

BLUE GRASS ARMY DEPOT

COL SAMUEL W. MORGAN III • COMMANDER

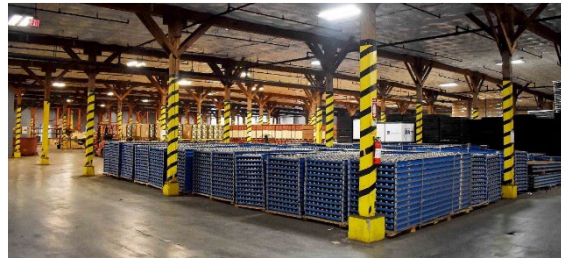

FACILITY CAPABILITIES & GREENSPACE OVERVIEW

25 MARCH 2026

Version Number 1
July 2025

Controlled by: BGAD
CUI Category(ies): Unclassified
Limited Dissemination Control:
FEDCONPOC: William Ritter

READY – RELIABLE – LETHAL!

BGAD Capabilities Overview

DEFINING FEATURES

Unparalleled Security

BGAD delivers elite security by integrating autonomous AI surveillance with a multi-drone and camera network, supported by 24/7 expert guards and multi-tiered series of perimeter fencing and sensors.

Logistics Expertise

BGAD serves as the premier munitions distribution operation, leveraging its state-of-the-art Consolidated Shipping Center, capable of processing over 300 containers daily. This high-capacity logistics hub is powered by an exceptionally skilled workforce, whose expertise ensures reliable support for global military operations. The depot's robust infrastructure includes internal railroad tracks connected to the CSX network and first-class trucking partnerships with immediate access to major interstate corridors, enabling the rapid and secure transport of any materials.

EMERGING CAPABILITY HIGHLIGHTS

SkyFoundry Innovation Hub

Future state-of-the-art UAS testing and prototyping hub paired with a strategic consortium of industry leaders and academia partners.

Energetics Center of Excellence Production Campus

Advanced manufacturing facility designed to produce critical chemicals essential for modern munitions.

Flexible Automated Modernized Production Line

Modern system utilizing robotic integration and modular assembly to rapidly switch between different ammunition types.

Container Manufacturing

Automated facility producing 20' and 40' shipping containers with major repair capabilities, eliminating the dependency on foreign manufacturers.

THE BGAD ADVANTAGE

- Industrial fabrication equipment, paint facilities and skilled personnel
- Modular production line layout designed for rapid workload transitions
- Near I-64 and I-75 corridors and approximately 40 miles from Blue Grass Airport
- High-capacity trucking and rail network
- Inspection, minor repair and maintenance for metal shipping containers
- Self-sustaining water source and wastewater treatment facility
- Open Burn / Open Detonation Permit with a 40 lb. static detonation chamber
- 902 Igloos & 12 Above Ground Magazines
- ISO 9001:2015 Quality Certification

NOTABLE FACILITIES & CAPABILITIES

\$117 Million

Available infrastructure ideal for production operations

800,000 SQ/FT

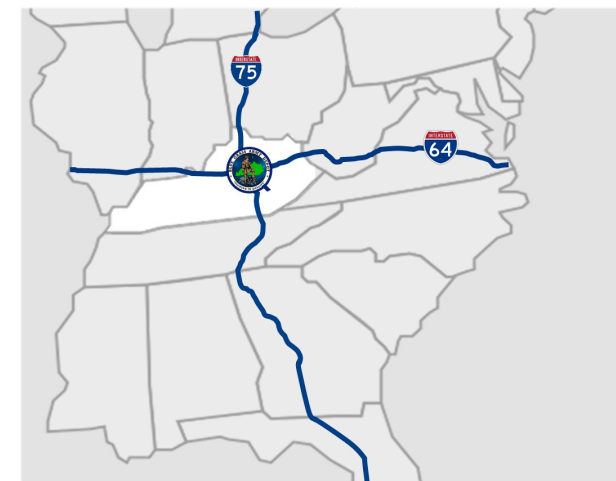

Available highly secure munitions storage

119,000 SQ/FT

Turnkey maintenance / production facilities

749 Acres

Developable greenspace with access to water, gas & electric utilities

READY – RELIABLE – LETHAL!

