Security Support Services 2027
February 2026

1.0 Introduction

1.1 Mission

The Defense Threat Reduction Agency (DTRA) safeguards the United States and its allies from global Weapons of Mass Destruction (WMD) threats by integrating, synchronizing and providing expertise, technologies and capabilities. J3/5/8 Force Protection (FP) is responsible for Security management for DTRA. DTRA Security programs include Physical, Industrial, Personnel, Operations (OPSEC), Information Security, Science and Technology Protection (S&T), Antiterrorism/Force Protection, Special Access Program (SAP), Insider Threat, Foreign Disclosure (FD), and the Special Security Office (SSO) under Intelligence Community Directives (ICD).

1.2 Background

This is a non-personal services contract to support DTRA, Security and Counterintelligence Division (J3/5/8 FP). The Government shall not exercise any supervision or control over the contract service providers performing the services herein. The contract service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government. Work under this effort may be performed at the DTRA's locations in Albuquerque (ABQ), New Mexico; Travis Air Force Base, California; Kleber Kaserne, Kaiserslautern, Germany; and primarily, Defense Threat Reduction Agency locations in the National Capital Region (NCR) area. Further, contract support may be required at locations not specified in this Performance Work Statement (PWS).

1.2.1 Germany Status of Forces Agreement (SOFA) and the NATO Supplementary Agreement with Germany for Contractor Employees the Germany Status of Forces Agreement and the NATO Supplementary Agreement with Germany governs the legal status and daily lives of DoW contractors living in Germany. Status of NATO Status of Forces Agreement (SOFA) provides the basis for the hiring of United States citizens for employment in certain overseas positions. Work performed in Germany requires SOFA Status

Accreditation for both the contractor and for individual positions within the contract. Any Subcontractors furnishing employees for employment in Germany will also be required to sign up for SOFA Status Accreditation. The accreditation status is not transferable between positions.

The COR and the Contractor Senior Program Manager will be responsible for receiving and maintaining SOFA Status Accreditation of the contract through the US Army Europe - Department of Defense Contractor Personnel Office at <https://www.europeafrica.army.mil/contractor/>. Points of Contact and frequently asked questions can be located on the link above. The Contractor Senior Program Manager will provide assistance to employees on an as-needed basis in order for them to access the European Contractor Online Processing System (ECOPS) to apply for, receive, and maintain their SOFA Status. ECOPS can be accessed at the link above.

Positions supplied by this contractor for employment in Germany who will be required to receive and maintain their SOFA accreditation status in order to remain eligible for employment.

1.3 Scope of Work

This PWS covers services for all duties and responsibilities within J3/5/8 FP, to include its geographically separated locations. The contractor shall provide personnel to perform non-personal security support services to assist Government personnel in support of Security services within the NCR and other DTRA locations. The required support services are:

- Senior Program Manager/Senior Site Lead
- Special Security Office (SSO) Support
- Special Access Program (SAP) Security
- Foreign Disclosure (FD)
- Personnel Security (PERSEC)
- Antiterrorism/Force Protection (AT/FP)
- Information Security (INFOSEC)
- Industrial Security (INDSEC)
- Operations Security (OPSEC)
- Physical Security (PHYSEC)
- Physical Security Locksmith Services
- Escort Services
- Physical Security/Access Control Support
- Entry Control Officer (ECO)/Security Guard Services
- Insider Threat Support (InT)
- Science and Technology (S&T) Protection Specialist
- Security Analyst (S&T) Protection
- S&T OPSEC Specialist
- Operations Support Specialist
- Security Specialist (Generalist)

2.0 Applicable Directives

The contractor shall comply with the following directives, publications, and standards to the extent necessary to accomplish the requirements specified in the PWS. The Government will provide all listed publications and forms at the start of the contract period. Publications are current as of February 2026; the Contractor shall monitor updates via official DOW channels and implement changes immediately.

2.2 Changes

The Government will notify the Contractor of additional references or amendments throughout the life of the contract. Supplements issued during the contract period shall be implemented without negotiation. Any changes in cost levied onto the contractor as a result of a supplemental change should be provided to the KO in writing, along with an updated cost proposal, within 10 calendar days following receipt of a supplemental change notification. If needed, negotiations will be held under the FAR 52.243-2 Changes-Cost-Reimbursement clause. Failure to submit a timely notification of supplement driven cost changes entitles the Government to continued performance at no cost increase (waivable by the KO according to paragraph (c) of the Changes clause). The Onsite Lead shall track publication compliance and report updates/amendments to both the Contractor and the KO/CS via email.

3.0 Performance Requirements

3.1 Senior Program Manager/Senior Site Lead: The contractors shall:

3.1.1 Conduct duties relevant to all security disciplines and counterintelligence functions. Write staff actions/reports and coordinate within organizational and with external entities. Ensure that office staff actions are coordinated in a timely manner meeting all the suspense's or requesting appropriate extension as necessary.

3.1.2 Keep current on agency mission, new security requirements and how those requirements impact mission. Recommend cost effective means to implement guidance and reduce security risks.

3.1.3 Support the DTRA Security Education, Training, and Awareness (SETA) initiative.

3.1.4 Provide critical substantive review or edit of J3/5/8 FP-related documents, plans, policies, procedures, resource and requirements documents, and agency responses to higher authority for signature by DTRA Director or J3/5/8 FP leadership.

3.1.5 Manage the Enterprise Task Management Software Solution (ETMS2) by coordinating task actions with J3/5/8 FP Personnel as well as other personnel throughout the Agency. As a Subject Matter Expert (SME), advise J3/5/8 FP personnel on how to perform their ETMS2 tasking functions correctly.

3.1.6 Develop Standard Operating Procedures (SOPs) for ETMS2 and Staff Office duties. SOPs should cover all responsibilities associated with the Operations and Staff contracted position and updated as needed. Develop and deliver training and briefings to other support personnel when necessary.

3.1.7 Provide a continuity book containing all pertinent information to sustain operations during any exigencies. Include all reference materials such as current DTRA and J3/5/8 FP policies, doctrines, and instructions.

3.1.8 Participate in Staff Assistance Visits (SAV) to other inter-agency elements, as needed. Review relevant documentation, develop and prepare presentations and briefings as needed during the visits.

3.1.9 Provide support to J3/5/8 FP. Assist with the updates and revisions of current J3/5/8 FP policies, instructions, and memorandums.

3.1.10 The Senior Site Lead, known throughout this PWS as the Program Manager (PM), conducts duties and responsibilities normally associated with an on-site program manager.

3.1.10.1 Primary Point of Contact (POC) for all personnel actions, such as timely recruiting, retention, hiring replacements, and compliance with contractual agreements.

3.1.10.2 Provide up to 20 percent on duty time on-site as program manager duties that support the contract or contractor employees.

3.2 Special Security Office Support: The contractor shall:

3.2.1 Support the SSO by providing services for the receipt, accountability, transmission, reproduction, storage, safeguarding, and destruction of Sensitive Compartmented Information (SCI) and collateral classified information, records and reports (SCI Information Security) and by processing verifications of authorized personnel for access to appropriate material and caveats of SCI.

3.2.2 DTRA HQ Sensitive compartmented information facilities (SCIF)s will, at a minimum, be accessible during core hours for the Main SCIF (Rm B1900); Joint Operations Center (JOC) (Rm B1260); and Defense Logistics Agency (DLA) (Rm 3539). The B2 SCIF (Rm B2648) will be accessible weekdays between 0700 and 1600. Access to the CI Office SCIF (Rm B1200) will be limited to authorized personnel and accessible during core hours. Agency Command SCIF (Rm 4250) will require support staff with Senior level support experience. Exceptions may include Federal holidays or days when the DTRA facilities are closed. Other situational occasions may allow for contractor open/close access outside core hours for escort duties (not to exceed an 8-hour workday).

3.2.3 Screen visitors and control access to all SCIFs using a local database, Defense Information System for Security (DISS), and the Scattered Castles database.

3.2.4 Develop and/or modify the SSO SOP and Emergency Action Plan (EAP) as needed.

3.2.5 Submit weekly and monthly roll-up work accountability reports.

3.2.6 Conduct all required SCIF inspections, response tests and Intrusion Detection System (IDS) tests.

3.2.7 Conduct SCI indoctrinations and debriefings within established timelines.

3.2.8 Conduct classification marking reviews of all material leaving the SCIF and provide advice and guidance on the marking of SCI material.

3.2.9 Enter approved equipment being introduced to a SCIF into the equipment log.

3.2.10 Ensure that any equipment that is being removed from a SCIF has been properly sanitized and approved by the SSO Information Assurance Manager (IAM).

3.2.11 Process SCI permanent certifications (inbound and outbound) within established timelines.

3.2.12 Issue courier cards, courier briefings, and prepare commercial airlines authorization letters.

3.2.13 Assist with the management of the foreign travel reporting program for the SSO.

3.2.14 Assist with the management of the contractor SCI nomination program for the SSO.

3.2.15 Coordinate meetings and conferences held in the SCIFs.

3.2.16 Provide administrative data entry.

3.2.17 Provide files and record maintenance.

3.2.18 Provide internal mail distribution.

3.2.19 Provide Defense Courier Service (DCS) package pickup.

3.2.20 Track completion rates of the required annual SCI refresher training(s).

3.2.21 Prepare Fixed Facility Checklists (FFC) and TEMPEST Addendums and modify as needed for each DTRA SCIF.

3.2.22 Required skills for contractor SCIF personnel: The contractor personnel shall:

3.2.22.1 Possess integrated security services skill sets in the following areas: SSO operations; SCIF operations; SCI Personnel Security; SCI Information Security; SCI Physical Security; SCI TEMPEST actions and procedures; and SCI Industrial Security. The contractor shall have recent, in-depth, government/contractor SSO operations experience, and recent, in-depth SCIF operations experience.

3.2.22.2 Provide mid-level contractor personnel that are thoroughly familiar with DoDM 5105.21 Volumes 1-3, to administer the receipt, control, and accountability of SCI. Be familiar with the ICDs 703, 704, 705, and 706, Intelligence Community Standard (ICS) 705-1 and 705-2, for construction, accreditation, and technical requirements for SCIFs. Support delivery of services for SCIFs and perform the day-to-day SCI security oversight functions for the SSO and subordinate SCIFs.

3.2.22.3 Possess strong customer service skills to handle customer's questions, complaints, and requested support in a professional, personable and courteous manner. Areas of expertise shall include computer operations, SCIF procedures, use of secure telephones, removal of classified information, indoctrinating personnel, accepting security clearances from external agencies, and day-to-day SCIF operations.

3.2.23 Maintain the Support Program Communication Security (COMSEC) account by ensuring accountability of Crypto material, key, and key-loading equipment, as applicable

3.2.24 Maintain Crypto-cleared personnel and adhere to all applicable COMSEC regulations and guidelines, as applicable.

3.2.25 Be prepared to receive, stage, transport, store, safeguard, install, initialize, and operate Cryptographically Controlled Items (CCI), COMSEC equipment, and associated Key Material

(KEYMAT) of the relevant types required for the Support Program including but not limited to Secure Telephone Equipment (STE), KG-175A etc., as applicable.

