

United States Department of the Interior

INTERIOR BUSINESS CENTER

Washington, DC 20240

SECTION 1 – INTRODUCTION

1.1 General

This **DRAFT** Solicitation 140D0426R0516 is issued as a Request for Proposal (RFP) by the United States Department of the Interior (DOI), Interior Business Center (IBC), Acquisition Services Directorate (AQD), on behalf of DOI. AQD will conduct this acquisition for Appraisal Services using in accordance with Revolutionary Federal Acquisition Regulation (FAR) Overhaul Part 12” Acquisition of Commercial Products and Commercial Services” and FAR 15 “Contracting by Negotiation.”

The applicable codes for this acquisition are as follows:

1.2 North American Industry Classification System (NAICS): 541611 “Administrative Management and General Management Consulting,” Size Standard: \$24.5 Million. Other NAICS codes may be proposed.

- **Product Service Code (PSC):** R411 “Support-Professional: Real Property Appraisals.”

This is a total small business set aside under NAICS 541611.

1.3 Anticipated Award Type

The Government intends to award up to three (3) Firm Fixed Price (FFP) per unit and Time-and-Material (T&M) contracts, one for each Geographic Region (East Region, Central Region, and West Region), unless a single contractor is determined capable of performing work across all regions. Contractors may submit a Proposal for one, two, or all three regions.

1.4 Submission of Questions

Questions related to this RFP package must be submitted electronically via email only to:

Contracting Officer (CO) Morgan Schickler; morgan_schickler@ibc.doi.gov, and
Contract Specialist (CS) Jacqueline Hernandez; jacqueline_hernandez@ibc.doi.gov.

No later than **April XX, 2026, 10:00AM EST***. All questions must be received in writing; no oral questions will be accepted. All e-mail inquiries must include **“Questions – RFP # 140D0426R0516”** in the subject line.

**Revised date and time will be provided when final solicitation is released.*

[END OF SECTION 1]

SECTION 2 – STATEMENT OF WORK

Statement of Work (SOW) for Department of the Interior (DOI)

April 7, 2026

2. GENERAL INFORMATION

2.1. Background:

The DOI is the cabinet-level federal agency responsible for the stewardship and sustainable management of the nation's public lands, natural resources, and cultural heritage. Through its bureaus—including the Bureau of Land Management (BLM), National Park Service (NPS), U.S. Fish and Wildlife Service (USFWS), Bureau of Reclamation (BOR), and Bureau of Indian Affairs (BIA)—DOI manages over 500 million acres of public lands and associated resources, supporting conservation, recreation, energy and mineral development, water projects, and tribal programs.

To fulfill its mission, DOI relies on valuation services to provide independent, credible, and legally defensible valuations of federal lands, property rights, and natural resources. In general DOI valuation service needs include appraisals, feasibility studies, market studies, alternative valuation method work products, and data sourcing. The vast majority of valuation services are for appraisals, which are essential for: fee and less than fee land acquisitions, procurement of leased space, out leasing of Government property, issuance of right-of-way permits or other partial interests, disposals, and land exchanges. Valuation services are for resources such as but not limited to; undeveloped, recreational and agricultural land, residential, commercial, industrial, special use properties, timber, minerals, and water rights; and calculation of damages or restitution in cases of trespass or unauthorized use.

Through these services, DOI ensures fair compensation, responsible fiscal stewardship, and informed decision-making in the management of public lands and resources. By integrating technical appraisal expertise with federal policy and program objectives, DOI can effectively balance resource development, environmental protection, and public benefit.

2.2. Purpose & Objective:

Purpose

The purpose of this effort is to acquire integrator program management and valuation support services through qualified industry partners to assist the DOI in delivering consistent, defensible, and timely valuation products. The integrator, henceforth referred to as contractor, will coordinate with industry experts, DOI program offices, and other stakeholders to ensure a centralized, streamlined, and efficient approach to the valuation activities required across the Department.

The contractor is expected to subcontract most valuation services to qualified local valuation companies.

Objective

The objective is to provide DOI with accurate, timely, and actionable valuation information that supports informed decision making for land and asset-related activities. Contractors shall deliver independent, professional valuation services that comply with all federal laws, regulations, policies, and applicable appraisal standards, including the Uniform Standards of Professional

Appraisal Practice (USPAP) and the Uniform Appraisal Standards for Federal Land Acquisitions (UASFLA, Yellow Book). The integrators will support the Government by coordinating program activities, coordinating workflow, ensuring quality assurance, and maintaining consistency in valuation processes across designated geographic regions.

The contractor is also required to design, develop, and continuously maintain a functional live dashboard throughout the period of performance.

Contract Awards

Up to three Firm Fixed Price per unit and T&M contracts may be awarded, one for each geographic region (East, Central, West). A single award may be issued if one contractor is determined capable of fulfilling all regional requirements.

2.3. Scope:

This scope of this requirement includes the coordination by the contractor(s) of all requirements associated with federal appraisal and appraisal related service delivery. Valuation services include but are not limited to appraisals; feasibility studies; market studies; data sourcing; and consultation services (e.g., comparable sales/rental data, reviews of landowner's appraisal, landowner conferences, and field review assistance), and the procurement of other real estate appraisal related services etc. Coordination also includes the designing, developing, and continuously maintaining a functional live dashboard throughout the period of performance.

DOI valuation service is generally defined within three geographic areas of the country, as described below:

- **East Region:** CT, ME, MA, NH, RI, VT, NJ, NY, PA, DE, DC, FL, GA, MD, NC, SC, VA, WV
- **Central Region:** AL, KY, MI, TN, AR, LA, OK, TX, IL, IN, OH, WI, IA, KS, MN, MS, NE, SD, ND
- **West Region:** AK, AZ, CO, ID, MT, NV, NM, UT, WY, CA, HI, OR, WA

From 2023 – 2025 the number of appraisal services by region are reflected in the table below:

Region	No. Appraisal
East	167
Central	4162
West	5783

This data in the table above is based on closed cases in Appraisal & Valuation Information System (AVIS), and associated to region by the state the work was completed in. Cases closed without a designated state were allocated to regions proportionally. This data is to provide the contractor with a general idea of service volume within the respective regions.

2.4. Ordering:

2.4.1. Issuance of Service Orders (Appraisals)

Appraisal valuations issued under the contract will be called service orders. Service order forms will be issued by an Ordering Official. Each service order form will include:

- The type of appraisal or service required
- The purpose of the assignment
- An assignment-specific scope of work
- Any applicable conditions or requirements
- Recommended pricing category
- See 2.4.4 below for service order process

2.4.2. Authorized Use of the Valuation Services Contract(s)

- The Contract(s) may be used only by Department of the Interior Bureau's and Office's for valuation services as identified in this Statement of Work.
- Ordering Official's may request reports, clarifications, or other information as necessary to monitor contract performance.

2.4.3. Reporting: The contractor shall maintain a live dashboard that enables the Government to access and generate reports. Additional requirements for the live dashboard are provided in Section 2.5.6 of the SOW.

2.4.4. Service order process:

The Government will place service orders for valuation services under this contract following the procedures below. All service orders must align with the pricing categories and CLIN structure described in Section 4.

