

Facilities Maintenance, Call Center Support, and Remote Monitoring Control System (RMCS) Management

Issued by:
Defense Commissary Agency (DeCA)
Facilities Maintenance Branch
1300 Eisenhower Ave
Fort Lee, Virginia 23801

Date Issued: March 5, 2026 (Updated March 24, 2026)

Closing Date for Submissions: Indefinite

In accordance with the Commercial Opportunity Solution – Defense Commissary Agency (DeCA), dated 01.21.2026, paragraph 5.0, the following specific requirement in support of AoI 5.5 Modernize Business is attached.

The Defense Commissary Agency (DeCA) operates a vast network of facilities and commissary sites across the Contiguous United States (CONUS), Hawaii, Alaska, Puerto Rico, and Guam (approximately 182 locations- see table “Locations and Square Footage”). DeCA is seeking modern commercial solutions to transition from a traditional, prescriptive-based maintenance model to a results-oriented approach where performance is measured on outcomes. DeCA strongly encourages novel technologies, streamlined processes, and management techniques that can deliver superior performance and value.

DeCA is seeking a comprehensive, integrated solution to achieve the following objectives:

- **Enhance Operational Readiness:** Drastically improve the reliability and uptime of all facility systems to maintain a minimum Operational Readiness Rate at or above industry standard.
- **Modernize Maintenance & Call Center Management:** Implement a robust, modern system for tracking, managing, and reporting on all maintenance activities.
- **Integrate Predictive Maintenance:** Introduce a predictive maintenance program for critical assets to preemptively identify and address potential failures.
- **Manage Aging Infrastructure:** Develop and execute a forward-thinking technical approach to maintain, repair, and strategically replace or upgrade aging systems.
- **Optimize Response & Resolution Times:** Rapidly respond to and resolve all unscheduled maintenance requests.
- **Cost-Effectiveness:** Deliver all services in a cost-effective manner, with potential for cost savings through innovative practices.

Interested vendors should submit their Solutions Brief in accordance with section 3.2 Solutions Brief.

In exception to 3.2.1 “Solution Brief Content”, price for the proposed solution to include desired payment terms *may* be included, but is not required in this phase of the CSO. Due to the potential complexity of this solution, DeCA expects detailed pricing to be developed in phase 2 of this CSO.

**Facilities Maintenance, Call Center Support, and Remote Monitoring Control System (RMCS)
Management**

All communications to include questions pertaining to this opportunity shall be sent via email to the following Points of Contact:
