

Single Source Justification (Simplified Acquisition)

Section A: General Contract Information

Is this a Bridge Action as defined in the [AF Bridge Action Reduction Plan](#)? ☐ Yes ☒ No

Contracting Activity: 60 CONS

Project/Program Name: SUU Hardware Upgrade & Pilot Control Radio Addition

Purchase Request / Local ID Number:

Estimated Contract Cost (including Options): \$292,009.15

Section B: Description of the Supplies/Services Required

60 CES is requesting to upgrade the Airfield Lighting Control System to include Pilot Radio Control.

Section C: Justification for Soliciting from a Single Source or Brand Name

The ADB Safegate ALCMS is a proprietary system manufactured to FAA specifications. Maintaining the ADB Safegate airfield lighting system with ADB Safegate components is the only way to maintain conformance to these specifications. ADB Safegate technicians are the experts on this life safety piece of equipment and must commission with a series of checks that the system is fully functional for ATC & CE users prior to their departure.

Section D: Efforts to Obtain Competition

The ADB Safegate products installed at Travis AFB have components that are exclusive to ADB Safegate and cannot or will not be interchangeable with parts from other manufacturers. Using other people that are not familiar at an advanced level with the system leaves the door open to problems controlling the airfield lighting which is crucial for air operations.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

Market research is always ongoing per FAR Part 10. It is in the best interest of the government to have competition; however, market research will be conducted to determine what is in the best interest of the government and if ADB Safegate is a proprietary system for installing their software. Both the mission partner and 60 CONS will keep sourcing the market and explore the possibilities to compete this requirement using competitive procedures in the future.

Section F: Contracting Officer's Determination

I have determined, in accordance with [FAR 13.106-1\(b\)\(1\)](#), that the circumstances of this contract action deem only a single source is reasonably available.
