0003	Option Year 2	Start: 22 April 2028 End: 21 April 2029

DESCRIPTION

REQUEST FOR QUOTATION N4019226Q4003 PROCUREMENT FOR MOBILE WIRELESS/CELLULAR DEVICES AND SERVICES FOR NAVFAC MARIANAS

This is a combined synopsis/solicitation for commercial products or commercial services prepared in accordance with the format in subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued.

Background: The Naval Facilities Engineering Systems Command, Marianas (NAVFAC SYSCOM MAR) provides critical engineering, construction, and facility management services to U.S. Navy, Marine Corps, and other joint forces operating in the Indo-Pacific region. This Performance Work Statement (PWS) is for mobile wireless and cellular telecommunication solutions to support official, mission-essential duties for military, U.S. civilian, and designated contractor personnel across the NAVFAC Marianas Area of Operations (AO), which includes but is not limited to Guam, the Commonwealth of the Northern Mariana Islands (CNMI), the Federated States of Micronesia (FSM), Palau, and Yap. The unique geographic dispersal and strategic importance of this region demand robust and resilient communication capabilities.

Objective: The primary objective is to acquire secure, reliable, and technologically current wireless devices and services to ensure mission-critical connectivity for data, voice, and text communications. The solution must support personnel operating in diverse environments, from local office settings to remote field locations and international travel within the Continental United States (CONUS) and globally. This PWS establishes the performance-based requirements to ensure the contractor's solution maintains command and control, supports daily administrative functions, and provides surge capacity for contingency operations.

RFQ N4019226Q4003: Mobile Wireless/Cellular Devices and Services for Naval Facilities Engineering Systems Command (NAVFAC) Marianas, Guam

Scope: The contractor shall provide all necessary resources, including but not limited to labor, management, supervision, tools, materials, equipment, and transportation, to fulfill the requirements outlined herein. The scope encompasses the provision and management of cellular services (voice, data, text), the supply and lifecycle management of mobile devices (e.g., smartphones, tablets, Mi-Fi hotspots), support for network infrastructure, and enterprise mobility management integration. This is a performance-based contract where the contractor is responsible for the results, not the method of performance.

Contractors shall perform all services in accordance with the Attachment 1 Performance Work Statement (PWS) and Attachment 2 Inventory of Existing Devices and Numbers.

The resulting contract will be a single award, multi-year, with firm-fixed price Exhibit Line Item Numbers (ELINs). Performance period will be for one (1) one (1) year base period and two (2) one (1) year option periods to extend services.

See Attachment 3 for Evaluation Factors of offers.

The following provisions and clauses apply to this acquisition, in addition to those contained in Attachment 4 Clauses and Provisions.

FAR 52.212-1 Instructions to Offerors-Commercial Products and Commercial Services.

FAR 52.212-2 Evaluation-Commercial Products and Commercial Services.

FAR 52.212-3 Offeror Representations and Certifications-Commercial Products and Commercial Services.

FAR 52.212-4 Contract Terms and Conditions-Commercial Products and Commercial Services.

FAR 52.212-5 Contract Terms and Conditions Required To Implement Statutes or Executive Orders-Commercial Products and Commercial Services.

See Attachment 5 for contractor's Representations and Certifications.

The Defense Priorities and Allocations System (DPAS) assigns this requirement as an unrated order.

The solicitation document and incorporated provisions and clauses are those in effect through Federal Acquisition Circular (FAC) 2025-06, effective August 27, 2025. It is the responsibility of the contractor to be familiar with the applicable clauses and provisions. The full text of the referenced clauses may be accessed electronically at:
