1.0. PURPOSE, BACKGROUND & SCOPE

1.1. Purpose

This is a non-personal services contract to provide National Geospatial-Intelligence Agency (NGA) Human Resources Management (HRM) II Services. The Government shall not exercise any supervision or control over the employee's provider performing the services herein. Such employees shall be accountable solely to the Contractor who, in turn is responsible to the Government.

The Contractor shall provide all personnel, supervision, other items, and non-personal services necessary to successfully perform on-site contracting services for NGA HRM II as defined in this Performance Work Statement (PWS). The Contractor shall perform to the performance standards and acceptable quality levels (AQL) identified in the contract.

The purpose of this document is to provide the background, scope of work, performance requirements, and requisite deliverables for the contract providing HRM II services. HRM II is a single award contract as identified under Federal Acquisition Regulation (FAR) Part 15 and further defined in this PWS.

1.2. Background

HRM II is focused on NGA's most important resource – its people, involving no more than personnel 8,500 to include Government and military employees. It encourages a holistic approach by encapsulating the end-to-end processes involved with managing people's resources in the organization, from recruitment to retirement and everything in between. NGA's Human Resources Information System (HRIS), currently based in PeopleSoft, is the principal management tool for the activities described below, and it includes employees covered under the Civil Service Retirement System (CSRS), the Federal Employee Retirement System (FERS), and the CSRS Offset Retirement System. PeopleSoft is also used to capture information related to assigned military personnel and NGA Contractors. Civilian personnel actions shall be processed in accordance with the Office of Personnel Management (OPM) and NGA guidelines.

1.3. Scope

The purpose of this contract is to obtain the full range of performance capabilities in support of NGA's Human Development Directorate (HD). The HRM II requirements provide non-personal services to HD in support of all aspects of human capital (HC) processes and programs utilizing and maintaining hard and soft copies of all applicable regulations, agency procedures, and forms while executing NGA's mission to achieve its vision and goals. Contractor tasks shall include the use of best practices and lessons learned, and proposing, then implementing approved

innovative ideas into requisite functional areas, increasing integration between all HD offices. The current HD Offices are Workforce and Management Services Office (HDC); Human Capital Advanced Capabilities Office (HDS); Talent Development Office (; Talent Acquisition Office (HDR); National Geospatial-Intelligence College (HDN), and the HD Chief of Staff (HDF).

2.0. DESCRIPTION OF WORK

2.1. Workforce and Management Services Office (HDC)

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outline in the below section 2.1. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

2.1.1. Personnel Data

NGA's goal is to have 100% of its Government and Contractor data processed in a timely and accurate manner in accordance with OPM and NGA standards. After an employee starts at NGA, virtually all personnel data is captured and acted upon through PeopleSoft. Hard copy Official Personnel Files (OPFs) are currently stored at NGA–St. Louis or N2W, but the Agency anticipates moving to a solely electronic system before the move to N2W (tentatively in 2026). Personnel data services also include accurate, timely, and courteous responses to customer requests on personnel. Continuity of personnel services and maintenance of personnel data during and after transition to N2W for all functional areas is required.

The Contractor shall remain current in Government and NGA personnel data regulations, maintain the office library, and perform the following, but not limited to:

2.1.2. Personnel Action Request (PAR) Processing:

- Coordinate, track, and maintain documentation in share folders associated with PAR processing for civilian employees. Respond to customer requests for information
- Review and apply Veteran's Preference for Appointment and RIF, Disabled Veteran's Leave, and other military entitlements
- Perform PeopleSoft testing requirements for system upgrades and provide 100% of the results of the test scenarios to ensure continued functionality.
- Research and provide recommendations to resolve discrepancies with personnel data
- Coordinate actions necessary for Government to process each PAR. All documents shall be reviewed within 5 business days. If additional information is required, the contractor shall contact the employee within 2 business days. The contract shall deliver new service history report to the Government. Periodic inspection will occur each month to ensure adherence.
- Complete actions to calculate and update all Service Computation Dates (SCD).

- All documents shall be reviewed within 5 business days of receipt, and a new service history report shall be generated and provided to the Government. Periodic inspection will occur each month to ensure adherence.
- Coordinate actions and track documentation necessary to transfer civilian employees to other Federal Agencies. All documents shall be reviewed within 5 business days of receipt, and an activity log shall be generated and provided to the Government monthly.
- Complete actions to update military entitlements within 5 business days of receipt. If additional information is required, the contractor shall contact the employee within 2 business days. All documents shall be reviewed, and a new service history report shall be generated and provided to the Government. Periodic inspection will occur each month to ensure adherence.

2.1.3 Defense Finance and Accounting Service (DFAS) Processing

Monitor and review DFAS data in the Defense Civilian Payroll System (DCPS).

The Contractor shall perform the following, but not limited to:

- Identify, research, and provide recommendations to resolve discrepancies between DCPS and PeopleSoft.
- Submit Remedy tickets to DFAS within 3 business days when unable to resolve discrepancies to reconcile systems. All Remedy tickets should clearly document the nature of the change and the reason. Document in a daily log, the nature and related activities for discrepancies between DCPS and PeopleSoft to be reported monthly. Periodic inspection will occur each month to ensure adherence.
- Document in a daily log, the nature and related activities for all Remedy tickets to be reported monthly. Periodic inspection will occur each month to ensure adherence.
- Maintain all hard and electronic documents and respond to requests from auditors

2.1.4. Official Personnel Folder (OPF) Maintenance:

The Contractor shall perform the following, but not limited to:

- Research and resolve discrepancies with OPF documents. Periodic inspection will occur each month to ensure adherence to all OPF maintenance activities.
- Scan, upload, and maintain current documents to NGA's electronic OPF system to include backlog documents prior to and after deployment to the new building site in St. Louis (N2W) in accordance with OPM's guide to Personnel Recordkeeping and NGA Guidance.
- Maintain a log to document the scanning and uploading activity, OPF disposition, and all other related OPF actions for civilian employees and provide monthly.
- Provide copies of OPFs to NGA workforce and other Government entities upon request. All requests for less than 10 documents shall be completed in 3 business days with a 1%

error rate. A request for the complete OPF shall be completed within 10 business days with 99.9% accuracy. Random sampling and periodic inspection will ensure full compliance.