BGAD Capabilities Highlights (1 of 2)

CUI

FAST FACTS

- 549 DA Civilians + 2 Soldiers
- Over 65% Veteran Workforce
- 26% are Disabled Veterans
- 902 Earth Covered Magazines
- \$129.1 Million Budget
- \$68 Million Payroll
- Quick Access to I-64 / I-75
- 14,594 Acres / 22 Sq. Miles
- 1,228 Structures
- 174 Miles of Road
- 13 Bridges / 5 Dams
- 41 Miles of Safe-Haven Rail
- Onsite Water Source
- Water Treatment Plant
- 40 Miles of Water Lines
- Wastewater Treatment Plant
- 21 Miles of Sewer Mains
- 41 Miles of Electrical Distribution
- 47 Miles of Communication Lines
- 316 Transformers
- 22 Generators
- 33 Loading Platforms
- 101 Miles of Secure Fencing
- 24 Miles of Gas Lines
- 4 Locomotives
- 1 Helicopter Pad
- ISO 9001 Registered
- OHSAS 18001 Registered

Strategic Outload:

- ✓ Consolidated Shipping Center
- ✓ Global Response Force
- ✓ 300 + Containers Per day
- ✓ ICEMP "Go-To-War" Stocks (CDE)

Non-Standard Ammo Support:

- ✓ Cataloging
- ✓ 24/7/365 Responsiveness
- ✓ Supporting SOCOM
- ✓ JMC's sole provider of NSA

Container Management:

- ✓ Inspection
- ✓ Storage
- ✓ Receipts
- ✓ Maintenance / Repair

Maintenance & Advanced Manufacturing Supporting OIB

- ✓ Extensive knowledge and experience in the integration of automation and robotics
- ✓ Flexible modular production line layout designed for rapid workload transitions
- ✓ Effective & efficient vertical bomb thermal coating up to MK 84 (2K GP Bomb)

Core Competencies Store, Issue, Receive, Inspect, Maintain and Demil Conventional Munitions and CDE

Chemical Defense Equipment (CDE):

- ✓ Supporting Joint Warfighter
- ✓ FedEx Shipping 24/7/365
- ✓ Sustainment/War Reserve

Homeland Defense:

- ✓ ARNORTH COTS-PPE Push Packages
- ✓ Non-Lethal Combat Equipment

Care of Stocks in Storage:

- ✓ Force Provider
- ✓ MTRCS
- ✓ ARNORTH
- ✓ CONUS / OCONUS
- ✓ USSOCOM
- ✓ 75 & 150 Soldier Camps

Military Support

- ✓ Critical MOS Training for Nat Guards and Reserves
- ✓ 300+ Barracks
- ✓ Mobilization Ordnance Specific Training (MOST) trains soldiers and Marines in ammunition handling and transport.

