Seal Symbolism

The seal was carefully designed to represent core ATF values—dedication to and accomplishments in achieving patient victory in defense of justice—as well as the interrelationship among ATF, DOJ, and the U.S. Department of the Treasury (Treasury).

The Seal is drawn from the tradition of heraldry. The escutcheon (shield) represents a defender. On the escutcheon (shield)—the sign of a defender—is a chief of sanguine (deep red), which indicates that ATF, the bearer of the shield, through its achievements, has authority and wisdom. The sanguine color of the chief represents a patient victor, one not hasty in battle. Also represented in the middle of the shield is an azure chevron.

This chevron denotes protection and service, and the azure color represents strength and loyalty; combined, they indicate ATF's strength, loyalty, service and protection of justice, depicted by the scales of justice below the chevron. The azure chevron also represents the past relationship between ATF and Treasury. The escutcheon stands on a field of deeper blue representing vigilance, perseverance, and justice, and is surrounded by a laurel of (gold), symbolic of victory, and crowned by three mullets, or stars.

Around the seal is the name of the Bureau, and at the base, the year 1972, when ATF became a bureau. The seal is contained within a corded edge. The mullets and the corded edge encasing the full seal are elements drawn from the DOJ seal and represent the inclusion of ATF within DOJ. The seal, as described above, was carefully designed to represent the Bureau's dedication to and accomplishments in achieving patient victory in defense of justice, as well as the interrelationship among ATF, DOJ, and Treasury.

WELCOME

SPARTAN MISSION STATEMENT

SHAPING THE FUTURE OF ATF THROUGH INNOVATION

The Spartan Program Management Division (SPMD) mission is to complete a business process re-engineering effort that will update how ATF carries out the criminal enforcement, Industry operations, and intelligence missions.

The effort will more effectively bring together ATF components for carrying out the mission, and will result in changes to policy and procedure, training, and the development of a new case management system.

The case management system to be developed, Spartan, will be a single solution designed to replace the current legacy systems with state-of-the-art capabilities.

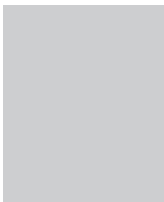

02 | COLORS

These are the possible colors for the Spartan Application. The inspiration for the colors came from the Spartan Logo and the ATF Seal.

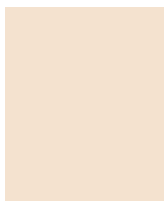

Primary Colors

Primary colors are usually associated with trust and confidence, and can be used to represent calmness and accuracy. The light grey color is used as a supporting color.

					
# 1D3260	# 005294	# 55BCEB	# CDCED0	# 000000	# FFFFFFFF

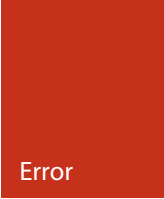

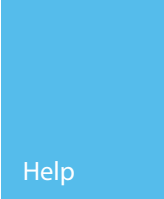

Secondary Colors

Secondary colors serve as accent colors, used to draw the user’s eye to certain highlighted fields or areas. Additionally, they are used in the application to highlight important features on a page, such as type or visual style elements (i.e. illustrations).

			
# 7D311C	# AB8D4F	# EFB750	# F4E2CF

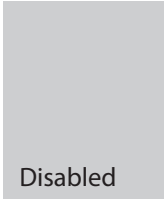

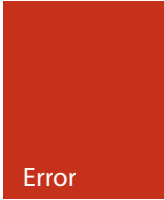

Banner Colors

Banners are used to display messages across the top of a given screen. The color of the banner indicates its purpose: Orange - warning message; Red - error message; Blue - general information; Green - success message.

			
Warning	Error	Help	Success
# EF721A	# C5311C	# 55BCEB	# 3FAC49

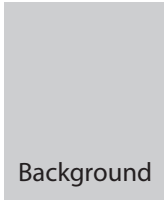

Form State Colors

Form state colors allow users to know the state of each form element.

			
Active	Disabled	Inactive	Error
# 005294	# CDCED0	# 000000	# C5311C

Background Colors

Background colors are used for the background block and side bars areas.

		
L. Sidebar	Background	R. Sidebar
# 1D3260	# CDCED0	# FFFFFFFF

Open Sans font is used for the Spartan Application. Shown below is the entire *Open Sans* family with a variety of weights that may be applied throughout the application.

Description

Open Sans is an open-source sans serif typeface created for legibility in UI design. With a variety of weights that read easily at all sizes, Source Sans Pro provides clear headers as well as highly readable body text.

Inspired by twentieth-century American gothic typeface design; its slender, yet open letters offer a clean and friendly simplicity. Advanced hinting allows Source Sans Pro to render well on Windows systems, which run Cleartype, across browsers and devices. Moreover, it supports a variety of languages and alphabets, including: Western and European language, Vietnamese, pinyin Romanization of Chinese, and Navajo.

Link Style

Links are presented in the light blue color, as displayed below, and are underlined when hovered over.

[Lorem ipsum dolor sit amet](#)

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** # 55BCEB

Label Formats

Open Sans

Black

ex: TabHeadings | **10 pt**

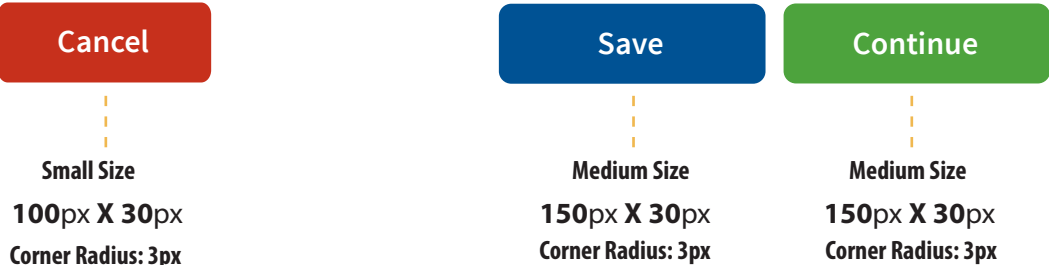

ex: Field Label | **11 pt**

ex: Property | **12 pt**

Buttons Style

A button indicates an action upon click and is typically labeled using text, an icon, or both. Below are some examples of button styles that can be used in the application.