3.2.26 SSO Support required training within 6 months of hire:

- DIA Joint Military Intelligence Training Center, SCI Security Officials Course, or similar Special Security Officer (SSO) course (training curriculum approved by the Agency SSO).
- ODNI-NCSC Personnel Security Adjudications Course (PSAC)
- ODNI-NCSC Sensitive Compartmented Information Facility Course (SCIF)
- ODNI-NCSC Special Security Officers Course (SSOC)
- Intro to Industrial Security (CDSE_IS011.16)
- Information Security (INFOSEC) Awareness-Initial and Intro to INFOSEC (CDSE_IF011.16)
- DCSA-CDSE, Introduction to National Security for Security Practitioner (CDSE PS113.16)
- DCSA-CDSE Introduction to Physical Security (CDSE PY011.16)
- SCI Security Refresher (CDSE SCI100.16)

3.3 Special Access Program (SAP) Security Support: The contractor shall:

3.3.1 Assist in writing and implementing SAP security policy, SOPs, Concepts of Operations (CONOPS), and Transportation Security Plans (TSPs) and advise and assist PM in the development of Security Classification Guides (SCGs) for all SAPs, to include those complex in nature. Personnel performing this duty must possess strong writing skills.

3.3.2 Advise senior officials on a broad range of program security issues including system threat vulnerability assessments, system security requirements, architectures, and security risk mitigation plans. Assist clients in researching and defining security problems. Personnel performing this duty must possess strong oral communication skills, the ability to relate to a diverse customer base, and general knowledge of DoW operations. Must be capable of operating in the NCR and other locations as required.

3.3.3 Monitor assessment and authorization process for program areas and Information Technology systems.

3.3.4 Assist in developing and administering a SAP security awareness education program that includes annual refresher training and utilizes continuing education tools such as newsletters, pamphlets, and briefings, etc.

3.3.5 Provide support for all DTRA SAPs, Compartments, Sub-Compartments and Projects. This includes coordination for all DTRA personnel requiring access to other federal agency's SAPs (Program Access Requests), developing Co-Use Agreements (CUA), Memorandum of Agreement (MOA), and Memorandum of Understanding (MOU). Facilitates Special Access Program Nomination Process (SAPNP) reviews for all personnel submitted for access to SAPs, Compartments, Sub-Compartments, and Projects.

3.3.6 Develop all SAPF accreditation documentation for each SAPF and organize its tabbed binder. Additionally electronic sources and data should be filed within a defined graphic user interface database.

3.3.7 Assist in the inspection of SAPFs under DTRA control to ensure compliance with established applicable documents as listed in Section 5.0. This will be done on an annual basis or as

requested by the government. Must possess the ability to document the results of the inspection in writing and effectively present briefings of a visual and oral nature regarding those results.

3.3.8 Interface with personnel at the OSW level related to security matters and be capable of explaining the reason security actions were taken or are about to be taken in support of the program.

3.3.9 Assist in conducting core compliance inspections at program locations and assisting in “get well” processes following those inspections with security shortfalls, deficiencies or significant findings or an unsatisfactory rating.

3.3.10 Provide direct support to the DTRA Alternative Compensatory Control Measure program through validation of need-to-know, scheduling briefings, submitting accesses and other tasking as required by policy.

3.4 Foreign Disclosure (FD) Support: The contractor shall:

3.4.1 Prevent collection of Classified Military Information (CMI) and Controlled Unclassified Information (CUI) about U.S. personnel and activities by adversary. Prevent unauthorized disclosure of CMI/CUI to foreign nationals and Governments and international organizations. Safeguard export-controlled technology, information, and material from unauthorized entities. Assist in the development of FD policies and procedures. Assist in the development of FD processes and procedures to address DTRA mission, travel, and foreign visitors to DTRA facilities. This includes assisting with reviews of internal processes and information.

3.4.2 Develop and present FD presentations to a diverse audience.

3.4.3 Provide specialized staff support to the J3/5/8 FP, to include but not limited to processing J3/5/8 FP related documentation, tasks specifically focused on the Agency FD Program and support activities associated with the National Disclosure Policy-1 (NDP-1).

3.4.3.1 Perform independent analysis and evaluation of current DTRA policies and procedures to determine compliance with national and DoW policies and requirements.

3.4.3.2 Update and/or revise current DTRA and J3/5/8 FP policies and guidance for FD.

3.4.3.3 Support the DTRA Security Awareness Program by providing FD and Foreign Visit training, briefings, articles, and other products.

3.4.3.4 Draft, write or edit FD related documents, plans, policies, procedures, resource and requirements, and Agency responses to higher authority for signature by DTRA Director, Deputy Director, or Chief, J3/5/8 FP.

3.4.3.5 Write FD articles for posting on the DTRA net or DTRA Newsletters/Portal, as directed.

3.4.3.6 Develop familiarity with the Arms Export Control Act of 1976 and the International Traffic in Arms Regulations (ITAR) to ensure protection of military technology and export-controlled material.

3.5 Personnel Security (PERSEC) Support: The contractor shall:

3.5.1 Process personnel to determine the appropriate Suitability requirement, security clearance, and/or SCI eligibility prior to granting access to DTRA facilities and information. In addition, support the DTRA Personnel Security (PERSEC) Program includes:

3.5.1.1 Request/Review/Initiate/Track Suitability requirement and Personnel Security Background Investigations.

3.5.1.2 Provide accurate and analytical establishment, maintenance, review, receipt, accountability, transmission, reproduction, storage, safeguarding, and destruction of collected personal history, case files, data entry, records, files, and reports according to PERSEC policy and procedures.

3.5.1.3 Coordinate with the appropriate agencies for reciprocal recognition of existing investigations and adjudications using consistent PERSEC standards prior to initiating new investigations.

3.5.1.4 Review and process of hiring nomination packages to determine they are complete, detect anomalies, and process for designated position sensitivity levels.

3.5.2 Develop and deliver PERSEC briefings and debriefings.

3.5.3 Develop and/or modify all PERSEC step-by-step processes and SOPs for Government PM/COR approval.

3.5.4 Conduct continuous review of PERSEC reportable items. Accurately establish, manage, administer, monitor, release, and place into historical DTRA personnel DISS and local Security Database records. Immediately report to the Government PM/COR if/when potential derogatory information becomes known on personnel that affects their continued eligibility to sensitive and classified positions.

3.5.5 Develop, review, and maintain PERSEC In/Out Processing Center administration duties. Accurately review all PERSEC In and Out Processing prior to allowing access to DTRA facilities and local area networks.

3.5.6 Develop, review and maintain step-by-step processes for visitor services and SOPs for Government PM/COR approval.

3.5.7 Process requests for visit authorizations (inbound and outbound), confirm access for conferences within established timelines, and prepare access control rosters.

3.5.9 Process clearances for Agency Sponsored conferences and events. Issue conference badges to individuals with the assistance of Access Control, if needed.

3.5.10 Identify and ensure visitors are properly cleared with a need-to-know prior to granting access to DTRA facilities or local area networks by issuance of the appropriate DTRA badge, Common Access Card (CAC) or identification.

3.6 Antiterrorism/Force Protection (AT/FP) Support: The contractor shall:

3.6.1 Develop, present and facilitate AT/FP training as directed. Conduct Annual Antiterrorism Level I Awareness training. Maintain statistical data on training activities at the HQ and subordinate locations.

3.6.2 Monitor the Agency's overseas travelers to ensure all AT/FP requirements are met.

3.6.3 Review Vulnerability Assessments (VAs) according to DoDI-O 2000.16, Volume 1. . Identify relevant risks to DTRA assets and personnel specified in the VAs.

3.6.4 Identify the potential terrorist threats to DTRA personnel and assets to assist in developing an effective antiterrorism program. Support the AT/FP Program by aiding in developing, presenting, and updating threats analysis. This includes providing the factors of terrorist operational capability, activity, intentions, and operating environment that commanders at all levels understand the threat and can assess their ability to prevent, survive, and prepare to respond to an attack.

3.6.5 Support situational awareness through an analytical AT/FP approach that includes reviewing intelligence and open-source information; recommending AT/FP informational, instructional and decision briefings; and preparing advisories to increase AT/FP awareness within the workforce. Prepare and deliver situational awareness support through analytical AT/FP program assistance.

3.6.6 Draft and develop AT/FP plans and procedures critical to deterrence, detection, defense, and response to terrorist incidents. Interpret higher level AT/FP policy and guidance; develop and implement DTRA specific AT/FP policy and guidance; and review internal and external AT/FP plans. Plans drafted by the AT/FP team will include the following key elements, as directed by DoDI-O 2000.16, Volume 1:

3.6.6.1 Terrorism Threat Assessment

3.6.6.2 Vulnerability Assessment

3.6.6.3 Risk Assessment

3.6.6.4 AT Physical Security measures

3.6.6.5 Terrorist Incident Response measures

3.6.6.6 Terrorist Consequence Management measures

3.6.7 Participate in AT/FP Working Groups/Committees to recognize terrorist patterns and share information. Recommend various papers and document outcomes/highlights of information shared in these working groups/committees.

3.6.8 Complete Antiterrorism Level II course and demonstrate experience in AT/FP as listed above, in 3.6.6. Maintain AT Level II certification IAW DoDI-O 2000.16, Volume 1.

3.6.9 Develop, present, and update threat analysis that includes the factors of terrorist operational capabilities, activities, intentions, and operating environment.

3.6.10 Prepare and deliver situational awareness briefings. Briefing should include the review of intelligence and open-source information and recommendations for AT/FP actions to appropriate leadership to mitigate risk; the development of AT/FP informational, instructional, and decision briefings; and advice to leadership to maintain the appropriate AT/FP awareness level within the workforce.

3.6.11 Participate in DTRA specific Emergency Management (EM) and Force Protection (FP) incident response requirements and assist with planning and execution of EM and FP exercises.

3.7 Information Security (INFOSEC) Support: The contractor shall:

3.7.1 Provide support with the execution of the Agency's Information Security Program (ISP), which includes the classification/declassification program and Security Education, Training, and Awareness (SETA).

3.7.2 Develop and prepare draft SOPs, which incorporate specific implementing guidance, requirements, and all essential guidance to ensure standardization throughout the agency. The essential elements will be outlined and approved by the Government Project Officer (PO). Each SOP will be revised and reviewed annually to ensure it is up to date and reflects current policies. Final SOPs will be delivered in hard copy and in an electronic format. The Government will provide resources data as required.

3.7.3 Provide support to the Agency Automatic Declassification Program. Establish contacts and display proven ability in the Automatic Declassification community.

3.7.4 Provide support to the Agency Mandatory Declassification Program. Establish policies and procedures for processing mandatory declassification review requests.

3.7.5 Support the Force Protection department by providing ISP support Agency wide.

3.7.6 Develop, coordinate, and implement Force Protection policies and report any failures to comply with policy to the company PM and/or Government PM/COR.

3.7.7 Collaborate with DTRA Directorates and Field Offices, and with the Chief of Security, and/or government PM to develop, coordinate and publish DTRA security procedures and documents.

3.7.8 Provide recommendations and options for intra- and inter-Agency coordination to the Chief of Security and/or government PM.

