***5.1.15.** Use Technical Exhibit H – TAP Services Prescribed Delivery Methods as the baseline for prescribing delivery methods based on client tier assignment, but if a client prescribed asynchronous delivery method for a particular service prefers to receive those services via synchronous delivery method, the contractor shall accommodate the client's preference.

***5.1.16.** Do not encourage, recommend, influence, or force clients who are prescribed synchronous delivery methods per Technical Exhibit H to receive services asynchronously.
