** This is a SSN for the purpose of conducting Market Research. Proposals are **NOT** being requested, nor accepted at this time. Responses are being requested from both Large and Small Businesses. **

1. **Purpose:**

- a. The purpose of this SSN is to gain knowledge regarding the types of interested businesses and their qualifications. Information obtained through this SSN by the NPS will be utilized to develop the acquisition strategy. The amount of interest, or lack thereof, will determine the possibility of a Small Business or other Socio-Economic Set-Aside for solicitation and award purposes. Analysis of the quality of responses to this SSN will be considered in the Market Research being conducted and in the making of any set-aside determination for this requirement.;
- b. The Government anticipates conducting a competitive acquisition for this requirement. The amount of interest or lack thereof will determine the possibility of a small business or other socio-economical small business set-aside for the solicitation. Analysis of the quality of responses to this source sought announcement will be considered in the market research being conducted, and in the making of any small business set-aside determination for this requirement; and
- c. No solicitation, proposal package, specifications, or drawings are available with this SSN.

2. **Cost Reimbursement:** Response to this announcement is strictly voluntary. No reimbursement will be made for any costs associated with providing information in response to this SSN, nor any follow-up information requests.

3. **Bonding:** Bid, Performance, and Payment Bonds are anticipated to be required.

4. **North American Industry Classification System (NAICS) code:** 236220 and **Size Standard:** \$45.0M

5. **Project Description:**

- a. The project is located at Rocky Mountain National Park;
- b. Magnitude of construction is \$5,000,000 and \$10,000,000;
- c. The Park will remain open during construction, thus contract activities and logistics must be structured and scheduled to minimize visitor impact;
- d. The site requires protective measures to ensure the surrounding area remains undisturbed;

- e. The structure is a historic/natural/cultural resource;
 - f. The anticipated period of performance of 365 calendar days including any potential weather shutdown;
 - g. There are seasonal/other shutdowns mandated through the construction season; and
 - h. Winter construction may be required.
6. **Project Scope:** The Kawuneeche Visitor Center (KVC) is located just north of Grand Lake, Colorado and is the only visitor center located on Rocky Mountain National Park's (ROMO) western side, and it also serves as the administrative headquarters for the western side of the park. The facility has been designated as eligible for listing on the National Register of Historic Places and treatment will meet Secretary of the Interior Standards for the Treatment of Historic Properties and integrated into the design. The KVC is currently slated for a complete replacement of interior interpretive exhibits (to be provided and installed by a separate contractor) and as such, interior alterations are necessary. In addition to preparing the visitor center portion for new interpretive exhibits, rehabilitation of the greater facility and site is also necessary in order to replace and update old systems and to correct building code and accessibility issues.

This project will provide accessibility improvements throughout, including but not limited to exterior entrances and routes, the maintained landscape, the buildings, restrooms, and parking. Updates will be made to the interior finishes including new doors and hardware, paint and stain, signage, and flooring. Windows and window treatment will be replaced to improve energy efficiency and occupant comfort. Select rooms in the administrative wing will be relocated and/or reconfigured with interior wall modifications to create improved space utilization. The server room will be relocated as part of this and the equipment, feeds, connections will be replaced. The fiber lines serving the Grand Lake Entrance and the CRD Maintenance Building shall be replaced and routed to the new server room. The mechanical, electrical, and plumbing systems will be largely replaced throughout to address performance, energy efficiency, and code requirements. A fire suppression system will be added throughout the building. The original plank ceiling will be removed and reinstalled in kind to allow for the installation of the fire protection system in the visitor center exhibit area in compliance with DOI Historic Preservation requirements. The project will also provide IT, AV, and security upgrades. Improvement of site drainage will be included, and exterior lighting will be made night sky compliant. An outdoor gathering space with seating will be provided for interpretive talks and the existing outdoor picnic area will be rehabilitated to meet accessibility requirements. The non-historic gable roof over the comfort station shall be removed and the facility shall be returned to a flat roof configuration, in style of the original construction, which addresses current structural and drainage issues. Temporary facilities for staff and visitors will be provided during rehabilitation, as well as moving and storage of building contents.

- 7. **Solicitation:** At this time, NPS DSC anticipates issuing a competitive Request for Proposals (RFP) around the May-June timeframe; and awarding a single Firm-Fixed-Price (FFP) contract.
- 8. **Submittal Instructions:** Responses shall be captured by filling out (in its entirety) the attached Sources Sought Survey Questionnaire. The interested Contractor shall respond no later than 12:00 PM Mountain Time (MT) on April 21, 2026, by emailing the questionnaire to the Contract Specialist at: bruce_beck@ios.doi.gov and Contracting Officer at : timothy_burger@ios.doi.gov.