3.7.9 Develop and conduct ISP training presentations and briefs.

3.7.10 Develop ISP products for the SETA program.

3.7.11 Review all Agency Security Classification Guides (SCGs) for administrative and formatting purposes in coordination with responsible Directorate or Field Office PM and Security Manager to ensure SCGs are reviewed and updated every five years IAW Vol 1 of DoDM 5200.01 prior to the DTRA Original Classification Authority (OCA) signature.

3.7.12 Conduct security classification marking review on DTRA Form 58 packages prior to release from Agency.

3.7.13 Support DTRA's Security program by conducting Preliminary Inquiries.

3.7.14 Conduct annual Staff Assistance Visit (SAV) at Agency HQ, and at each of the major Field Offices (Kleber, Kirtland AFB, and Travis AFB), as needed.

3.8 Industrial Security (INDSEC) Support: The contractor shall:

3.8.1 Maintain and update directives, instructions, and SOPs for the management and execution of the Agency's Industrial Security program and NATO program which incorporate specific implementing guidance, requirements, and all essential guidance to ensure standardization throughout the

Agency. Each SOP and Instruction will be reviewed and updated annually to ensure currency and relevancy.

3.8.2 Process Contract Security Classification Specification, DD Form 254, in support of the Agency's Industrial Security Program. Coordinate with the contracting office to close out DD Form 254s.

3.8.3 Support Agency-wide Security efforts.

3.8.4 Prepare presentations and briefings when required.

3.8.5 Demonstrate thorough knowledge of 32 CFR Part 117 (previously known as the NISPOM), and USSAN 1-07.

3.8.6 Draft policy documents and revise current policies based on newly issued policy documents.

3.9 Operations Security (OPSEC) Support: The contractor shall:

3.9.1 Protect the Agency's critical information by implementing all aspects of DoD Directive 5205.02E, DoD Operations Security (OPSEC) Program, and DoD 5205.02M, DoD Operations Security (OPSEC) Manual. I

3.9.2 Conduct security reviews of Agency documents being considered for public release through the Agency's Public Affairs Office.

3.9.3 Develop and maintain the Agency's OPSEC Directive and Instruction.

3.9.4 Develop OPSEC plans in support of various programs, tests, and exercises sponsored and supported by the Agency.

3.9.5 Conduct face-to-face OPSEC training for new Agency personnel. Also, provide custom-tailored OPSEC training throughout the Agency as requested.

3.9.6 Conduct OPSEC assessments of sub-components.

3.9.7 Coordinate and support OPSEC surveys conducted by third-party organizations, such as the Joint Information Operations Warfare Center and the 1st Information Operations Command.

3.9.8 Coordinate with Program Protection Office to assist in the identification of Critical Program Information (CPI), Critical Technical Information (CTI), and Program Protection Plans (PPP).

3.9.9 Develop task-specific presentations and briefs.

3.9.10 Develop products for the SETA program.

3.9.11 Support Agency-wide Security efforts.

3.9.12 Support DTRA's Security program by conducting Preliminary Inquiries.

3.9.13 Demonstrate knowledge of and the ability to implement the Six-Step OPSEC Process.

3.9.14 Support DTRA FDO and Public Affairs by reviewing information submitted to both offices to identify any OPSEC concerns.

3.9.15 Provide Security support to Research, Development, Test, and Evaluation (RDT&E) efforts facilitated by DTRA, as applicable.

3.10 Physical Security / Locksmith Services: The Contractor shall:

3.10.1 Establish and implement a key control method ensuring all keys/key cards issued to the contractor by the Government are not lost or misplaced and are not used by unauthorized persons.

NOTE: All references to keys include key cards. No keys issued to the contractor by the Government shall be included in the Quality Control Plan. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the Government PM or COR.

NOTE: In the event keys, other than master keys are lost or duplicated, the contractor shall upon direction of the PM/COR, re-key or replace the affected lock of locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. If the Government performs replacement of the locks or re-keying, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due to the contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payments due to the contractor.

NOTE: Locksmith may be called to provide services across several different DTRA locations.

3.10.2 Prohibit the use of Government issued keys by any persons other than the contractor's employees. The contractor shall prohibit the opening of locked areas by contractor employees to permit entrance of persons other than contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the PM/COR.

3.10.3 Maintain Locksmith GSA certification with a GSA Safe Inspection certification for the duration of this contract. Additionally, maintain the following certifications as appropriate:

3.10.3.1 LKM10K Certification

3.10.3.2 S & G 2890B Certification

3.10.3.3 KabaX10 Locks

3.10.3.4 S & G 2740 Locks

Note: All locks listed above require recertification each time a new version of the lock is released. Therefore, the Agency Locksmith will only be required to maintain certification on locks in use at DTRA facilities.

3.10.4 Install, repair, and maintain door locks, cipher locks, electromechanical locks, drill and repair Government safes (including security containers) and perform combination changes including cutting and maintaining keys.

3.10.5 Maintain accountability of all security containers; maintain the Agency's work order database and coordinates all locksmith related work orders with the affected customer.

3.10.6 Provide full time locksmith support during Agency work hours as stated in Section 4.2. Provide 24-hour emergency on-call locksmith services with a recall time for the following situations: SCIF/SAP and Open Storage Perimeter Doors will have a 4-hour response time. SCIF/SAP Interior doors will have a 12 to 24-hour response time. Unclassified office spaces and safe Lockouts will be addressed the next duty day.

3.10.7 The contractor shall perform preventive maintenance on all doors and high security locks once every six months after TOA (Task Order Agreement). Repairs may take place, in real time, when a problem is identified during the scheduled preventive maintenance visit or when scheduled with the COR or TPOC (Technical Point of Contact). The locksmith shall be stationed at the DTRA HQ facility and shall support the other local DTRA facilities.

3.10.8 Conduct annual GSA container inspections/inventories at Agency HQ, and NCR locations. Conduct GSA container inspection and inventory at other Agency locations, as needed.

3.10.9 Support open storage accreditation and re-accreditation inspections when required.

3.10.10 Assist with processing of DTRA Form 3s and DTRA Form 4s, as other duties allow.

3.11 Escort Services: The contractor shall:

3.11.1 Provide Escorts for un-cleared technicians (and general facility), carpet cleaning, canteen, and cafeteria personnel as required.

NOTE: Must maintain the confidentiality of all official business conducted while performing their official duties. Must not allow un-cleared personnel to remove anything other than trash from an office space without prior approval from the space occupant or a supervisor.

3.11.2 Read and adhere to DTRC Physical Security SOP #3, Escort Procedures.

3.11.3 Provide Additional Escort Services as follows:

3.11.3.1 Security Escort (SE) shall accompany un-cleared personnel within DTRA spaces. SE will announce any un-cleared personnel when entering a controlled access area or area where classified is readily visible or actively being used/displayed/processed.

3.11.3.2 Exercise good judgment at all times and provides effective, appropriate actions to counteract potential security infractions.

3.11.3.3 Comply with government regulations and procedures.

3.11.3.4 Report to COR any improper or suspicious behavior/activity within the work areas, courtyards, or in DTRA parking lots.

3.11.3.5 Comply with DTRA security policies at all times.

3.11.3.6 Notify the Site Lead of any concerns, questions, events, incidents, etc.

3.11.3.7 Maintain positive visual control of escorted personnel at all times in all locations.

3.11.3.8 Challenge person(s) in possession of prohibited items to ensure only authorized items are brought into DTRA spaces.

3.11.3.9 Notify FP Security Division of the complete details for any security incidents, events, or occurrences within one hour.

3.11.4 Comply with the following Emergency Procedures:

3.11.4.1 Be thoroughly familiar with DTRA directives as required and ability to implement them in particular during emergencies (fire, bomb threat, medical etc.). Take appropriate actions per type of emergency.

3.11.4.2 Ensure all escorted personnel have exited DTRA spaces during an emergency unless the situation presents an unsafe environment to do so.

3.11.4.3 Notify the COR regarding emergency situations as soon as possible after the emergency situation ends.

3.11.4.4 Follow the instruction of the Emergency Control Officer, On-scene Commander, or emergency response personnel.

3.11.4.5 Maintain poise and self-control at all times.

3.11.5 SE should meet the following physical requirements:

3.11.5.1 Able to stand and walk for extended periods of time.

3.11.5.2 Able to function in all types of weather environments.

3.11.5.3 Able to remain alert and focused at all times while on duty.

3.11.5.4 Able to perform all necessary physical duties unaided (i.e., walking, standing etc.).

3.11.5.5. Able to communicate and report clearly in all conditions.

Note: For Escort positions, adequate personnel shall be available to cover for times when personnel are not available due to sick time, vacations, or other situations. The contractor must fill a vacant post within 2 hours of notification.

Note: For ABQ, the Branch Chief (or his/her appointee) will serve as the on-site PM and report issues/problems to the COR.

3.12 Physical Security/Access Control Support (Front Lobby/SSO): The contractor shall:

3.12.1 Answer telephone calls, greet customers (both visitors and permanent parties), respond to security emails, take messages, and route calls to a responsible Security Team Lead.

3.12.2 Inventory and ensure all badges are present and/or accounted for at the beginning and end of each tour of duty and maintain a record of all badges issued. Immediately notify the PM/COR and team lead of badges that are not accounted for. Possess a general knowledge of Microsoft Office (Word, Excel, PowerPoint, Access, and Outlook) programs and databases in order to perform the varied administration duties required by the Security Division.

3.12.3 Process all visiting customers to the DTRC. Ensure that all visitors entering the DTRC are in possession of a valid DTRA security access badge. Verify the visitor's identification from a picture ID, validate visitor clearance status and process badges utilizing the automated security database, Defense Ready, and if applicable, call the SSO in less than five (5) minutes, except in unusual circumstances. Whenever a security clearance cannot be validated, the visitor shall be added to the system and issued an "Escort Required" badge.

3.12.4 Contact visitor's DTRA sponsor to inform sponsor of the visitor entering DTRA facilities.

3.12.5 Brief sponsors of visitors issued "Escort Required" badges, on their responsibilities as escorts for un-cleared personnel.

3.12.6 Verify all badges are properly turned in or invalidated when the individual no longer is granted or needs access. All turn-ins must be annotated in the security database(s) or the proper badge log.

3.12.7 Maintain accurate forms, databases and logs for all daily visits and badge inventories. Compose, edit and prepare memorandums, reports, forms, and other security-related material as required for final review by Security Team Lead.

3.12.9 Validate all requests are current in DefenseReady prior to issuing a badge. Issue appropriate badge for the security clearance level.

3.12.10 Maintain the confidentiality of all official business conducted while performing duties in support of this contract.

3.12.11 Process incoming Visitor Access Requests (VARs).

3.12.12 Assist PERSEC with granting badges for Agency Sponsored conferences and events, as needed.

3.12.13 Provide weekly reports and metrics to the PM/COR.

3.12.14 Provide Escorts for un-cleared technicians, carpet cleaning, canteen, and cafeteria personnel, as required.

3.13 Entry Control Officer (ECO) and Security Guard Services: The contractor shall:

3.13.1 Exercise good judgment at all times and provides effective, appropriate actions to counteract potential security infractions.

