**JUSTIFICATION REVIEW DOCUMENT
FAR Part 12 Justification and Approval
For Other than Full and Open Competition**

Program/Equipment: Blood, blood products, courier services, and testing services for the William Beaumont Army Medical Center (WBAMC) at Fort Bliss, Texas.

Authority: Title 41 United States Code (U.S.C.) §1901 as implemented in Federal Acquisition Regulation (FAR) 12.102(b), restricting competition for acquisitions valued over the Simplified Acquisition Threshold.

- a. Background: Blood and blood products in the United States Armed Services is governed by the Armed Services Blood Program (ASBP). The ASBP's primary mission is to ensure blood products are collected and stored in contingency for wartime. The secondary function is to provide Military Treatment Facilities (MTF) with blood products for beneficiaries when needed. The ASBP's contingency mission means all MTFs will not receive enough blood for all patients. Therefore, MTFs must identify a second source of blood and blood products for supplementation. The Department of Pathology Area Laboratory Services (DPALS) Blood Bank supports transfusing upwards of 1,500 units of blood and blood products per year. The Fort Bliss Blood Donor Center (BDC) is the main supplier of blood and platelets to the WBAMC Blood Bank. A contract with an external Blood Provider is necessary to secure access to certain blood products which the BDC does not manufacture; to cover the cost of purchasing additional blood products when Blood Bank inventory need exceeds BDC collection capabilities and to cover occasional testing that cannot be performed by WBAMC. The requirement is recurring and has been since transfusion was identified as a lifesaving treatment in the 19th century. The requirement has been previously sourced without issue from the [REDACTED] which is the only blood bank in the area capable of performing this requirement.
- b. Alternatives: There are no acceptable alternatives to awarding this contract. The contractor must be certified by either [REDACTED] or College of American Pathologists (CAP) accrediting agencies and follow all regulatory standards of [REDACTED] and Food and Drug Administration (FDA) for the manufacture and distribution of blood products. The Government requires courier service for product delivery in validated transport containers, with orders filled within 1, 4, or 24 hours of original request, according to priority assigned by WBAMC. Prior to products being shipped, WBAMC will have the opportunity to decline any blood product not meeting their needs, to include inventory requirements and remaining shelf-life. The National Blood Exchange, through [REDACTED], is the industry standard for availability of blood products, regardless of type, volume, or rarity. Through a validated courier service, [REDACTED] is the only company capable of providing blood products within the desired time-frames of this requirement. There may be other third-party organizations that could provide these services; however, no other companies have expressed interest during the sources sought notice that was previously posted to Sam.gov.
- c. Impact if not approved: Blood and blood components are used to treat acute hemorrhage in trauma and surgical patients, prevent coagulopathy in oncology patients, and enable disease management through therapeutic plasma and red blood cell exchange. Failure to provide the necessary products in the time required would result in increased mortality.

7. Efforts to Obtain Competition: The Contracting Officer published a sources sought on SAM.gov on 12 November 2025 as required by FAR 5.201 and no responses were received. In accordance with FAR 5.201, a notice of intent to award a sole-source contract will be published on the Government-wide Point of Entry (GPE). Any capability statements, bids, or proposals received will be evaluated. The Contracting Officer will publish the notices required by FAR 5.201 and any bids or proposals received shall be considered.

- a. Effective competition: Competition is not anticipated due to no other known sources who can meet all the Government's minimum requirements.
- b. Subcontracting competition: There are no anticipated subcontracting opportunities in accordance with (IAW) FAR 19.109.

8. Actions to Increase Competition: This action is a follow-on to contract W81K00-21-P-0079. Under the previous Justification and Approval (Control No. 21-RHCO-C-295, located in PCF) the paragraph, "Actions to Increase Competition" stated: "No further contracts will be awarded without the requisite sources sought notice. The customer will monitor the marketplace during the life of the requirement to determine if there are other vendors who provide the same support in an effort to increase competition. The Government will continue to seek new resources that will satisfy these requirements through continued market research, requests for Statements of Capability and telephonic inquiries". Those actions were accomplished via the sources sought conducted on 12 November 2025 and no responses were received. The Government will continue to monitor the market for new entrants or technological changes can meet all Government minimum requirements.

9. Market Research: Market research was conducted from November 2025 through January 2026 in accordance with FAR Part 10.

