PICK ONE

Sole Source:

☒ I recommend that NASA, NASA Shared Services Center negotiate with FiscalNote only for FY26 FiscalNote Software Purchase + 4 Option Years. The total estimated cost of this effort is [REDACTED] and the estimated period of performance or lead-time for delivery is 03/19/2026 - 03/18/2031.

OR

Brand Name Justification:

☐ I recommend that NASA, NASA Shared Services Center negotiate only with vendors who can provide the subject brand name from Manufacture Name for Enter Supply or Service to be procured. The total estimated cost of this effort is Enter Dollar amount and the estimated period of performance or lead-time for delivery is Date.

This recommendation is for the acquisition of supplies or services determined to be reasonably available from only one source/only one manufacture. Competition is impractical for the following reasons (please answer the questions below):

1. **What are the reasons for soliciting only the suggested source/suggested brand name?** Please provide the unique characteristics of the items or services along with the supporting rationale and the market research performed to substantiate your reason for the suggested source/brand name.

This procurement is for the purchase of an existing software subscription with FiscalNote, structured as a one-year base period with four one-year option periods. The subscription supports the ongoing operational needs of the NASA Office of Inspector General (OIG) by providing continuous access to legislative and budget tracking tools essential to mission oversight responsibilities.

2. **What is the impact to the government if another vendor/brand is used?** Include any dollar, schedule, or compatibility impacts if possible.

As the OIG has an appropriation separate from NASA, it is imperative that the NASA OIG has all of the information possible to ensure proper budget related items in a timely manner. This is especially important as we tend to spend longer periods of time in continuing resolutions. FiscalNote software is the only product that addresses the OIG's specific set of requirements and an item that we have successfully implemented. To pursue the evaluation or procurement of an alternate software service would be both operationally cost and time prohibitive.