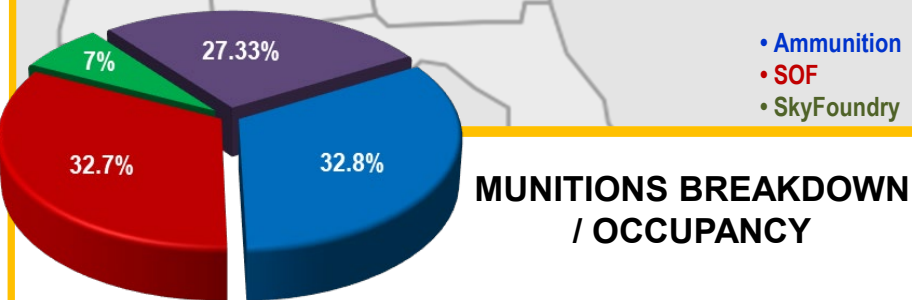

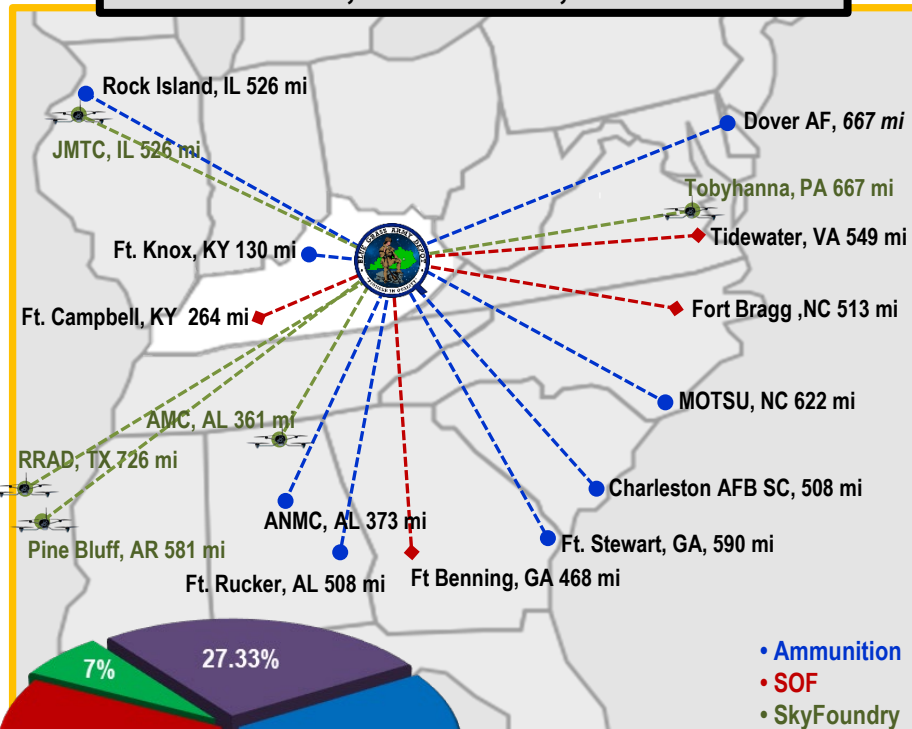

Core Competencies Supplemental Missions

READY – RELIABLE – LETHAL!

BGAD Capabilities Highlights (2 of 2)

LOCATION, LOCATION, LOCATION

111,040 Total Short Tons 58.18% Occupied

- Army Conventional: 32.8% - 36.254K Short Tons (ST)
- Joint Services SOF: 32.7% - 36.109K ST
- B5A (Demil Account): 7.0% - 7.717K ST
- USAF, Navy, AMCOM, Other : 27.33% Total: 30.170K ST
 - AF: 21.2% ST • Navy: 1.7% ST • AMCOM: 0.029% ST
 - Other: 4.4% ST

As of 20 Jan 2026

Superb Rail & Trucking Network

- Centralized Southeast Location with immediate access to I-64 and I-75
- CSX Rail Spur (CSX is 1 of only 2 major U.S. rail carriers)
- Close to FedEx (Memphis) and UPS (Louisville) World Hubs
- Trucking company partnerships support surge requirements

Proximity to Army GRF and SOF Units

- Supporting DA #4 Priority with CL V to FLNC (N+24)
- Close to Forts Bragg, Benning, Campbell, Stewart and Rucker
- Primary source for USSOCOM-owned, USA & USAF-managed, non-standard ammunition (NSA) stocks for contingency operations

Only State-of-the-Art Consolidated Shipping Facility w/ On-Site Blocking & Bracing Facility

- Maximizes efficiencies (people, C2, MHE, and space) for surge outload of surface (rail or truck) movement of munitions at scale
- Allows consolidation of non-compatible munitions for combat loads

Unmatched Physical Security

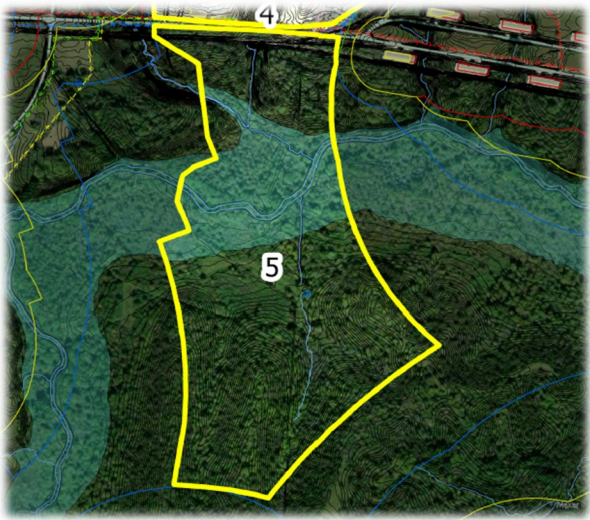

- Vetting 100% of uncleared Visitors using AIE connection to NLETS
- Only AMC Installation meeting Army Access Control Standard Design
- SMEs for OPMG/AMC/JMC on training of AIE

Magazine Depth Expansion

- 57% storage occupancy with an additional 98K SQ/FT CAT1 storage in FY26, and capacity for new and smart munitions supporting OIB magazine depth expansion and efficiency.

BGCAPP Energetics Facility

CUI

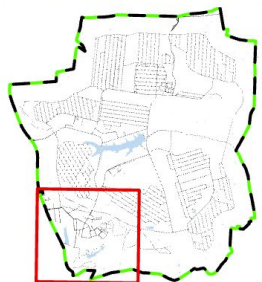

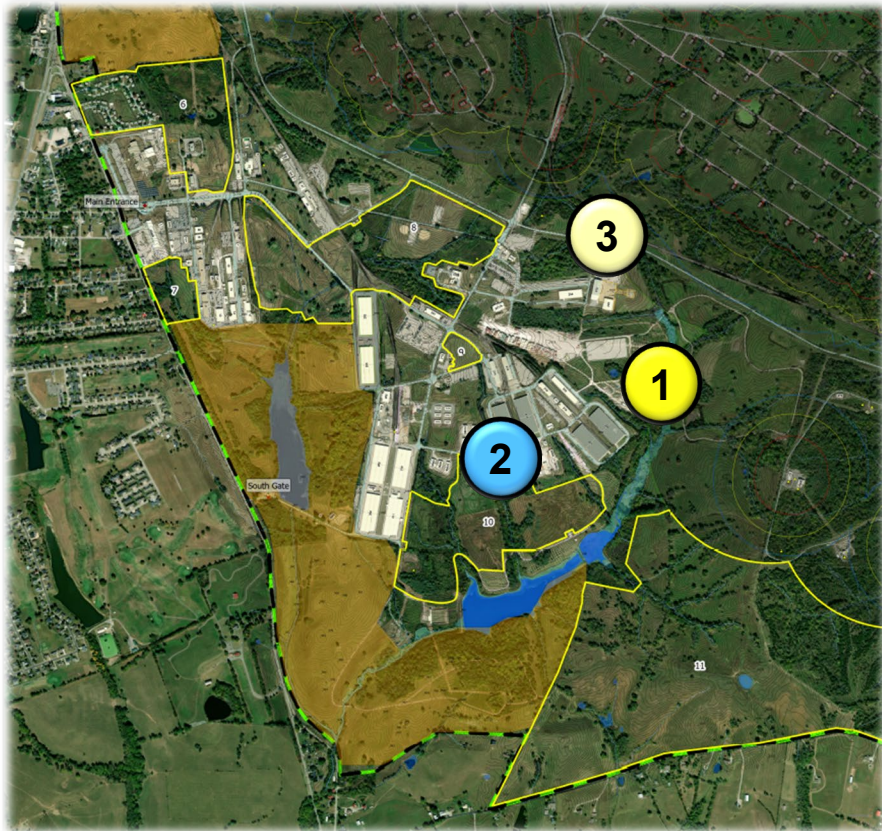

BGCAPP Utilities	
Electric Utilities	
138 kV Substation	
Substation Control Building	
Power lines / poles	
2 500 kW SDGs (standard diesel generators)	
1 150 kW SDG	
1 30 kVa SDG	
1 125 kW SDG	
Transformer for parking lot and sewer pump	
Natural Gas	
8" high pressure gas main	
Firewater Infrastructure	
Firewater system, Firewater Tanks, Pump House, diesel generator, and fire hydrants	
Water & Sewer	
Lines will be disconnected and capped	

