

Sources Sought Synopsis
for
Matrix Array Ultrasonic Testing NDI System

Tinker Air Force Base, OK

A26-013

April 17, 2026

NOTICE:

This market survey is being conducted to identify potential sources that may possess the **expertise, capabilities, and experience** to meet the requirements for qualification and resources to provide us with Matrix Array Ultrasonic Testing NDI System for use by United States Air Force (USAF) personnel. The level of security is unclassified only and documents involved are no higher than Controlled Unclassified Information (CUI). Contractors/Institutions responding to this market research are placed on notice that participation in this survey may not ensure participation in future solicitations or contract awards. The government will not reimburse participants for any expenses associated with their participation in this survey.

INSTRUCTIONS:

1. Below are a description of the Matrix Array Ultrasonic Testing NDI System requirement and a Contractor Capability Survey, which allows you to provide your company's capability. In addition, there are two attachments:
 - a) Draft Statement of Work (SOW attached)
2. If, after reviewing these documents, you desire to participate in the market research, you should provide documentation that supports your company's capability in meeting these requirements. Failure to provide documentation may result in the government being unable to adequately assess your capabilities. If you lack sufficient experience in a particular area, please provide details explaining how you would overcome the lack of experience/capabilities in order to perform that portion of the requirement (i.e., teaming, subcontracting, etc.). Additionally, please identify any areas of work that your organization believes should be broken out exclusively for Small Business.
3. Both large and small businesses are encouraged to participate in this market research. Joint ventures or teaming arrangements are encouraged.
4. Questions relative to this market survey should be addressed to Reginald Littlejohn who can be reached at 405-582-4656 and reginald.littlejohn@us.af.mil.

Description of Matrix Array Ultrasonic Testing NDI System

The Government is conducting market research to identify potential sources that possess the expertise, capabilities, and experience to meet qualification requirements for Matrix Array Ultrasonic Testing NDI System for Tinker Air Force Base (AFB). The intent is for the Government to purchase one Matrix Array Ultrasonic Testing NDI System with training at the Oklahoma City–Air Logistics Complex (OC-ALC). The following descriptions are from the attached Draft SOW.

The Contractor shall be responsible for providing us with the following:

Requested Services: The contractor shall provide all personnel, equipment, transportation, parts, tools, material, supervision, quality control, and other incidentals and services to perform on-site Training of purchased equipment as defined in this (SOW). The objective of this SOW is to define the required result from the purchase and on-site training to ensure that the equipment meets all technical areas of the

CUI

requirement and on-site training is conducted and completed at Tinker Air Force Base in accordance with SOW and manufacturing specifications

(See attached Draft SOW for full description). shall include: **2.1 2.2 2.3 Contractor Requirement, 2.4 Training, 2.6 Hours of Operation.**

Part II. Capability Survey Questions

Please answer the questions and provide the requested information below in a separate document.

A. General Capability Questions

1. Describe briefly the capabilities of your facility and the nature of the goods and/or services you provide. Include a description of your staff composition and management structure.

2. Describe your company's past experience on previous projects similar in complexity to this requirement. Include contract numbers, a brief description of the work performed, period of performance, agency/organization support, and individual point of contact (Contracting Officer or Program Manager).
3. What quality assurance processes and test qualification practices does your company employ? Please provide a description of your quality program (ISO 9001, AS9100, etc.)
4. What is your company's current maximum production capacity per month? Provide information on any facility reserves you may possess to increase production capacity in the event of immediate need due to critical operational mission requirements.
5. Are there specific requirements in the documentation that we provide that would currently preclude your product from being a viable solution to our requirement?
6. Include a detailed listing of facilities and equipment, including quantities, required to satisfy the requirements of this effort.
7. Provide an outline of the proposed process, including inspections.

B. Commerciality Questions

1. Are there established catalog or market prices for our requirement? If you offer this product and/or service to both U.S. Government and commercial sources, is the same workforce used for both the U.S. Government and general public? Is our requirement offered to both under similar terms and conditions? Briefly describe any differences.
2. Describe your standard warranty and return process for goods and services furnished to the government for items similar in nature to this requirement.

All responses are due by **1500 CST 04/30/2026**.

Please email your responses to reginald.littlejohn@us.af.mil