3.13.2 Comply with all government regulations and procedures.

3.13.3 Report to Government POC any improper, or suspicious behavior/activities within the work areas, courtyards, or in DTRA parking lots.

3.13.4 Report if prohibited items, identified in the Prohibited Items Policy are being brought into DTRA facilities.

3.13.5 Comply with DTRA security policies at all times.

3.13.6 Answer telephone calls, acknowledge each person, respond to inquiries or take messages and/or contact appropriate sponsor or POC. Utilize government-provided communication equipment, such as radios or cellular phones, in a professional and efficient manner.

3.13.7 Notify J3/5/8 FP of all concerns, questions, events, incidents, etc.

3.13.8 Validate clearances of visitors and incoming personnel and issue appropriate badges.

3.13.9 Ensure that all personnel entering DTRA facilities are in possession of a valid DTRA security access badge.

3.13.10 Establish positive identification by visually checking the badge photo with the individual possessing the badge. May require checking other forms of identification.

3.13.11 Verify the visitor's identification from a Government issued picture ID, validate visitor clearance status, and process badges utilizing the automated security database, when a security clearance cannot be validated, the visitor's information shall be added to the Visitor Register Log and issued an "Escort Required" Badge.

3.13.12 Ensure badges are available in advance based on lists or requests for conferences, meetings, VIP, etc.

3.13.13 Ensure all badges are properly turned in or invalidated when the individual no longer is granted or needs access. All turn-ins shall be annotated in the proper badge log.

3.13.14 Determine if security access badges are currently valid. If expired or otherwise invalid, deny entry, confiscate the badge and advise the individual to call the DTRA Visitor Control Office.

3.13.15 Check security access badges for obvious visual discrepancies. If discrepancies are noted, deny entry, detain the individual, and contact the DTRA Visitor Control Office for further instructions.

3.13.16 Determine condition of security access badges. If it is frayed, worn, or badly mutilated, instruct the individual to call the DTRA Visitor Control Office.

3.13.17 Deny access to DTRA personnel or visitors who forget their badges until their clearance and identity can be verified by cross checking the individual's identification card (Military or Civilian) against the security database. The DTRA Visitor Control Office will resolve any problems once clearance and identity have been verified and contractor can issue the appropriate temporary badge and allow entry.

3.13.18 Issue a temporary badge with a "0" to visitors and other personnel without appropriate DTRA Facility access. These personnel must be escorted by a permanent DTRA employee to gain access

to the facility and must be escorted at all times while in DTRA facilities. Once clearance and identity have been verified, contact the permanent DTRA employee via phone and have them come to the Entry Control Point (ECP). Have both parties fill out their appropriate entries on the visitor log completely and legibly written/printed.

3.13.19 Brief sponsors of visitors issued “Escort Required” badges, on their responsibilities as escorts for unclear personnel.

3.13.20 Immediately contact team lead for any situation and issues prior to taking any action if no policy is in place or if uncertain of how to deal with them.

3.13.21 Provide Entry Control and Guard services in TS/SCI cleared spaces, as applicable.

3.13.22 Conduct scheduled patrols of designated facilities every four hours, including nights, weekends, and holidays. Patrols shall be conducted on foot and/or by government-provided vehicle.

3.13.23 As required, operate government-provided vehicles in a safe and responsible manner to conduct patrols and respond to incidents. Adhere to all applicable insurance requirements, traffic laws and regulations (ref: PWS section 3.23.1).

3.13.24 Process incoming Visitor Access Requests (VARs).

3.15 Insider Threat (InT) Support: The contractor shall:

3.15.1 Demonstrate ability to identify and report indicators of insider threat events; analyze network traffic, system log files, User Activity Monitoring (UAM) data, and other artifacts to determine potential risk indicators, insider threat activities, and/or policy violations with insider threat implications and identify vulnerable computers or systems that may be used for data compromise.

3.15.2 Perform analytical support, draft no fewer than two (2) referrals a week, and properly document steps taken to assist inquiries into behavior deemed within the scope of insider threat; namely threats to DTRA personnel, technology infrastructure, information, and facilities.

3.15.3 Prepare and deliver briefings on topics relevant to Insider Threat to a variety of personnel and upper-level management as needed.

3.15.4 Respond to internal DTRA and external requests for information within assigned suspense dates.

3.15.5 Maintain functioning information-sharing relationships within the insider threat hub as well as insider threat working group members from Counterintelligence, Personnel Security, Information Technology, Office of General Counsel, Office of Inspector General, and Human Resources as needed.

3.15.6 Provide weekly status reports documenting work accomplishments and any occurrence of events with Insider Threat implications, including but not limited to: unauthorized use of information systems, transmissions of sensitive/classified information outside of government-controlled networks, hacking and penetration attempts from within.

3.15.7 Receive periodic training in the proper use, retention, and safeguarding of all insider threat related information.

3.15.8 Have attended, or within six months of hire be registered to attend, the National Insider Threat Task Force Insider Threat Hub Operations Course. Extensions may be granted by the Insider Threat Program Manager if class dates are not available within the six-month time frame.

3.15.9 Be certified, or within six months of hire be registered to take, the Counter Insider Threat Professional certification exam in order to become a certified Counter Insider Threat professional. Extensions may be granted by the Insider Threat Program Manager if test dates are not available within the six-month time frame.

3.15.10 Become familiar with the laws and regulations governing privacy, use, and protection of personal information, and the civil rights and civil liberties of individual employees.

3.15.11 Have significant experience and skill in one or more of the following areas: Security, Counterintelligence, and Information Assurance/Cyber Security, and understand security and counterintelligence principles, techniques, and tools which will be employed to analyze information and resolve insider threat concerns that surface through the analysis of the information that is received by the hub.

3.15.12 Safeguard inquiry information, to include appropriate limitations on access and use. Be trained on all applicable laws and policies and the consequences of misuse of information for personal or other unauthorized purposes and sign nondisclosure agreements and an acknowledgment of governing policies and standard operating procedures.

3.15.13 Regularly review travel data for conduct that might be indicative of inappropriate insider threat activities.

3.15.14 Use the UAM solution per the CNSSD 504 to analyze highly detailed computer user activity data and provide it to the hub as an information source for inclusion in the hub's analytical process to detect insider threats. Utilize UAM solution for near-real-time review of computer user activities on a host computer to assist in inquiries. Use UAM solution to provide clear, non-refutable evidence of specific user actions on his/her host computer.

3.15.15 Use the UAM solution per the CNSSD 504 to observe and analyze the actions and activities of an individual on any device accessing U.S. Government information in order to detect insider threats and support authorized inquiries and investigations.

3.15.16 Insider Threat Personnel Security Specialist will act as the liaison between the Insider Threat Program and Personnel Security. The execution of these duties will be in support of the Insider Threat Program and will encompass all aspects of section 3.5, Personnel Security Support.

3.16 Science and Technology (S&T) Protection Specialist. The contractor shall

3.16.1 Safeguard DTRA and RDT&E information from unauthorized disclosure to Foreign Intelligence Entities (FIE) and/or other unauthorized interests through the DTRA Research and Technology Protection (RTP) Program.

3.16.2 Provide Security support to all RDT&E and Supply Chain Risk Management (SCRM) efforts facilitated by DTRA. Assist in the development of the PPP IAW DoDD 5200.39 for all assigned DTRA-facilitated experiments and test series. Prepare SCRM information reports for DTRA customers, as requested.

3.16.3 Work with customers to help identify and protect CPI and Critical Technology Information (CTI). Provide training opportunities for all DTRA personnel to understand and apply methodologies to determine CPI/CTI. Ensure horizontal identification and protection, utilizing the Acquisition Security Database (ASDB) when conducting horizontal identification and protection analysis, input and validate program information, including inherited and organic CPI, into the ASDB. Provide SCRM related training to DTRA personnel, as required.

3.16.4 Conduct liaison and coordinate with local law enforcement entities at test locations for added information and protection of test personnel and information. Also, liaison with Defense Intelligence Agency Supply Chain Risk Management Tactical Analysis Center (DIA SCRM TAC) personnel, DTRA Trusted Systems and Networks/SCRM Program Manager.

3.16.5 Manage and track all DIA SCRM TAC Threat Assessments, Internal Threat Assessments, and Quick Look reports.

3.16.6 Conduct security reviews of contracts and awards at academic institutions, national laboratories, and independent research centers doing work or research for DTRA.

3.16.7 Provide a Limited Threat Vulnerability Assessment (LTVA) for each test location and each variation of test conducted by DTRA RDT&E personnel. Provide the threat assessment to test team members and/or the PM. Make security recommendations as necessary.

3.16.8 Provide any necessary information requested by test team leaders and/or PM. Coordinate support with other DoW Agencies or offices as necessary to protect DoW assets. Facilitate liaison support between DoW CI organizations and RDT&E test personnel.

3.16.9 Write Weekly Activity Reports for leadership.

3.16.10 Conduct open-source analysis on commercial, industrial, and academic institutions.

3.16.11 Conduct classified analysis regarding foreign influence, foreign control, and foreign exploitation of personnel and companies doing business with DTRA.

3.16.12 Conduct Quick Look Analysis for DTRA customers regarding companies and personnel with connections to the organization.

3.16.13 Analyze supporting Agency vendor and researcher due diligence requirements and operations to determine impacts of foreign ownership or controlling influence.

3.16.14 Utilize Open-Source tools and methods to identify trends, patterns, or persons to fulfill requirements; coordinates pertinent information closely with Agency Directorates, and others as required.

3.16.15 Prepare briefings and written products, disseminate current information through various written and automated means. Generate recurring reports for use by Agency leadership and research professionals to enable informed risk-based decisions.

3.16A Security Analyst (S&T) Protection. The contractor shall

3.16A.1 Develop knowledge of DTRA operations as they pertain to Research, Development, and Acquisition activities

3.16A.2 Perform basic tasks in coordinating and processing DTRA and external agency Critical Program and Technology requirements and initiatives.

3.16A.3 Work with customers to help identify and protect CPI and CTI. Provide training opportunities for all DTRA personnel to understand and apply methodologies to determine CPI/CTI. Coordinate with external agencies and/or research stakeholders to validate program information, including inherited and organic CPI and ensure horizontal protection measures are implemented. Provide SCRM related training to DTRA personnel, as required.

3.16A.4 Plan, track, synchronize, and participate in S&T Protection assessment teams and/or working groups with Agency stakeholders and external agencies as required (External Agencies include but not limited to Department of Energy, Department of Defense, and Federal Law Enforcement agencies).

3.16A.5 Conduct reviews of contracts and awards at academic institutions, national laboratories, and independent research centers doing work or research for DTRA.

3.16A.6 Provide technical decomposition support to Agency RTP initiatives to identify organic and non-organic CPI and components and sensitive technological elements.

3.16A.7 Consult with Agency Program/Project Managers to develop and implement RTP protection policies, procedures and guidelines to protect classified or sensitive technological elements and mitigate program vulnerabilities.

