

PURCHASE DESCRIPTION

Industry Standards Access

Naval Sea Systems Command (NAVSEA) and Strategic Systems Program (SSP) access to industry standards to support engineering requirements with product development and sustainment.

1. INTRODUCTION

Provide access to industry standards.

2. BACKGROUND

NAVSEA requires access and the ability to obtain industry standards from Standards Development Organizations (SDO) to support product development and sustainment of Navy products. NAVSEA develops and manages its own portfolio of unique military standards, specifications, and manuals, which reference industry standards or Non-Government Standards (NGS) from various SDO. Having a single point of access to all the necessary NGS is naval requirement. Previous access was allowed via KKR, Allium US Holding LLC, Accuris Account N6426721F5090 contract. It provides a centralized NGS search engine website that is accessible via the internet with the establishment of a user account:

- Engineering Workbench (EWB) – Provides access to the complete set of government and industry standards.

3. REQUIREMENTS

The Government's minimum need:

- Access (typically a web-based product tool) to obtain electronic and paper copies of listed industry standards or NGS from a centralized search engine.
 - Access to include the following primary SDO: AIA, ASHRAE, ASTM, ASME, AWS, IEEE, NFPA, SAE International, UL, US DoD Adopted, Historical DoD Standards, Global Deposit Account (Base Year Only), and License.
- Additional standards to include a minimum of 90% of the DoD Adopted ASSIST NGS Listing (Attachment: ASSIST NGS AN Listing - DoD Adoption Notices of NGS used by the government) The intent is to exclude some of the more expensive standards from the standard subscription pricing (e.g. International standards, special SDO standards).
- Review current Defense Standard Program ASSIST repository for current DoD Adoption Notices (CY2026 listing included for reference) via <https://assist.dla.mil>
- Naval Instructions and Directives (available on government websites)
- Active and Historical DoD Directives (available on government websites)
- US DoD Adopted Industry Standards
- Specs and Standards Complete

- IES Support SVCS
- US DoD Adopted/IPC
- Help Desk Support
- A Global Deposit Account for the procurement of NGS not included in the standard subscription shall be included.
- Annual Training to support the use of product tools (REF: EWB)

The contractor shall provide Firm-Fixed-Price (FFP) deliverables as described in this SOW and delivery schedule for each option year as outlined below:

Number	Name
0001	Site License access for NAVSEA Washington Navy Yard (WNY) Headquarters (HQ) personnel or HQ personnel with a @us.navy.mil email account within the DC and Arlington satellite areas.
A001	Site License access for NAVSEA Supervisor Ship (SUPSHIP) locations as follows; SUPSHIP Bath, ME SUPSHIP Groton, CT SUPSHIP Gulf Coast Pascagoula, MS SUPSHIP Newport News, VA
A002	Site License access for NAVSEA Supervisor Ship (SUPSHIP) detachment locations as follows: SUPSHIP Marinette, WI SUPSHIP San Diego, CA SUPSHIP Mobile, AL SUPSHIP New Orleans, LA
A003	Site License access for remote NAVSEA HQ and SSP users, with a @us.navy.mil email account, or a @ssp.navy.mil account,

	respectively. One remote package includes a maximum limit of (30) remote users, and maintained by the government contract TPOC. Remote users will be limited by a determined length of time by the TPOC, unlike the location based user.
A004	Site License access for NAVSEA Strategic Systems Programs (SSP) locations as follows: SSP Strategic Weapons Facility, Pacific (SWFPAC), Bangor, WA SSP Strategic Weapons Facility, Atlantic (SWFLANT), Kings Bay, GA SSP Naval Ordnance Test Unit (NOTU), Cape Canaveral, FL SSP Program Management Office SSP Flight Systems (PMOSSP – SPF) detachment at PMOSSP -SPF(B) Magna, UT SSP PMOSSP -SPF(C) Cape Canaveral, FL SSP PMOSSP -SPF(S) Sunnyvale, CA SSP PMOSSP -SPF Denver, CO SSP PMOSSP -SPF Denver, CO PMOSSP – SPS Pittsfield, MA SSP PMOSSP – SPS Mobile, AL SSP PMOSSP – SPS-M Mitchel Field, NY
A005	Add additional product tool; THREAD (NGS Requirements Management Tool), with Site License access for NAVSEA Washington Navy Yard (WNY) Headquarters (HQ) personnel or HQ personnel with a @us.navy.mil email account within the DC and Arlington satellite areas.

SSP specific CLIN family applies with the ability to exercise each SSP FY CLIN and location independently.

SSP requires an SSP assigned Account Manager and Customer Support Manager.

SSP will require the ability to have their own Government Account Manager.

SSP will require a Deposit Account ability to fund user requests as required.

DRAFT

PERIOD OF PERFORMANCE / REQUIRED DELIVERY DATES

Period of Performance starts on 01OCT2026 through 30SEPT2031.

PLACE OF PERFORMANCE

The Service is supported by NAVSEA Headquarters in support of the delivery schedule provided above.

SHIPPING ADDRESS

The product tool shall support web-based access.

INSPECTION AND ACCEPTANCE