Step	Action	Reference/Notes
1	The Ordering Official identifies a need for appraisal services.	N/A
2	The DOI Bureau or Office provides the contractor with the service order form and scope of work to include property description, all exhibits, etc., and indicate the applicable pricing category for the appraisal.	Categories 1–10 as defined in the valuation pricing table and consulting and support services T&M categories
3	The contractor has three (3) business days to confirm agreement with the selected category and provide a Firm Fixed Price (FFP) within the agreed category.	If the contractor does not agree, the matter is submitted to the CO for resolution.
5	Upon service order approval, the contractor shall begin work immediately in accordance with the agreed category definition and service order scope of work. Contractor submits final	Work must comply with scope, deliverables, and FFP requirements.

	approved service order to the CO and Cc's Ordering Official.	
6	Initial Appraisal Report delivery	The contractor shall submit an invoice for 25% of the total scope of work cost through Invoice Processing Platform (IPP.gov) upon acceptance of the initial appraisal report.
7	The contractor submits the completed appraisal and deliverables	Deliverables must meet scope, quality, and timeline requirements for the assigned category
8	The Government reviews and approves deliverables.	The contractor shall submit the final invoice, in the amount of 75% of the total scope of work cost, through IPP.

2.4.5. Authorized Users:

Ordering Official under the contract(s) are individuals delegated ordering authority in accordance with agency procedures. Only authorized Ordering Officials may issue service orders against the contract(s).

The Ordering Official for each requirement will be identified at the time of service order issuance. The designated Ordering Official will be responsible for technical coordination, clarification of requirements, and oversight of performance under the applicable service order.

2.5. General Requirements:

The Contractor will use a multitude of appraisal service companies to meet service delivery requirements. The Government will provide the Contractor with a listing of appraisal companies that may be eligible to complete the assignment. This list identifies all appraisal companies, including subcontractor companies, who have previously worked for the Government. It is the Contractor's responsibility to ensure the applicable subcontractors are listed and reflect the applicable certifications. No other subcontractors are authorized to perform the work unless authorized by the Government. Appraisal services companies are expected to adhere to the terms of the agreement. Valuation services must be completed by the established deadlines. Extensions to service order deliverable dates will not be granted, and extensions to accommodate appraisal companies will not be authorized.

General requirements for valuation services are as follows:

2.5.1. VALUATION ASSIGNMENTS

- Only the assigned Government Review Appraiser or CO can modify the scope of the appraisal (in writing).
- This appraisal assignment will be an engagement between the Contractor and the client. The Contractor and its subcontractor must address any questions regarding appraisal instructions and/or technical requirements for the appraisal to the Government Review Appraiser and CO.

2.5.2. CERTIFICATION

- The Contractor must have the required licensure in accordance with Public Law 118-230, as well as the necessary expertise associated with the valuation service.

2.5.3. APPRAISAL REPORTS

- Unsigned and draft appraisal reports will not be accepted as a final report.
- The service order form, and other assignment instructions must be included in the addenda to the appraisal report. References to these documents should be provided in the body of the report. Confidential information should be reported in a manner consistent with USPAP and UASFLA.
- Appraisal reports should conform to the sequence and content governed by the applicable regulations to include the Uniform USPAP, UASFLA, if applicable, and departmental and bureau-specific governance.
- All appraisal reports shall include a discussion of market activity, historic market trends and a market analysis of the subject property type.
- UASFLA appraisal reports must include color photographs of all comparable sales from a terrestrial point of view, unless granted a waiver by the Government in writing to use aerial photographs or satellite imagery, in which case, the appraisal report should include source citation of the source and date of the aerial photographs.
- The effective date of the appraisal report must be no later than thirty (30) calendar days prior to the submission of the signed, completed appraisal report, unless the Government approves in advance other conditions in writing.
- The type and purpose of the appraisal report, hypothetical conditions, extraordinary assumptions, and performance period will be discussed and agreed upon between the Federal Government and the Contractor at the time of the appraisal assignment.

2.5.4. SITE INSPECTION

- The appraiser company performing the work must inspect the subject property and all comparable market data used in the appraisal, unless the Government has approved other conditions in writing.
- The inspection of the subject property must be coordinated with the Government in advance, if required.
- Licensed associate appraisers may accompany the contractor appraiser performing the work on inspections, but they are not authorized to complete the inspections without the contractor signatory appraiser present.

- The property owner(s), or owner's representative, must be given the opportunity to accompany the contractor appraiser on the property inspection, and noted in the appraisal.

2.5.5. HIGHEST BEST USE

- Upon completion of the Highest and Best Use analysis, the Contractor/subcontractor must discuss the conclusions with the Government prior to delivery of contract deliverables.

2.5.6. PRE-WORK MEETING & STATUS UPDATES

- The Contractor is required to attend a pre-work meeting within 7 days of service order approval (or otherwise identify that the meeting requirements will be outlined in each service order). The pre-work meeting occurs prior to the inspection of the property. The purpose of the meeting is to discuss the requirements and the expectations of the Government and may include private property owner(s) and other stakeholders, if applicable. The Government Review Appraiser (if different from the Ordering Official) will coordinate the date and time with the Contractor.
- The Contractor is responsible for ensuring subcontractors are present at the pre-work meetings.

2.5.7. LIVE REPORTING DASHBOARD

The Contractor must provide the Government with a live dashboard that readily communicates the status of all appraisal assignments. The dashboard may include data points like the following, but not limited to:

- Active valuations
- Current status
- Valuations awaiting assignment
- Upcoming deadlines
- Number of service orders issued
- Service order track number
- Period of performance
- Funding status
- Performance status

2.5.8. COMMUNICATION & DISCLOSURES

- Any communication between the client and the Contractor that pertains to the appraisal review (i.e., review questions, comments, concerns, etc.) is confidential.
- If including any proprietary information in the appraisal, the Contractor must gain concurrence from the Government Review Appraiser and deliver the proprietary information in a separate attachment.
- When the Contractor selected to perform the work has performed any services regarding the subject property within the prior three years, the selected Contractor must disclose this to the Government prior to engagement.

- The client will be identified in each service order. The client for each service order is the sole client. The Contractor and its sub-contractors may not communicate assignment results to any party except the client, unless authorized to do so in writing by the client. The client will provide a list of intended users.
- If the Contractor or its subcontractors discovers material facts which differ from those provided by the client or encounters circumstances which prevent the contractor/subcontractor from developing an unbiased appraisal, the Contractor must contact the Government for instructions.
- Any communication with the bureau realty contact or property owner shall be reported to the assigned Government Review Appraiser, as required.
- If the Contract appraiser performing the work encounters any intractable facts, laws, or appraisal methodology requiring resolution, they must contact the Government Review Appraiser immediately for direction.

2.6. Valuation Service Definitions

A range of valuation services exists within the Government. The valuation and review activities for the assets, rights, or considered interests drive the valuation service and assignment type. With each assignment type there are specialized requirements the Contractor must adhere to.

The charts below provide general terms and their respective descriptions related to valuation services, to include methods of acquisition, property interests / estates acquired, property types consultation services, and support services.