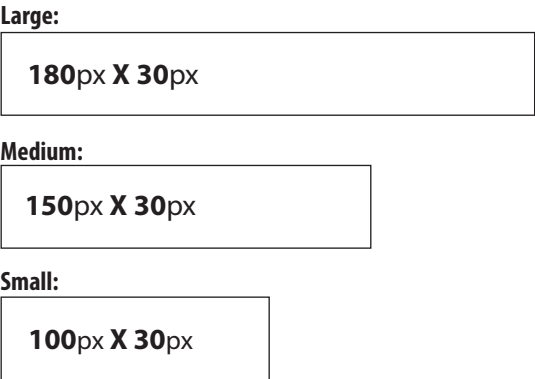

- **Font:** Open Sans “Regular” in Sentence case
- **Size:** 12 pt = 16px = 100% for the labels
- **Color:** White # FFFFFF

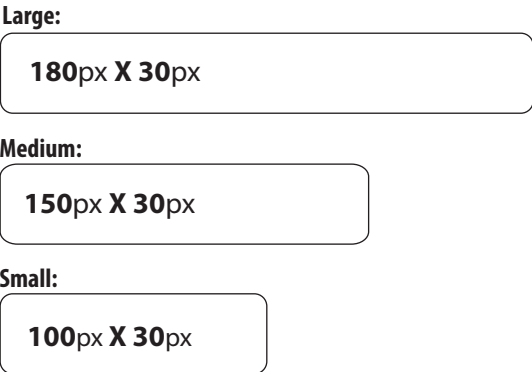

Buttons Size

Buttons can be created using sharp or round corners. Below are some examples of the button sizes that can be used in the application.

01. Sharp Corners

02. Round Corners

Buttons State

The examples below demonstrate how buttons appear in the system given its state (Static, Hover, Clicked, Disabled).

HEX: # F0721A

HEX: # 005295

HEX: #4DA23E

HEX: # E23427

HEX: # 026BB2

HEX: # 5BB548

HEX: # FC2B27

HEX: # 0586CE

HEX: # 6AC953

HEX: # 8D9799

HEX: # 8D9799

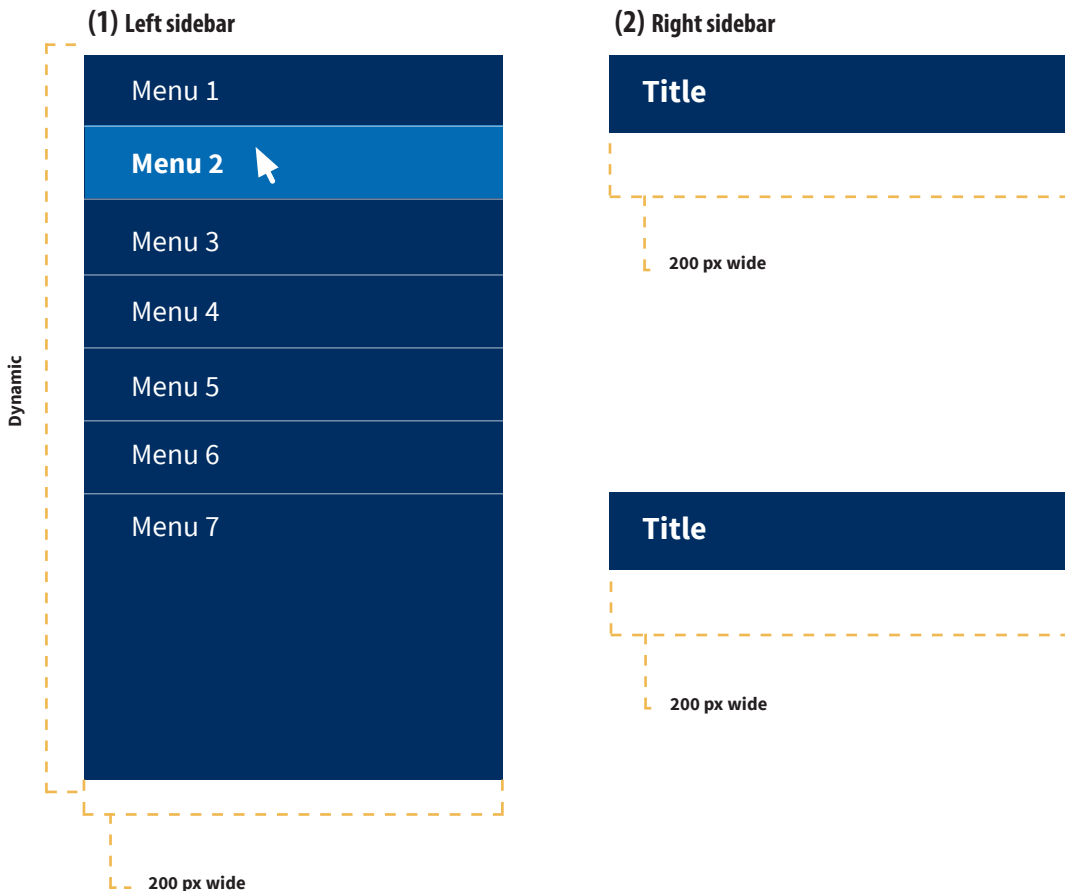

HEX: # 8D9799

Sidebar Content

The Spartan application incorporates both the left and right sidebars. Hover functionality subtly informs users of where they are on the menu and informs them what they are about to select. English sentence case (*capitalization of first letter of the first word only*) should be used for the sidebar content.

Note: The sidebar size should be designed accordingly to the screen content.

- **Font:** Open Sans “**Bold**”
- **Size:** 12 pt = 16px = 100% for the labels
- **Color:** White #FFFFFF for type, blue # 1D3260 for the sidebar background and hover is # 026BB2

Global Navigation Menu

The Global Navigation Menu allows the user to select one item at a time while saving space by being so compact. The menu consists of a button that, when clicked, displays a dropdown list of mutually exclusive items.

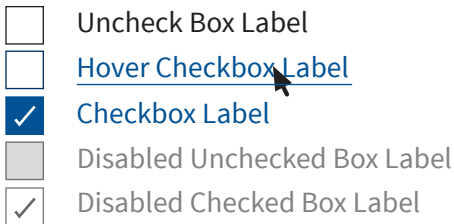

English sentence case (*capitalization of first letter of the first word only*) should be used for the Global Navigation Menu.

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Navy Blue # 1D3260, light blue when hovered# 005294

Checkboxes

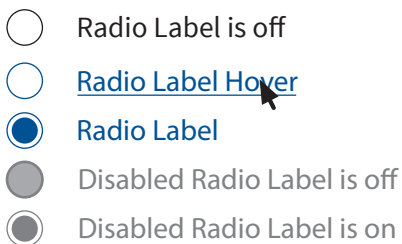

Checkboxes allow the user to select one or more options from a set. It is usually best to present checkboxes in a vertical list.

