
Statement of Work (SOW)

TRAM Transportation Services 2026 Wings Over Solano Airshow, Travis Air Force Base 25 – 26 April 2026

1.0 BACKGROUND

This Statement of Work (SOW) defines the requirements for guest transportation services for the 2026 Wings Over Solano Airshow at Travis Air Force Base. This event is a public outreach program designed to demonstrate military aviation capabilities and foster positive community relations. A key component of the event's success is ensuring guests can move safely and efficiently throughout **air show parking areas**.

2.0 SCOPE OF WORK

The contractor shall provide all necessary personnel, equipment, materials, supervision, and other items and services required to perform comprehensive guest transportation services as defined in this SOW. The primary component of this requirement is the provision of tram services for guest movement **throughout air show parking areas**.

3.0 SPECIFIC REQUIREMENTS

The contractor shall provide the following:

3.1 Tram Transportation Services

The contractor shall provide **2 trams, see Exhibit 1, with driver and attendant** to transport guests between designated points within the air show parking areas.

- **Vehicle Configuration:** All trams utilized shall be of an open-air design. To facilitate the efficient movement of guests, each row of seating must provide for independent entering and exiting.
- **Passenger Throughput:** The tram system must be capable of quick loading and unloading of **thirty-six (36) passengers** to ensure guests are moved in a timely and effective manner, minimizing wait times.

3.2 Onboard Communication Systems

The contractor shall ensure all trams are equipped with robust communication capabilities.

- **System Equipment:** Trams shall be equipped with a functional public address system, including a high-quality microphone and speakers.

- **System Use:** The system must be available for government use to communicate essential information, such as schedules of daily events and official welcome greetings. At the Government's discretion, the system may also be used to play music for the guests to enjoy.

3.3 Sponsor Advertisements

The contractor should provide the capability to feature sponsor advertisements. This may include, but is not limited to, broadcasting pre-recorded sponsor messages through the onboard public address system and/or providing designated space on the trams for the display of sponsor banners or placards. All advertisements are subject to Government approval.

4.0 PERIOD OF PERFORMANCE

The period of performance for this SOW, as it pertains to providing transportation to visitors, shall be from 1000 to 1830 (unless otherwise noted below) on 25-26 April 2026. Additional requirements:

- By 13 Apr 26, Airshow POC and contractor shall agree on flow of trams through out the parking lots, pick up and drop off locations and the frequency of routes. Additionally, if sponsor displays or banners are available. Should displays or banners be available, the Airshow POC will provide by and agreed upon date.
- By 20 Apr 26, AS POC and contractor finalize details on pre-recorded messages through the onboard public address system announcements, to include any music desired, to be made over PA systems.
- On 25 Apr 26, 0930, the contractor shall be staged and available for a meeting to discuss final details of services being provided.
- On 26 Apr 26, 0930, the contractor shall be staged and available for a meeting prior to discuss any adjustments.

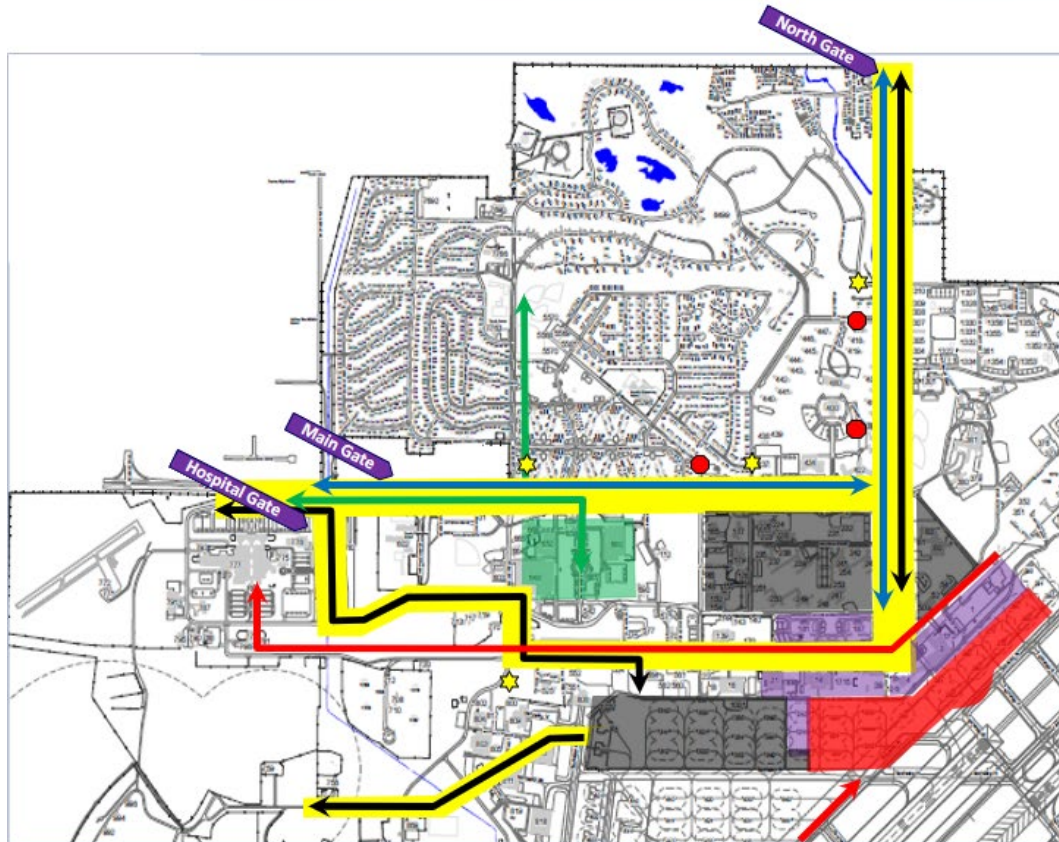

5.0 PLACE OF PERFORMANCE

All services shall be performed at Travis Air Force Base, Solano County, California.

Attachment 1, Type Vehicle (or similar).

Traffic - Parking

PRIORITIES

1. Segregate air show and base traffic.
2. Provide first responder access.
3. Control air show visitors.
