

STK Software Renewal 2026

Statement of Work

746th Test Squadron

17 March 2026

1.0 PURPOSE

The 746th Test Squadron (746 TS), requires the Systems Tool Kit (STK) software from Ansys for its engineers and scientists. The squadron uses this physics-based software package to perform complex analysis of land, sea, air, and space assets, sharing results within a single integrated solution.

STK provides the 746 TS with a unique and essential modeling environment, delivering verified results for critical mission phases including test planning, execution, post-flight analysis, and safety-of-flight assessments. This time-dynamic data analysis engine has capabilities that cannot be provided by any other vendor.

2.0 SCOPE

This requirement is for the renewal of STK Software licenses and maintenance. The contract must have a base year with up to two (2) option years for license renewal purposes. The scope for the base year and option years are for the software and maintenance detailed below.

Base Year

Part Number	Title/Name	Quantity
ASTKPre-A-TECS	Ansys STK Premium (Air) – Incorporate aerodynamics and performance profiles for highly accurate flight profiles (TECS)	1

Option Year 1

Part Number	Title/Name	Quantity
ASTKPre-A-TECS	Ansys STK Premium (Air) – Incorporate aerodynamics and performance profiles for highly accurate flight profiles (TECS)	1

Option Year 2

Part Number	Title/Name	Quantity
ASTKPre-A-TECS	Ansys STK Premium (Air) – Incorporate aerodynamics and performance profiles for highly accurate flight profiles (TECS)	1

3.0 MILESTONES

Yearly renewal to be delivered 10 days ARO (After Receipt of Order).

4.0 DELIVERABLES

The contractor shall deliver all hardware and documentation to 746 TS/CZF, Attn: Carlos A. Ruiz, at 1644 Vandergrift road, building 1265, Holloman Air Force Base, New Mexico 88330.