- Respond to and coordinate visits with security investigators and other approved individuals to review OPF within 1 business day of receipt. Contractor shall provide and maintain a log to document the investigation and audit activity monthly. Periodic inspection will occur each month to ensure adherence.
- Request OPFs from other Government agencies.
- Provide oversight and support for the timely preparation, transfer, and tracking of OPFs to the new building site in St. Louis, MO (N2W) as directed by the Government. Maintain hard copy OPF file system until the Agency completes the transition to fully electronic OPF; once transitioned, ensure appropriate disposition of records.
- Troubleshoot, report and coordinate resolution of hardware and software in support of OPF Maintenance. Report all issues to the Office immediately within 1 business day of occurrence. Provide a weekly report outlining all occurrences and resolutions or status.
- Disposition OPFs in accordance with OPM's Guide to Personnel Recordkeeping and National Personnel Record Center guidance as civilian employees leave NGA within 5 business days of reaching disposition date. If additional documents are discovered after the OPF has been dispositioned, those documents shall be forwarded to the appropriate party within 5 business days of discovery.

2.1.5. Contingent Worker Record (CWR) Processing

The Contractor shall perform the following, but not limited to:

- Create and update CWR data received from multiple sources. All actions shall be completed within 2 business days of receipt with 99.9% accuracy. Periodic inspection will occur each month to ensure adherence.
- Research and resolve customer requests within 3 business days. Utilize the NGA desk guides to facilitate CWR data maintenance. If the contractor is unable to resolve this issue, the contractor shall clearly document both the nature of the request and the actions taken to resolve and send it to the Government POC.
- Maintain a list of all customer requests and action taken to resolve in a monthly report

2.1.6. Separation Process

The Contractor shall perform the following, but not limited to:

- Research and resolve Separation customer requests within 3 business days of receipt. Periodic inspection will occur each month to ensure adherence.
- Monitor the separation checklist and coordinate with the process owners to ensure each section is complete. Periodic inspection will occur each month to ensure adherence.

- All separation actions shall be reviewed within 5 business days of the separation date for completion. If the checklist signatures are not completed, contractor shall contact them verbally and in writing to facilitate completion. If the process owner does not complete their portion within 5 business days of notification, the Contractor shall document their attempts on a monthly log.
- Coordinate and process personnel data for civilian employees leaving the agency. All requests shall be completed within 5 business days of receipt. Periodic inspection will occur each month to ensure adherence.
- Monitor and respond to inquiries from NGA Exit Process PM Email box.
- Coordinate, monitor, and track all separation actions and assist the employee, Contractor, supervisor, Contract Officer's Representative (COR), or program owner to ensure all required actions are completed.

2.1.7. Benefits and Retirement Services

NGA's goal is to have 100% of its employees informed about the full range of benefits and services available to them and to have that information accurately and timely disseminated. Periodic inspection will occur each month to ensure adherence.

The Contractor shall perform the following, but not limited to:

- Respond to customer requests within one (1) business day for information and actions related to benefits and retirement in accordance with (IAW) applicable laws.
- The Contractor shall conduct final quality control review of all Retirement Application Packages in ORA prior to submission. Ensure OPM required forms/documents are accurately completed and assembled according to OPM guidance and submit in ORA no later than submit five (5) business days after the effective date.
- The Contractor shall conduct final quality control review of all completed Death Packages in ORA prior to submission. Ensure OPM required forms/documents are accurately completed and assembled according to OPM guidance and submit in ORA no later than five (5) business days following receipt.
- The Contractor shall input military deposits and civilian deposits/re-deposits within 48 hours after receipt of the completed request. Respond to customers military deposit and civilian deposits/re-deposits inquiries to confirm receipt and completion of actions. All requests are responded to within 48 hours. Change the history status in GRB and update RSCD in PeopleSoft once paid in full notification is received from employee. Review all historical updates following notification that deposit is paid in full.
- Calculate and validate retirement Service Computation Dates (SCD) and retirement system for employees with prior federal service and make updates to both PeopleSoft and GRB, when required.
- Stay abreast of current Government and NGA benefits information and maintain a library (hard and soft copy) of current NGA/HD forms, publications and standard operating procedures in designated shared folders accessible by the Government Program Manager.

- Process retirement estimates during any Agency workforce shaping efforts (including Voluntary Separation Incentive Payment (VSIP), Voluntary Early Retirement Authority (VERA), and Deferred Retirement Program (DRP)).

2.1.7.1 Retirement Items:

The Contractor shall perform the following, but not limited to:

- The contractor shall manage and maintain the retirement items inventory and tracking database.
- The contractor will order, assemble, ship or coordinate pick-up for retirement awards and recognition package within 30 days of retiree's submission of paperwork.
- The contractor shall coordinate for pickup and delivery loaner retirement packages that are used for retirement ceremonies.