Methods of Acquisition

Type	Description
Agreement	A legally binding pact made between two or more people or entities
Condemnation (last resort)	Properties may be acquired through eminent domain
Disposals	Properties may be sold or otherwise disposed of in accordance with law
Donations	Private individuals, public municipalities and non-profit organizations may choose to donate property and upon request may request an appraisal
Exchanges	Properties may be exchanged upon mutual agreement by both parties.
Purchases	Properties may be acquired by purchase
Reservations of Use and Occupancy	Landowners may reserve rights that are memorialized in a use and occupancy agreement

Property Interests/Estates Acquired

Type	Description
Business Value	Government owned property can be made available to operate necessary and appropriate visitor services

Easement	Property that is less than the entire fee simple estate such as conservation easements
Fee	Property that represents absolute ownership, unencumbered by any other interest or estate, subject only to governmental limitations.
Improvement	Permanent additions to real property that enhance its value and are designed to make the property more useful or valuable, as distinguished from ordinary repairs
Leases	Property may be leased for a predetermined leasing period for lands and or improvements
Mineral rights	Property ownership of subsurface resources
Personal Property	Tangible assets not fixed to the land
Water rights	Property that allows access to and use of bodies of water; properties that may be subject to specific jurisdictional regulations; such as navigational servitude; or properties that include specific surface or irrigation water rights

Property Types

Type	Description
Agricultural	Land used for farming or relating farming purposes
Commercial	Property used for commercial purposes
Industrial	Property used for industrial purposes
Mineral / Mining	Land containing mineral resources or mining assets, to include mining rights, mining properties, or mineral resources
Residential	Property used for residential purposes
Right of Way (ROW)	Use of a portion of land for public or private infrastructure such as roads, pipelines, powerlines, or access routes—without purchasing the full ownership of the property
Special Use	Property that has limited marketability and utility such as religious buildings
Timber	Land containing merchantable timber of suitable for the growth of merchantable timber, and may include timber cruise
Trespass	Monetary damage caused by unauthorized use, occupation, or removal of resources from federal land or property
Water Rights	Access and use of water from a specific source separate from or in connection with land
Water Storage	Containment and management of water for future use, to include the right, facility, and capacity to store water

Consultation Services

Consultation services involve an engagement to provide a real estate valuation service analysis, opinion, conclusion, or other service that does not fall within the definition of appraisal such as:

Service	Description
Comparable sales/rental study	Establishing a reasonable price for an asset based on recent prices for similar assets
Data Sourcing	Gathering of information about properties, markets, transactions, and related factors essential for planning and feasibility considerations
Field Review Assistance	Onsite inspection with DOI staff to verify accuracy of an appraisal report and associated analysis
Landowner conference	Meeting to establish and understand landowner's concerns/questions regarding assignment conditions, etc.
Review of Landowner's appraisal	Independent evaluation of an appraisal report to ensure its accuracy, compliance, and integrity, serving as a quality control measure in real estate.
Sales and Rental data	Quantitative information collected for applicable sales and rental market information

Support Services

To ensure creditable valuation results, support services may be necessary for some assignments, including but not limited to: Environmental Site Assessments; Surveys; Title Reports, Architectural Reports, Condition Assessments, Timber Cruises, and Mineral Reports. Any required support services must comply with governing federal laws, regulations and policies.

Service	Description
Environmental Site Assessments	In accordance with 602 Departmental Manual (DM) 2.
Real Property Condition Assessments	The process of periodic physical inspection, assessment, measurement and interpretation of the resultant data to indicate the condition of a specific asset so as to determine the need for some preventative or remedial action. It is a crucial part of asset management to determine its current condition, remaining useful life and estimated cost to correct any deficiencies.
Resource Reports (Mineral, Timber, etc.)	A report that provides information about resources such as mineral deposits, timber, water and other resources of potential value.
Title	In accordance with Regulations of the Attorney General Governing the Review and Approval of Title for Federal Land Acquisitions (2016), as may be amended.

2.7. Specialized Requirements

Specialized requirements related to appraisal reports; appraiser licenses, credentials and qualifications; as well as specialized requirements for environmental site assessment and title support services are outlined below.

2.7.1. Appraisal Reports: The Government will identify the associated report requirements with service order. Acceptable appraisal report formats are outlined below.

- **Appraisal Report Format-** Must be prepared in compliance with the Uniform Act 49CFR, Part 24 and the USPAP and the UASFLA, aka Yellow Book, when applicable.
- **Narrative (Comprehensive) Reports:** These are detailed, comprehensive documents that function like a thesis or a complete overview of the property and the appraisal process. They fully disclose all data and analyses and are appropriate when a high level of information is required.
- **Form (Summary) Reports:** These are shorter, more concise reports that summarize findings, similar to a property report card. They are often used for residential appraisals and when a quicker turnaround is needed.
- **Restricted Appraisal Report:** A specific format recognized by USPAP, this is the most concise option and is intended for the use of only one intended user, usually the client. It contains minimal detail and is not suitable for situations where other parties need to understand the report.
- **Feasibility Reports** – Commonly used in situations where there is a need for a quick estimate of value, such as legislative cost estimates for portfolio analysis. They are less formal than appraisal reports and may not require adherence to specific appraisal standards or regulations.
- **Market Studies** - Analyze market trends, customer behavior, and the effectiveness of marketing strategies to inform business decisions.
- **Analytical Reports:** Provide in depth analysis of a specific issue or problem, often including recommendations based on the findings.
- **Evaluation Reports:** Assess the effectiveness of a program, project, or product, often used to inform future decisions.
- **Survey Reports:** Present findings from surveys, including data analysis and interpretations of the results.
- **Research Reports:** Document the findings of a research project, including methodology, data analysis, and conclusions.
- **Resource Reports:** There is no specific report format for these types of reports, and the contractor should defer to industry standards for appropriate report format, unless the contractor is provided specific instruction in the SOW.
- **Condition Assessment Reports-** The SOW will identify scope and report format for applicable condition assessment report as it depended on the level of detail need for the assignment.
- **Environmental Report** - The Phase I ESA report shall include all sections described under AAI and ASTM E1527-21, specifically **Appendix X5**, and include the requirements of **Section 12** of ASTM E1527-21.

2.8. Appraisal Requirement

The following appraiser requirements apply to all valuation assignments, as required:

2.8.1. *Licensing & Credentials*

- **State Certification** - The contractor performing the work must hold a current Certified General Appraiser license or have the ability to obtain a temporary practice permit to conduct the appraisal in the designated state. A copy of the contractor's valid State Certified General Appraiser license must be included in the proposal. If the appraiser is licensed in another state and applying for a license in the subject jurisdiction, he/she must provide a copy of his/her current license from that state.
- **Professional Designations/Licensed Appraisal Instructors** - A designation from a recognized professional appraisal organization, or a contractor that is a licensed appraisal instructor will be considered but is not required. If the contractor is a member of a professional organization or licensed appraisal instructor, this should be identified in their Appraiser Statement of Qualifications with the name of the organization, and the level, type, or category of such membership/licensure.
- **Licensed Associate Appraiser Requirements** - Licensed associate appraisers may perform work on appraisals provided that proposals for each award identify and outline the roles and responsibilities of each Licensed Associate Appraiser anticipated to participate in the assignment development and/or report writing. Licensed Associate Appraiser qualifications must be included with the proposal along with a copy of their state appraiser license. No other associates may work on the award without prior written authorization from the client. If Licensed Associate Appraisers contribute to the development and/or report writing of the appraisal, their assistance must be detailed in the scope of work and certification of the appraisal report. If the contractor does not list anyone else as providing assistance in the proposal, it is expected that the contractor is doing 100 percent of the research, verifications, property inspections, valuation analyses and appraisal writing.

2.8.2. *Qualifications*

- **Technical competency** - The contracted appraiser performing the work must possess at least five years of experience completing appraisal assignments similar in assignment type, property type, intended use and applicable standards. The Contractor may be asked to supply evidence of technical competency prior to the client engagement of the subcontractor.
- **Geographic competency** - The contracted appraiser performing the work must possess the geographic competency to complete the assignment described in each solicitation. If the contracted appraiser does not possess adequate geographic competency, this must be disclosed in the proposal along with a description of how the contracted appraiser performing the work will gain geographic competency.

