

Question	Response
Does the Government have a list of current sensors/C2 and the vendors which make up the System of Systems deployed?	It is anticipated that the following will comprise a portion of any given capability: Programs of Record to include Coyote Block 2, Coyote Block 3, Road Runner Interceptor, Counter Unmanned Aircraft Electronic Warfare System (CUAEWS) (Increment 2.0 & 2.1), Pulsar, KuRFS, RPS-42/82/92, Integrated Battle Command System - Maneuver, Nighthawk Electro-Optical/Infrared Camera, Dronehunter, Titan, and 30mm Remote Weapon Station. Foreign systems may be comprised of Commercial Off The Shelf (COTS) items as determined best of breed at time of contract with the country. USG will be responsible to verify FSR training and validate certifications and training capability at Fort Sill Oklahoma prior to any deployment.
Is there an expectation to update sensors and C2 throughout the life of the contract?	Yes
If the Government decides to move forward, is there a specific timeline for RFP release and award of a contract?	It is anticipated that the RFP will be released 2nd Quarter FY26 and contract award 2nd Quarter FY27.
The SSN states "Capabilities Briefs shall be <u>unclassified, in PowerPoint (PDF format)</u> , and limited to no more than five (5) charts and 11 font Arial size." Does this mean 5 <u>slides</u> (in PDF, pages) or 5 charts within the briefing, with an unlimited amount of slides?	No more than 5 PowerPoint Slides submitted in PDF format.