2.1.8. Leave Sharing Services

- Periodic inspection will occur each month to ensure adherence.
- Secure and maintain access to the DFAS Payroll System (DCPS) and related reporting tools contained therein.
- Administrative support for Leave Bank, Leave Transfer and Emergency Leave Transfer programs, to include initial process correspondence with applicants, preparation of case files, processing grants of donated hours, case tracking and case closures, scheduling and facilitation of board meetings. The contractor shall maintain all case files (electronic and / or hard copy) to ensure all data is current.
- Complete actions to process new hire enrollments. All new hires enrollments shall be processed for the next pay period after the elections received, except for employees that have insufficient leave accumulated.
- Complete actions to process and track employees with insufficient leave accumulated to ensure membership costs are deducted. All actions with insufficient leave shall be completed in the first pay period the employee has accumulated a positive leave balance.
- Complete actions to process all other employee donations following established Leave Bank Open Enrollment periods as identified by the Government program manager. All processing shall be completed during the Open Enrollment period to be effective the first full pay period defined by the Government program manager.
- Complete end-of-year processing actions to include but not limited to disenrolling employees who cancelled their membership during the previous year, ensuring automatic re-enrollment of current members, and the sweep of forfeited leave from those participating in the Use-or-Lose "Opt-In" program.
- Process the NGA Leave Bank and Leave Transfer program actions by adhering to NGA Instructions related to Leave and Other Absences for Civilian Employees (NGAI 1402.1) and the Leave Bank Charter.

2.1.9. HD Key Component Engagement/Affiliate Team

Provide HD support to all Key Components and to manage the NGA Assignee and Detailee Program. The Assignee program allows a cadre to work at NGA to perform NGA work, while a Detailee allows a cadre to be detailed to another Agency to perform NGA work.

The Contractor shall perform the following but not limited to:

2.1.9.1. Serve as Program Manager for the NGA Assignee/Detailee Program:

- Coordinate Staff-Like Access (SLA) with counterparts to ensure completion of paperwork, psychological testing, drug testing, medical testing, security and other requirements.
- Attend and participate in meetings with leadership, customers and stakeholders in support of the program.
- Respond to customer inquiries.

2.1.9.2. Use PeopleSoft and other tools as needed to manage NGA Assignee/Detailee Program:

- Monitor and track participants of the Affiliate/Detailee/Assignee program
- Deliver Personnel Resource Documents (PRD) to customers
- Process supervisor change requests
- Process PARs

2.1.9.3. Metrics and Reports (CDRL A004):

- Maintain data integrity of spreadsheet used to track/monitor participants
- Run weekly and ad-hoc reports, and provide to customers
- Provide Government program manager or designee routine and ad-hoc status reports, such as volume of actions, program updates, trend analysis, metrics, and shortfalls/issues that allow the Government to perform analysis that support decision making on related programs.
- Brief decision-makers at formal or impromptu meetings as requested
- Complete metrics, reports and track program in PeopleSoft and/or spreadsheets as necessary. Process Table of Organization changes and Personnel Actions (PAR).

2.1.10. Pay Setting Support (CDRL A005)

Contractor support for pay-setting and market research guidance. The Contractor shall assist in determining whether NGA is providing benefits and paying salaries that are equitable and competitive with the marketplace and other DoD and Intelligence Community (IC) agencies.

The Contractor shall perform the following but not limited to:

- Research, gather, and analyze data to determine appropriate salary level for all work roles; assist in the execution and administration and provide analytical support for a variety of compensation policies and programs; maintain the database for accessing compensation information and corresponding job descriptions.
- Conduct salary surveys, interpret salary data, and perform compensation analysis; evaluate proposed and current work roles and classify them in accordance with NGA's pay band levels; manage work role and salary table conversion cross-walks (for example from GS to banded) databases and tables related to all NGA work roles and Career Services; develop a competitive compensation structure to attract job applicants who will make a long-term commitment to be employed at NGA. Review work roles monthly and update current pay setting database with findings.
- Provide a monthly compensation analysis report that provides an overview of current salary structures and pay bands, market comparison and benchmarking data that analyzes internal equity and external competitiveness and provides recommendations for adjustments to ensure fairness and market alignment.
- Develop data methodology, identify federal incentive pay programs, and determine costing of base salaries; interpret compensation practices and guidelines; provide guidance on issues related to compensation; prepare supporting data for the review of annual pay setting trends.

2.1.11. Performance Management (PM) Process

The current Performance Management system under Defense Civilian Intelligence Personnel System (DCIPS) provides an equitable process to define employee responsibilities, plan performance, measure performance against a standard set of criteria, and provide timely performance feedback. The primary purpose of performance management is to achieve organizational results and mission objectives through the effective management of individual and organizational performance. The DCIPS Performance Management process involves a high degree of collaboration between both the employee and supervisor. The process promotes continuous growth and development of the NGA workforce in alignment with NGA mission requirements. Performance Plans include individual performance objectives and standardized performance elements. All performance plans, mid-point reviews, close-out evaluations, final close-out evaluations, etc. are completed in the approved HD software application.

The Contractor shall perform the following, but not limited to:

2.1.11.1. Training – Develop, maintain, and deliver training in order to support the performance management process as specified by Government. The Contractor shall provide updates as directed to maintain training relevance.

- Review and provide timely Performance Management updates to NGA courses to be delivered by NGA College instructors.

Update training materials for DCIPS specific courses and deliver facilitated sessions. Training shall incorporate NGA policies and procedures IAW Office of the Under Secretary of Defense, Intelligence & Security (OUSD(I&S)) and NGA regulations materials. Contractor shall deliver sessions per the Government schedule.

2.1.11.2. Metrics, Reports, and Tools (A006) – Run reports and provide metrics, identify shortfalls, issues and perform trend analysis, provide recommendations for improvements, identify efficiencies, program updates and other relevant data, upon request. Provide routine and ad hoc reports and/or tools to customers based on agreed upon criteria and format.