3.16A.8 Research internal and external data sources to gather, synthesize and perform analysis of information to identify potential threats and determine potential detrimental impact to DTRA S&T efforts. Identify relevant sources for data acquisition on to include but not limited mass media, specialized journals, studies and conference proceedings. Generate detailed yet succinct customer tailored analytical reports that support S&T protection due diligence requirements. Brief findings to DTRA customers to facilitate the ability to make accurate informed risk-based decisions to support S&T protection initiatives within DTRA.

3.16A.9 Work collaboratively with existing DTRA and external agency analysts (i.e., All Source, and CI) in researching, monitoring and analyzing pertinent data. Provide preliminary security recommendations based on the identification of threat data.

3.16B S&T OPSEC Specialist. The contractor shall:

3.16B.1 Be responsible for security functions focused on protecting the Agency's critical information through OPSEC and Science and Technology (S&T) Protection.

3.16B.2 Demonstrate knowledge of Operations Security (OPSEC), with a strong understanding of fundamental security principles, concepts, policies, and procedures.

3.16B.3 Incorporate research, development, and acquisition of cutting-edge technologies and operational techniques utilized by SOF units.

3.16B.4 Support and implement OPSEC programs, including conducting assessments or surveys.

3.16B.5 Develop and maintain processes to identify and mitigate indicators of U.S. intentions, capabilities, operations, and activities.

3.16B.6 Advise leadership on countermeasures to deny adversaries access to critical information.

3.16B.7 Provide security support for Research, Development, Test, and Evaluation (RDT&E) and Supply Chain Risk Management (SCRM) efforts.

3.16B.8 Consult with Program and Project Managers to create and implement Research and Technology Protection (RTP) policies and guidelines.

3.16B.9 Conduct security reviews of contracts and awards with academic institutions, national laboratories, and research centers.

3.16B.10 Utilize Open-Source tools and methods for analysis to identify trends, patterns, and associations.

3.16B.11 Conduct analysis to support due diligence for vendors and researchers.

3.16B.12 Collaborate with internal and external agency analysts (e.g., All-Source, CI).

3.16B.13 Plan, track, and participate in S&T Protection working groups.

3.16B.14 Prepare and present briefings and reports to leadership as required.

3.16B.15 Provide OPSEC training and support to the Public Affairs Office and other parts of the organization as required.

3.17 Operations Support Specialist. The contractor shall:

3.17.1 Coordinate and conduct all clerical, administrative, personnel, and miscellaneous support duties assigned by the Office Chief, Deputy Chief, or Designated Representative.

3.17.2 Support Events, Conferences, and Meeting Planning activities: Arrange for meetings and conferences by reserving space, setting specific times, and contacting attendees. Transmit agenda and background materials to participants and advise them of topics to be discussed.

3.17.3 Perform Records Management; file records and correspondence, and maintain proper files and administrative records.

- 3.17.4** Manage the storage and disposal of all files, to include excess unclassified and classified materials.
- 3.17.5** Prepare, review, and edit correspondence; must have the ability to edit correspondence with no grammatical errors.
- 3.17.6** Provide support to the Time and Attendance program.
- 3.17.7** Provide support to the Daily Accountability program.
- 3.17.8** Serve as the Receptionist for visitors to the office; announce visitors and direct them to the proper offices, as needed.
- 3.17.9** Post, remove and update documents/information on SharePoint sites, as needed. Assist with general SharePoint requests, and support the SharePoint Lead as required,
- 3.17.10** Track training requirements and completions for all office personnel, if needed.
- 3.17.11** Coordinate all travel activities for Office Chief, Deputy Chief, or Designated Representatives.
- 3.17.12** Assist in the writing/editing/maintenance of Operating Instructions (OIs) and Standard Operating Procedures (SOP) as well as notices and instructions.
- 3.17.13** Draft, review, edit correct and finalize all types of correspondence and documentation, (letters, memorandum, presentations, studies, assessments, and reports) ensuring accuracy, completeness, and conformance with agency formats, policies, and procedures for release or signature.
- 3.17.14** Provide distribution and maintain a transmittal tracking system for all correspondence.
- 3.17.15** Manage mail requirements. Check the mailbox daily and distribute it accordingly. Sign for FEDEX/UPS packages when they are delivered and the specific addressee is not available.
- 3.17.16** Maintain a roster of personnel who can serve as backups. Package, deliver to, and pick up mail from the Mail Room as well as deliver distribution to other Agency/Center offices.
- 3.17.17** Use/Manage the Agency's Enterprise Information System (EIS) automated software tools or follow-on system to review, task, manage, edit, and retrieve action correspondence: Maintain suspense or tasking file as required, receiving, annotating response dates, and forwarding the action to appropriate personnel for action. Perform follow-up to ensure actions are completed in a timely manner or request extensions as necessary. Monitor the progress of assigned suspense actions and ensure deadlines are met with a consistently high level of timely, complete, and administratively correct responses.
- 3.17.18** Act as an intermediary between the Chief/Deputy and their staff if necessary: Ensure instructions and assignments are relayed to appropriate staff and that these individuals have access to the required information, policies, and procedures, both internal and external. Prepare materials for guidance when there are matters to be discussed such as directives, policies, reports, or technical or legislative documents. Maintain liaison with other Agency offices on matters pertinent to office operations.

- 3.17.19** Develop and oversee the implementation of special procedures for expediting actions on important, urgent matters such as White House, Secretary of Defense, Deputy Secretary of Defense, and Congressional inquiries or tasking; monitor progress on assigned matters and keep the Chief and Deputy Chief updated regarding the status.
- 3.17.20** Manage the use, parts, supplies, maintenance, and work orders pertaining to equipment in the offices of the Chief and Deputy Chief and in the front office. Also, manage the stock of supplies in the front office supply cabinet, performing inventories and ordering items as necessary.
- 3.17.21** Responsible for the receipt, control and proper routing of classified material. Maintain the contents of the classified safe in the front office in accordance with the files management system.
- 3.17.22** Responsible to prepare, consolidate, finalize, and submit input to staff meetings, activity reports, and other recurring or special reports. Prepare, review, edit, and ensure proper reporting extract data from lengthy reports, and arrange material in appropriate form to facilitate use.
- 3.17.23** Develop directories, lists, rosters, special notes of dates and events to remember, and other organizational reference material.
- 3.17.24** Perform end of day security checks.
- 3.17.25** Maintain Alert Notification and Recall rosters; update and disseminate them monthly to all the offices that require them.
- 3.17.26** Provide administrative and technical support to the Chief, Deputy, and other office supervisors for personnel actions; maintain records of civilian and military details and temporary or rotational assignments. Assist the Chief, Deputy, and other office supervisors by overseeing the preparation and coordination of personnel actions.
- 3.17.27** Ensure forms and supporting documents are prepared, packaged, and submitted in accordance with applicable DTRA administrative instructions.
- 3.17.28** Prepare staffing summaries, organizational charts, rosters, and personnel reports, including leave and temporary duty (TDY) reports. Undertake special assignments of a confidential nature for the Chief, Deputy, and other office supervisors, ascertaining previous actions taken and drafting narrative statements. Special projects may involve personnel actions, requests for information for outside sources, organizational realignment, letters of recommendation, request for employment, award recommendations, and/or classified program research.
- 3.17.29** Support the management of the Requirements and Staffing manning documents to ensure accuracy and track the status of manpower and recruiting actions. Initiate, develop, and maintain in-house administrative management, personnel, training, and budget databases. Support the in-processing of new civilian, military and contractor personnel, if needed. Maintains program administration procedures.
- 3.17.30** Manage the internal in and out-processing system, to include checklists, addition to appropriate email groups, distribution groups, alert and recall rosters, and office calls.
- 3.17.31** Review internal administrative processes and recommends solutions to improve administrative efficiency.

3.17.32 Support the Personnel Security Office, if needed:

- a. Use access control system to determine appropriate security clearance and/or SCI eligibility to grant access to DTRA facilities and information.
- b. Review and process hiring nomination packages to determine they are complete, detect anomalies, and process for designated position sensitivity levels.
- c. Maintain/Update step-by-step processes for visitor services and SOPs for Government PM/COR approval.

3.17.33 Support the Special Security Office, if needed:

- a. Record completion rates of the required annual SCI refresher training(s)
- b. Provide files and record Maintenance.
- c. Provide administrative data entry.
- d. Prepare Fixed Facility Checklists (FFC) and TEMPEST Addendums and modify as needed for each DTRA SCIF.

3.18 Security Specialist (Generalist) The Contractor shall:

3.18.1 Take SPeD security training as directed for area of focus.

3.18.2 Develop, present and facilitate designated Security training as directed for any and all security disciplines, to include Information Security, OPSEC, Personnel Security and AT/FP.

3.18.3 Conduct face-to-face Security training for new Agency personnel. Also, provide custom-tailored designated Security training throughout the Agency as requested and required.

3.18.4 Conduct SCI Briefings and Debriefings when appointed as a Contractor Special Security Officer (CSSO)

3.18.5 Conduct designated Security assessments of sub-components and support elements covering any and all security disciplines, to include Information Security, OPSEC, Industrial Security and AT/FP.

3.18.6 Provide support with the execution of the Agency's Information Security Program (ISP), which includes the classification/declassification program and security education and training programs.

3.18.7 Provide support to the Agency Automatic Declassification Program. Establish contacts and display proven ability in the Automatic Declassification community.

3.18.8 Collaborate with DTRA Directorates and Field Offices, and with the Chief, Security and Counterintelligence, and/or government PM to develop, coordinate and publish DTRA security procedures and documents.

- 3.18.9** Conduct security reviews of Agency documents being considered for public release through the Agency's Public Affairs Office.
- 3.18.10** Develop products for the security education and awareness training program.
- 3.18.11** Support Foreign Disclosure Office and Public Affairs by reviewing information submitted to both offices to identify any OPSEC concerns.

3.19 Access Control/Physical Security. The contractor shall:

- 3.19.1** Process DTRA Form 3, Renew badges and verifying for courier cards.
- 3.19.2** Perform DTRA badge initial activations, re-activations, and de-activations for agency personnel in the Lenel systems.
- 3.19.3** Receive and process returned badges and Courier cards from Personnel Security.
- 3.19.4** Process Courier Cards as required, verifying and accept DTRA Form 95 and DTRA Form 71.
- 3.19.6** 3.19.5 Scan all documentation and forms associated with courier cards and upload the files to the appropriate folder on the J-drive.
- 3.19.7** Process DTRA Form 247 authorized by the DTRA Security Manager, to grant access to the personnel authorized access to Classified / Restricted Areas. Must have on file.
- 3.19.8** Process DTRA Form 4. This grants DTRA personnel authorized access to Classified / Restricted Areas as requested by the Security Manager.
- 3.19.9** Coordinate with Front Lobby Access Control in person or by phone to verify proper badge assignment for agency personnel and visitors.
- 3.19.9** Maintain spreadsheet on badges issue, re-activations, and de-activations.
- 3.19.10** Unlock access doors to Restricted Areas when needed.
- 3.19.11** Activate and deactivate DTRA Employees badge access to DTRA Top Security spaces located within the facility as needed.
- 3.19.12** When required, secure Top-Secret documents.
- 3.19.13** When required, make Top Secret burn bags runs.
- 3.19.14** When required, participate in Top Secret conversations during Physical Security Team meetings.