- **Font:** Open Sans "Regular"
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000 and blue # 005294

Radio Buttons

Radio buttons allow users to select one item at a time, and can be presented either in a vertical or horizontal format.

- **Font:** Open Sans "Regular"
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000 and blue # 005294

Form Elements

Below are some examples of Form Elements that are used across the Spartan application. English sentence case (*capitalization of first letter of the first word only*) should be used for all Form Elements.

Applicant Information

Applicant received*

MM/DD/YYYY

Applicant name*

Enter your name

License/Permit number*

#-AA-###-##-#A-#####

Trade name*

Enter trade name

Business type*

Select...

DBA*

##-#####

Questions and Answers

What is the proposed business activity?*

The proposed business activity is...

Do they need additional license/permit?*

No

Who are their primary suppliers?*

John Smith

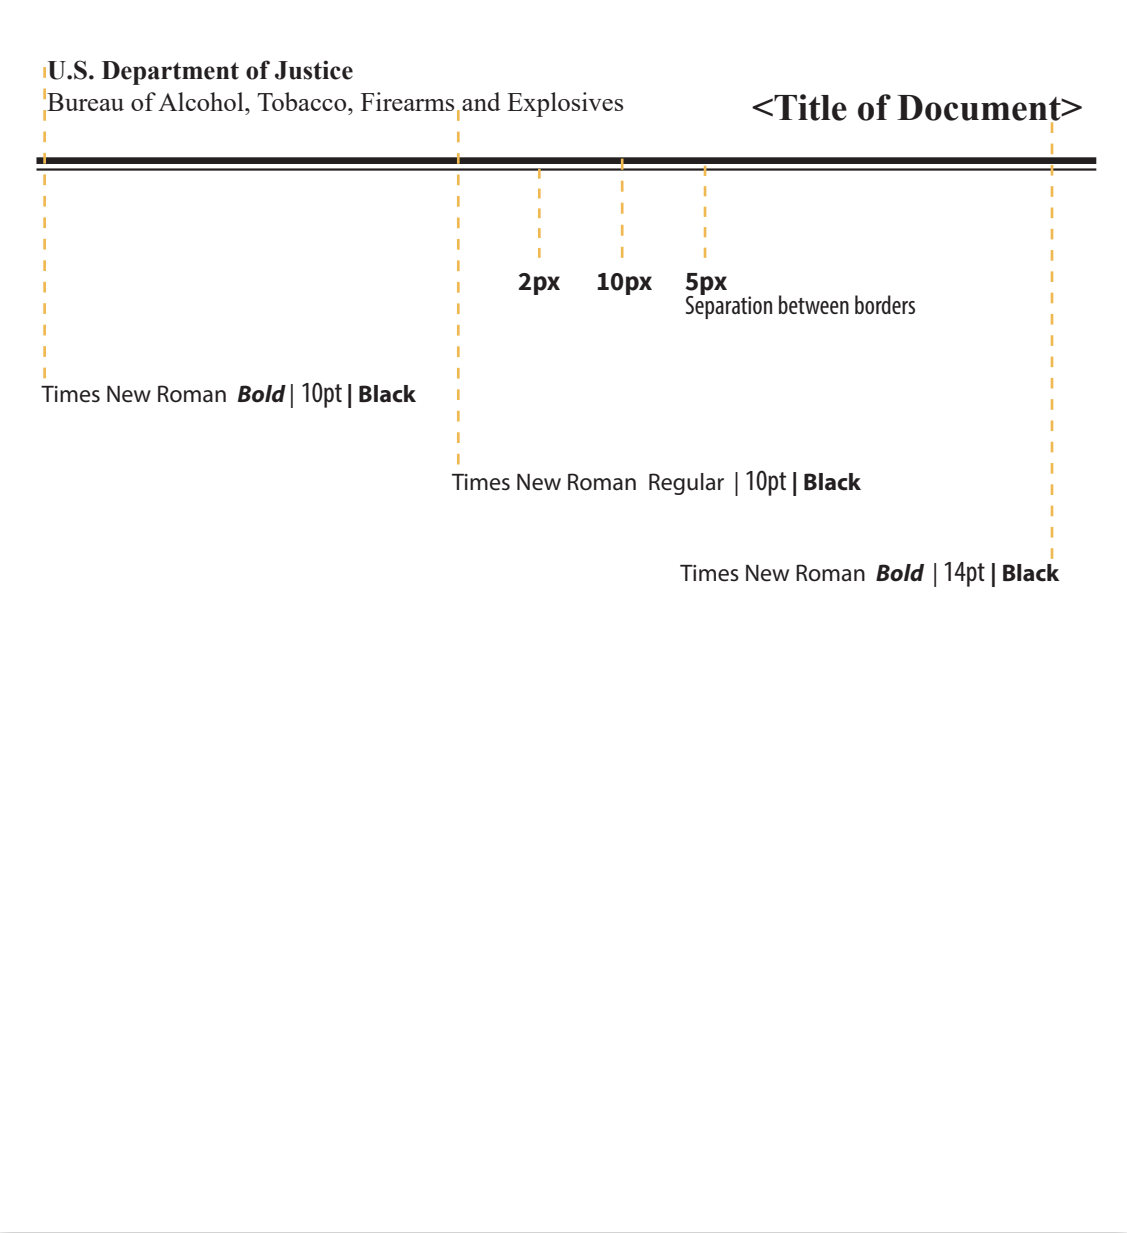

Have they applied for the correct license/permit?*

Yes

- **Font:** Open Sans “**Bold**” for placeholder and Open Sans “Regular” for field label
- **Size:** 11pt = 15px = 100% for field label and 12pt = 16px = 100% for placeholder
- **Color:** Black # 000000

Work Product Template

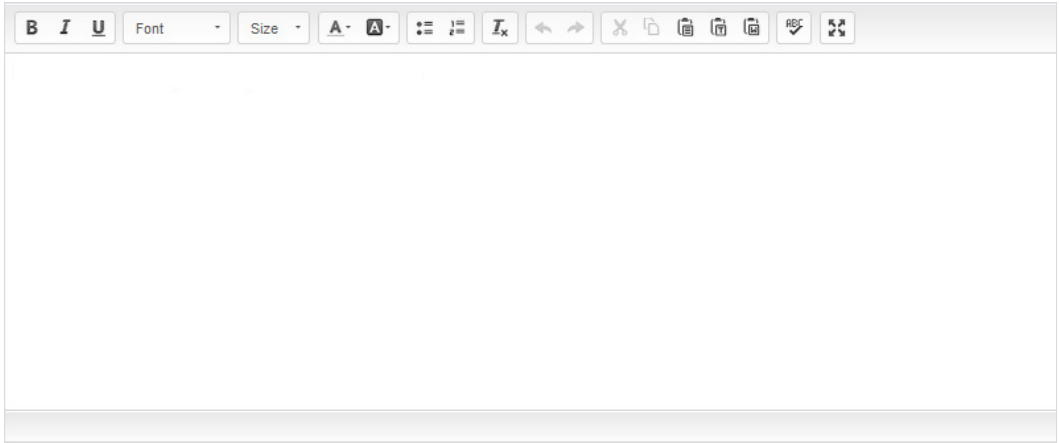

A template is used for the header on work product documents generated in Spartan. The parameters of the template can be found below:

Rich Text Editor

Rich text editors are used sparingly in Spartan for text that require stylized formatting.