2.1.12. Performance Based Compensation Elements

Performance Based Compensation elements link annual performance-based salary increases, bonuses, incentives, and/or awards to individual accomplishments, demonstrated competencies, and contributions to organizational results. The performance pay deliberation process is the forum for ultimately rewarding the workforce for their performance throughout the year. NGA's performance-based compensation policies and procedures provide for a common pay pool management process and structure as the mechanism by which the Performance Pay process is administered. This system provides managers and supervisors with enough flexibility to compensate employees using valid, metric-based criteria. Employees are able to contribute to the accomplishment of the Key Component's (KC) mission and be rewarded for their contributions through completion of their performance objectives. Since NGA's performance-based compensation elements affect the entire banded workforce, process information shall be communicated to all levels of employees, managers, and executives; executed by responsible organizations completely and thoroughly; applied across the Agency fairly and consistently; and completed on time.

The Contractor shall perform the following, but not limited to:

2.1.12.1. Performance Pay (PP) Guides and Training Materials

- Develop and maintain NGA's annual Performance Pay Guide IAW DCIPS and NGA regulations and guidance. All guidance documents are accurately completed and assembled in accordance with DCIPS policy as directed by the Government.
- Develop, maintain, and deliver training and training materials to support Performance Pay processing, as specified by the Government. Government will provide direction regarding the type (e.g. Instructor-led, web-based, etc.) of training. All training shall be IAW Office of the Under Secretary of Defense, Intelligence & Security (OUSD(I&S)) and NGA regulations materials. Contractor shall deliver training once a quarter as directed by the Government.

2.1.12.2. Metrics, reports, and tools (CDRL A007)- Run reports and provide metrics, identify shortfalls, issues and perform trend analysis, provide recommendations for improvements, identify efficiencies, program updates and other relevant data, upon request.

- Provide routine and ad hoc reports and/or tools to customers based on agreed upon criteria and format.
- Provide analytics and reports for Performance Pay

2.1.13. Performance Management and Performance-Based Compensation Practices

The purpose of this task is to ensure NGA's performance management and compensation practices and processes are executed effectively and efficiently, as well as identify areas for improvement. Annual evaluation of the Executive and Banded Performance Management and Performance Pay processes – and their component parts – through assessments, participant surveys, and other feedback methods (e.g., focus groups) will be accomplished. Provide subject matter expertise using current and emerging OUSD(I&S) and NGA policies and procedures to support performance management functions. Contractor shall help execute all facets of the Performance Management, Performance Based Compensation, Awards and Recognition and Incentive processes. Periodic inspection will occur to ensure adherence to all work efforts.

The Contractor shall perform the following, but not limited to:

2.1.13.1. Analyze findings from questionnaires and feedback sessions and prepare reports, as requested by Government (e.g., Executive Summary, KC-level, Agency-level).

2.1.13.2. Assess the quality of NGA's performance management and performance-based compensation resources and tools:

- Develop new and update existing informational and procedural documents for NGA workforce.
- Maintain accurate content on the HD website pages for Performance Management, Performance Based Compensation, Awards, Recognition, and Incentives; etc. Create and Deliver information sessions to educate on Performance Management, Performance Based Compensation, Awards, Recognition and Incentives
- Compile data provided by KCs and from other program offices (e.g., Joint Duty Rotation (JDR)) in preparation for performance pay deliberations, performance management deadlines, compliance with overarching regulations, and/or annual reporting.
- Respond to customer requests within timeframe specified by Government. All responses shall address the customer request, be courteous and accurate within 3 business days of receipt of request. Contractor shall utilize all available resources to support response to customer.

2.1.13.3. Create and deliver targeted information sessions to educate the workforce on Performance Management, Performance Based Compensation, Awards, and Recognition, and Incentives programs. All materials will be IAW with overarching and NGA regulations and guidance. These sessions will be ad hoc as directed by the Government.

2.1.13.4. Metrics, Reports, and Tools - Run reports and provide metrics, identify shortfalls, issues and perform trend analysis, provide recommendations for improvements, identify efficiencies, program updates and other relevant data, upon request.

2.1.13.5. Provide analytics and reports for Performance Management & Performance-Based Compensation Practices. Provide routine and ad hoc reports and/or tools to customers based on agreed upon criteria and format. (CDRL A006)

2.1.14. NGA Implementation of a new Performance Development System

NGA requires Contractor support to continue the advancement of NGA's implementation of a new Performance Development System to build out approved courses of action, and to plan and support implementation. To this end, the Contractor shall assist in developing an implementation strategy, to include phases, timelines, training, policy, and technology enhancements that will contribute to the program redesign. The Contractor shall propose specific courses of action, implement a new supervisor training, and establish training plans to meet new program requirements. The Contractor shall be knowledgeable of performance management best practices and specifically identify areas of alignment for an inclusive talent experience at NGA. The Contractor shall provide human resource consulting to help inform performance management, performance pay, and awards and recognition best practices to help drive and align with DoD guidance. The Contractor shall provide ongoing support to help transform NGA's performance culture and keep a focus on continuous improvement of performance management efforts.

The Contractor shall perform the following, but not limited to:

2.1.14.1. Program Management - The Contractor shall deliver effective program management to ensure the successful execution of efforts to implement a new Performance Development System at NGA, to include the following work, provide monthly project plan updates, monthly status reports, and ad-hoc reporting and status updates to Government program manager or designee. All plans and updates will be provided to the customer and monthly reports on a schedule and in a format agreed upon with customer.