2.9. Support Services

2.9.1. Environmental Specialist Requirements

The Phase I ESA shall be conducted by an Environmental Professional (EP). An EP is someone who meets the qualifications as defined in 40 CFR § 312.10(b) and as further described in Appendix X2 of ASTM E1527-21. The Phase I ESA report shall contain language specifying that an EP has conducted the ESA (ASTM E1527-21 sec. 12.14) and shall include the statements set forth in 40 CFR § 312.21(d).

Per ASTM 1527-21: The environmental site assessment must be conducted by the environmental professional or conducted under the supervision or responsible charge of the environmental professional.

2.9.2. DEFINITION OF ENVIRONMENTAL PROFESSIONAL AND RELEVANT EXPERIENCE THERETO, PURSUANT TO 40 C.F.R. § 312.10

2.9.2.1. Environmental Professional means:

2.9.2.1.1. A person who possesses sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding conditions indicative of releases or threatened releases (see § 312.1(c)) on, at, in, or to a property, sufficient to meet the objectives and performance factors in §§ 312.20(e) and (f).

2.9.2.1.2. Such a person must: (i) hold a current Professional Engineer's or Professional Geologist's license or registration from a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) and have the equivalent of three (3) years of full-time relevant experience; or (ii) be licensed or certified by the federal government, a state, tribe, or U.S. territory (or the Commonwealth of Puerto Rico) to perform environmental inquiries as defined in § 312.21 and have the equivalent of three (3) years of full-time relevant experience; or (iii) have a Baccalaureate or higher degree from an accredited institution of higher education in a discipline of engineering or science and the equivalent of five (5) years of full-time relevant experience; or (iv) have the equivalent of ten (10) years of full-time relevant experience.

2.9.2.1.3. An environmental professional should remain current in his or her field through participation in continuing education or other activities.

2.9.2.1.4. The definition of environmental professional provided above does not preempt state professional licensing or registration requirements such as those for a professional geologist, engineer, or site remediation professional. Before commencing work, a person should determine the applicability of state professional licensing or registration laws to the activities to be undertaken as part of the inquiry identified in § 312.21(b).

2.9.2.1.5. A person who does not qualify as an environmental professional under the foregoing definition may assist in the conduct of all appropriate inquiries in accordance with this part if such person is under the

supervision or responsible charge of a person meeting the definition of an environmental professional provided above when conducting such activities.

2.9.2.2. Relevant Experience:

2.9.2.2.1. Relevant experience, as used in the definition of environmental professional in this section, means: participation in the performance of all appropriate inquiries investigations, environmental site assessments, or other site investigations that may include environmental analyses, investigations, and remediation which involve the understanding of surface and subsurface environmental conditions and the processes used to evaluate these conditions and for which professional judgment was used to develop opinions regarding conditions indicative of releases or threatened releases (see § 312.1(c)) to the subject property.

2.9.3. *Title Examiners*

Per Regulations of the Attorney General Governing the Review and Approval of Title for Federal Land Acquisitions (2016), Section 3.2, the following requirements apply when selecting a Title Examiner:

- The record title examination must be obtained from a title examiner or title insurance company deemed competent to provide it by the reviewing attorney. Nationwide, title insurance companies are the most readily available sources for title examination. Title insurers authorized by state law to conduct business in the jurisdiction where the subject land is located and who hold membership in the American Land Title Association (ALTA) or Texas Land Title Association (TLTA) may be considered competent to examine title in the absence of adverse information.
- At a minimum, a provider of title evidence must be licensed if licensing is required by applicable laws in the state where the real property is located. Title examiners must have no financial interest in the land to be acquired, nor be related to or affiliated with a seller or donor.

[END OF SECTION 2]

SECTION 3 - GENERAL CONTRACT TERMS AND CONDITIONS

3.1 Period of Performance

The period of performance for the Contract(s) will consist of a one-year Base Period beginning **July 1, 2026**, followed by four (4) one-year Option Periods, as outlined in the table below. If all options are exercised, the total period of performance will not exceed five (5) years. Continued performance under the Contract(s) is contingent upon the availability of funds and the Contractor's acceptable level of performance.

Base Period	July 01, 2026 – June 30, 2027
Option Period 1	July 01, 2027 – June 30, 2028
Option Period 2	July 01, 2028 – June 30, 2029
Option Period 3	July 01, 2029 – June 30, 2030
Option Period 4	July 01, 2030 – June 30, 2031

3.2 Administrative Considerations

All questions and concerns during performance of this effort shall be directed to the CO, CS, and COR identified below:

- The CO for this effort is as follows:

Morgan Schickler

Department of the Interior

Interior Business Center

Acquisition Services Directorate

Email: morgan_schickler@ibc.doi.gov

- The CS for this effort is as follows:

Jacqueline Hernandez

Department of the Interior

Interior Business Center

Acquisition Services Directorate

Email: jacqueline_hernandez@ibc.doi.gov

- *Note: The COR for this will be provided at time of award.*

3.3 CLAUSES

FAR 52.252-2 Clauses Incorporated by Reference (Feb 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this address:

<http://acquisition.gov/far/index.html>;

The following clauses are hereby incorporated by reference:

Name	Title	
52.203-3	Gratuities	Apr 1984

52.203-6	Restrictions on Subcontractor Sales to the Government-- Alternate I	Jun 2020

(End of clause)

FAR 52.217-9 Option to Extend the Term of the Contract (Mar 2000)

- (a) The Government may extend the term of this contract by written notice to the Contractor within one (1) day, provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least three 3 days before the contract expires. The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five (5) years.

(End of clause)

FAR 52.219-14 Limitations on Subcontracting (DEVIATION OCT 2022)

- (a) This clause does not apply to the unrestricted portion of a partial set-aside.
- (b) *Definition. Similarly situated entity*, as used in this clause, means a first-tier subcontractor, including an independent contractor, that—
- (1) Has the same small business program status as that which qualified the prime contractor for the award (e.g., for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and
 - (2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.
- (c) *Applicability*. This clause applies only to—

- (1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);
 - (2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);
 - (3) Contracts that have been awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108;
 - (4) Orders expected to exceed the simplified acquisition threshold and that are set aside for small business concerns under multiple-award contracts, as described in 8.4 and 16.5;
 - (5) Orders, regardless of dollar value, that are set aside in accordance with sections 19.105, 19.106, 19.107, and 19.108 under multiple-award contracts, as described in 8.4 and 16.5; and
 - (6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.
- (d) *Independent contractors.* An independent contractor shall be considered a subcontractor.
- (e) By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for—
- (1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;
 - (2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;
 - (3) General construction, it will not pay more than 85 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 85 percent subcontract amount that cannot be exceeded; or
 - (4) Construction by special trade contractors, it will not pay more than 75 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 75 percent subcontract amount that cannot be exceeded.
- (f) The Contractor shall comply with the limitations on subcontracting as follows:
- (1) For contracts, in accordance with paragraphs (c)(1), (2), (3) and (6) of this clause—
[Contracting Officer check as appropriate.]
 - ☐ By the end of the base term of the contract and then by the end of each subsequent option period; or
 - ☐ By the end of the performance period for each order issued under the contract.
 - (2) For orders, in accordance with paragraphs (c)(4) and (5) of this clause, by the end of the performance period for the order.

