DEFINITIONS AND ACRONYMS

DEFINITION/ACRONYM	DESCRIPTION
Abandoned Property	Deserted, discarded or vacated goods, possessions, belongings or personal items.
Appliances	Fixed and removable items associated with quality of life, including washers and dryers, stoves, microwaves, refrigerators and dishwashers.
Change of Occupancy Maintenance (COM)	Maintenance and minor repair work performed during the period of time after a resident vacates their assigned quarters and prior to a new resident taking occupancy ensuring the quarters are clean, fully equipped, fully functional and habitable.
Clean	Free of dirt, stains, odors, smears, smudges, streaks and foreign matter, and debris.
Common Use Areas	Those areas available for use by all residents not assigned during a period of time for occupancy, e.g., interior entranceways, lobbies, corridors, guest and staff restrooms, lounges, conference rooms, laundry rooms, stairways, elevators, storerooms, and exterior courtyards, gazebos, designated smoking areas, and athletic areas, such as volleyball courts, immediately adjacent to UH.
Equipment	Accessories, attachments, machinery or devices provided to support operations or habitability of a facility.
Fully Functional	That end state of UH considered to exist when all facilities, furnishings, appliances, equipment, utility service outlets and fixtures operate as intended.
Housing Officer	The Government designated point of contact for all Unaccompanied Housing.
Maintenance	Maintenance is the work necessary to provide the functional services to the facilities. Maintenance can be the periodic work required to minimize malfunction, breakdown, and deterioration of equipment, systems, or facilities.
Quarters	A unit, e.g., room, suite, within a lodging facility designated for occupancy by an eligible service member authorized by DoD.
Sanitary	Free of microorganisms.
UH	Unaccompanied Housing

LISTING OF UH CHANGE OF OCCUPANCY MAINTENANCE TASKS

The Contractor shall perform the following cleaning, maintenance, repair and replacement, and painting tasks as per requirement included in Spec Item 3.2.2, Change of Occupancy Maintenance (COM) Services. All cleaning methods, chemicals and solutions shall be compatible with the surface being cleaned and cause no noticeable damage following cleaning work.

Cleaning and UH COM Tasks:

- a. Drapes. Remove, dry clean and disinfect drapes using a nontoxic, odorless disinfectant specific for the materials being serviced.
- b. Curtain Rods. Clean curtain rods.
- c. Windows and Screens. Clean both the interior and exterior surfaces of all window glass; repair window screen frames and replace screening where damaged.
- d. Venetian Blinds. Clean and disinfect venetian blinds to include mini-blinds (horizontal and vertical) and similar blinds; repair or replace defective blinds.
- e. Woodwork, Doors, Walls, and Ceilings. Clean woodwork, doors and knobs, walls (including radiators, cabinets, partitions, trim, ledges, wainscots, chair rails), and ceilings to remove all fingerprints, dirt, dust, and stains with a detergent compatible with the surface finish; clean baseboards to remove all marks and dirt, including residue caused by cleaning of floors and other items.
- f. Floors. Scrub and disinfect floors (including surface beneath appliances) to remove all stains, dirt, smears, marks, residuals or traces of foreign substances.
- g. Carpets and Rugs. Shampoo and disinfect all carpets, rugs, mats, and wall-to-wall carpeting.
- h. Mattress and Bed. Clean, vacuum and disinfect mattress and bed to remove all stains, dusts, and small particles.
- i. Refrigerator. Remove and clean all inner and outer surfaces of refrigerator, especially bottom, rear side, door gasket, freezer compartment and ice trays) of refrigerator free from all food, dirt, stains and grease spots; reenergize and set dial on "1".
- j. Kitchen Sink and Garbage Disposal. Clean kitchen sink and garbage disposal to remove all stains, dirt, soap scum, and food particles; remove existing and re-caulk sink where necessary to present a uniform appearance; repair leaking faucets and associated plumbing.
- k. Dispensers. Clean and restock all dispensers with applicable items including soap, paper towels and toilet paper; replace defective dispensers.
- l. Ranges, Cook-tops, and Exhaust Ventilators. Remove and clean all range surfaces, burners, fans, filters and drip pans including bottom, sides and rear to remove all grease, stains, and carbon with a solution compatible with metal and porcelain surfaces; replace defective equipment and filters (to be provided by Contractor).
- m. Countertops. Clean and sanitize all countertops free of all dirt, dust, stains, and grease.
- n. Ceiling Fans, Light Fixture, Covers and Bulbs. Clean interior and exterior surfaces of ceiling fans, light fixtures and covers free of dirt, streaks, debris, bugs, smears, and abrasive marks; replace all defective bulbs and fluorescent tubes with units of equal lumens (to be provided by Contractor).

- o. Cabinets, Drawers and Closet Shelves. Clean cabinets, drawers, and closet shelves free of all dirt, dust, shelf paper and adhesive residue, and other foreign matter. Replace damaged and adjust hardware as necessary to ensure cabinets and drawers function as intended.
- p. Vents, Duct Louvers and Exhaust Fans. Interior and exterior of ventilation duct vents, louvers, and exhaust fans shall be cleaned free of foreign particles, debris, dust, and streaks so as to allow an unobstructed flow of air. Replace filters where present (to be provided by Contractor).
- q. Electrical Switches, Outlet Covers and Switch Plates. Clean outlet covers and switch plates to remove all paint marks and stains; replace defective switches, outlets and covers/plates.
- r. Restroom Fixtures and Shower Tile. Clean and disinfect sinks, faucets, toilets, urinals and showers free of residue, stains and odors; clean mirrors free of streaks and films; remove existing and re-caulk sink, shower, urinal and toilet where necessary to present a uniform appearance; repair leaking faucets; remove existing and re-grout shower tile where necessary to present a uniform appearance.
- s. Shower Curtain, Rod and Shower Door. Clean to remove all residues, stains and odors from shower door; replace torn/worn curtain and defective rod (to be provided by the Government).
- t. Door, Window and Screen Repairs. Damaged doors, windows, glazing, screens, and associated components shall be repaired per industrial standards. Damaged, inoperable, or missing hardware, e.g., hinges, striker plates, latches, keepers, window operating mechanisms, door closers, springs, shall be adjusted, repaired, or replaced as required. Replacement hardware shall match existing hardware in type, size, quality and finish. Hardware shall be installed in accordance with the manufacturer's recommendations. Caulking and weather-stripping shall be replaced to maintain a weather-tight seal. Cracked or broken glass shall be of the same thickness, type, and quality and meet all local building codes and safety codes. Doors, windows, and screens shall operate smoothly without binding or sticking in accordance with the manufacturer's design.
- u. Mold Remediation. In case of mold/mildew evidence in the bedroom(s) or common area (walls, cabinets, drawers and so on), the Contractor shall take mold remediation actions as per suggested check-list provided in attachment J-1402000-05 or similar established industry standards.