2.1.14.2. Program Design and Implementation - In all stages of the implementation of a new Performance Development System, the Contractor shall detail processes and solutions for previous or newly established design recommendations. Plans for these solutions shall contribute to the overall Performance Development System implementation plan and advance the maturity of NGA's performance management program over time, to include the following work:

- Create materials and guidance documents that outline specific processes of the new performance system that is either provided to NGA by or approved by OUSD(I&S). The Contractor may support any new performance management processes, such as a pilot program, that will run in parallel to current performance management processes.
- Solicit input from the NGA workforce and support efforts to design required workforce change management, communications, and training as directed by the government.
- Provide expertise knowledge in the design of RPM components and solutions for input to decision briefings, design documents, user stories, personas, testing, and user materials for familiarization of new technology solutions.

2.1.14.3. Training (CDRL A008)- The Contractor shall develop new research-based training that supports the implementation of a new Performance Development System for performance management, performance pay, performance development, and/or awards and recognition. The Contractor shall conduct a training needs assessment to identify training needs, support the development of new training, and help deliver the training to NGA employees on the new Performance Development System. Additionally, the Contractor shall:

- Conduct training needs analysis based on Government approved program and technology solutions.
- Develop training plans which will fall under two categories: 1) new training directly related to implementation of the new Performance Development System that introduces changes to the performance management system at NGA, as appropriate and 2) training that reinforces behaviors on topics needed for successful implementation of a new Performance Development System. The training plans shall include learning objectives/outcomes for target audiences and recommend the appropriate learning method and delivery modality.
- Design and develop new training to address priority training requirements, identified in the training plans, for training needed during the period of performance.
 - The training materials shall range from virtual instructor-led training (e.g., information sessions), asynchronous training (e.g., informational videos), and targeted sessions to introduce new performance management concepts and gather feedback (e.g., focus groups).
 - The Contractor shall provide the Government with all appropriate training materials (e.g. Facilitator Guides, PowerPoint presentations, student resources, storyboards, video files) and train-the-trainer sessions, as applicable, for NGA instructors to continue the training delivery as needed.
 - The training materials shall prepare stakeholders (e.g. NGA supervisors, NGA employees, and component POCs) for their role in the implementation and sustainment of a new Performance Development System.
- Deliver the developed training in various formats to all NGA Employees.

- Develop data collections instruments such as surveys, focus groups protocols, and interview questions designed to collect feedback from impacted stakeholders during the implementation of a new Performance Development System. All raw and analyzed data will be provided back to the Government.
- Use the approved data collection instruments to collect ongoing feedback from employees, supervisors and leadership regarding the modular changes to performance management, performance pay and awards, and recognition processes to better inform what impacts a new Performance Development System has on NGA stakeholders. Interval for data collection dependent on identified milestones as defined in the contractor implementation plan approved by the Government
- Deliver a report summarizing the findings that include recommendations for any possible adjustments to the new Performance Development System, implementation approach for the performance management, performance pay and awards and recognition processes in the new Performance Development System. The report frequency will be determined by the implementation plan.

2.1.15. Employee Assistance Plan

The Employee Assistance Program (EAP) is designed to help employees, managers, and components meet life challenges and remain healthy, engaged, and productive. EAP services include, but are not limited to, confidential counseling for stress due to divorce, job burnout, and financial or legal matters, as well as referrals to professionals for help with these issues and others that impact the employee's ability to work.

The Contractor shall perform the following, but not limited to:

2.1.15.1. Scope of EAP Services - The EAP services to be delivered under this contract are behavioral health and other services designed to help maintain and improve employee productivity and to help employees address the full range of personal problems. Services are to be performed in accordance with the highest professional standards and the following requirements:

2.1.15.2. Onsite EAP Counseling - Hours of operation: 7:00 a.m. to 3:00 p.m. Monday through Friday:

- Cleared EAP Counselors shall be available onsite at NGA Washington in Springfield, VA and the NGA-St. Louis Area (NGA St Louis Second Street location while still operational and then N2W when fully operational) for 1:1 appointments (scheduled and walk-in) during hours of operation. Onsite EAP counselors shall provide short-term counseling sessions with Government employees of no more than six sessions per issue. After six sessions, the counselor shall discuss alternative resources with the client.

- Onsite counselors may see NGA Contractor or military personnel onsite for one session to address immediate urgent issues and discuss referral services to link these individuals with needed support services.
- The Contractor shall ensure a rapid response to critical or urgent incidents requiring onsite EAP counselor support.
- Onsite EAP Counselors will be available on-site at NGA Washington in Springfield, VA and the NGA-St. Louis Area (NGA St Louis Second Street location while still operational and then N2W when fully operational) from 7:00 a.m. to 3:00 p.m. Monday through Friday, except federal holidays and other unexpected building closures such as for inclement weather. Hours during the work week could vary occasionally to support a specific requirement or in the event a counselor is needed to stay beyond their shift end time to support a crisis or urgent need.
- One onsite EAP Counselor shall be staffed Monday through Friday at both the NGA Washington in Springfield, VA and the NGA-St. Louis Area (NGA St Louis Second Street location while still operational and then N2W when fully operational). There will be no onsite EAP Counselor at the Arnold location; however, NGA staff from the Arnold location are eligible to participate in face-to-face or telephonic counseling sessions with the onsite Counselors at either location. Counselor shall be licensed in MO to serve Arnold.
- It shall be the responsibility of the Contractor to be familiar with the Federal calendar as well as with those days set aside as officially approved holidays. On-site counselors shall observe the same holidays as the Government. When Federal organizations are granted, additional leave including administrative leave, because of inclement weather, potentially hazardous conditions, or other functions or special circumstances, the Contractor shall ensure that impacted onsite counselors are not reporting to work at their assigned NGA worksite.
- Each onsite EAP Counselor shall work under the supervision of a qualified Counselor Supervisor, a licensed clinical psychologist, or clinical social worker provided by the Contractor, that on-site counselors can seek support from as needed. This individual does not need to be on-site but shall remain accessible to the counselors during their onsite hours of operations.
- EAP Counselors shall report all urgent and emergent situations to Government Point of Contact (GPOC) or COR.
- Resources regarding long-term counseling needs or support shall be offered to individuals as necessary.
- Contingent on EAP Counselor workload, Counselors shall provide unlimited seminars or presentations in support of the NGA workforce. Presentations shall be conducted as requested by the COR, GPOC, or Government EAP Program Manager.
- Onsite EAP counselors will provide short-term counseling sessions with Government employees of no more than six (6) sessions per issue. Upon exhaustion of the six (6) allowable counseling session per condition, as needed the onsite EAP counselors will work with the qualified Counselor Supervisor to prepare an outline of alternative resources (e.g. local communities, private insurance) to be discussed with the client.

