) *Government response.* The Contracting Officer shall promptly, within ____ (to be negotiated) calendar days after receipt of notice, respond to the notice in writing. In responding, the Contracting Officer shall either-

- (1) Confirm that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance;
- (2) Countermand any communication regarded as a change;
- (3) Deny that the conduct of which the Contractor gave notice constitutes a change and when necessary direct the mode of further performance; or

(4) In the event the Contractor's notice information is inadequate to make a decision under (1), (2), or (3) of paragraph (d) of this clause, advise the Contractor what additional information is required, and establish the date by which it should be furnished and the date thereafter by which the Government will respond.

(e) *Equitable adjustments.*

(1) If the Contracting Officer confirms that Government conduct effected a change as alleged by the Contractor, and the conduct causes an increase or decrease in the Contractor's cost of, or the time required for, performance of any part of the work under this contract, whether changed or not changed by such conduct, an equitable adjustment shall be made-

- (i) In the contract price or delivery schedule or both; and
- (ii) In such other provisions of the contract as may be affected.

(2) The contract shall be modified in writing accordingly. In the case of drawings, designs or specifications which are defective and for which the Government is responsible, the equitable adjustment shall include the cost and time extension for delay reasonably incurred by the Contractor in attempting to comply with the defective drawings, designs or specifications before the Contractor identified, or reasonably should have identified, such defect. When the cost of property made obsolete or excess as a result of a change confirmed by the Contracting Officer under this clause is included in the equitable adjustment, the Contracting Officer shall have the right to prescribe the manner of disposition of the property. The equitable adjustment shall not include increased costs or time extensions for delay resulting from the Contractor's failure to provide notice or to continue performance as provided, respectively, in paragraphs(b) and (c) of this clause.

Note: The phrases contract price and cost wherever they appear in the clause, may be appropriately modified to apply to cost-reimbursement or incentive contracts, or to combinations thereof.

52.209-7 Information Regarding Responsibility Matters.

(Feb 2026)

INFORMATION REGARDING RESPONSIBILITY MATTERS (FEB 2026)

(a) *Definitions.* As used in this provision-

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than \$10,000,000 means-

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror ☐ has ☐ does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in-

(A) The payment of a monetary fine or penalty of \$5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIS as required through maintaining an active registration in the System for Award Management, which can be accessed via <https://www.sam.gov> (see 52.204-7).

52.209-13 Violation of Arms Control Treaties or Agreements-Certification.

(Feb 2026)

VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS-CERTIFICATION (FEB 2026)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) *Certification.* [Offeror shall check either (1) or (2).]

☐ (1) The Offeror certifies that-

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; or

☐ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If such activity might have occurred, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of non-compliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

(i) An inability to certify compliance.

(ii) An inability to conclude compliance.

(iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless-

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has

(i) Waived application under 22 U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C. 2593e(b).

(e) *Remedies.* The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

(1) The Offeror (itself or through its immediate owner or highest-level owner) ☐ does, ☐ does not publicly disclose greenhouse gas emissions, *i.e.*, make available on a publicly accessible website the results of a greenhouse gas inventory, performed in accordance with an accounting standard with publicly available and consistently applied criteria, such as the Greenhouse Gas Protocol Corporate Standard.

(3) A publicly accessible website includes the Offeror's own website or a recognized, third-party greenhouse gas emissions reporting program.

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation.

(Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions.* As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

- (1) A citizen or resident of the United States;
- (2) A domestic partnership;
- (3) A domestic corporation;
- (4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and
- (5) Any trust if-
 - (i) A court within the United States is able to exercise primary supervision over the administration of the trust; and
 - (ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

- (1) It ☐ is ☐ is not a foreign person; and
- (2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

- (1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and
- (2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to <https://www.irs.gov/help/tax-law-questions>.

(Feb 2026)

Note: This notice does not apply to small businesses or foreign governments. This notice is in three parts, identified by Roman numerals I through III.

Offerors shall examine each part and provide the requested information in order to determine Cost Accounting Standards (CAS) requirements applicable to any resultant contract.

If the offeror is an educational institution, part II does not apply unless the contemplated contract will be subject to full or modified CAS coverage pursuant to 48 CFR 9903.201-2(c)(5) or 9903.201-2(c)(6), respectively.

I. DISCLOSURE STATEMENT-COST ACCOUNTING PRACTICES AND CERTIFICATION

(a) Any contract in excess of the lower CAS threshold specified in Federal Acquisition Regulation (FAR) 30.205(b) resulting from this solicitation will be subject to the requirements of the Cost Accounting Standards Board (48 CFR chapter 99), except for those contracts which are exempt as specified in 48 CFR 9903.201-1.

(b) Any offeror submitting a proposal which, if accepted, will result in a contract subject to the requirements of 48 CFR chapter 99 must, as a condition of contracting, submit a Disclosure Statement as required by 48 CFR 9903.202. When required, the Disclosure Statement must be submitted as a part of the offeror's proposal under this solicitation unless the offeror has already submitted a Disclosure Statement disclosing the practices used in connection with the pricing of this proposal. If an applicable Disclosure Statement has already been submitted, the offeror may satisfy the requirement for submission by providing the information requested in paragraph (c) of part I of this provision.