Description

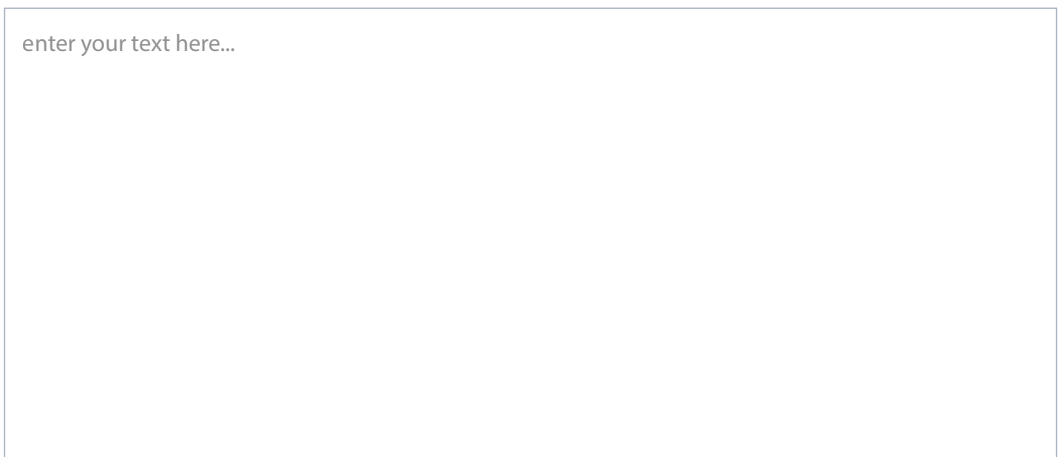

20

Text Box

The standard text box is used throughout the Spartan application.

Description

Date Format

The date format shown below is used throughout the Spartan application. English sentence case (*capitalization of first letter of the first word only*) should be used for the label of date elements.

Date received

MM/DD/YYYY

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000

Tool Tips

A tooltip allows a user to see hints when they hover on an item indicating the name or pupose of the item (i.e. “Click the Button to Continue”).

Click the Button to Continue

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000 for text and grey # CDCED0 for the background

21

Pagination

Pagination divides content into multiple pages, and allows users to navigate through the content in order or skip between pages.

Previous 1 2 3 4 5 6 > >> Next

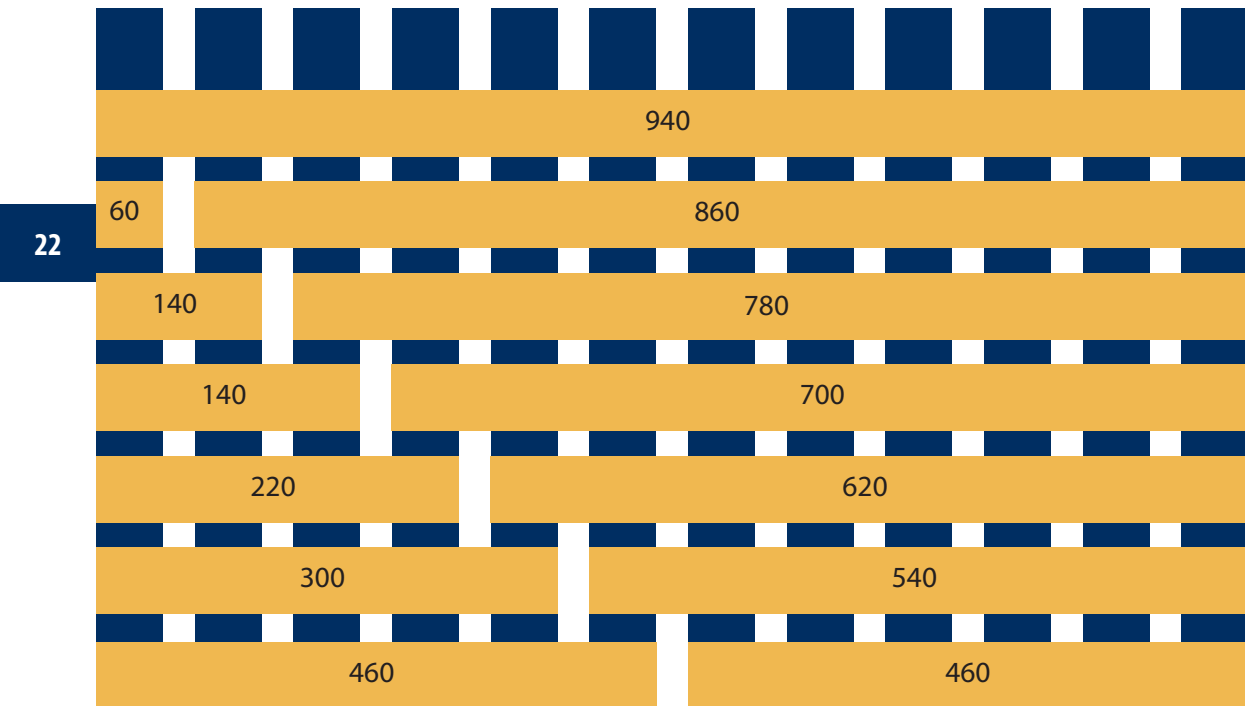

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000 and navy blue # 1D3260 for background

05 | SCREEN STRUCTURE

960 Grid System is an effort to streamline the design process by defining exact measurements. The advantages of using 960 System Grid helps developers to communicate better, smoothing out the process of moving from design to web development.

12 Column Grid

The 12-column grid, divided into portions that are 60px wide, is used throughout the Spartan application.

Resolution

The minimum target resolution is 1280 x 800 pixels.

Progress Bar

A Progress bar indicates where a user is as they advance through a series of steps in a process. The example below demonstrates the style of the Progress Bar being used across the Spartan application.