- One onsite EAP Counselor will be staffed Monday through Friday at the NGA Washington in Springfield, VA and the NGA-St. Louis Area (NGA St Louis Second Street location while still operational and then N2W when fully operational). The Government will be notified of any scheduled gaps for onsite EAP counselor support at either location and Contractor will make every effort to provide coverage arrangements.

2.1.15.3. Offsite EAP Counseling - 24/7 access to telephonic referrals for local EAP counselors:

- Contractor shall provide a toll-free phone number, with teletypewriter (TTY) support services, for employees to access referrals for counseling services on a 24/7 basis.
- Offsite EAP counselors shall provide short-term counseling sessions with Government employees of no more than six (6) free sessions per issue. After six (6) free sessions, the counselor will discuss alternative resources with the client.
- 24/7 toll free telephonic access shall include calls placed from international locations.
- 24/7 access to telephonic EAP counseling referrals, 3 referrals will be made available within 3 business days, to licensed mental health counselors in the employee's local community.

2.1.15.4. Work-Life Support Services:

- In performance of this requirement, the Contractor shall provide all necessary personnel, management and supervision to support and implement a comprehensive Work-Life Support Services Program that includes counseling, consultation, personalized searches for community resources, referrals, online educational materials, and onsite or virtual educational seminars on a variety of work-life topics. Employees may call the Work-Life Support Services for services including but not limited to: information on becoming a parent, adoption, childcare, child development, parenting skills, children's health, education and schooling, elder care and adult disabilities, relocating, illness, grief and loss, professional development, financial management, retirement planning, and legal assistance.
- Contractor shall professionally staff a Work-Life Support Services Program 24 hours a day, seven days a week, and 365 days a year.
- TTY access shall be available for hearing-impaired employees 24 hours a day, seven days a week, and 365 days a year and be equivalent to telephone access available to all hearing employees.
- Work-life Specialists shall be responsible for intake, assessment, referral, monitoring, and follow-up of services provided for employees.
- Legal services shall include consultation on most legal matters including but not limited to: follow-up letters to third parties, review of documents, wills, and power of attorney.
- Financial services shall include telephonic consultation on most financial matters including, but not limited to: general tax information, financial planning, investment strategies, and family budgeting and debt reduction.

- Legal and Financial services shall be in accordance with industry standards and shall include a one- half hour limit of legal or financial advisor time without charge.

2.1.15.5. Work Force Education (CDRL A009):

- The Contractor shall provide weekly mental health, resiliency, or work-life topic briefings and information sessions to the NGA workforce. These may be conducted in person at NGA primary locations or as virtual events, or some combination of the two to maximize attendance and participation of all NGA staff. Contractors will utilize on and off-site resources to and make best effort to ensure the sessions are accessible to the NGA workforce at NGA locations and at other remote sites; CONUS and OCONUS locations.
- Contractor shall develop an annual calendar of monthly observances and awareness themes that will guide information sessions provided to the NGA workforce related to EAP topics. Each month shall include various communication modes for the NGA workforce to include articles, workshops, activities, and other related events. Drafts of each proposed annual calendar shall be submitted to the GPOC no later than 1 September for the upcoming fiscal year, for review and approval.
- The Contractor shall have a comprehensive online library that enables employees to view and print professionally accurate informational, educational, and health and wellness promotional resources on a variety of EAP and work-life related topics. The Contractor shall maintain an up-to-date library of current information through regularly scheduled content refreshment.
 - The Contractor shall maintain the privacy and confidentiality of website users. The Contractor shall treat any Government-provided employee information as proprietary. Such information shall only be used for the purpose of supporting this contract. Under no circumstances shall this information be shared with any third party without the written permission of the COR.
 - The Contractor shall submit website utilization reports with the contents mutually agreed upon by the Contractor and COR. Quarterly and annual reports shall be submitted via electronic mail to the COR, within fifteen (15) business days of the end of the reporting period.

2.1.15.6. Promotional Materials and Activities (CDRL A010):

- The Contractor shall design and conduct a promotional campaign to creatively assure that eligible persons including those in geographically dispersed regions attain and maintain knowledge of EAP services and how to access them. The Contractor's ongoing promotional campaign shall be designed to ensure EAP awareness at all organizational levels. The promotional campaign shall be designed and submitted to the COR for approval within 60 days after contract award and updated annually thereafter by no later than 30 September of each year.

