

FRONT RANGE MULTIPLE AWARD CONSTRUCTION CONTRACT (MACC) SOURCES SOUGHT FA251726RC500

This Sources Sought is a market research tool to be used for the purpose of preliminary acquisition planning. The intent of this notice is to identify qualified, experienced, capable, and interested businesses only. This notice does not constitute a Request for Proposal (RFP)/Solicitation, or Invitation for Bid (IFB). It should not be construed as a commitment of the Government for any purposes other than market research and is not restricted to a particular acquisition approach. No reimbursement will be made for any costs associated with providing information in response to this announcement or any follow-up information requests. Respondents will not be notified of the data collected as a result of this market research. Any information submitted by respondents to this Sources Sought is strictly voluntary. Any future solicitation, including specifications and/or drawings, will be made available only on the System for Award Management website <https://www.sam.gov> under solicitation No. FA251726RC500. Interested parties are solely responsible for monitoring the aforementioned website for release of any updates, solicitation package, and all amendments.

Purpose:

The 21st Contracting Squadron at Peterson Space Force Base is publicizing this Sources Sought to gather industry feedback on the current contract attachments as well as identifying qualified business in order to support acquisition planning with respect to a Multiple Award Construction Contract (MACC) reacquisition for seven military installations across the Front Range in Colorado and Wyoming. MACCs are Indefinite Delivery-Indefinite Quantity (IDIQ) contracts whose requirements are competed among a pool of multiple awardees based on work defined in individual task orders. Work may consist of multiple disciplines in general construction categories. It may also involve design services for all aspects of general building construction including construction, modifications and renovations of existing facilities.

Description of Requirement:

This contract vehicle is not a new requirement for the Front Range. It will replace the current Front Range Multiple Award Construction Contract (FRMACC). It is anticipated that multiple awards may be made for the resulting contract. The Government is contemplating a five-year basic ordering period, and five (5), one-year option periods for a total ordering period of ten years. The Government is soliciting feedback from industry if this approach makes sense or if the ordering period should be established differently. Additionally, the Government is soliciting feedback from industry if a ten year ordering period presents any challenges. Historically, Task Orders written against the current FMACC contract have valued in range between \$2,000 and \$10,000,000. The overall program value is still under consideration; however, at this point, the magnitude of the re-competed MACC is anticipated to be ~\$950,000,000 or more over the 10-year duration. The North American Industry Classification System (NAICS) code 236220, Commercial and Institutional Building Construction, applies to this request. The size standard for this NAICS code is \$45M. The Task Order procedures (Attachment 2), On/Off ramping procedures (Attachment 3), dissolution of the tiered structure previously used (Attachment 4), as well as the FRMACC Specifications (Attachment 5) have all been included with this sources sought document to provide insight on the current operating procedures/processes surrounding the existing FRMACC.

Current Contracts and Incumbents:

FA251720D0003 – G2I/JBI LLC

FA251720D0004 – Olgoonik Enterprises, LLC

FA251720D0005 – Weil Construction, Inc.

FA251720D0006 – D&D Construction Services JV, LLC

FA251723D0001 – Reliance Construction Management Company
FA251720D0009 – Native American Services Corp. (NASCO)
FA251720D0011 – HHI Corporation

If your firm is interested in participating in a 30-min one-on-one meeting, please send the following information **NLT 3 April 2026 at 1:00 PM** (Mountain Time):

1. Attendee 1 Name and Email:
2. Attendee 2 Name and Email:
3. Agenda on what you would like to discuss
4. Your availability for the one-on-one meetings on 9 & 10 Apr. The Government intends to complete the one-on-one meetings over the course of those two days and will offer up to 8 meetings each day. If capacity is met, the Government may or may not offer alternative days and times for the one-on-one meetings.

If your firm would like to respond to this Sources Sought, please read the attachments provided. Then complete the Industry Questionnaire (Attachment 1) and return it to: 21CONS.REACQTEAM.FRMACC@spaceforce.mil no later than **10:00 AM (Mountain Time), 26 May 2026**. Note: Responses are limited to **30 pages**. Any pages exceeding the page count, the Government reserves the right to NOT review them and consider them in the assessment of your firms capability.

We appreciate your interest and thank you in advance for responding to this request.