- ~ 400 Acres, 50K sq/ft of facilities Production, Storage, Nano Factory potential
- \$100M+ Remaining Highly Specialized Infrastructure:
 - Water, Sewer, Electrical & Power Generation
 - Access to 100K gallons per day (BGAD & emergency water from Richmond Utilities)
 - 3,000 kVa electrical service
 - Chemical laboratory
 - Entry Control Point, Security Fencing, Road Network, & Laydown Yard in place, separate entry from State HWY 52 (Irvine Rd.)
 - Rail access, parking lots, walkways & roads

CUI

Potential BGAD Facilities for Repurpose

BGAD Property Details:

- 14,594 Acres
- 21 Shipping / Receiving Pads, 17 Rail Loading Docks, 41 Miles of Rail, 176 Miles of Road
- 4 Locomotives, 59 Army Railcars, 13 Straddle Carriers
- 2.2M Square Feet of Storage Space
- 902 Igloos, 12 Above Ground Magazines
- Electric, Gas, Water & Wastewater Utilities Available

59460 Production / Warehouse Details

Total Size	5000 SQ/FT
Utilities Currently Availability	Yes
ARCS	No

216 Warehouse Details

Total Size	91,087 SQ/FT
Utilities Currently Availability	Yes
ARCS	No
Office / Production Area	121 SQ/FT
Gas furnace & AC within Office / Production Area	

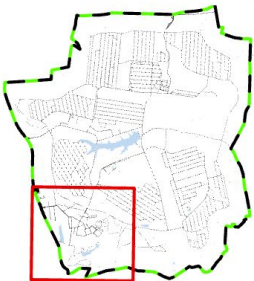

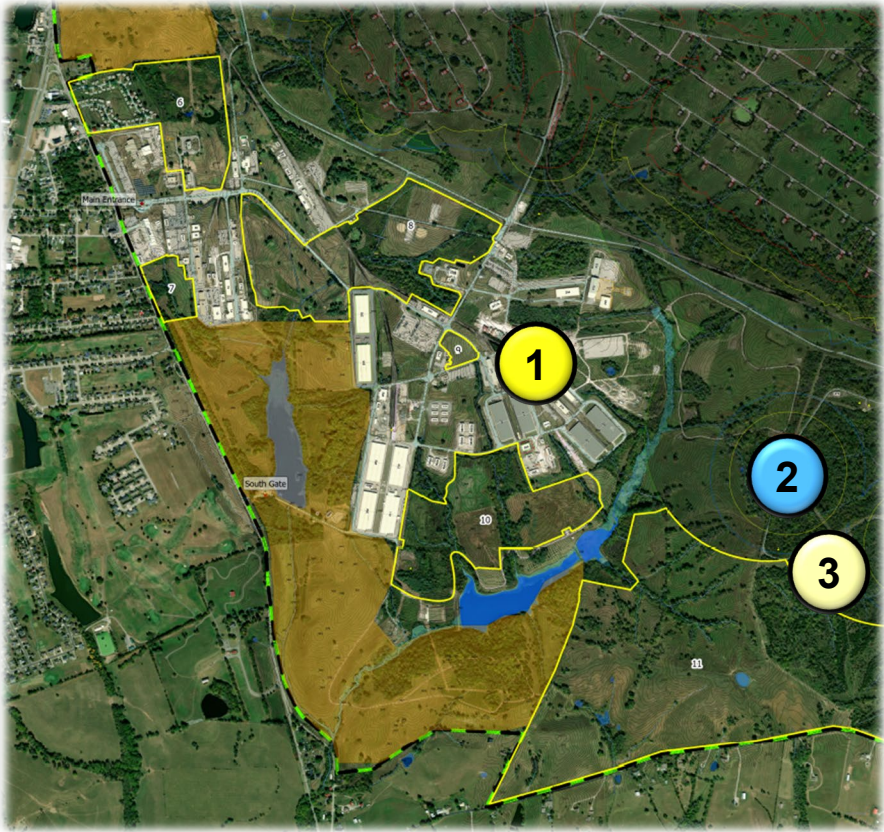

L3 (233, 232, 229) Complex Details

Total Complex Size	57,800 SQ/FT
• Building 233	16,000 SQ/FT
• Building 232	25,000 SQ/FT
• Building 229	16,800 SQ/FT
Utilities Currently Availability	Yes
ARCS	No