(g) A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (e) of this clause will be performed by the aggregate of the joint venture participants.

(1) In a joint venture comprised of a small business protégé and its mentor approved by the Small Business Administration, the small business protégé shall perform at least 40 percent of the work performed by the joint venture. Work performed by the small business protégé in the joint venture must be more than administrative functions.

(2) In an 8(a) joint venture, the 8(a) participant(s) shall perform at least 40 percent of the work performed by the joint venture. Work performed by the 8(a) participants in the joint venture must be more than administrative functions.

(End of clause)

Limitation on Subcontracting Report

In order to ensure compliance with 52.219-14 Limitations on Subcontracting (DEVIATION OCT 2022), the contractor shall also submit a report (Attachment 4) to the Contracting Officer 60 days prior to the end of the base period and all option periods during the contract performance. If the Contractor's costs* are below the minimum performance measures stipulated at FAR 52.219-14 (Deviation), the Contractor shall provide a detailed mitigation plan on how it is going to cure its failure to comply with 52.219-14 (Deviation). This mitigation plan shall be provided to both the Small Business Administration and the Contracting Officer. The Contracting Officer will evaluate the plan to assess the adequacy. This clause does not limit the rights and remedies of the government under other contract clauses, including but not limited to the default or termination provisions of the contract.

**As stipulated in FAR 52.219-14 (DEVIATION OCT 2022)*

FAR 52.252-6 Authorized Deviations in Clauses (Apr 1984)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the clause.

(b) The use in this solicitation or contract of any Department of the Interior (48 CFR Chapter 14) and Health and Human Services (48 CFR Chapter 3) clause with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

(End of clause)

DOI-AAAP-0028 Electronic Invoicing and Payment Requirements – Invoice Processing Platform (IPP) (February 2021)

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

"Payment request" means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements

identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions – Commercial Items included in commercial item contracts. The IPP website address is: <https://www.ipp.gov>.

Under this contract, the following documents are required to be submitted as an attachment to the IPP invoice:

- Invoice Contents: Invoices will be paid upon approval and acceptance by the Government COR. Invoices must include, as a minimum, the following information:

- Contractor name
- Contractor address
- Service order No.
- Invoice date and number
- Billing Period for the services performed
- FFP Deliverable (if FFP)
- Labor Category (if applicable)
- Labor Rates (if applicable)
- Labor Hours (if applicable)
- ODC Total with corresponding breakout (if applicable)
- Additional supporting documentation MAY BE REQUESTED at the discretion of the COR.

The Contractor must use the IPP website to register, access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 – 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal.treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

Department of the Interior Acquisition Regulation (DIAR) 1452.201-70 Authorities and delegations. Authorities and Delegations (SEP 2011)

As prescribed in section 1401.670-1, insert the following clause:

- (a) The Contracting Officer is the only individual authorized to enter into or terminate this contract, modify any term or condition of this contract, waive any requirement of this contract, or accept nonconforming work.
- (b) The Contracting Officer will designate a Contracting Officer's Representative (COR) at time of award. The COR will be responsible for technical monitoring of the contractor's performance and deliveries. The COR will be appointed in writing, and a copy of the appointment will be furnished to the Contractor. Changes to this delegation will be made by written changes to the existing appointment or by issuance of a new appointment.

- (c) The COR is not authorized to perform, formally or informally, any of the following actions:
- (1) Promise, award, agree to award, or execute any contract, contract modification, or notice of intent that changes or may change this contract;
 - (2) Waive or agree to modification of the delivery schedule;
 - (3) Make any final decision on any contract matter subject to the Disputes Clause;
 - (4) Terminate, for any reason, the Contractor's right to proceed;
 - (5) Obligate in any way, the payment of money by the Government.
- (d) The Contractor shall comply with the written or oral direction of the Contracting Officer or authorized representative(s) acting within the scope and authority of the appointment memorandum. The Contractor need not proceed with direction that it considers to have been issued without proper authority. The Contractor shall notify the Contracting Officer in writing, with as much detail as possible, when the COR has taken an action or has issued direction (written or oral) that the Contractor considers to exceed the COR's appointment, within 3 days of the occurrence. Unless otherwise provided in this contract, the Contractor assumes all costs, risks, liabilities, and consequences of performing any work it is directed to perform that falls within any of the categories defined in paragraph (c) prior to receipt of the Contracting Officer's response issued under paragraph (e) of this clause.
- (e) The Contracting Officer shall respond in writing within 30 days to any notice made under paragraph (d) of this clause. A failure of the parties to agree upon the nature of a direction, or upon the contract action to be taken with respect thereto, shall be subject to the provisions of the Disputes clause of this contract.
- (f) The Contractor shall provide copies of all correspondence to the Contracting Officer and the COR.
- (g) Any action(s) taken by the Contractor, in response to any direction given by any person acting on behalf of the Government or any Government official other than the Contracting Officer or the COR acting within his or her appointment, shall be at the Contractor's risk.

(End of clause)

DOI AAAP-0050_V3 Notice to Contractors--Contractor Performance Assessment Reporting System (December 2015)

- 1) [FAR 42.1502](#) directs all Federal agencies to collect past performance information on contracts. The Department of the Interior (DOI) has implemented the Contractor Performance Assessment Reporting System (CPARS) to comply with this regulation. One or more past performance evaluations will be conducted in order to record your contract performance as required by [FAR 42.15](#).
- 2) The past performance evaluation process is a totally paperless process using CPARS. CPARS is a web-based system that allows for electronic processing of the performance evaluation report. Once the report is processed, it is available in CPARS for Government use in evaluating past performance as part of a source selection action.
- 3) We request that you furnish the Contracting Officer (CO) with the name, position title, phone number, and email address for each person designated to have access to your firm's past performance evaluation(s) for the contract no later than **30 days after award**. Each person granted access will have the ability to provide comments in the Contractor portion of the report and state whether or not the Contractor agrees with the evaluation, before returning the report to the Assessing Official (AO). Information in the report must be protected as source selection sensitive information not releasable to the public.

- 4) When your Contractor Representative(s) are registered in CPARS, they will receive an automatically generated email with detailed login instructions. Further details, systems requirements, and training information for CPARS is available at <https://www.cpars.gov/>.
- 5) Within 60 days after the end of a performance period, the AO will complete an interim or final past performance evaluation, and the report will be accessible at <https://www.cpars.gov/>.
 - a) Contractor Representatives may then provide comments in response to the evaluation, or return the evaluation without comment.
 - b) Your comments should focus on objective facts in the AO's narrative and should provide your views on the causes and ramifications of the assessed performance.
 - c) All information provided should be reviewed for accuracy prior to submission.
 - d) If you elect not to provide comments, please acknowledge receipt of the evaluation by indicating "No comment" in the space provided, and then selecting "Accept the Ratings and Close the Evaluation".
 - e) Your response is due within 60 calendar days after receipt of the CPAR. On day 15, the evaluation will become available in CPARS marked as "Pending" with or without comments and whether or not it has been closed.
 - f) If you do not sign and submit the CPAR within 60 days, it will automatically be returned to the Government and will be annotated: "The report was delivered/received by the contractor on (date). The contractor neither signed nor offered comment in response to this assessment."
- 6) The following guidelines apply concerning your use of the past performance evaluation:
 - a) Protect the evaluation as source selection information. After review, transmit the evaluation by completing and submitting the form through CPARS. If for some reason you are unable to view and/or submit the form through CPARS, contact the CO for instructions.
 - b) Strictly control access to the evaluation within your organization. Ensure the evaluation is never released to persons or entities outside of your control.
 - c) Prohibit the use of or reference to evaluation data for advertising, promotional material, pre-award surveys, responsibility determinations, production readiness reviews, or other similar purposes.
- 7) If you wish to discuss a past performance evaluation, you should request a meeting in writing to the CO no later than seven days following your receipt of the evaluation. The meeting will be held in person or via telephone or other means during your 60-day review period.
- 8) A copy of the completed past performance evaluation will be available in CPARS for your viewing and for Government use supporting source selection actions after it has been finalized.

