Army Contract Writing System (ACWS) Transition Information for Offerors

a. The Army Contracting Enterprise (ACE) is in the process of deploying new solicitation and contract writing software to Army contracting offices worldwide. Known as the Army Contract Writing System (ACWS), this modern software suite will soon replace most existing Army contract writing systems, including the system used to create and release this Solicitation.

b. During this transition period, Offerors are hereby advised:

1. The Contracting Office may use any combination of contract writing systems to create and release documents related to this solicitation (e.g. solicitation amendments and awards, if any). Due to this:

i. This solicitation may contain different offer submission instructions than other solicitations released by the same Contracting Office (e.g. requiring offer submission via the PIEE Solicitation Module vs. e-mail). Offerors should review all offer submission instructions contained in the solicitation documents and direct any questions or concerns to the Contract Specialist or Contracting Officer.

ii. If the Contracting Office switches contract writing systems prior to award, documents you receive from the Contracting Officer or view on SAM.gov or other forums may appear noticeably different than the initial solicitation or previous solicitations or awards from the same Contracting Office. This is normal and expected.

iii. A change between contract writing systems may cause important information concerning solicitation response (amendments) or accepted terms (awards) to take on different formatting or appear in different parts of later documents issued. Offerors shall review all documents carefully to locate this important information and direct any questions or concerns to the Contract Specialist or Contracting Officer.

2. The Government does not intend to use the transition between contract writing systems to effect any changes to solicitation or award terms and conditions without accompanying document narratives explicitly stating such changes are deliberate and desired. While the Contract Specialist and Contracting Officer will take care to minimize or eliminate any inadvertent changes when adapting to the new contract writing software, you, as the Offeror, may still be the first to spot such errors. Therefore, Offerors shall:

i. Notify the Contracting Officer immediately if any observed changes, removals, or additions affect your award eligibility, violate or alter existing quote/proposal terms, or could affect Contract performance post-award.

ii. Take special care to ensure all fill-in Clauses are populated and remain populated across documents received from the

Name of Offeror or Contractor:

Contracting Office throughout the Solicitation and Award process.

- iii. Contact the Contracting Officer listed on the first page of the solicitation or solicitation amendment for guidance if you notice or suspect any inadvertent change has occurred between document issuances.

 - 3. If problems stemming from this transition affect award documents, the Contracting Officer will correct problems affecting award documents (if any) stemming from the transition, via bilateral modification, at no cost to the Contractor. Any such modification will reconcile the award with the latest version of this solicitation reflecting deliberate action by the Contracting Officer (e.g. the first issuance if no amendments, or the latest amendment with accompanying narratives), inclusive of any documented pre-award negotiations or accepted supplemental offer terms.

 - 4. In the unlikely event a network disruption, contract writing system error, or financial system error threatens timely award of the requirement set forth in this solicitation, the Contracting Officer:
 - i. May elect to use alternative mechanisms to obligate funds and allow work or deliveries to legally begin to the benefit of, and with legal protection for, both parties.
 - ii. Will incorporate the latest version of this Solicitation into such mechanisms to serve as a framework for contract execution until any such system problems are resolved.
 - iii. Will ensure any action taken does not conflict with the stated offer evaluation and award methodology of this requirement.
 - iv. Will issue a complete, properly formatted award accurately reflecting this requirement and all applicable terms and conditions once systems return to normal.

Army Contract Writing System (ACWS) Transition Information for Contractors

- c. The Army Contracting Enterprise (ACE) is in the process of deploying new solicitation and contract writing software to Army contracting offices worldwide. Known as the Army Contract Writing System (ACWS), this modern software suite will soon replace most existing Army contract writing systems, including the system used to create and release this Contract.

- d. During this transition period, Contractors are hereby advised:
 - 5. The Contracting Office may use any combination of contract writing systems to generate distributable copies of this contract during its period of performance, as well as any subsequent modifications or orders (if applicable). As a result:
 - i. Subsequent documents you receive may appear noticeably different than the original award or previous contractual documents from the same Contracting Office.
 - ii. A change between contract writing systems may cause important information concerning contract terms and conditions to take on different formatting or appear in different parts of later documents issued.
 - iii. Contractors shall ensure Customer Relationship Management (CRM) systems and personnel interacting with this contract are prepared to identify and respond appropriately to differences between document versions.

- 6. The Government does not intend to use the shift between contract writing systems to effect any changes to Contract terms and conditions. Therefore:
 - i. Contractors should view changes to terms or conditions between document versions as system-generated and potentially erroneous unless accompanied by narrative(s) designating such changes as deliberate and desired.
 - ii. Contractors shall inform the Contracting Officer listed on the first page of the most recent document issued for guidance regarding any suspected or observed inadvertent or system-generated changes (e.g. noticing something missing in a new conformed copy).

Name of Offeror or Contractor:

- iii. The Government will correct any inadvertent or system-generated changes, additions, or omissions stemming from the transition, discovered by either party, via bilateral modification at no cost to the Contractor.
- iv. The terms and conditions contained in the latest document reflecting deliberate action by the Contracting Officer (e.g. the last conformed copy of the award not affected by the observed issue) will take precedence until these problems are corrected.
7. In the unlikely event award information is corrupted or mutilated during system migration and replacement or re-issuance of this contract is necessary for continued contract administration, the Contracting Officer will:
- i. Issue a continuation contract in accordance with DFARS 204.1601(c) and DFARS PGI 204.1601(c), carrying over all terms and conditions from the last-known version of this contract accurately reflecting mutual agreement of the parties.
- ii. Incorporate the last-known version of this contract accurately reflecting mutual agreement of the parties as an attachment to the replacement or continuation contract for future reference.
- iii. Ensure any such reissuance or continuance is properly reported to preserve the integrity of Contractor performance measurement data, if any (e.g. FAPIIS, CPARS).