2.1.15.7. Laws and Regulations Governing EAP Services:

- The Contractor shall ensure that all policies and procedures of the EAP are in compliance with both Federal and State laws and regulations and assure the confidentiality of client contact with the EAP. Any and all counseling/problem solving records, as well as any information obtained from employee visits to, or contacts with, the EAP shall be kept in a confidential manner in accordance with the EAP system of records and Section 122 and 303 of PL 93-282, the Privacy Act of 1974 and 42 CFR, Part 2 "Confidentiality of Alcohol and Drug Abuse Patient Records". Because the regulations prohibit implicit and negative disclosure about persons with alcohol and other drug abuse problems (e.g., whether a given person has utilized the EAP), the confidentiality of all EAP clients shall be maintained under the provisions of the Privacy Act or the Alcohol and Drug Abuse Patient.
- Records or other related information shall not be disclosed to any person or organization without the written consent of the client or court order requiring disclosure.
- Disclosure of pertinent client information shall be permitted under the following circumstances:
 - When the client gives prior written consent to disclose information. This consent of release is specific indicating the nature and scope of topics to be released, to whom information is to be released, the purpose of the disclosure, and the date on which the consent terminates.
 - If the client poses a danger to self or others or threatens to commit a serious crime that would cause substantial property damage.
 - If there is a suspicion of child, spouse, or elder abuse or neglect (according to Department of Defense, or state regulations).
 - Where it is legally permissible or required to warn the target(s) of a credible threat of violence or a future criminal act made by a client, or to warn the legal authorities of such threat.
 - If the disclosure of information is allowed by a valid court order.
 - If the disclosure is made to medical personnel in a medical emergency.
 - To qualified personnel for audit or program evaluation.
 - When a direct supervisor requires confirmation that the client has made or kept EAP appointments during regular duty hours or sick leave.
 - For the purpose of defending an agency or its employees in litigation.
 - To a Medical Review Officer (MRO) for those employees who have tested positive to drug tests; or
 - When the Government requires that information be released due to their missions on a "need to know" basis, e.g., national security. These requirements are identified in the Statement of Understanding specific to the employees required to be signed by employees of the before they are accepted as clients by the EAP.
- All other releases of information require approval from the COR. The Contractor is responsible for ensuring that the person to whom confidential information is released is notified of the prohibition on secondary disclosure of this information to another. The Contractor shall document this notification to the client record.

2.1.15.8. Credentials Verification of Onsite EAP Counselors:

- The Contractor shall, upon request from the COR, submit copies of each final candidate's résumé, license/certification, and proof of malpractice insurance, as well as a summary of the findings of a background check in accordance with the Contractor's company policy.
- The Contractor shall complete a thorough qualification, reference, and background check on each of the prospective on-site counselors. This process shall include, but not be limited to:
 - Reference check and confirmation of all prior employment as an adult, including job title, dates of employment, and any periods of extended absence while employed.
 - Determination about the history of any malpractice suits in the past.
 - Confirmation that the candidate is a member in good standing of the professional organization most appropriate for his/her credentials.
 - Prime source verification of each final candidate's current licensure, certification, or registration by the appropriate state's professional licensing authority; and
 - Prime source verification of each final candidate's qualifying degree.

2.1.16. Role Specific Training (CDRL A011)

Role Specific Training targets users with the data contained in PeopleSoft that is relevant to the user's responsibilities and prepares the user to use PeopleSoft in performing the duties of their position. Courses shall include but are subject to change: AO/PAR processing, Employee and Supervisory Self-Service Courses, and Ad Hoc Privileged User training. The instructor shall establish and maintain instructor material, test accounts, course guides, and certificates of completion, student evaluations, and handouts. The courses shall be interactive and designed to provide the users test accounts to understand how to use the privileged user functions. The Contractor shall support evaluations and reviews of PeopleSoft upgrades by using the application and providing feedback on usability and problems encountered. The primary site for training is NGA Washington, with occasional trips to NGA St. Louis and other locations, if required to facilitate efforts with HD team members. The information for Role Based Training Guides is currently available in the Administrative Officer and Supervisor Training Manuals and may be utilized by the Contractor.

The Contractor shall instruct and support courses (but not limited to):

2.1.16.1. AO/PAR Processing training - Using Government-supplied training curriculum, the Contractor shall provide instruction to PeopleSoft users (e.g. Government employees, HD Component Teams, managers, Manpower Representative) who perform a variety of tasks. Tasks include, but are not limited to: navigation of PeopleSoft; processing of personnel actions/updates for Government & Contractor personnel; determining the proper nature of action codes in accordance with OPM & the Defense Civilian Personnel System; use of grids for mass grids for

cadre and contingent workers; data retrieval (reports and queries) and self-service applications; providing updates to federal positions in Legacy Position Management (LPM) & the Table of Organization; updating employee supervisor; Federal Benefits Administration processing in PeopleSoft; and providing NGA's electronic OPF System Super User training. Student evaluations shall be delivered to the Technical Monitor after the students complete the evaluation form.

2.1.16.2 Employee and Supervisory Self-Service - Using Government-supplied training curriculum, the Contractor shall provide instruction to Government employees and supervisors to educate them on PeopleSoft functionality and their responsibilities for data as directed by the government. Employees and supervisors perform a variety of tasks to include but not limited to: Sign-in and navigation of the HRIS, input to support performance management, all self-service applications, Individual Talent Profile (ITP) updates, benefits processing, and time and attendance.

2.1.16.3. Privileged User training (approximately 2-3 hours in length). The Contractor shall conduct ad hoc courses as directed by the Government by various methods (e.g. face-to-face, IC Connect, and VTC) depending on the situation and location of the person(s) needing training. The Contractor shall develop the course material. Since these are one-time offerings, the Contractor is not required to update course material.

2.1.17 Relocation Program Management Support

NGA requires expert contractor support to ensure NGA's Global Relocation Program is executed with maximum efficiency, accuracy, and compliance. The Contractor shall demonstrate mastery of all applicable regulations for employees conducting a Permanent Change of Station (PCS) within the Continental United States (CONUS), from CONUS to Outside the Continental United States (OCONUS), and between OCONUS locations. All actions shall be processed in a timely and precise manner, adhering strictly to the Joint Travel Regulations (JTR), Department of State Standardized Regulations (DSSR), and all applicable NGA policies and procedures. The Contractor's personnel shall possess specific, demonstrated expertise in Temporary Quarters Subsistence Allowance (TQSA), Living Quarters Allowance (LQA), Foreign Transfer Allowance (FTA), and other complex overseas entitlements.