01. Inspection Process Stages/Steps

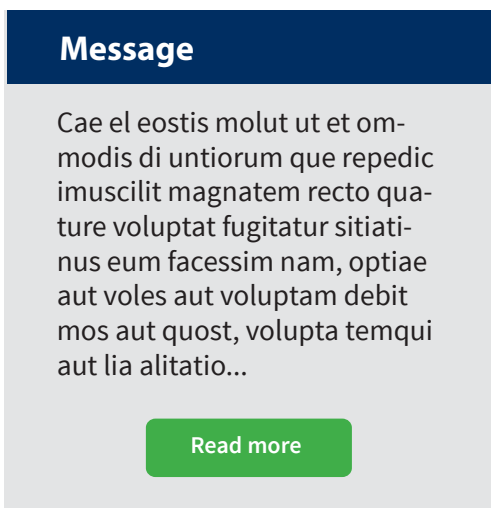

02. Application Walkthrough

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Navy blue # 1D3260, green: # 599F00, grey: # A2A4A7

Message Box

A message box is a small window that provides information to users and requires them to take an action before they can move to the next step.

- **Font:** Open Sans “Regular”
- **Size:** 12 pt = 16px = 100%
- **Color:** Black # 000000

Lists Style

There are two styles of tables used throughout the Spartan application. The repeat grid zebra list is used on portal screens of Spartan where as the repeat grid standard list is used in the rest of the screens in Spartan.

01. Repeat Grid Zebra List

- **Font:** Open Sans “**Bold**” for titles and Open Sans “Regular” for contents
- **Size:** 11pt = 15px = 100% for field label and 12pt = 16px = 100% for placeholder
- **Color:** Black #000000 for titles, white #FFFFFF, grey # CDCED0 for the rows

Name	ID	Last Viewed

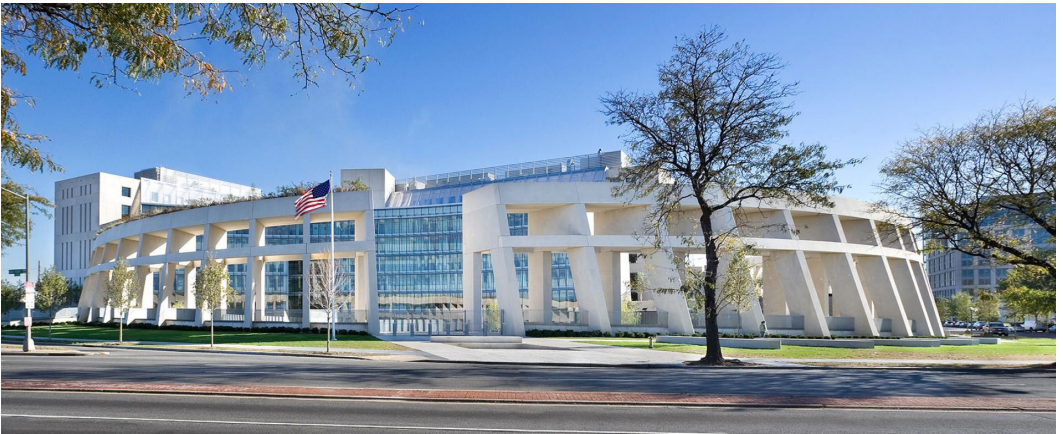

02. Repeat Grid Standard List

- **Font:** Open Sans **"Bold"** for the titles and source sans pro **"Regular"** for the contents
- **Size:** 13 points size for the titles and 12 points size for the contents
- **Color:** Black #000000 for titles

[illegible]

Homepage

Below are the possible background images that could be used across the Spartan application:

Alternate Backgrounds

In case of any technical issues with the Spartan application while in use, and the default background is not able to be displayed, then one of the two options below should appear as the background image.

