Proposed Action:

The Government intends to negotiate on a sole source basis, a firm-fixed-price (FFP) acquisition with State of Alaska Department of Labor & Workforce Development for Distressed Communities Report and related consulting services. This non-competitive action is being issued AQD on behalf of the Denali Commission.

Place of Performance:

Contractor Facilities.

Description of Requirement:

The Denali Commission requires the development and annual update of a Distressed Communities Report and related consulting services. The report identifies communities in Alaska as “distressed” based on economic indicators such as per capita market income, poverty rate, and underemployment rate, using data defined by the State of Alaska Department of Labor & Workforce Development.

The State of Alaska Department of Labor & Workforce Development is the only known entity that gathers, maintains, and interprets the critical data needed to produce the distressed communities report. This data includes Permanent Fund Dividend and Unemployment Insurance information, which are essential for calculating average market income by community.