3.20 Security Specialist Physical Security. The contractor shall:

- 3.20.1** Process DTRA Form 3 and Renew badges.
- 3.20.2** Perform DTRA badge initial activations, re-activations, and de-activations for agency personnel in the Lenel systems.
- 3.20.3** Receive and process returned badges and Courier cards from Personnel Security.
- 3.20.4** Process Courier Cards as required, verifying and accept DTRA Form 95 and DTRA Form 71.
- 3.20.5** Process DTRA Form 247 authorized by the DTRA Security Manager, to grant access to the personnel authorized access to Classified / Restricted Areas. Must have on file.
- 3.20.6** Process DTRA Form 4. This grants DTRA personnel authorized access to Classified / Restricted Areas as requested by the Security Manager.
- 3.20.7** Coordinate with Front Lobby Access Control in person or by phone to verify proper badge assignment for agency personnel and visitors.
- 3.20.8** Maintain spreadsheet on badges issue, re-activations, and de-activations.
- 3.20.9** Unlock access doors to Restricted Areas, as needed.
- 3.20.10** Responsible for activating and deactivating DTRA Employees badge access to DTRA Top Security spaces located within the facility.
- 3.20.11** When required, secure Top Secret documents.
- 3.20.12** When required, make Top Secret burn bags runs.
- 3.20.13** When required, participate in Top Secret conversations during Physical Security Team meetings.
- 3.20.14** Scan all documentation and forms associated with courier cards and upload the files to the appropriate folder on the J-drive.
- 3.20.15** Conduct alarm testing on DTRA Open Storage facilities when required.
- 3.20.16** Submit PHYSEC related DLA help ticket workorders, as needed.
- 3.20.17** Assist with conducting Open Storage accreditations when required.
- 3.20.18** Attend Physical Security Buildout meetings and take notes as needed.
- 3.20.19** Complete all necessary accreditation documentation when required.
- 3.20.20** Assist PHYSEC with conducting RAMs as needed.
- 3.20.21** Conduct Physical Security Inspections/Surveys of DTRA Collateral areas IAW DoD 5200.1R as needed.

3.21 Staff or Replace with Qualified Contractor Personnel

3.21.1 Contractor Site Leads

The contractor must designate Security Support Leads (Referred to as Site Lead in this document) for the NCR, and a Site Lead for field office Kirkland AFB. The site leads shall distribute workload to the contractor employees and must be responsible for the contractor's performance of the work at the DTRA locations. The Site Leads will be the contractor's interface with the COR. The name of the contractor Site Leads for each location, and an alternate(s), who must act for the contractor when the Site Lead is absent, shall be designated in writing to the Contracting Officer (KO). The NCR Site Lead shall be located at the HQ DTRA, Fort Belvoir, VA, and shall attend regular weekly meetings, and provide reports, as requested. The Operations Support and Senior Site Lead position will serve as the site lead for the NCR area. Daily work assignments for DTRA locations and communications with the contractors will be accomplished verbally, by phone or e-mail from the government lead for the discipline in which the contractor works. The Site Leads or their designated alternatives must work with the COR to resolve problems that may occur at both the NCR and other DTRA locations. The Leads shall perform duties specific to their discipline as well as the Site Lead duties.

3.21.2 Appearance of Contractor Employees

DTRA on-site contractor staff represent DTRA core values to visitors, dignitaries, and civilian, contractor and military colleagues, and other tenant organizations. With the exception of attire requirements for identified special occasions at the geographically separated unit performance location, communicated by the performance location lead, DTRA on-site contractor staff shall be professional, both in demeanor, and appearance, and suitably attired, on most occasions in business casual. Occasionally business formal attire may be necessary. Any dispute regarding the professionalism of the contractor's on-site staff shall be referred to the COR and contractor's performance location site lead for immediate resolution.

3.21.2.1 The contractor Locksmith (Section 3.10) shall be attired in khaki trousers and polo type shirt with collar while performing duties at DTRA.

3.21.2.2 The contractor must provide personal property equipment for escorts required for construction requirements such as a hard hat, safety shoes, ear protection and safety glasses.

3.21.3 The contractor must not employ personnel for work on this contract if such employee is considered by the Contracting Officer to be a potential threat to the health, safety, security, general well-being, or operational mission of the installation and its population.

Note: FAR 37.114 requires that contractor personnel attending meetings, answering phones, and working in other situations where their contractor status is not obvious, are required to identify themselves as such to avoid creating the impression that they are Government employees. It is requested that contracted employees add the name of their employer into the signature block of their DoW emails. (i.e. – “vendor” Contractor Employee”)

3.22 Security Requirements

3.22.1 Security Clearances. The contractor shall possess the appropriate facility clearances and all personnel assigned to the contract shall have the following clearance levels:

TOP SECRET//SCI

Senior Program Manager/Site Lead
Special Security Office (SSO)
Special Access Program (SAP)
Foreign Disclosure (FD)
Antiterrorism/Force Protection (AT/FP)
Information Security (INFOSEC)
Industrial Security (INDSEC)
Operations Security (OPSEC)
Physical Security (PHYSEC)
Physical Security/Locksmith Services
Escort Services*
Physical Security/Access Control Support*
Entry Control Operations (ECO)/Security Guards*
Insider Threat Program (InT)
Science and Technology (S&T) Protection Specialist
Security Analyst (S&T) Protection
S&T OPSEC Specialist
Operations Support Specialist
Security Specialist Generalist
Security Guards*
Personnel Security (PERSEC)*
* As needed on case-by-case basis.

SECRET

Physical Security/Access Control Support
Escort Services

All contractor personnel with Top Secret//SCI clearance must comply with IC Directive (ICD) 704 eligibility to meet SCI access requirements of the contract. The contractor shall comply with the information specified in the Contract Security Classification Specification (DD Form 254).

The contractor shall possess and maintain a SECRET facility clearance granted by the Defense Security Service (DSS). Contractor personnel performing work on this contract shall be U.S. citizens and shall have been granted a minimum of a SECRET security clearance. The contractor shall comply with all terms of the Security Agreement (DD Form 254), including the 32 CFR Part 117 (previously known as the NISPOM), and any revisions to that manual.

The contractor shall ensure that all contractor personnel possess the required security clearance (see above list) before reporting to work. The contractor shall provide all forms and information, apply for clearances, and shall be responsible for any expense incurred in obtaining security clearances for the contractor employees.

The contractor shall comply with DTRA's security policy in the handling or transporting of CUI, sensitive, or classified items. In addition, the contractor shall ensure appropriate measures are followed in order to secure DTRA storage facilities during and outside of normal operational hours. The contractor shall maintain physical security of all Government owned supplies, material, or equipment in his custody.

(CUI) The contractor shall not release information regarding the DTRA J3/5/8 FP infrastructure to anyone outside the Agency without prior authorization of the COR.

(CUI) Coordination with any public and private entities outside of DTRA or on behalf of DTRA shall be made only with prior authorization by the COR. All correspondence of this nature will be brought to the attention of the COR, and any email correspondence will be forwarded to the COR.

(CUI) Certain contractor employees (e.g., SAP) may be required to undergo an initial and/or random counterintelligence scope polygraph to maintain their position with the Agency. If a particular position is determined to require a counterintelligence-scope polygraph, the contractor will be notified. If a designated contractor employee fails or does not take the counterintelligence-scope polygraph, they may be removed from the contract.

Restricted Data (RD). Contractors who require access to RD/FRD/CNWDI material and information to perform official duties will require a final U.S. government security clearance and briefings. This information is classified and is controlled under the Atomic Energy Act of 1954. Overall security oversight for RD and FRD is under the cognizance and control of the Department of Energy. Contractor personnel given access to RD and FRD shall be knowledgeable of requirements in 10CFR1045, "Nuclear Classification and Declassification," and DoD Directive 5210.2, "Access to and Dissemination of Restricted Data," and shall be trained IAW 10CFR1045.35(a).

3.22.2 The contractor's employees performing work at DTRA shall require unescorted entry into work areas wherein special entry controls have been established for the protection of classified information. Before any contractor employee performs work at DTRA, the contractor shall verify and submit written proof of security clearance information (Visit Authorization Letter (VAL)) to the DTRA Security Office. The VALs for collateral security clearance shall be in print and IAW the requirements set forth in 32 CFR Part 117 (previously known as the NISPOM) and be submitted to the DTRA Security Support Branch (Visitor Control). The term of the VAL shall be for the term of the contract.

3.23 Training, Insurance, and Certifications

3.23.1 Contractor Responsibility. The contractor shall, without additional expenses to the Government, obtain all licenses, insurance and certifications required to perform the work within or outside the DTRA facilities and shall comply with all applicable federal, state, applicable military installations and local laws. See Clause 52.228-10 for more information regarding vehicular and liability insurance requirements. The contractor shall ensure that all personnel are properly trained and competent to perform the assigned tasks. The contractor personnel operating Government vehicles shall have a valid driver's license, and shall comply with all applicable installation, federal, state, and local driving laws. The contractor shall ensure a copy of all training certificates and licenses are kept on file and a copy provided to the COR when the assigned contractor personnel report to work. All renewals of certificates and licenses must be kept current, and a copy provided to the COR within five (5) days after renewal.

3.23.2 Special training will be required for all contractor employees in the area of security systems, emergency and preventive security procedures, and other security procedures and equipment used in the performance of duty. The contractor will ensure that all personnel obtain training necessary to perform their duties effectively. Prior to in-processing, all contractors must be provided the NATO brief, take the Personal Identifiable Information (PII) and Cyber Awareness training, and provide the certificates to DTRA PERSEC staff for in-processing. All contractors will take the following online courses on an annual basis through the Learning Management System: Antiterrorism Level I, Cyber Awareness Challenge, Information Security (Refresher after initial course), CUI Training, Ethics, Operations Security, and Counterintelligence Awareness (CIAR) training. All training will be completed within 30 days of hire, and annually thereafter. The government may assign additional annual training or DTRA-specific training as required. Contractor employees performing duties under this SOW

must have the minimal acceptable level of training. Exceptions may be granted if in the best interest of the government, but skills will be acquired within one year of assignment to DTRA at no cost to the government. Contractor employees may be required to attend training identified by the Chief or Deputy during the course of the contract. Such government directed training shall be at government expense for tuition, labor, and required travel expenses.

3.24 Safety Requirements and Reports

DTRA maintains a policy of zero work-related accidents/injuries and zero items damaged. The contractor shall develop and implement an active safety program NLT 30 days after contract award, which includes ensuring the proper use of contractor provided personal protective equipment not limited to, but including steel-toed shoes, goggles, and gloves (**CDRL A001**). The contractor shall update the Safety Program document annually, and as needed. The contractor shall report any accidents/injuries/damage to the COR immediately. The contractor personnel shall comply with DTRA Directive 4715.1 – Environmental, Safety and Occupational Health Program. (DTRA will provide a copy of this Directive.)

The contractor shall ensure all employees are knowledgeable, trained, and in compliance with all applicable safety requirements, OSHA standards, DTRA standards, Federal, State, and local laws and regulations. The contractor shall report in the manner and on the forms prescribed in the safety plan (currently DTRA Form 9) all accidents involving injury or property damage to the COR and Safety office. Verbal notification shall be provided to the COR within one hour of occurrence. Copies of accident reports shall be provided to the COR and Safety office within 24 hours of occurrence.