3.4 PROVISIONS

FAR 52.252-1 Solicitation Provisions Incorporated by Reference. (Feb 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of

submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

<https://www.acquisition.gov>

FAR Provisions Incorporated by Reference:

Name	Title	Date
52.203-11	Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions	Sep 2024

(End of provision)

52.216-31 Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Acquisition (Nov 2021)

- (a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
- (b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by-
 - (1) The offeror;
 - (2) Subcontractors; and/or
 - (3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

(End of provision)

DIAR 1452.215-71 Use and Disclosure of Proposal Information—Department of the Interior (APR 1984)

(a) Definitions. For the purposes of this provision and the Freedom of Information Act (5 U.S.C. 552), the following terms shall have the meaning set forth below:

(1) "Trade Secret" means an unpatented, secret, commercially valuable plan, appliance, formula, or process, which is used for making, preparing, compounding, treating or processing articles or materials which are trade commodities.

(2) "Confidential commercial or financial information" means any business information (other than trade secrets) which is exempt from the mandatory disclosure requirement of the Freedom of Information Act, 5 U.S.C. 552. Exemptions from mandatory disclosure which may be applicable to business information contained in proposals include exemption (4), which covers "commercial and financial information obtained from a person and privileged or confidential," and exemption (9), which covers "geological and geophysical information, including maps, concerning wells."

(b) If the offeror, or its subcontractor(s), believes that the proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, (5 U.S.C. 552), the cover page of each copy of the proposal shall be marked with the following legend:

"The information specifically identified on pages _____ of this proposal constitutes trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act. The offeror requests that this information not be disclosed to the public, except as may be required by law. The offeror also requests that this information not be used in whole or part by the government for any purpose other than to evaluate the proposal, except that if a contract is awarded to the offeror as a result of or in connection with the submission of the proposal, the Government shall have the right to use the information to the extent provided in the contract."

(c) The offeror shall also specifically identify trade secret information and confidential commercial and financial information on the pages of the proposal on which it appears and shall mark each such page with the following legend:

"This page contains trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act and which is subject to the legend contained on the cover page of this proposal."

(d) Information in a proposal identified by an offeror as trade secret information or confidential commercial and financial information shall be used by the Government only for the purpose of evaluating the proposal, except that (i) if a contract is awarded to the offeror as a result of or in connection with submission of the proposal, the Government shall have the right to use the information as provided in the contract, and (ii) if the same information is obtained from another source without restriction it may be used without restriction.

(e) If a request under the Freedom of Information Act seeks access to information in a proposal identified as trade secret information or confidential commercial and financial information, full consideration will be given to the offeror's view that the information constitutes trade secrets or confidential commercial or financial information. The offeror will also be promptly notified of the request and given an opportunity to provide additional evidence and argument in support of its position, unless administratively unfeasible to do so. If it is determined that information claimed by the offeror to be trade secret information or confidential commercial or financial information is not exempt from disclosure under the Freedom of Information Act, the offeror will be notified of this determination prior to disclosure of the information.

(f) The Government assumes no liability for the disclosure or use of information contained in a proposal if not marked in accordance with paragraphs (b) and (c) of this provision. If a request under the Freedom of Information Act is made for information in a proposal not marked in accordance with paragraphs (b) and (c) of this provision, the offeror concerned shall be promptly notified of the request and given an opportunity to provide its position to the Government. However, failure of an offeror to mark information contained in a proposal as trade secret information or confidential commercial or financial information will be treated by the Government as evidence that the information is not exempt from disclosure under the Freedom of Information Act, absent a showing that the failure to mark was due to unusual or extenuating circumstances, such as a showing that the offeror had intended to mark, but that markings were omitted from the offeror's proposal due to clerical error.

(End of provision)

FAR 52.233-2 Service of Protest Department of the Interior (JUL 1996) (Deviation)

(a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (Morgan Schickler, 381 Elden Street, Suite 2000A, Herndon, VA 20170; morgan_schickler@ibc.doi.gov) by obtaining written and dated acknowledgment of receipt from the Contracting Officer.

The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(b) A copy of the protest served on the Contracting Officer shall be simultaneously furnished by the protester to the Department of the Interior Assistant Solicitor for Procurement and Patents, 1849 C Street, NW, Room 6511, Washington, D.C. 20240."

(End of provision)

FAR 52.252-5 Authorized Deviations in Provisions (Nov 2020)

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

(b) The use in this solicitation of any Department of the Interior Acquisition Regulation (48 CFR Chapter 14) provision with an authorized deviation is indicated by the addition of "(Deviation)" after the name of the regulation.

(End of provision)

[THE REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]

[END OF SECTION 3]

SECTION 4 – PROPOSAL PREPARATION & SUBMISSION INSTRUCTIONS

4.1 General Instructions

The following instructions are included in addition to FAR provision 52.212-1. This acquisition will be conducted in accordance with Revolutionary FAR Overhaul Part 12 and FAR 15 for the purpose of entering into up to three (3) T&M Contracts. Contractors may submit a Proposal for one, two, or all three regions. The contractor must identify which region(s) they are submitting a proposal for.

Contractors shall submit a **Technical Proposal** and **Price Proposal**. Each must be submitted as a separate volume. Contractors shall not include pricing information in their Technical Volume.

This is a total small business set aside under NAICS 541611. Other NAICS codes may be proposed.

4.2 Submission Requirements

You shall submit an electronic copy of your proposal containing the following:

Volume I – Technical Proposal (*Factor A and Factor B*)

Volume II – Price Proposal

Volume III – Assumptions, Conditions, and/or Expectations

To be considered for award, a Proposal shall contain the following information:

- Company Name
- Mailing Address
- System for Award Management (SAM) Unique Entity Identifier (UEI)
- Complete business mailing address as it appears in SAM
- Contact name, phone number, and e-mail address
- RFP Number
- Date submitted and Proposal Expiration Date

Contractors are required to be registered in SAM at www.sam.gov as of the date the proposal is submitted. The contractor's SAM registration shall be in "active" status.

Proposals that do not meet all the requirements specified in this RFP may not be considered.

Volume I – Technical Proposal Instructions:

- **Page Limit:** Limited to twenty (20) pages, exclusive cover letter and table of contents. Pages in excess of 20 will not be evaluated.
- **Format:** 12-point font, single-spaced, 8.5x11 paper. Graphics/tables may use 8-point font.
- **Structure:** The submission should be organized to correspond with the evaluation factors in Section 5.

Contractors shall provide a technical quote that addresses the following:

A. Management Approach and Technical Capabilities

Contractors shall provide specific information as it relates to the Government's SOW. The contractor must demonstrate a thorough understanding of the requirement and demonstrate the ability to meet the objectives outlined in the SOW in terms of material, resources, and other supplies/services that may be required to perform the work. The contractor shall describe in detail both the managerial approach and technical capabilities as it relates to successful performance of the SOW.

