

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)?

☐ Yes

☒ No

Contracting Activity: AFTAC / 709 SAG/ USAF CIL

Project/Program Name: AFTAC CIL Radioactive Calibration Sources

Purchase Request/Identification Number: R2D2-9956

Estimated Contract Cost (including Options):

Section B: Description of the Supplies/Services Required

Procurement of 7 certified National Institute of Standards and Technology (NIST)-traceable radioactive reference standards for calibration of Mass Spectrometry (LOS) radiation measurement instrumentation. LOS needs fresh reference standards annually due to the decay of short-lived radionuclides in order to maintain accuracy in nuclear measurements.

Section C: Justification for Soliciting from a Single Source or Brand Name

Eckert & Ziegler is the only company that manufactures and sells certified NIST-traceable radioactive reference standards in customer supplied geometries. To properly calibrate instrumentation, LOS requires radioactive standards in the same physical geometry as samples that LOS measures.

The accuracy of these reference standards serve as the foundation upon which USAF CIL guarantees the accuracy of its results. It is necessary that this reference material be trusted as accurate. In the United States, NIST is the organization that provides the master reference standard. Therefore, LOS requires that the accuracy of the activity all of its calibration sources to be traceable to NIST.

Section D: Efforts to Obtain Competition

Eckert & Ziegler is the only vendor to fulfill all requirements listed in this purchase request. An exhaustive effort was conducted to determine viable vendors. For example, market research from the following websites proved to be unfruitful: Spectrum Technologies (<http://www.spectrumtechniques.com/radioisotopes2.htm>), NIST (<http://nist.gov/srm>), NBL (<http://science.energy.gov/nbl/certified-reference-materials>). Further three Inquiries were sent to Millpore Sigma, SRM Technologies, and LGC Standards with two negative replies for availability and one no reply.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Eckert & Ziegler is the only company that manufactures this product. The requirement for these types of sources is unique to LOS's mission requirements. No actions have been taken or are planned to be taken to allow for full and open competition.

Single Source Justification (Simplified Acquisition)

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
