- 1) The responsibility to substantiate the credibility of proposed prices rests with the Offeror at the time of proposal or during subsequent discussions (if any are held).
- 2) Compliance with these instructions is mandatory.
- 3) Failure to comply may render the proposal ineligible for award.
- 4) Data beyond that required by this instruction shall not be submitted unless it is considered essential to the document or to support the price.
- 5) All information relating to the proposed price must be included in the section of the proposal designated as the price volume.
- 6) In accordance with FAR 15.305 (a)(1), adequate price competition is anticipated, which will establish price reasonableness. The competitive range may be further reduced for purposes of efficiency pursuant to FAR 15.306(c)(2). Formal responses to ENs (if applicable), discussion items, and final proposal revisions will be considered in making the award decision.
- 2) Any revision or non-concurrences to contract terms and conditions submitted in the FPR may not be subject to further discussion and may render the proposal unacceptable to the Government. This provision is not intended to restrict the Offeror's opportunity to revise figures (e.g., prices, rates, etc.); rather, it is intended to preclude any misunderstandings by the Government, which could result if new or revised terms and conditions are submitted in the FPR that have not been fully disclosed, discussed, and understood during discussions. Hence, such new or revised terms and conditions are not solicited and, if submitted in the FPR, may render the proposal unacceptable to the Government.
- 3) Offerors are cautioned to submit sufficient information in the format specified in Section L. Offerors may be asked to clarify certain aspects of their proposal. Communication conducted to resolve minor or clerical errors will not constitute discussions and the Contracting Officer reserves the right to award a contract without the opportunity for proposal revision.
