Estimated Contract Cost (including Options): \$37,575.00

Section B: Description of the Supplies/Services Required

355 AMXS is requesting the acquisition of a HH-60W Front Pilot Windshield.

Section C: Justification for Soliciting from a Single Source or Brand Name

355 AMXS is requesting the procurement of an HH-60W Front Pilot Windshield due to the current windshield being cracked. The current crack has rendered the aircraft unable to fly. Due to the status of the aircraft, the timely procurement of the windshield is in the best interest of the government so that it can return to operable status. The selected vendor, WB Parts maintains an in stock windshield with a estimated time of 7-10 days. Other vendors were contacted but stated their lead times were over 400 days.

Section D: Efforts to Obtain Competition

Vendors contacted included, Lockheed Martin, AeroBase Group, and ASAP Semi Conductors. Sikorsky, the manufacturer of the aircraft was contacted as well. All contacted companies expressed similar lead times of over a year, which impairs mission requirements. Due to these factors an intent to sole source will be posted to the GPE SAM.gov.

Section E: Steps to Preclude Future Single Source or Brand Name Awards

355 Contracting squadron seeks to utilize the most efficient and affordable services to meet the customers needs in a timely manner while maintaining competition. However due to the urgency of the requirement it is the best interest of the government to sole source this requirement.

Section F: Contracting Officer's Determination

I have determined, in accordance with FAR 12.102(a), that the circumstances of this contract action deem only a single source is reasonably available.