Potential BGAD Facilities for Repurpose

BGAD Property Details:

- 14,594 Acres
- 21 Shipping / Receiving Pads, 17 Rail Loading Docks, 41 Miles of Rail, 176 Miles of Road
- 4 Locomotives, 59 Army Railcars, 13 Straddle Carriers
- 2.2M Square Feet of Storage Space
- 902 Igloos, 12 Above Ground Magazines
- Electric, Gas, Water & Wastewater Utilities Available

214 & 215 Flexible Industrial Fabrication & Paint Facility Details	
214 Size	19,500 SQ/FT
215 Size	18,000 SQ/FT
Utilities Currently Availability	Yes
ARCS	No
1 Water Jet Cutter, 2 Laser Cutters, 2 Hydraulic Metal Benders, Welding Capabilities, Colmet Spray Booths, 2 Curing Ovens, 150lb Conveyor, Rotoblast Shot Peen Machine & Mesh Belt Wheelabrator	

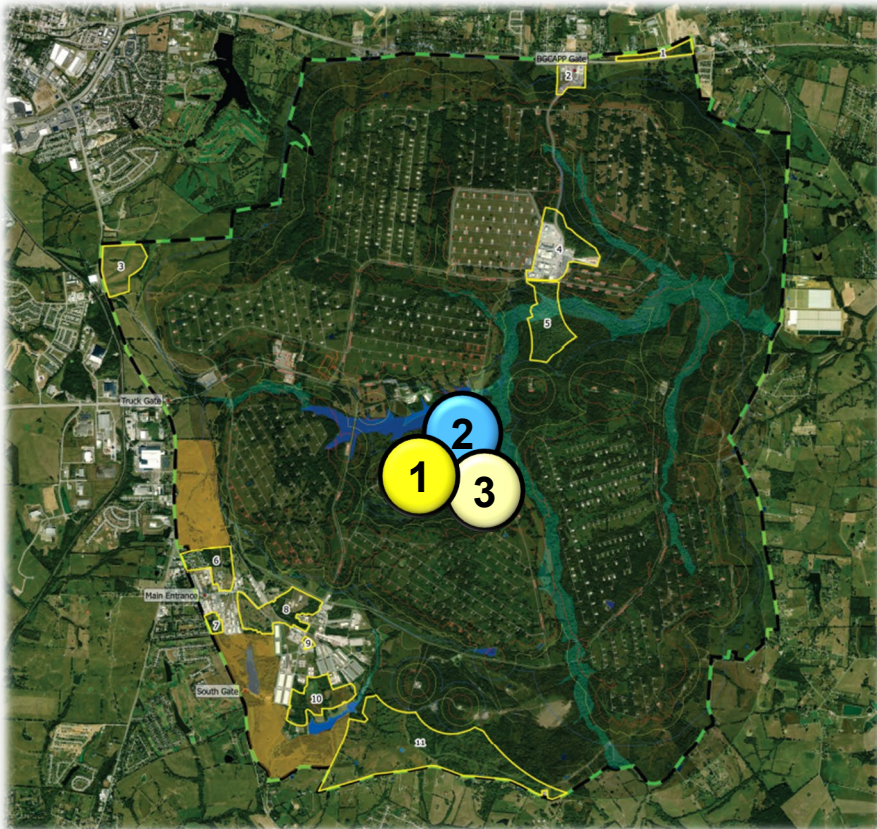

273 / 60440 Production Details	
273 Size	3,937 SQ/FT
60440 Size	5,500 SQ/FT
NEW	11,400 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
Non-conductive, diked, sloped floor to contained central drain, Overhead gas heating, Overhead ventilation with powered louvers and two return air handlers, Small enclosed area with bi-level HVAC system, King Fisher Fire alarm system, Sprinkler System / Emergency exit lighting, Attached 10' x 15' storage enclosure with heat and outside entrance, Catenary lightning protection system.	

280 D-100 Confined Detonation Chamber Details	
Total Size	3,500 SQ/FT
NEW	1,000 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
Resource Conservation and Recovery Act (RCRA) Permitted Treatment, Storage, or Disposal Facility (TSDF)	

READY – RELIABLE – LETHAL!

Potential BGAD Facilities for Repurpose

- 14,594 Acres
- 21 Shipping / Receiving Pads, 17 Rail Loading Docks, 41 Miles of Rail, 176 Miles of Road
- 4 Locomotives, 59 Army Railcars, 13 Straddle Carriers
- 2.2M Square Feet of Storage Space
- 902 Igloos, 12 Above Ground Magazines
- Electric, Gas, Water & Wastewater Utilities Available

1

550 Production Facility Details

Total Size	18,740 SQ/FT
NEW	56,056 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
Offices, break rooms, and rest rooms (HVAC controlled), Blast wall compartment building design (multiple bays), 2 high speed deluges, Catenary lightning protection system, King Fisher fire alarm system, Wiel McClain Series 88 Boiler Quincy Screw Air Compressor (200 psi) with dryer & 265 gal air reservoir, Monorail conveyor system with 250 hooks, Motorized bed conveyor, Wheel-A-Brator media blast containment system, 2 paint booths with warm air return system for drying.	

2

562 Production Facility Details

Total Size	19,076 SQ/FT
NEW	55,000 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
4 Paint Booths, Blast machine paint preparation, mounted IR heat lamps, and a large paint storage locker.	

3

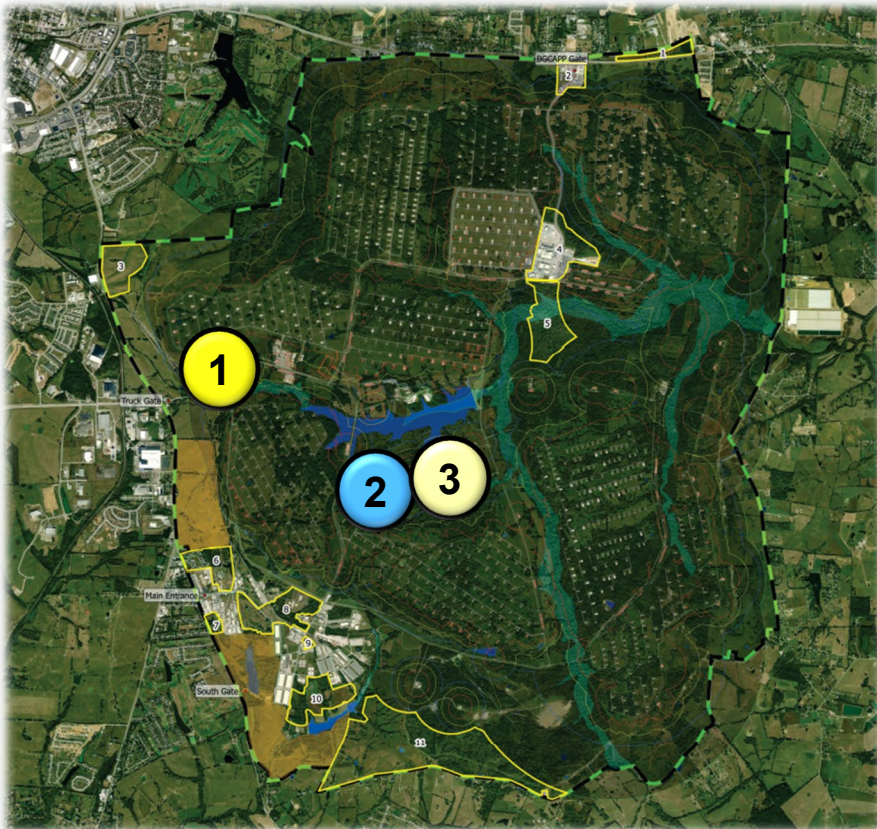

575 Production Facility Details

Total Size	3,452 SQ/FT
Utilities Currently Availability	Yes
ARCS	Yes
Heating system, 2 - Roll-up doors (approx. 15' x 12'), King Fisher fire alarm system, 35' high ceilings, Sprinkler System	

READY – RELIABLE – LETHAL!