3.25 Fire Protection

The contractor shall ensure that its personnel are familiar with fire procedures IAW Department of Defense Instruction (DoDI) 6055.06. Contractor employees shall fully cooperate with the Fire Department in the performance of fire drills.

3.26 Environmental Protection

The contractor shall comply with all applicable environmental protection requirements IAW Title 40 CFR 264.16 and with all applicable Title 40 CFR, Federal rules/regulations, DTRA rules/regulations, State rules/regulations and all other applicable rules/regulations. All environmental protection issues shall be coordinated with the COR. Inspection of any of the facilities may be accomplished by DTRA's Environmental Protection Specialist or by other authorized officials without advance notice at any time.

3.27 Physical Security

3.27.1 Safeguarding Government Facilities, Equipment and Materials

The contractor shall be responsible for safeguarding all Government equipment, information and property provided for contractor use. At the close of each work period, Government facilities, equipment, and materials shall be secured.

3.27.2 Key Control

The contractor shall establish and implement methods of making sure all keys/key cards issued to the contractor by the Government are not lost or misplaced and are not used by unauthorized persons.

NOTE: All references to keys include key cards. No keys issued to the contractor by the Government shall be duplicated. The contractor shall develop procedures covering key control. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The contractor shall recover and surrender all access badges, building access keys, and all other Government building access credentials from employees who leave the contract one (1) business day prior to employee

leaving. The contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the KO.

3.27.2.1 In the event keys assigned to contractor personnel, other than master keys, are lost or duplicated, the contractor shall, upon direction of the KO, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due the contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payment due the contractor.

3.27.2.2 The contractor shall prohibit the use of Government issued keys/key cards by any persons other than the contractor's employees. The contractor shall prohibit the opening of locked areas by contractor employees to permit entrance of persons other than contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the KO.

3.27.2.3 The contractor shall control access to all Government provided lock combinations to preclude unauthorized entry.

3.28 Hours of Operation

3.28.1 Normal Hours of Operation

The contractor shall support the J3/5/8 FP's operations during the core Government hours 52 weeks a year. Each contractor employee shall establish and schedule an 8 ½ or 9-hour duty work period approved by the government lead & COR. Contractor employees may temporarily alter work hours or schedules based on work tempo, with approval from government lead & COR. Contractors in key personnel positions may be required to work alternate shifts necessitated by assigned tasks. The standard schedule must encompass the DTRA core hours of 9AM to 3PM (0900 – 1500) and include a one-half or one-hour unpaid lunch break. Contractors will not start work before 0630 or leave prior to 1500 unless approved by the COR. Attachment 2 – Labor Breakout also includes "Normal Business" hour designations by site.

3.28.1.1 Guard Services personnel employed to conduct scheduled patrols of all designated bunkers and facilities at Kirkland AFB will work their assigned shift to ensure coverage 24 hours a day, 7 days a week, 365 days a year.

3.28.1.2 The contractor will provide Escorts for the DLA MWR contracted carpet cleaning vendor twice a year. Exact dates will be provided by DLA at least four to six weeks prior to the start of services. Four escorts are required for carpet cleaning in the DTRC for 12 consecutive nights (10 nights with 2 make-up nights for a total of 12 nights). Make up nights are scheduled in case a regularly scheduled night is postponed or cancelled. The four escorts are needed each night for a total of 4 hours per night (per escort). Escorts will meet the carpet cleaners at the DTRC lobby Visitor Access Desk at 5 PM. The DLA Didlake supervisor will be present to provide the schedule to the carpet cleaners. The DLA Didlake supervisor is cleared and does not need an escort.

3.28.1.3 Escorts for ABQ will escort personnel as required throughout all DTRA facilities.

3.28.1.4 SSO personnel will be used by the SSO as needed to fill positions in any/all DTRC SCIFs. The times of coverage may change as needed.

3.29.2 Overtime and After-Hours Support

After hours and weekend/holiday contract support applies only when special security protocols and/or coverage are necessary. Whenever possible, if work outside of normal business hours or weekend/holiday support is needed to fulfill mission requirements, compensatory time should be employed. Prior to execution, the utilization of compensatory hours shall be coordinated with the Prime Vendor's timekeeper and the onsite manager(s), with written confirmation and approval from the COR.

If use of compensatory time exchange is deemed unsuitable for sustained mission success, as determined by the COR, overtime pay may be authorized. Exempt employees are not authorized to receive overtime pay. Overtime pay for nonexempt employees requires the vendor to provide a proposal for the KO's approval prior to performing any OT work. That written proposal must include the dates and hours of the overtime to be performed, the number of employees working overtime, the reason for the overtime and the fully burdened rate(s) at which the Vendor will charge for overtime labor.

Below are acceptable reasons for the authorization and enactment of overtime labor on this contract:

- (1) Necessary to cope with emergencies such as those resulting from accidents or natural disasters
- (2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting
- (3) To perform tests, industrial processes, laboratory procedures, and loading or unloading of transportation conveyances

3.25.3 Government Recognized Holidays

New Year's Day	Labor Day
Martin Luther King's birthday	Columbus Day
President's Day	Veterans Day
Memorial Day	Thanksgiving's Day
Juneteenth	Christmas Day
Fourth of July	

3.30 Government-Furnished Equipment/Materials/Property (GFE/GFM/GFP)

3.30.1 Contractor Purchased Government Material

If the contractor is required to purchase any Government Furnished Material (GFM), all purchases of hardware and software shall be IAW the procedures of FAR Part 45 and the Defense FAR (DFAR), shall require COR approval to purchase, and shall be considered Government Property. As such, all care, maintenance, and considerations apply the same as it would for GFE hardware or software. The contractor shall be liable for Government Property in their possession pursuant to FAR 52.245-1, as applicable.

3.30.1.1 Government Furnished Material for Contractor Use On- and Off-site

DTRA may provide Government equipment to the contractor for use onsite and offsite. The Government shall provide Sensitive Compartmented Information Facility (SCIF) workspaces, office facilities, equipment (desks, computers, phones, printers), and access to classified networks for the preparation and storage of SCI data and any SCI document annexes associated with the efforts described in this PWS. The contractor shall comply with the contract clauses for accountability of Government Property in the possession of contractors. The Master Government Property List (MGPL) shall be updated at the time any new equipment is issued to the contractor by the government (**CDRL A007**).

The MGPL shall include all equipment/property provided to the contractor, including equipment transferred between projects, broken and obsolete equipment, and items purchased outside the United States.

The MGPL shall be delivered electronically in a spreadsheet using Microsoft Office Excel. Abbreviations are not allowed.

Ninety (90) days prior to Contract expiration, the contractor shall submit a final MGPL suitable for closeout purposes containing use/disposition recommendations.

The contractor shall keep and provide to the Government records of maintenance and damages of GFM and GFP (**CDRL A007**). The contractor shall ensure that all areas are left in a clean and orderly condition at the end of each business day.

3.30.2 Other Direct Costs (ODCs)

ODCs are reimbursable costs for items not provided as GFE, supporting performance (per FAR 31.205 and DFARS 231.205).

Allowable ODC Category	Examples	Annual Cap	Approval Process
Specialized Tools/Software	Commercial tools; software licenses	≤\$500K	COR (30 days pre-purchase) + KO approval over annual cap
Personal Protective Equipment	E.g. Boots, hard hats, etc.	≤\$10K	COR provisional; KO final for recurring
Training and Certification	Certification exam fees for team	≤\$10K	COR provisional; KO final for recurring

ODC Guidance: Submit requests to COR (via Onsite Lead) 30 days pre-purchase with justification, cost estimate, and alternatives. No ODCs for general overhead. Track via monthly ODC reports (Excel with receipts, due on the 10th of following month). Reimbursement: Actual/allowable costs with 5% admin fee cap; audit rights per FAR 52.216-7. The Onsite Lead shall certify ODC requests for necessity and compliance. (CDRL A008)

3.30.3 Operation of Government-Owned Vehicles.

The contractor shall operate Government-owned vehicles to transport commercial express, ground materials, distribution, furniture, mail, small parcels, and all items as required between all locations required. The contractor shall inspect and perform routine maintenance/service for these vehicles when they drive them. The contractor shall keep records of maintenance and damages of the vehicles discovered as a result of inspections (**CDRL A007**). The contractor shall report utilization records of miles driven and fuel used each month. Contractor employees operating the Government-owned vehicles shall have current and valid driver's licenses. Contractor employees shall ensure the all Government-furnished vehicles are locked to provide adequate security (DoD 5200.1-R) and protection from the elements for materials being transported.

3.31 Contractor-Furnished Items and Services

Except for those items or services specifically stated in section 3.30.1.1 as Government furnished, the contractor must furnish everything needed to perform this contract according to all its terms.

3.32 Travel Requirements (CONUS and OCONUS)

Contractor employees may be required to travel up to 25 percent of the time. Contractor employees may be required to travel with less than 48-hours' notice (short notice) in support of DTRA missions. Contractor employees may be required to travel to attend national level conferences, meetings or symposiums in support of DTRA missions or to participate in DTRA exercises or missions. Limited travel may be required for work performed at other DTRA locations and facilities worldwide. Travel will be identified as the need occurs. The contractor is responsible for all medical expenses associated with travel to include necessary immunizations and emergency medical services for and during travel. The contractor should maintain medical insurance on all contractor employees.

3.32.1 The contractor must obtain approval for all travel outside of local travel area in writing from the COR, and submit and track all travel expenses. Any travel outside of local travel area shall follow applicable Federal Travel Regulations. All travel shall be approved by COR in writing (email is acceptable for short notice travel) in advance.

3.32.2 OCONUS Support: The contractor, in conjunction with the Command or Agency staff, will make necessary arrangements for required visits.