Caution: In the absence of specific regulations or agreement, a practice disclosed in a Disclosure Statement shall not, by virtue of such disclosure, be deemed to be a proper, approved, or agreed-to practice for pricing proposals or accumulating and reporting contract performance cost data.

(c) Check the appropriate box below:

(1) ☐ *Certificate of Concurrent Submission of Disclosure Statement.* The offeror hereby certifies that, as a part of the offer, copies of the Disclosure Statement have been submitted as follows:

(i) Original and one copy to the cognizant Administrative Contracting Officer (ACO) or cognizant Federal agency official authorized to act in that capacity (Federal official), as applicable; and

(ii) One copy to the cognizant Federal auditor.

(Disclosure must be on Form No. CASB DS-1 or CASB DS-2, as applicable. Forms may be obtained from the cognizant ACO or Federal official.)

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the Disclosure Statement.

(2) ☐ *Certificate of Previously Submitted Disclosure Statement.* The offeror hereby certifies that the required Disclosure Statement was filed as follows:

Date of Disclosure Statement: _____ Name and Address of Cognizant ACO or Federal Official Where Filed: _____

The offeror further certifies that the practices used in estimating costs in pricing this proposal are consistent with the cost accounting practices disclosed in the applicable Disclosure Statement.

(3) ☐ *Certificate of Monetary Exemption.* The offeror hereby certifies that the offeror, together with all divisions, subsidiaries, and affiliates under common control, did not receive net awards of negotiated prime contracts and subcontracts subject to CAS totaling \$50 million or more in the cost accounting period immediately preceding the period in which this proposal was submitted. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

(4) ☐ *Certificate of Interim Exemption.* The offeror hereby certifies that (i) the offeror first exceeded the monetary exemption for disclosure, as defined in (3) of this subsection, in the cost accounting period immediately preceding the period in which this offer was submitted and (ii) in accordance with 48 CFR 9903.202-1, the offeror is not yet required to submit a Disclosure Statement. The offeror further certifies that if an award resulting from this proposal has not been made within 90 days after the end of that period, the offeror will immediately submit a revised certificate to the Contracting Officer, in the form specified under paragraph (c)(1) or (c)(2) of part I of this provision, as appropriate, to verify submission of a completed Disclosure Statement.

Caution: Offerors currently required to disclose because they were awarded a CAS-covered prime contract or subcontract of \$50 million or more in the current cost accounting period may not claim this exemption (4). Further, the exemption applies only in connection with proposals submitted before expiration of the 90-day period following the cost accounting period in which the monetary exemption was exceeded.

II. Cost Accounting Standards-Eligibility for Modified Contract Coverage

If the offeror is eligible to use the modified provisions of 48 CFR 9903.201-2(b) and elects to do so, the offeror shall indicate by checking the box below. Checking the box below shall mean that the resultant contract is subject to the Disclosure and Consistency of Cost Accounting Practices clause in lieu of the Cost Accounting Standards clause.

☐ The offeror hereby claims an exemption from the Cost Accounting Standards clause under the provisions of 48 CFR 9903.201-2(b) and certifies that the offeror is eligible for use of the Disclosure and Consistency of Cost Accounting Practices clause because during the cost accounting period immediately preceding the period in which this proposal was submitted, the offeror received less than \$50 million in awards of CAS-covered prime contracts and subcontracts. The offeror further certifies that if such status changes before an award resulting from this proposal, the offeror will advise the Contracting Officer immediately.

Caution: An offeror may not claim the above eligibility for modified contract coverage if this proposal is expected to result in the award of a CAS-covered contract of \$50 million or more or if, during its current cost accounting period, the offeror has been awarded a single CAS-covered prime contract or subcontract of \$50 million or more.

III. Additional Cost Accounting Standards Applicable to Existing Contracts

The offeror shall indicate below whether award of the contemplated contract would, in accordance with paragraph (a)(3) of the Cost Accounting Standards clause, require a change in established cost accounting practices affecting existing contracts and subcontracts.

Section M - Evaluation Factors for Award

SECTION M EVALUATION FACTORS FOR AWARD

M-1.0 GENERAL

The contract resulting from this solicitation will be a Firm-Fixed-Price (FFP) Single award contract. Proposals will be evaluated in accordance with FAR Part 15 "Contracting by Negotiation" utilizing lowest price technically acceptable (LPTA) source selection process identified in FAR 15.101-2. LPTA is a process used in competitive negotiated contracting where the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.

M-2.0 BASIS FOR AWARD

The Government will evaluate offers on a LPTA basis in accordance with FAR 15.101-2. Price has a dominant role in source selection and technical tradeoffs will not be made. As such, no additional credit will be given for exceeding the minimum requirements. Proposals are evaluated simply as either acceptable or unacceptable.