- 4 Locomotives, 59 Army Railcars, 13 Straddle Carriers
- 2.2M Square Feet of Storage Space
- 902 Igloos, 12 Above Ground Magazines
- Electric, Gas, Water & Wastewater Utilities Available

902 & 904 Logistics Facility Details

Total Campus Size	15,824 SQ/FT
• Building 902	4,043 SQ/FT
• Building 904	11,781 SQ/FT
NEW	65,000 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
Warehouse, administrative offices, receiving docks/bays	

1138 & Loading Platform 50 Facility Details

Total Size	6,365 SQ/FT
NEW	31,475 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes
Munitions workshop with administrative space and 6 independent bays.	

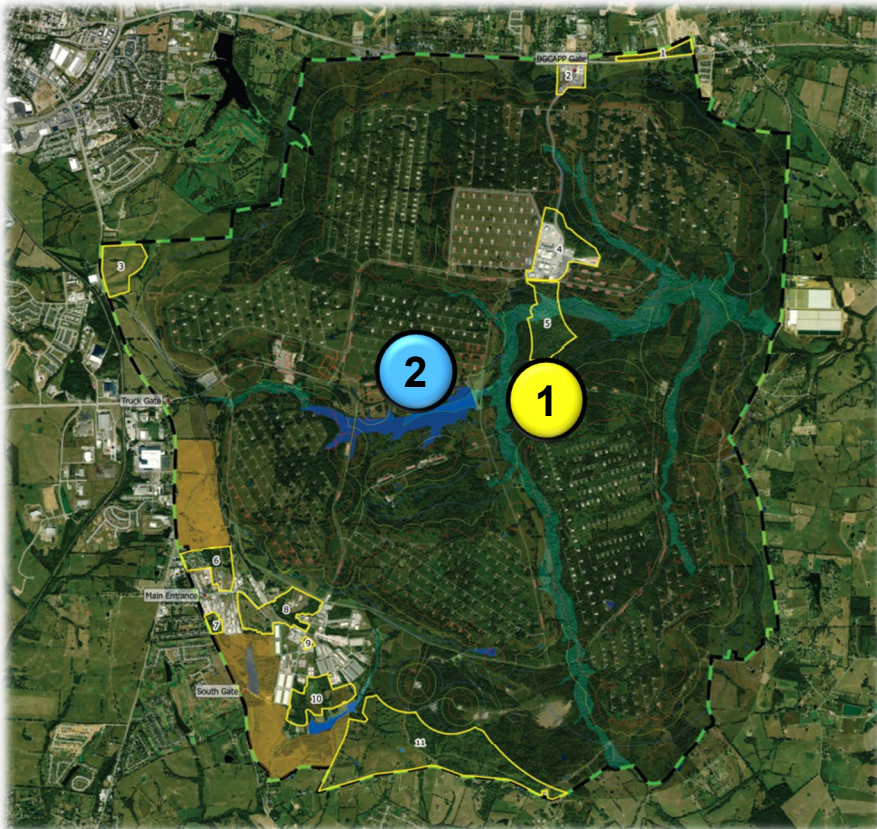

1170 & Loading Platform 52 Facility Details

Total Size	12,080 SQ/FT
NEW	10,974 lbs. 1.1
Utilities Currently Availability	Yes
ARCS	Yes

2 covered docks, 4 roll-up doors, 2 large ventilation louvers, Offices, break rooms, and rest rooms (HVAC controlled), Rail accessible, King Fisher fire alarm system, Catenary lightning system, Hot water boiler, Class 1 Division 1 electrical classification.
