

DEFENSE HEALTH AGENCY (DHA)

REQUEST FOR INFORMATION – PANDHA-26-P-0000 036141

HEALTHCARE COMPLIANCE TRAINING (HCT) CONTENT

1. Purpose.

The Defense Health Agency Contracting Activity (DHACA), Professional Services Contracting Division (PS-CD) is conducting Market Research to identify qualified sources for the Healthcare Compliance Training (HCT) Content requirement.

THIS IS A REQUEST FOR INFORMATION (RFI) ONLY. This RFI is issued solely for information and planning purposes – it does not constitute a Request for Proposal (RFP) or a promise to issue an RFP in the future. This request for information does not commit the Government to contract for any supply or service whatsoever. Further, the Government is not seeking proposals at this time and will not accept unsolicited proposals. Vendors are advised that the Government will not pay for any information or administrative costs incurred in response to this RFI; all costs associated with responding to this RFI will be solely at the interested party's expense. Not responding to this RFI does not preclude participation in any future RFP that may be issued.

2. Objective.

The Defense Health Agency (DHA) has a requirement for non-personal services providing a continuously updated common curriculum for recurring healthcare compliance (regulatory and accreditation) and other medical specific mandatory training, and Continuing Education/Continuing Medical Education (CE/CME) programs on a cloud/web-based system. The cloud/web-based online platform shall provide access to courses meeting all mandatory training requirements recommended by The Joint Commission (TJC), Occupational Safety and Health Administration (OSHA), and/or other medical/health regulatory and accrediting bodies, site specific and specialty portals for hosting government owned/created content, accreditation of government developed content, and associated support services. The cloud/web-based platform shall also provide a minimum of 500 Continuing Education (CE)/Continuing Medical Education (CME) courses.

Attachment:

Draft Performance Work Statement – Healthcare Compliance Training (HCT) Content

3. Background.

DHA MTFs, physicians, nurses, and others providing medical services require Continuing Medical Education (CE/CME) to meet their medical missions and medical readiness training requirements. A distributed learning medical education system enables a much larger percentage of the DHA Military Medical Treatment Facility (MTF) workforce to receive technical and professional training on a regular and standardized basis. The DHA requires training in the following areas (but not limited to): TJC, OSHA, Center of Disease Control (CDC), CE/CME professional organizations, and DHA MTF-specific training for healthcare personnel using distributed learning (DL) delivery methods.

4. Instructions and Response Guidelines

Interested parties are requested to respond to this RFI with a detailed capability statement in support of the sections below. If an interested party has previously responded please state as such.

Section 1 – Administrative Information

Provide administrative information including the following as a minimum:

- Name, mailing address, phone number, and e-mail of designated point of contact.
- Identify the respondent's CAGE code and UEI number.
- Proprietary information must be clearly marked as such.
- RFI Number
- Small Business/Socio-Economic status of respondent, if any, (i.e. small business, small, disadvantaged business, 8(a) small business, service-disabled veteran-owned small business, HUBZone small business, woman-owned small business, and economically disadvantaged women-owned small business).

Section 2 – Statements and Questions for the Interested Party

The Government seeks feedback and comments on the attached draft PWS in general, with specific interest in written comments/feedback on the following considerations/sections:

1. Identify any areas where interested parties believe a potential risk exists or will present itself by fulfilling the terms of the PWS (e.g., identification of any deficiencies or false assumptions in the PWS)
2. Is there any area within the PWS where interested parties believe the Government could improve the stated requirements in a clear and unambiguous manner? If so, please identify them and provide recommended language.
3. Is there another NAICS Code that you think would be best suited for this effort? If so, please identify the NAICS and why you deem it more appropriate.
4. Can you support the entire scope of the PWS?
 - If yes, will you team with other vendors or can you support on your own
 - If no, will you consider subcontracting with another vendor
5. What contract vehicle, contract type, would you recommend for this effort? Please list any existing contract vehicles you hold, i.e. NASA SEWP, OASIS, MAS.
6. Contractor's ability to create user profiles, group users by medical profession indicated in a user profile, group courseware into training plans for mass assignments, assign training plans to grouped medical professionals, track training completions, and perform compliance reporting by medical profession, training plan, location, and/or course.
7. Contractor's ability to apply for/submit MTF personnel CE/CME documentation to the various certifying boards to obtain/maintain the appropriate certifications.
8. Contractor's ability to apply for/submit documentation for obtaining/maintaining accreditation for the MTF facilities.

9. Contractor's ability to establish and maintain an appropriate level of security conforming to DOD standards including being FedRAMP compliant and establishing/maintaining an Authority to Operate (ATO) that would allow data sharing with DOD information systems.

Section 3 – Capability/Approach

Interested parties are requested to provide your capabilities detailing how you will be able to meet all the requirements outlined in the Performance Work Statement based upon your experience performing under similar efforts. Address all areas in Section II as they are identified in the PWS.

1. Identify your capabilities to fulfill the requirements in the PWS. Include examples of technical capabilities, capacity, areas of expertise, and relevant experience (i.e., customer, period of performance, contract type, contract value, description of work performed relevant to the PWS).
2. Describe any teaming agreements that will allow you to successfully perform the requirements as outlined in the PWS. If you intend to use joint venturing (JV), partnering or consortiums to meet the requirements of the areas contained herein, provide information on how you would envision your company's areas of expertise and those of any proposed JV/partnering/consortium would be combined to meet the specific requirements contained in the PWS.

*Interested parties are advised to examine this RFI and the supplemental documents in the attachments in their entirety to ensure its response provides all information requested. Interested parties are cautioned that merely re-stating the requirements with a statement of intent to perform DOES NOT reflect an understanding of the requirements or capability to perform.

Capability statements should be submitted in Microsoft Word compatible format or Adobe PDF and are due no **later than Friday, 27 March 2026, 12:00pm ET**. Proprietary information, if any, should be minimized and **MUST BE CLEARLY MARKED**. To aid the Government, please segregate proprietary information. Please be advised that all submissions become Government property and will not be returned.

Capability statements should be submitted via email to the Contracting Officer, Ms. Linda Walker at linda.m.walker38.civ@health.mil and the Contract Specialist, destiny.r.wood2.civ@health.mil.