To be eligible for award, the Offeror shall meet the following criteria:

Offer a total evaluated price determined to be fair and reasonable by the Contracting Officer;

Obtain a technical acceptability rating of "Acceptable";

Be determined responsible under FAR 9.104.

All proposals will be evaluated for compliance with the terms, conditions, and requirements set forth in the solicitation. Evaluation of an Offeror's proposal will be based on the presented information in the written proposal. If an Offeror takes exception to any term or condition of this solicitation, proposes any additional term or condition, or omits any required information, the offer may not be considered for award. Alternate proposals are NOT authorized and will be rejected. An Offeror must propose in accordance with the directions set forth in Section L to be considered for award.

The Government intends to award without discussions with Offerors, therefore, the offeror's initial proposal should contain the offeror's best terms from a cost and technical standpoint. However, the Government reserves the right to conduct discussions if determined to be in the best interest of the Government.

M-3.0 EVALUATION FACTORS

Proposals will be evaluated using the factors listed below. Proposals are evaluated for acceptability, but not ranked using the non-price factors. A rating of "Unacceptable" under Factor 2, Technical Acceptability, will render the entire proposal ineligible for contract award.

Evaluation factors for award:

Factor 1 - Price

Factor 2 - Technical Acceptability (Non-price factor)

Determination of responsibility is not an evaluation factor, however, an Offeror's financial profile may be assessed to forecast possible risk and to ensure prospective contractors have adequate financial resources to perform the contract or ability to obtain them [see FAR 9.104-1(a)]. In addition, an Offeror must be registered in the System for Award Management (SAM) at <https://www.sam.gov>. Determination of Contractor Responsibility or Non-Responsibility will be assessed using the information available in SAM.gov. The Offeror must be determined responsible within the definition of FAR 9.104 "Standards" to be eligible for award. Additionally, as indicated in Section L-3.0 paragraph C, the Government will confirm that Offerors outside the country of performance have the ability to operate and do business in that country. Offerors residing outside the country of performance that do not provide proof of authorization to do business in the country of performance will be determined non-responsible and will not be eligible to receive an award.

Factor 1 - PRICE

The Government will not evaluate price adjectivally or assign strengths or weaknesses to the price proposal. The Government will evaluate the proposed price for fairness and reasonableness in accordance with the proposal analysis techniques delineated in FAR 15.404-1 as deemed appropriate.

Factor 2 - TECHNICAL ACCEPTABILITY

The purpose of the technical factor is to assess whether the Offeror's proposal will satisfy the Government's minimum requirements.

Technical acceptability will be determined by evaluating the total number of proposed labor hours (prime and subcontractor) and proposed material and other costs. The technical acceptability will be rated as either "acceptable" or "unacceptable". To be determined technically acceptable, the number of labor hours and material and other costs proposed by the offeror must be sufficient to reflect an understanding of, and ability to complete, the scope of work.

WARNING - If the Government determines that an offeror's proposal is technically unacceptable because the proposed number of labor hours or the proposed material or other costs are too high or low, the Government may exclude the proposal from further consideration for award.

The Government will evaluate the proposal against the technical requirements using the ratings and descriptions outlined in Table M-1.

Table M-1. Technical Acceptable/Unacceptable Rating Method

Adjectival Rating Description

Acceptable Proposal meets the requirements of the solicitation.

Unacceptable Proposal does not meet the requirements of the solicitation.

To ensure the U.S. Navy receives satisfactory repair effort to Navy ships, boats and crafts, this solicitation has a qualification requirement for Offerors to possess a current and active USN MSRA or ABR issued by the U.S. Navy or NAVSUP FLCY. As indicated in Section L-3.0 paragraph D, the Government will confirm the Offeror's existing MSRA/ABR certification or its plan to become an MSRA/ABR holder. The Government will evaluate the planned approach to obtain an MSRA/ABR or confirm the Offeror's existing MSRA/ABR certification. Any Offeror who do not possess an active MSRA or ABR, or does not agree to execute a master agreement (MSRA/ABR) before award of a job order, will be rated as technically unacceptable and will not be eligible to receive an award.

M-4.0 SOURCE SELECTION

The source selection will be conducted in accordance with the Federal Acquisition Regulation (FAR), Defense Federal Acquisition Regulation Supplement (DFARS), Navy Marine Corps Acquisition Regulation Supplement (NMCARS), NAVSUP Contracts Handbook, internal NAVSUP guidance and procedures as well as any other applicable regulation or policy. These policy and regulations provide for checks and balance, and independent evaluation of proposals to ensure integrity is maintained throughout the process. Offerors are encouraged to consult the regulations and guidance online.

The Government intends to make an award to the responsible offeror, who submits a technically acceptable proposal that conforms to the requirements of the solicitation, offering the lowest evaluated price.

The Government intends to make an award based on initial proposals; however, the Government reserves the right to enter into discussions. If discussions are applicable, all Offerors selected to participate in discussions shall be advised of deficiencies or significant weaknesses that have been identified during the evaluation, and shall be given an opportunity to submit a final proposal revision (FPR). The evaluation criteria set forth under Section M, shall still be the basis for evaluation of the FPRs.