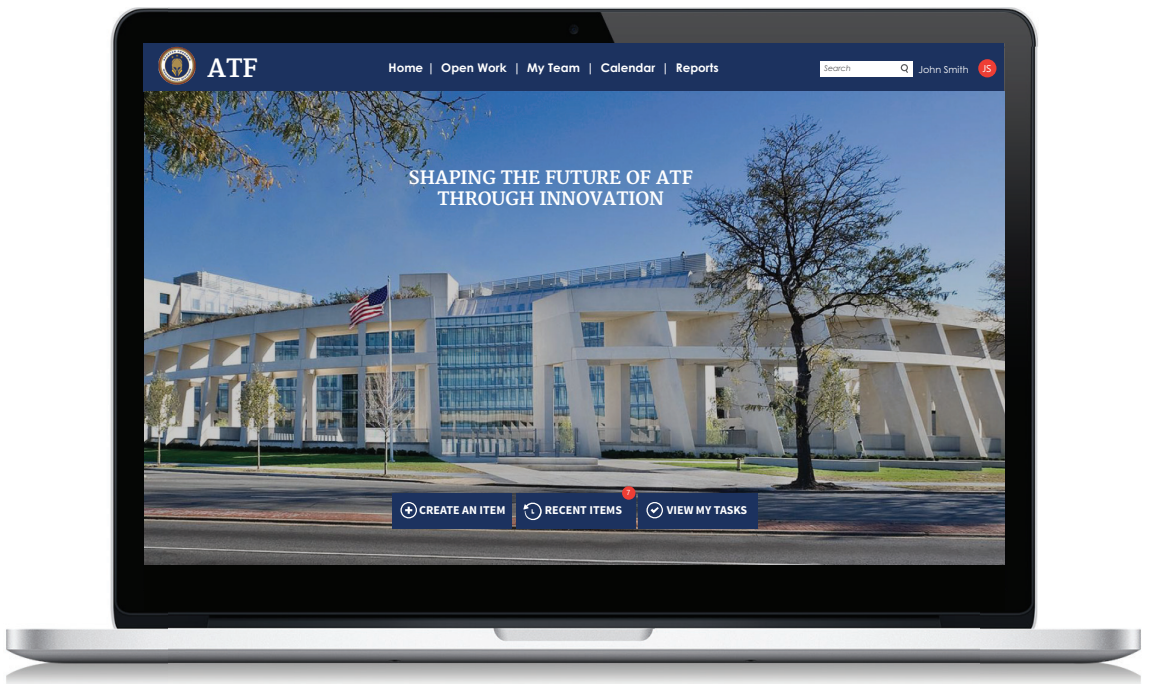

Option 1

27

Option 2

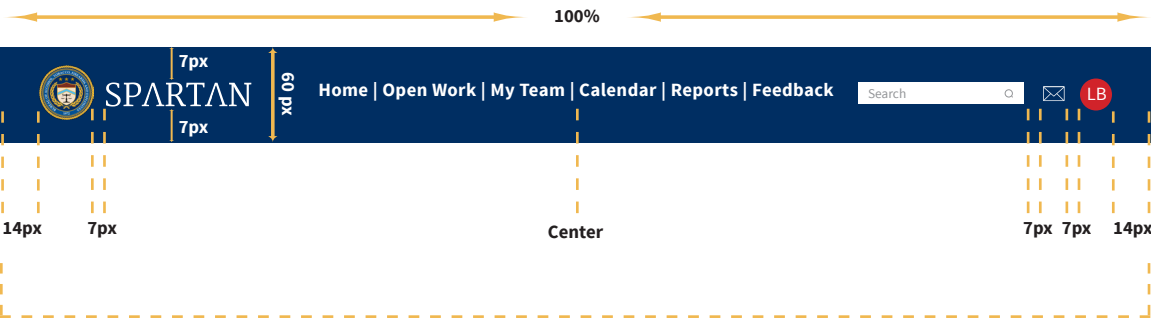

Example of the Spartan application as it would appear in real life

07 | APPLICATION HEADER

Header

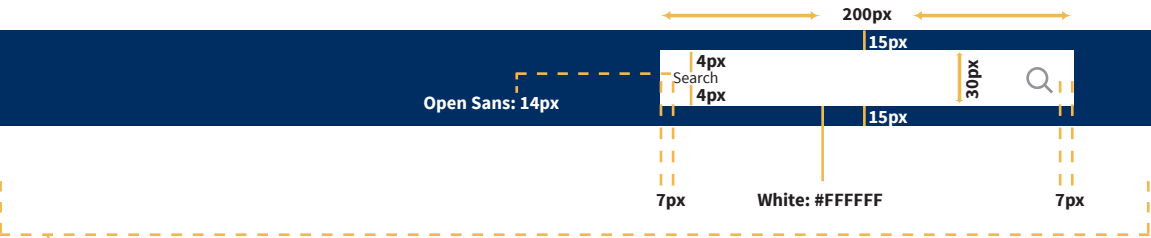

The main header size must be at least 1080 x 60 pixels, however the height of the header can be increased to a maximum of 90 pixels.

- **Font:** Open Sans "Regular" for the menu
- **Size:** 12pt = 16px = 100%
- **Color:** White # FFFFFFFF is for type, and navy blue #1D3260 is for the navigation bar

Search bar

Below is the measurement for the search bar in the main header. The magnifying glass icon is shown in the far right which identifies it as a search bar. To launch the search, the user may either click the magnifying glass, or press the Enter/Return key on their keyboard.

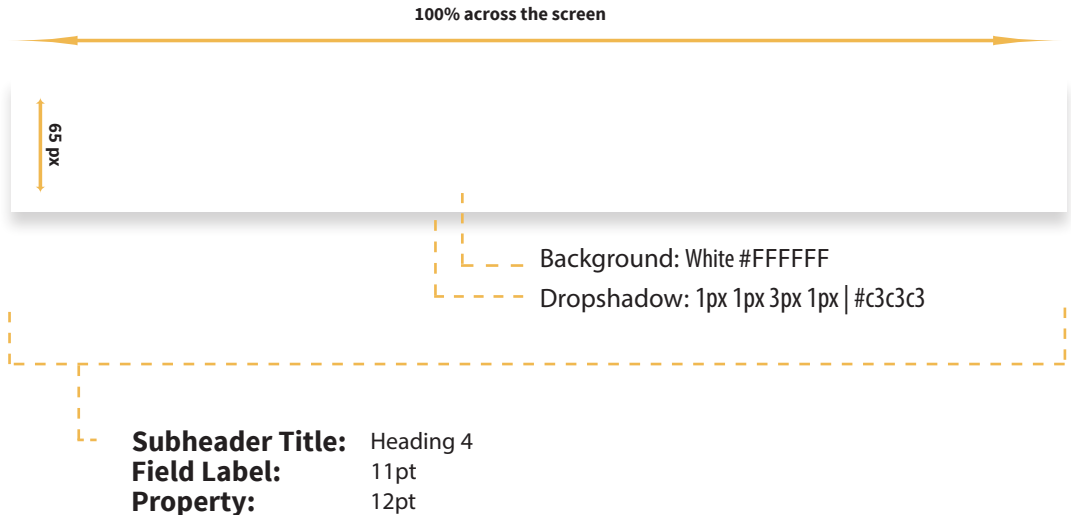

- **Font:** Open Sans "Regular" for the word Search
- **Size:** The search bar is 30px tall, with a minimum width of 200px
- **Color:** White # FFFFFFFF is for the background and Black #000000 for the word Search

Sub Header

The sub header is 65px tall and its width spans 100% across the application when viewed on a desktop. Any text on the sub header should follow the point size requirements shown in the example below.

