In conclusion, the requested supplies or services represent the minimum requirements of the government.

Describe in detail why only this source(s) can furnish the requirements to the exclusion of other sources.

The NWC is a senior level military academy that provides professional military education programs as a graduate-level institution supporting the Navy's Future Leader Development and Professional Military Education Continua.

The NWC requires continuation of their NECHE membership as part of their higher education accreditation authority. NECHE's primary purpose is the accreditation of educational institutions. Through its evaluation activities, the Commission at NECHE provides public assurance about the educational quality being provided at the NWC. Accreditation by NECHE is widely recognized as an effective and efficient system of peer review, assuring the quality of education, supporting innovation, and providing value to institutions and to the public.

Source Selection Information – See FAR 2.101 and 3.104

The federal government also requires that a college, university, or program be accredited in order to be eligible for federal grants and loans or other federal funds.

Market research has revealed that NECHE is the only known federally approved accreditor in the Northeast region. No other known source in the marketplace to date can provide the accreditation in order to fulfill the needs of the government under this requirement.

☒ ***The supplies or services must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect, or interface with the existing system.***

Accreditation from NECHE is required to maintain uniformity and continuation of accreditation procured in prior contract, N0018925PG022.

☒ ***A patent, copyright or proprietary data limits competition.***

NECHE owns and maintains all standards for the current and prior accreditations.