3.33 Deliverables

3.33.1 The required Contract Data Requirements List (CDRL) items for this effort are summarized below:

CDRL	PWS Para	Title	Final Due
A001	3.28.2.2	Monthly Financial Report	7 WDAEOM
A002	3.28.2.1	Monthly Status Report	7 WDAEOM
A003	3.28.2.3	Payment History	60 DAEO option year/ contract
A004	3.28.2.4	Closeout Funds Available for Deobligation Report	90 Days DAEO Base/option years
A005	4.5	Transition Plan	90 days prior to contract expiration
A006	4.6	Organizational Conflict of Interest (OCI) Mitigation Plan	60 DACA
A007	3.26	Government-Furnished Equipment/Materials/Property (GFE/GFM/GFP) MGPL	7 WDAEOM
A008	3.30.2	ODC Reports	10 WDAEOM

DACA = Days after Contract Award

DAEOQ = Days after End of Quarter

WDAEOM = Working Days after End of Month

EOFY = End of Fiscal Year

DAEO = Days after End Of

3.33.2 Monthly and Final Reports

3.33.2.1 The contractor shall provide a monthly Status and Performance Report seven (7) working days after the end of each month that provides work completion, status of work in progress, problems encountered, and problems resolved. **(CDRL A002)**

3.33.2.2 The contractor shall provide a monthly Financial Report seven (7) working days after the end of each month that provides, by Contract Line-Item Number (CLIN), the following cost information: 1) hours worked for each employee; 2) travel costs incurred per trip; 3) total funds expended during the month; 4) cumulative total costs expended; and 5) total obligated funds remaining. The monthly reports will map directly to Wide Area Workflow (WAWF), invoices submitted for each active CLIN and indicate the calculations for the monthly contract invoice credit for gaps in contractor performance (if applicable). **(CDRL A001)**

3.33.2.3 The contractor shall provide a Payment History Report not later than sixty (60) days after the end of each contract base/option year that includes all invoice/voucher numbers, date of invoice/voucher, amount billed by CLIN and ACRN and payment amount and date received by CLIN and ACRN for the contract year and cumulative from date of award to the end of current year. **(CDRL A003)**

3.33.2.4 The contractor shall submit a **Closeout** Funds Available for Deobligation Report with a copy of the final invoice report within ninety (90) calendar days **after** the expiration of the base period of performance and expiration of each exercised option period of performance (if applicable) **(CDRL A004)**. A bilateral contract/order closeout modification will be forwarded to the contractor by the Contracting Officer and must be signed by the contractor and returned to the Contracting Officer within 30 calendar days of issuance of the modification. **(CDRL A004)**

4.0 Quality Assurance Surveillance Plan (QASP)

The Government shall evaluate the contractor's performance under this contract IAW the Government's Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do to ensure that the contractor has performed IAW the performance standards. The QASP identifies the standards for completeness, reliability, accuracy, timeliness, and quality and how the standards will be assessed. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable quality level(s). For those tasks listed on the Services Delivery Summary (SDS), the Government COR or evaluators will follow the methods of surveillance specified in the QASP and record all surveillance observations. When an observation indicates defective service performance and requests corrective action from the contractor, the COR will require the contract manager or representative at the site to initial the observation. The initialing of the observation does not necessarily constitute concurrence with the observation, only acknowledgment that he or she has been made aware of the defective performance; the contractor shall notify the COR in writing within 24 hours of correction of a discrepancy. If deficiencies are not corrected within the required time frame, the COR shall notify the KO for action. Government surveillance of tasks not listed in the SDS or by methods other than those listed in the QASP (such as provided for by the Inspection of Services clause) may occur during the performance period of this contract. Such surveillance will be done according to standard inspection procedures or other contract provisions. Any action taken by the KO as a result of surveillance will be IAW the terms of this contract.

4.1 Monthly Status Meetings

It is recommended that regularly scheduled monthly meetings are held with the PM, COR, KO, Contract Specialist (CS) and all pertinent personnel from the Vendor's staff (i.e. – team lead(s), contract management, finance, etc.). These meetings will provide an opportunity for all parties to address performance successes, challenges and any potential upcoming changes in staffing or contract elements.

Meetings may be cancelled due to unforeseen conflicts but should resume as regularly scheduled as soon as possible. Written minutes of the monthly meetings will be recorded and included in the contract file. The COR, KO/CS and Vendor will have opportunity to comment on the meeting minutes before they are finalized and signed by the KO or contract specialist. The COR and the Vendor need not wait for these meetings to correspond directly about performance concerns. The KO and/or CS should be included on all direct correspondence so they can maintain situation awareness of contract performance.

4.2 Performance Evaluation Meetings

The KO may require the Site Leads and/or Site Lead Alternates to meet with the KO, CS, COR, and other Government personnel as deemed necessary. The contractor may request a meeting with the KO when he or she believes an additional meeting is necessary. Written minutes of any such meetings must be recorded in the contract and signed by the contract manager and the KO or contract specialist. If the contractor does not concur with any portion of the minutes, such non-concurrence must be provided in writing to the KO within seven (7) calendar days following receipt of the minutes.

4.3 Transition Support

4.3.1 Transition Plan (**CDRL A005**): The Contractor shall provide a plan for thirty (30) days of outgoing changeover for transitioning work from the current contract to a follow-on award. The outgoing transition may be to a new Contractor or to the incumbent Contractor under a new contract. This Transition Plan shall include, but is not limited to:

- a) Requirement to transfer specific knowledge to the new Contractor
- b) Transition coordination with Government representatives
- c) Review, evaluation and transition of current support services
- d) Transition of historic data to new Contractor system
- e) Transfer of all necessary business and/or technical documentation
- f) Disposition of Contractor purchased Government owned assets, (if applicable)
- g) Transfer of Government Furnished Equipment (GFE) and Government Furnished Information (GFI), and GFE inventory management assistance
- h) Turn-in of all government keys, ID/access cards, and security codes

4.3.2 Transition Support: In accordance with the Government-approved Transition Plan, the Contractor shall assist the Government in planning and implementing a complete transition from the incumbent to the successor. The transition support shall include formal coordination with Government staff and successor staff and management. The transition support shall also include delivery of copies of existing policies and procedures, and contract deliverable items.

4.3.3. Transition of contract performance will occur between 28 January and 28 February 2027, from the incumbent contractor to incoming contractor.

4.3.4. If incumbent contract personnel are transitioned from the incumbent contractor to the incoming contractor, the contractors shall consult on the dates of personnel transitioning from one contract to the next to ensure the government is billed only by one contractor for services provided and the government requirements in this PWS are fully met.

4.3.5. The incoming contractor shall coordinate with the incumbent contractor concerning any transition of current lodging and other arrangements from the outgoing contractor to the incoming contractor, keeping the USG apprised of planned arrangements.

4.3.6. The incumbent shall brief and transfer knowledge to the incoming contractor weekly for thirty (30) days prior to contract expiration 28 February 2027. These briefings should include information on selected functions as part of transition, either to support training (shadowing) or actual mission execution, as coordinated with the successor contractor and the government. For any support training (shadowing), the contractors shall coordinate scheduling with on-site government staff to ensure it does not interfere with on-going operations.

4.4 Organizational Conflict of Interest Mitigation

The Government has determined that this contract may give rise to potential organizational conflicts of interest (OCI). The vendor for this requirement will have unique access to DTRA information, beyond that which is typically afforded to commercial and academic entities. The vendor's employees will have access to Government-sensitive and contractor-sensitive / proprietary data as well as to Government employees, equipment, installations and property. Access to this information could potentially provide an unfair competitive advantage to the vendor for future contracts. Moreover, the nature of the work required by this contract could place the vendor in situations where their ability to render impartial advice to the Government could be impaired due to competing interests of the organization at large. Restrictions upon use of Government information and the requirement to protect proprietary information are permanent.

4.4.1 Mitigation Plan (**CDRL A006**): The OCI Mitigation Plan is a living document that the contractor shall at a minimum, evaluate, and revise, if necessary, annually, but more frequent evaluations, and revisions, shall be performed as necessary. The Contractor shall provide a mitigation plan to address conflicts of interest, per the DTRA clause, 252.209-9000. Procedures and safeguards shall be outlined to ensure that any actual, or perceived OCIs, are avoided, neutralized, or alleviated during the performance of the Security Support Services contract.

5.0 Contracting Officer's Representative (COR):

The COR will be nominated by the requiring activity and appointed by the KO by separate letter. A copy of the COR's appointment letter will also be sent to the awarded Contractor, identifying the designated duties and limitations of the COR. The CORs' designated duties will describe the level of responsibility (inspection only – or inspection and acceptance) and what technical or administrative aspects of the contract are to be monitored. The COR's oversight responsibilities are not limited to the QASP since all listed contract requirements or tasks are expected to be met by the contractor at all times. The COR is authorized to conduct oversight on any and all tasks or requirements and report observations to the Contracting Officer. The COR is not authorized to change any terms or conditions in the contract that pertain to cost, schedule, performance, quality, quantity, or other legal aspects of the resulting order.

6.0 Key Personnel: The Government considers the following positions to be Key Personnel: One (1) Operations Support Senior Site Lead position. One (1) resume and supporting documentation/certifications for Key Personnel must be provided to the COR & KO for review before onboarding can commence.

When departure of Key Personnel is anticipated, the Contractor shall submit a resume and any required supporting documents/certifications for the projected replacement to the COR fifteen (15) days prior to the Key Personnel's departure. The Contractor is responsible for back filling the position in a manner that provides uninterrupted services with an employee that possesses equal, or better, qualifications as the departing employee. The COR must approve the Contractor's proposed replacement before a new employee may assume the departed Key Personnel's duties.

When departure of Key Personnel is unexpected, the Contractor is responsible for back-filling the position within sixty (60) days, barring coordination and supporting information, of the Key Personnel's

departure with an employee that possesses equal, or better, qualifications as the original employee. The Contractor must submit a resume for the proposed substitute and any required supporting documents/certifications for the projected replacement. The designated COR or KO must approve the Contractor's proposed replacement before a new employee may assume the departed Key Personnel's duties. Vacancies remaining open longer than 60 days will count against the company's Management Contractor Performance Assessment Reporting (CPAR) metric.

All key personnel shall have means of written and verbal communication with the COR. Key Personnel shall be able to communicate fluently in English both verbally and in writing. Specific positions, and their corresponding site locations, designated as Key Personnel are identified in "Attachment 2 – Labor Breakout" which is associated with this PWS.

7.0 Estimate Level of Effort and Identification of Key Personnel

7.1 Refer to "Attachment 2 - Labor Breakout" for position details.

8.0 Place of Performance: Work under this effort may be performed at the DTRA's locations in Albuquerque (ABQ), New Mexico; Travis Air Force Base, California; Kleber Kaserne, Kaiserslautern, Germany; and primarily, Defense Threat Reduction Agency locations in the National Capital Region (NCR) area. Further, contract support may be required at locations not specified in this Performance Work Statement (PWS). Support requirements may create a need for travel within local areas, CONUS or OCONUS.

9.0 Alternate Work Location Policy: Guidelines for alternate work locations or telework for contractors in alignment with the administration and reporting requirements relative to Government Property as outlined in FAR 45.000 (b)(5).

9.1 Authorization: In coordination with the Contractor Program Manager and Mission Requirements, off-site work using Government Furnished Equipment (GFE) may be authorized by the Contracting Officer's Representative (COR) and/or Program Manager (PM) if telework schedule differs from current administration guidance.

9.2 Approval Process for extenuating circumstances: Approved work plans for an alternate work location will be situational and dependent on the nature of work, requirements, and pre-established capabilities to perform work (e.g., additional telework over 1 day per work week, holiday falls within work week, etc.)

- All authorizations must be made in writing to the PM with confirmation via email to ensure an official date is associated with the approval
 - Approval may be revoked at any point in time at the discretion of the COR/PM
 - Contractors must adhere to all terms and conditions outlined in the approved work plan while working from an alternate work location
 - The approved work plan identifying work accomplished/performed must be submitted to the Contractor PM at the end of each day
 - Contractors are not permitted to work from offsite locations without an approved work plan on file with COR
- Additional situational considerations may be applied/removed at the COR's discretion without notice as the mission dictates.

CUI

9.3 Responsibilities: Contractors must use Government Furnished Equipment (GFE) provided, ensure its proper working condition, and be available via the official online messenger (MS TEAMS), Phone, and email during working hours.