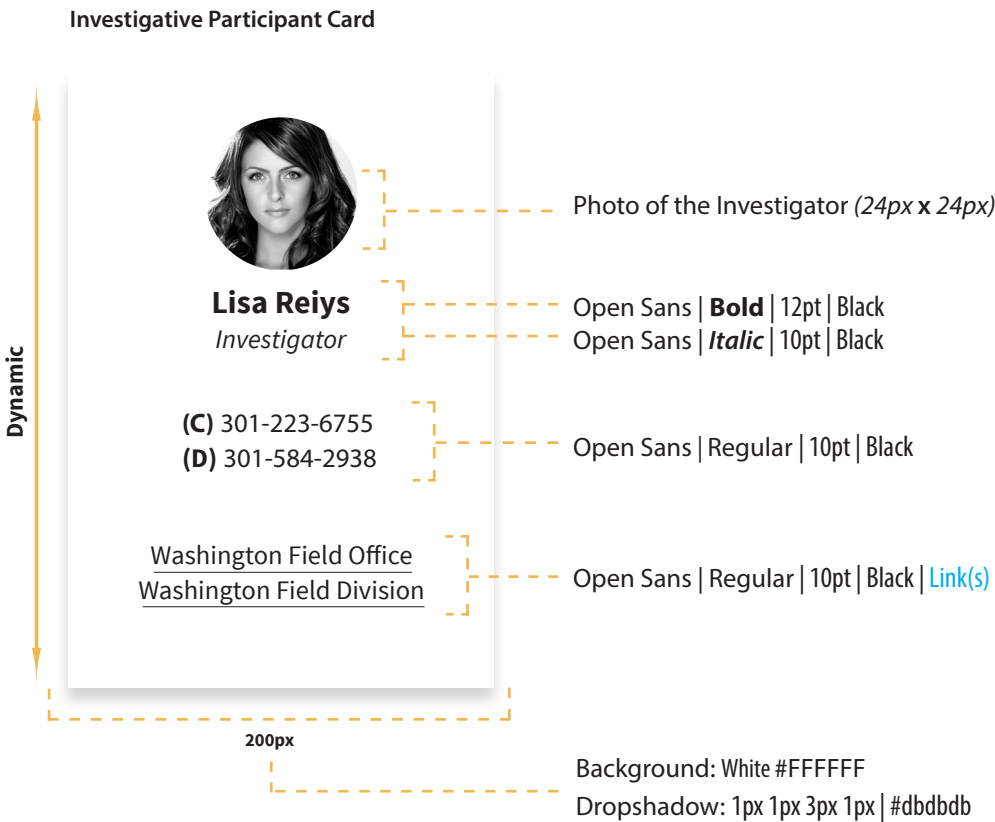

English sentence case (*capitalization of first letter of the first word only*) should be used for the following elements:

- Field labels
- Table column headings
- Tab headings
- Secondary headings, such as section headings and layout headings
- Instructional text
- Product features
- Links and menu items (unless linking to an actual title)
- Modal dialog titles

Contact Card

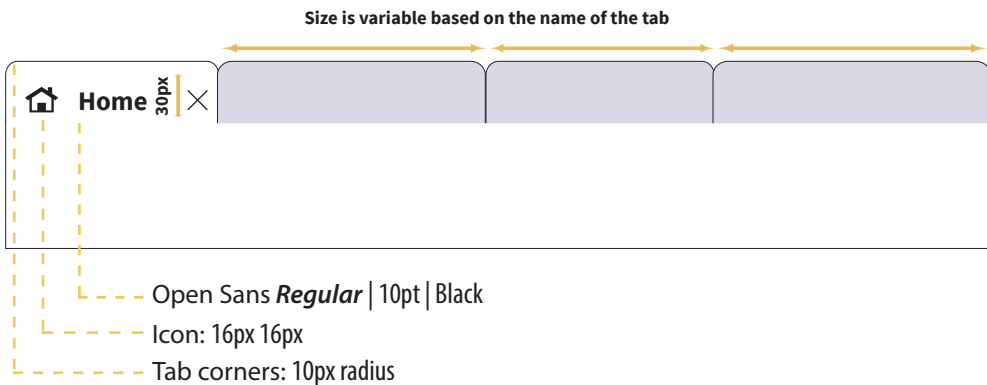

The contact card is used when a Spartan user wants to look for another Spartan user's information. Below is the detailed style requirements for the contact card.

Tabs

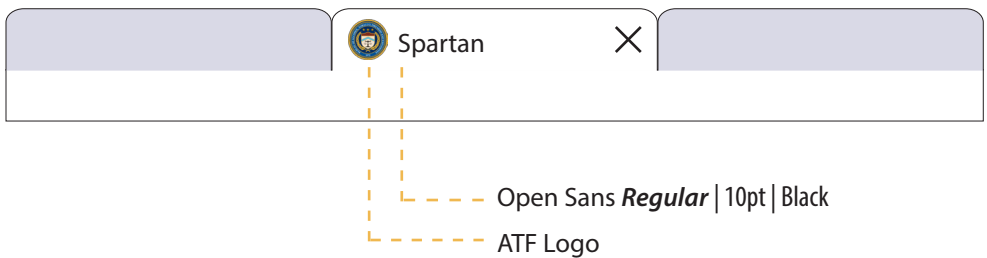

Tabs are used to enhance the user experience when navigating through the Spartan application.

Note: The active tab needs to be a different color (White) and it has to physically connect with the space below it. This is what makes the active tab “pop” to the front.

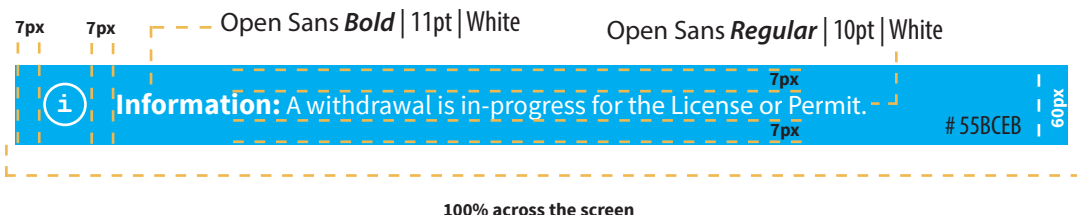

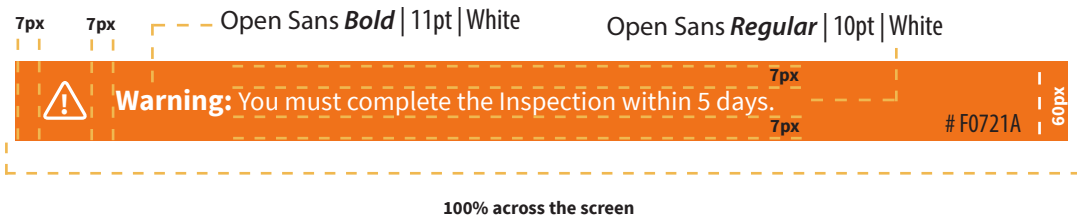

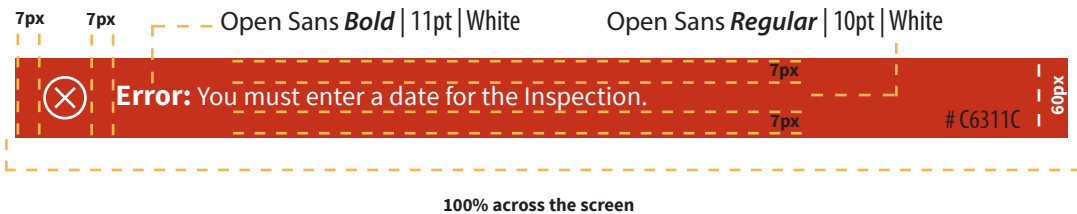

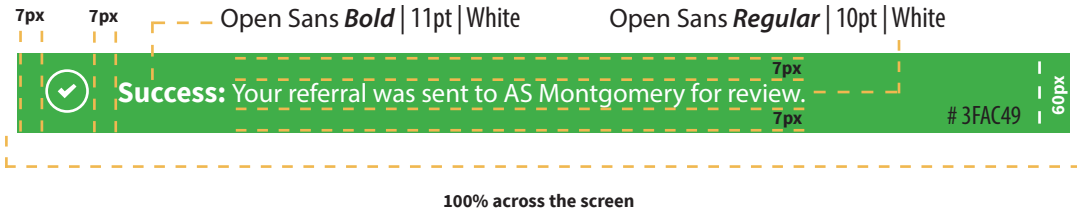

Favicon

A Favicon, short for “favorite icon”, is a file containing one or more small icons, associated with a particular website or web page. Favicon is also known as a shortcut icon, website icon, tab icon, URL icon, or bookmark icon.

