Section C – 1501000
Facility Management

Spec Item	Title	Description
1	General Information	The Contractor shall provide all labor, management, supervision, tools, materials, and equipment required to perform Facility Management services at U.S. Naval Air Station Sigonella (NASSIG), Italy, and outlying support sites.
1.1	Outline of Services	The intent of 1501000 Facility Management is to specify the requirements for facility management services including but not limited to Condition Based Maintenance Management (CBMM) / Infrastructure Condition Assessment Program (ICAP) support. Preventive maintenance (PM) inspection of systems and equipment and other Sustainment, Restoration, and Modernization (SRM) work are covered under 1502000 Facility Investment.

Section C – 1501000
Facility Management

1501000 – Facility Management		
Spec Item	Title	Description
2	Management and Administration	
2.1	Definitions and Acronyms	Definitions and Acronyms are provided in J-1501000-01.
2.2	Personnel	The Contractor shall provide personnel with the qualifications, technical knowledge, experience, and skills required to provide facility management services.
2.2.1	Certification, Training, and Licensing	The Contractor's personnel who regularly engage in customer interface shall present a professional appearance and use customer interaction best practices. Contractor personnel shall complete customer service training within 30 days of assignment and attend refresher training annually thereafter.
2.3	Special Requirements	
2.3.1	System Access	The Government will provide access to the following systems: NAVFAC MAXIMO. Asset and condition rating data created by the Contractor shall be manually entered directly into NAVFAC MAXIMO. The Contractor shall submit a complete list of personnel requiring access to these systems per Section F and provide information on each employee as required by Government information technology personnel. Additional information regarding NAVFAC MAXIMO data requirements and account access is provided in Spec Item 2.6.8 in Annex 0200000.
2.3.2	System Training	The Government will provide one, three-day training session on the systems identified above. In addition, the Government will provide technical assistance to the Contractor's functional systems manager for five working days prior to full performance start date. Periodically, the Government will provide no-cost training on new systems and system enhancements to a limited number of Contractor personnel who are expected to provide training to remaining Contractor personnel. The Contractor shall send employees to Government-directed training on forthcoming systems either on-site or at a location specified by the Government. All costs of attendance at either on-site or off-site training, including, but not limited to, wages, travel, and per diem shall be borne by the Contractor.
2.3.3	Facility Investment Strategy	The Contractor shall engage in the Navy's facility investment strategy to provide efficient and effective facilities that directly support warfighter readiness at the lowest possible life cycle cost, while maintaining fully functional capabilities.
2.4	Records and Reports	Reports are listed in Section F of the solicitation. The Contractor shall submit accurate and complete documents within the required timeframes.
2.5	References and Technical Documents