On 12 November 2025, a Sources Sought was conducted on SAM.gov to see if any small businesses were able to provide the requested blood and blood products. Notice ID: 0012361906 received 0 responses from industry. A copy of the Sources Sought is located in the Paperless Contract File (PCF) cabinet.

A Dynamic Small Business Search was conducted on 28 January 2026 at <https://search.certifications.sba.gov/>. The search showed one (1) company capable of providing for NAICS code 621991, [REDACTED]. However, a further search of [REDACTED] shows they are primarily a courier company that cannot supply the required blood, blood products, courier services, and testing services under NAICS 621991. The small business search and [REDACTED] SBA profile have been uploaded to PCF. There is no indication that a small business within the WBAMC Fort Bliss, TX area is capable of providing the desired blood and blood products within the required timeframes.

Control Number: [REDACTED]

Therefore, this contract will be awarded as a sole-source firm-fixed priced contract. [REDACTED] is the only vendor capable of providing the requested blood and blood products IAW the Performance Work Statement (PWS).

10. Interested Sources: No responses have been received from the sources sought notice. Lack of interest may be due to El Paso being geographically isolated, with few direct flights. Due to location, logistics may limit the availability of blood products and ease of transport.

11. Other Facts:

a. Procurement history. This is a successive, sole source follow-on requirement to the contracts below:

Contract Number / Contractor	Contract Type	Procurement Method	Offerors/ Bidders/ Vendors	Amount	Period of Performance
W81K00-21-P-0079 / [REDACTED]	FFP	SAP Non-Competition (FAR 13)	1	[REDACTED]	01 April 2021 through 31 March 2026
W81K00-20-P-0330 / [REDACTED]	FFP	SAP Non-Competition (FAR 13)	1	[REDACTED]	01 October 2020 through 31 March 2021
W81K00-18-D-0002 / [REDACTED]	FFP IDIQ	Competed under SAP	1	[REDACTED]	01 October 2019 through 30 September 2020

1) Contract numbers and dates of all awarded contracts for these same requirements.

- a. W81K00-21-P-0079 awarded on 30 March 2021.
- b. W81K00-20-P-0330 awarded on 21 September 2020.
- c. W81K00-18-D-0002 awarded on 20 October 2017.

2) The competitive status of these actions.

- a. W81K00-21-P-0079 was a sole source.
- b. W81K00-20-P-0330 was a sole source.
- c. W81K00-18-D-0002 was competitive under full and open competition.

3) Authority previously cited if less than full and open competition was used.

- a. W81K00-21-P-0079 used authority of FAR 13.501(a)(1)(ii).
- b. W81K00-20-P-0330 used authority of FAR 13.106-1(b)(1)(i).

4) If any prior contract for this requirement was accomplished using full and open competition or full and open competition after exclusion of sources, include a detailed explanation of the changed circumstances causing this action to now limit the sources. While W81K00-18-D-0002 was competed, only [REDACTED]

Control Number: [REDACTED]

[REDACTED] provided a proposal. Therefore, all subsequent awards were noncompetitive since no other sources were found during market research.

5) An explanation of any unusual patterns that may be revealed by the history, e.g., several consecutive, urgent buys. Not applicable.

6) An explanation of protests received, if applicable, and actions taken in response to the protest. Not applicable.

b. Other facts. Not applicable.

12. Technical Certification: I certify that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

[REDACTED]
Blood Services Supervisor

13. Requirements Certification: I certify that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

[REDACTED]
Contracting Officer's Representative

14. Fair and Reasonable Cost Determination: I hereby determine that the anticipated price/cost to the Government for this contract action will be fair and reasonable. A price analysis will be conducted to compare the proposed prices to contracts within MRCO-W for the same or similar requirements. I certify that this justification is accurate and complete to the best of my knowledge and belief.

[REDACTED]
Contracting Officer

15. Contracting Officer Certification: I certify that this justification is accurate and complete to the best of my knowledge and belief.

Control Number: [REDACTED]

[REDACTED]
Contracting Officer**Approval**

Based on the foregoing justification, I hereby approve the procurement of blood, blood products, courier services, and testing services on an other than full and open competition basis pursuant to the authority of Title 41 U.S.C. §1901 as implemented in FAR 12.102(b), restricting competition for acquisitions valued over the simplified acquisition threshold. The estimated value of the follow-on contract is [REDACTED] for a five-year (base and four one-year options) period of performance from 01 April 2026 to 31 March 2031. The approval is subject to availability of funds, and provided that the supplies and/or services herein described have otherwise been authorized for this acquisition.