Technical Capability is the extent to which the quoted integrator program management and valuation services conform to the SOW contained in this RFP. The Contractor must demonstrate an understanding of the objectives of the SOW, specific tasks required and demonstrate their competency, capacity and expertise in meeting the SOW requirements.

Management Approach is the contractor's methodology for efficiently and effectively governing personnel, materials, financial and informational resources, in order to satisfy the service needs as specified in the SOW. Evidence may include specific methods and techniques for completing tasks and include such items as quality assurance and customer service satisfaction.

B. Past Performance

Contractors may identify three contracts/task orders with the Federal Government and/or commercial customers that demonstrate recent and relevant past performance. Recent is defined as within the last three years. Relevant is defined as work similar in complexity and magnitude of the work described in this SOW. Please provide five references of similar efforts performed by your organization for the last three years. Include a description of the project, project title, contract number, contract amount, client identification including agency or company name, contracting and technical reviewing official, address, telephone number, and email address. Subcontractor references may be included.

The Government shall also consider information obtained through other sources. Past performance information will be utilized to determine the quality of the contractor's past performance as it relates to the probability of success of the required effort.

Volume II – Pricing Proposal Instructions

Labor Categories: Service Contract Labor Standards may apply. A Department of Labor Wage Determination for those categories that are not exempt from the Service Contract Labor Standards requirements will be included at time of award specific to the place of performance. Service Contract Labor Standards may apply to this requirement with a place of performance at the contractor's location. As this is a competitive action with remote positions, the place of performance is not known at this time. Clause 52.222-49 is incorporated. The Contracting Officer will require the place(s) of performance for all personnel in positions subject FAR 52.222-41 Service Contract Labor Standards within 30 days of award for determining the applicable wage determination(s).

Attachment 1 and 2 - Pricing Schedule Template includes a Service Contract Labor Standards Verification. The Contractor shall verify whether a proposed labor category used to support this effort is subject to FAR 52.222-41 Service Contract Labor Standards.

All other applicable Service Contract Labor Standards clauses will be included at the time of solicitation. In the event Service Contract Labor Standards does not apply to the requirement, all clauses will not be incorporated into the final award. If Service Contract Labor Standards does apply, the applicable wage determination and clauses will be incorporated into the final award.

Price Assumptions: Contractors shall indicate, in this section only, if any price related assumptions have been made, conditions have been stipulated or exceptions have been taken with the SOW as written. If not noted in section of this volume of the proposal, it will be assumed that the contractor's proposal reflects no price assumptions for award and agrees to comply with all of the terms and conditions set forth herein. It is not the responsibility of the Government to seek out and identify assumptions, conditions, or exceptions buried within the contractor's quote. Accordingly, any price related assumptions listed in any other Volume or Section shall be null and void.

1. Contract Ceiling and Periods

- The contract will have a Not-To-Exceed (NTE) ceiling of \$25,000,000, \$5,000,000 per year.
- The contract will consist of a one-year base period with four one-year option periods.

2. Integrator/Valuation Categories (Parameters)

- The Government has established 10 valuation categories with a NTE ceiling. The contractor is to provide the parameters for each valuation category within the NTE ceiling. The valuation services are identified in SOW sections 2.5 through 2.8.
- Contractors must provide the parameters for each category that clearly describe the level of complexity and the type of work included. Parameters could include such things as:
 - Labor hours and skill levels required
 - Team composition and roles (labor mix)
 - Scope and duration of effort
 - Deliverables and milestones
 - Coordination and risk considerations
- The NTE category must be fully inclusive of all costs, including subcontractor expenses, management, dashboard support, overhead, travel, and applicable fees.

Integrator/Valuation Pricing Table (Attachment 1):

Valuation Category	Parameter	*Firm Fixed Price Per Unit (NTE)
1	[Contractor Parameter]	Up to \$9,999
2	[Contractor Parameter]	\$10,000 to \$19,999
3	[Contractor Parameter]	20,000 to \$29,999
4	[Contractor Parameter]	30,000 to \$39,999
5	[Contractor Parameter]	40,000 to \$49,999
6	[Contractor Parameter]	50,000 to \$59,999
7	[Contractor Parameter]	60,000 to \$69,999
8	[Contractor Parameter]	70,000 to \$79,999
9	[Contractor Parameter]	80,000 to \$89,999
10	[Contractor Parameter]	90,000 to \$100,000

* Inclusive of all subcontractor, management, dashboard, overhead, travel, and fees.

3. Sample Valuation Scope of Work

- The Government will provide sample scope of works for reference.
- Contractors must ensure their category parameters and pricing accommodate the potential scope and complexity of these sample scope of works.
- Contractors will identify the appropriate appraisal category for each sample scope of work provided.
- The contractor will also provide an FFP for each scope of work.
- The FFP provided must be inclusive of all management, overhead, travel, and fees.
- Prices must not exceed the maximum ceiling for each category as indicated in the valuation pricing table above.

4. Consulting and Support Services

- A separate line for consulting and support services will be added as needed using the T&M labor rates and categories. T&M labor categories may be used for assignments that require flexibility in staffing or duration, with labor rates aligned to the below categories.
- The labor rates must be fully inclusive of all costs, including subcontractor expenses, management, dashboard support, overhead, travel, and applicable fees
- The consulting and support services are identified in SOW sections 2.6 and 2.9.

- The consulting and support services will have a NTE ceiling of \$1,000,000 per year.
- The recommended labor categories for T&M service orders are outlined in the table below:

T&M Categories (Attachment 2):

Labor Category		Experience / Qualifications	Typical Responsibilities	Suggested Hourly Rate
1	Appraisal Technician / Assistant	Entry-level; may have associate degree or relevant coursework	Administrative support, data collection, preliminary report preparation, assists licensed appraisers	[Contractor to propose]
2	Data Analyst / Valuation Analyst	1–3 years in market/financial analysis	Compiles market data, analyzes trends, supports valuation and reporting	[Contractor to propose]
3	Research Specialist	1–3 years in property research or data analysis	Conducts property research, public records review, background checks	[Contractor to propose]
4	Certified Appraiser / Staff Appraiser	Certified/licensed appraiser; 3–5 years experience	Inspects properties, analyzes market data, prepares full appraisal reports, ensures USPAP compliance	[Contractor to propose]
5	Valuation Analyst – Real Estate / Personal Property	3–5 years specialized in asset type	Performs valuations for specific assets (commercial, industrial, equipment), prepares reports	[Contractor to propose]
6	Cost Estimator / Depreciation Analyst	3–5 years in appraisal or accounting	Estimates replacement costs, calculates depreciation, supports valuation methodologies	[Contractor to propose]
7	Senior Appraiser / Lead Appraiser	5–10 years experience; certified/licensed	Oversees appraisal projects, reviews reports, mentors junior staff, manages complex assignments	[Contractor to propose]
8	Appraisal Reviewer / Quality Control Specialist	5–10 years appraisal experience	Reviews appraisal reports for accuracy, compliance, and consistency; audits reports as needed	[Contractor to propose]