Banners Style

Below are the banner styles that will be used throughout the Spartan application.

Placement of Notifications

Banner notifications should be used within an action area container. Warnings, errors, information and success messages should appear directly above the action area with no spacing between.

Note: All notifications should stretch 100% across the space of the container and 60px tall.

Banner Verbiage

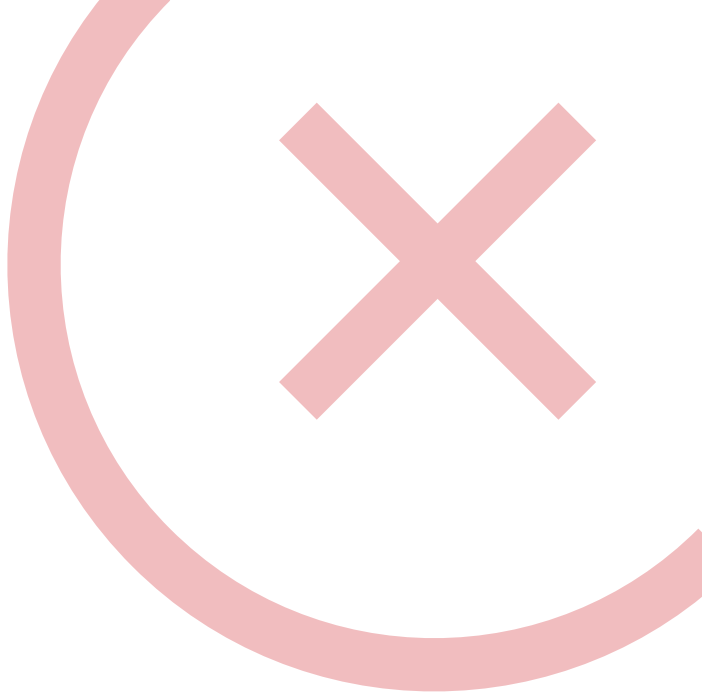

01. Success Confirmation

- **Color:** Green (# 3FAC49)
- **Situational Formatting:**
- ***Routed Item:***
 - “Your <work object> was sent to <title and name of person sent to> for <action/purpose>.”
 - Example: “Your referral was sent to AS Montgomery for review.”
- ***Non-Routed Item:***
 - “You have <action taken on work object>.”
 - Example: “You have completed the site inspection.”

Success: Your referral was sent to AS Montgomery for review.

02. Error

35

- **Color:** Red (# C6311C)
- **Situational Formatting:**
- **Text Required and If/Then:**
 - "You must complete <name of field>."
 - Example: "You must complete Premises Address."
- **Either/Or:**
 - "You must complete <name of field> or <name of field>."
 - Example: "You must complete address or email."
- **Missing Date:**
 - "You must enter a date <date parameters>."
 - Example: "You must enter a date for the Inspection."
- **Wrong Format:**
 - "You must complete <name of field> in the correct format."
 - Example: "You must complete the SSN in the correct format."

Error: You must enter a date for the Inspection.

03. Warning

- **Color:** Orange (# F0721A)
- **Situational Formatting:**
- ***Task expiring in 5 or fewer days:***
 - “Your deadline is approaching. You must complete the <work object> within <x> days.”
 - Example: “Your deadline is approaching. You must complete the <work object> within <x> days.”
- ***Business Activities not matching License Type:***
 - “You selected a business activity that does not match the <license type> license type. A different license may be required.”
 - Example: “You selected a business activity that does not match the Manufacturer of High Explosives license type. A different license may be required.”

Warning: You must complete the Inspection within 5 days.

04. Information

- **Color:** Blue (#55BCEB)
- **Situational Formatting:**
- ***Task expiring in greater than 5 days:***
 - “You must complete the <work object> within <x> days.”
 - Example: “You must complete the Inspection within 8 days.”
- ***Action pending time:***
 - “You cannot proceed with the “<work object>” task until <x> Days from now.”
 - Example: “You cannot proceed with the “Confirm Abandonment” task until 14 Days from now”
- ***Action in-progress:***
 - “<Action> is in-progress for the <work object / record>.”
 - Example: “A withdrawal is in-progress for the License or Permit.”
- ***Collateral work objects:***
 - “This <work object> is a collateral inspection.”
 - Example: “This Site Inspection is a collateral inspection.”

Screen Instructions

Instructions in the section header of the work area of the screen for the user. The purpose is to provide a user with information on how to complete a screen in Spartan.

Example

Click on the buttons below to review each section of the snapshot report before submitting the inspection to your Area Supervisor.

Eligibility Verification

Premises

Questionnaire

Responsible Person

Closing Conference

Site Inspection

Milestone Transition Screens

Is to provide a user with information about an action previously taken or which is about to happen in Spartan.

Example

You have reached the <Title>

Next Steps:

You work to this point will be reviewed for completeness. The following information will be reviewed:

Background Check: All responsible persons must complete and pass background checks.

Government Issued ID: All responsible persons must provide at least one government ID.

Hidden Ownership: All suspected hidden owners must be reported to your Area Supervisor and resolved.

To start the Audit, click Continue.

Stage Coach

Is to provide a specialized transition for the user when they are blocked from moving forward with their work by outside action.

Example

This inspection has **(8)** unresolved Applicant Actions Items that need to be completed before you can move forward.

<Verbiage>

Select from the actions below:

- ☐ Update (8) Applicant Items
- ☐ Contact Responsible Persons
- ☐ Withdraw Application

To start the Audit, click Continue.

Receiving New Assignment

Instructions in the section header of the work area of the screen for the user. The purpose is to provide a user with information on how to complete a screen in Spartan.

Example

You have received a new Explosive Application Inspection assignment.

Assigned by: Area Supervisor John Smith

Due Date: Thursday, August 31st.

Review the following sections before starting your Inspection.

Select from the actions below:

- ☐ Paper Application
- ☐ Application Information
- ☐ Special Instructions
- ☐ Hidden Ownership Guidelines (Optional)

To start the Audit, click Continue.
