F.O.B. Destination Naval Station Newport, Newport, RI. 02841.

This requirement is being solicited on a sole source basis to VentureDyne. LTD, dba Thermotron Industries, because existing infrastructure means that an alternative source would cause detrimental costs in both time and dollars which negatively impact the program and Fleet.

Thermotron has no industry partners by way of authorized resellers, nor authorized repair or maintenance technicians, as confirmed by Thermotron. This requirement is being posted on an unrestricted basis as concurred with by the NUWCDIVNPT Office of Small Business Programs (OSBP). The North American Industry Classification System (NAICS) Code for this acquisition is 811210. The Small Business Size Standard is \$16.5 million dollars.

The required calibration and maintenance services are proprietary to Thermotron Industries and can only be provided by Thermotron Field Service Engineers, as non-factory service technicians do not have access to Thermotron's proprietary calibration procedures and replacement parts.

This notice is not a request for competitive quotes. A determination by the Government not to compete this acquisition based upon responses to this notice is solely within the discretion of the Government. Information received will be considered solely for determining whether to conduct a competitive procurement.

Incorporated provisions and clauses are those in effect through most recent Federal Acquisition Circular.