9	Specialty Appraiser	Expert-level in unique asset type (art, machinery, IP, historic property)	Performs specialized valuations requiring niche expertise	[Contractor to propose]
10	Valuation Consultant / Expert Witness	Senior-level; recognized expert	Provides advisory services, litigation support, expert testimony	[Contractor to propose]
11	Project Manager / Appraisal Services Manager	5–10 years experience; management background	Coordinates projects, manages client relations, ensures timely delivery	[Contractor to propose]
12	Chief Appraiser / Director of Valuation Services	10+ years experience; executive-level	Oversees appraisal department, develops policies, provides strategic guidance	[Contractor to propose]

5. Pricing Submission Format

Proposed pricing shall be submitted using the provided fillable pricing chart:

- Attachment 1 **Valuation Fixed Price Per Unit Spreadsheet**
- Attachment 2 **Consulting and Support Services T&M Price Spreadsheet**

Volume III - Assumptions

Assumptions, Conditions, and/or Exceptions

Contractors must submit, under a separate page, all (if any) assumptions, conditions, or exceptions with any of the terms and conditions of this RFP. If not noted in this section of your quote, it will be assumed that the contractor proposes no assumptions for award and agrees to comply with all of the terms and conditions as set forth herein. It is not the responsibility of the Government to seek out and identify assumptions, conditions, or exceptions buried within the contractor's quote. Price Assumptions should NOT be addressed here. Please address pricing assumptions in the Volume II Pricing.

4.3 Due Date and Time

Proposals must be submitted via email to:

1. Morgan Schickler: morgan_schickler@ibc.doi.gov
2. Jacqueline Hernandez: jacqueline_hernandez@ibc.doi.gov

Submissions must be received **no later than 10:00 A.M. ET, April XX, 2026***. Please reference **“RFP – 140D0426R0051”** in the subject line.

The Government reserves the right to contact a Contractor regarding their proposal, including to request additional discounts.

**Revised date and time will be provided when final solicitation is released.*

Late submissions will not be considered for evaluation. No faxed or hard-copy proposals will be accepted.

[END OF SECTION 4]

SECTION 5 - EVALUATION OF PROPOSAL

5.1. Discussions/Award without Discussions

The Government reserves the right to award without discussions, so it is in your best interest to include your most favorable terms in your initial submission. However, the Government reserves the right to conduct discussions and to permit offerors to revise their submissions.

As stated above the Government reserves the right to make an award without discussions, except for clarifications as described herein. Any exceptions or deviations by the offeror to the terms and conditions stated in this RFP for inclusion in the resulting award may make the offer unacceptable for award without discussions. If a contractor proposes exceptions to the terms and conditions of these requirements, the Government may make an award, without discussions, to another contractor that did not take exception to the terms and conditions, if such offeror is determined to be the best overall value for this effort.

Clarifications are limited exchanges with offerors that may occur when award without discussions is contemplated. If award will be made without conducting discussions, offerors may be given the opportunity to clarify certain aspects of proposals (e.g., the relevance of an offeror's past performance information and adverse past performance information to which the offeror has not previously had an opportunity to respond) or to resolve minor or clerical errors.

5.2 Basis for Award

The basis for award will be Best Value / Trade-Off. The Government intends to award up to 3 Contracts to the responsible Small Business contractor(s) whose proposals, conforming to the RFP, are determined to be the most advantageous to the Government. The contractors receiving awards may not necessarily be the lowest priced or have the highest technical ratings.

In performing this trade-off, all evaluation factors, including price, will be considered. Factor A and Factor B are of equal importance and, when combined, are significantly more important than Factor C – Price. As technical merit among proposals becomes more equal, the importance of price will increase. An award to a higher-priced proposal will be made only when the technical or performance benefits of such a proposal merit the additional cost to the Government.

The Government reserves the right to make no award at all as a result of this competition.

5.3 Evaluation of Factors

VOLUME I – TECHNICAL PROPOSAL

FACTOR A: Technical Capability and Management Approach

The Government will evaluate proposals for the following:

1. Understanding & Approach

- Demonstrates clear understanding of the requirement and operational mission environment.
- Provides a feasible, well-defined methodology for integration, migration, and risk management.
- Identifies risks related to valuation complexity, access constraints, and data gaps.
- Proposes effective mitigation strategies for schedule, quality, and compliance risks.
- Understanding of the work, including creativity and thoroughness shown in understanding the objectives of the SOW and specific tasks, and planned execution of the project.
- Ability to address anticipated potential problem areas, and creativity and feasibility of solutions to problems and future integration of new processes and technology enhancements.
- Degree to which the contractor's proposal demonstrates an understanding of logistics, schedule, and any other miscellaneous issues of which the Government should be aware.

2. Integrator & Workflow Management

- Supports full cradle to grave assignment management (initiation → sourcing → monitoring → final delivery).
- Manages multiple valuation providers and ensures use of only Government approved, certified firms.
- Ensures subcontractor compliance, performance, and timely delivery.
- Reduces administrative burden and streamlines procurement workflows.

3. Quality, Standards & Compliance

- Ensures strict adherence to USPAP, UASFLA (Yellow Book), and federal land acquisition standards.
- Implements multistage technical review processes prior to submission.
- Maintains audit ready deliverables consistent with federal expectations.

4. Tools, Visibility & Communication

- Provides tools, dashboards, and real-time visibility into assignment status.
- Enables tracking of milestones, risk management, and communication with Government reviewers and stakeholders.

FACTOR B: Past Performance

1. The organization's history of successful completion of projects; history of producing high- quality reports and other deliverables; history of staying on schedule and within budget within the past 3 years will be accepted.
2. The organization's specific past performance on prior similar efforts specified within the SOW.

VOLUME II – PRICE PROPOSAL

The Contractor is expected to propose fair and reasonable price/rates for the contract. An evaluation of each Contractor's price proposal will be made to determine if it is reasonable for the work to be performed, reflects a clear understanding of the requirements, and is consistent with the proposed technical solution. Contractors are placed on notice that any proposals which are impractical in terms of technical approach may be deemed reflective of an inherent lack of technical competence or indicative of failure to comprehend the complexity of the requirements and may be grounds for the rejection of the submission.

Each price proposal will be assessed to identify potential risk. Price risk refers to any aspect of a contractor's proposal which could have significant negative price consequences for the Government. Where risk is assessed, it may be described in qualitative terms or used as a best-value discriminator.

The government will also be utilizing the results from the sample scope of works as part of the price evaluation. The price for the sample scope of works will be evaluated to determine if it's fair and reasonable.

FACTOR C: Price

The Price evaluation will assess the reasonableness, completeness, and alignment of the contractor's proposed prices with the Government's anticipated statement of work. For evaluation purposes, the Government will provide sample scope of works for each valuation category (10 sample scope of works). Each sample scope of work represents a typical services order that would fall under the valuation categories.

Integrator/Valuation Categories:

- For evaluation, the Government will provide sample scope of works for each appraisal category (Attachment 1).
- The Government will use the results of the sample scope of work submissions as part of the price evaluation. All sample scope of work totals will be aggregated, and the combined amount will be assessed to determine whether the overall price is fair and reasonable.

For T&M labor categories, the Government will:

- For T&M evaluation, the Government will evaluate pricing against the T&M labor categories chart (Attachment 2), including proposed hourly rates.

- The Government will:
 1. Review the proposed labor categories, qualifications, and hourly rates.
 2. Compare proposed rates to the T&M labor categories chart and expected market standards.
 3. Assess reasonableness and consistency with qualifications.

This dual approach ensures that both FFP and T&M pricing are evaluated against realistic workloads, representative tasks, and appropriate labor skill levels, providing a comprehensive assessment of price and value.