The Contractor shall perform, but is not limited to, the following tasks:

2.1.17.1 Case and Documentation Management: Coordinate, track, and meticulously maintain all documentation associated with civilian employee relocation actions within government-approved shared folders.

2.1.17.2 Subject Matter Expertise & Support: Serve as a primary resource for customer inquiries, providing authoritative information and guidance on all relocation entitlements in accordance with the JTR, DSSR, and NGA policies within one (1) business day of receipt.

2.1.17.3 Authorization and Entitlement Processing: Prepare and coordinate all documentation necessary for the Government to process each relocation authorization, allowance, and subsequent amendment. All document packages shall be reviewed for completeness and accuracy within five (5) business days. If additional information is required, the Contractor shall contact the employee within two (2) business days of review.

2.1.17.4 Quality Control and Assurance: Conduct final quality control reviews of all authorizations and allowances prior to government certification, providing concrete process recommendations to the Government to resolve any identified discrepancies.

2.1.17.5 Program Training: Develop, update, and maintain comprehensive customer training materials and formal training sessions to support the Relocation Program, as specified by the Government.

2.1.17.6 Communication and Job Aids: Develop and maintain clear, effective written materials for customers (e.g., slick sheets, one-pagers, Frequently Asked Questions) to clarify the relocation process and support the program, as specified by the Government.

2.1.17.7 Process Improvement and Governance: Continuously analyze, develop, and document Standard Operating Procedures (SOPs), business process flows, and other governance documents to drive program efficiency, accuracy, and compliance.

2.2. National Geospatial-Intelligence College (HDN)

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outline in the below section 2.2. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

2.2.1 Workforce Development Division (HDNP)

The National Geospatial-Intelligence College (NGC) builds, staffs, grows and aligns NGA's talent to meet current and future mission requirements. The Workforce Development Division formulates the strategic direction and provides the framework, systematic approach and resources for NGA officers to grow their careers in alignment with agency mission through various talent development programs, such as Competitive Call, Tuition Assistance, Career Advancement, Leadership Advantage, Mentoring, Coaching, and Professional Development. NGA's talent development is comprised of thirteen (13) career fields, which encompasses over 39 Occupations; each of which is a formal structure led by a senior executive and charged with the management of an occupation or group of like occupations. Every NGA Officer is assigned a work role and occupation. Each career field is responsible for ensuring the health of its

occupation and provides its workforce with the necessary tools to develop the skills, capabilities, and knowledge required to be responsive to support the NGA mission.

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outline in the below section 2.3. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

2.2.2. Officer Development and Program Support

A career field is a formal structure charged with the talent management of an occupation or group of like occupations. The HDNPL Officer Development Branch supports the further development, maturation, execution and sustainment of NGA talent development and provides the framework, guidance and policy for implementation.

The Contractor shall perform the following but not limited to:

2.2.2.1. Engagement Services

- Assist in the drafting and coordination efforts of all talent development guidance, including FAQs, desk guides and toolkits. All guidance and communication will be delivered in final form in HD prescribed format as directed by the government.
- Post and maintain all relevant talent development information routinely on the program websites in full coordination with HDNP leadership and the HD Front Office communications team and in accordance with overarching HD and NGA communications strategy, product and website branding guidance NLT 2 duty days from receipt. All websites should be reviewed for changes and updated no less than weekly.

2.2.2.2. Schedule and participate in Career Field and talent development engagement meetings, working groups, town halls, and other events to support talent development, professional development, leadership, mentoring, and coaching programs. Maintain and publish notes within 3 days of event.

2.2.2.3. Maintain, and deliver training and guidance through both oral and written presentations. All training and guidance should be anchored in existing NGA policy and be reviewed by HDNP leadership and individual HD program managers, and staff.

2.2.2.4. Coordinate personal data as needed with HDS Info Analytics and export raw data into pivot tables, charts and tables as requested by Government POC for slides and decisional documents

2.2.2.5. Identify and assist in the development of program measurements, metrics and instruments necessary to assess the quality of NGA's Career Field Management and Talent Development delivery; provide program evaluation support and recommendations for program

improvement. Contractor shall complete a program evaluation bi-annually to ensure program offerings and processes are efficient and effective at meeting the needs of the workforce and Agency.

2.2.3. Talent Development Strategy

Provide strategic and operational level support to enable the design, implementation, evaluation and sustainment of the NGA integrated talent development strategy. Utilize a variety of human capital management and organizational change management best practices and resources, including strategies, methodologies, models, processes, and technologies.

The Contractor shall perform the following, but not limited to:

2.2.3.1. Design, plan, and implement an integrated calendar of program activities, in coordination with key stakeholders, the activities associated with integrated talent development strategy, from both the model and the experience perspectives. In coordination with HD POCs, collaborate on creating and assist in the implementation of the yearly road map of agency-wide talent development activities and events by 15 September annually.

2.2.3.2. Conduct continuous, comprehensive evaluation of talent development strategy and implementation; provide recommendations for sustainment and improvements semi-annually as directed by the Government.

2.2.3.3. Provide strategic human capital and organizational change management guidance and support to talent development programs, career fields, and integration activities in order to ensure success of the planning, design, implementation, review, evaluation, and improvement of the HD integrated talent development strategy as needed but no less than quarterly.

2.2.3.4. Develop a change management strategy and a strategic communications plan and review progress with Government designee monthly. Provide a quarterly change management plan to ensure successful acceptance, support and readiness for new and evolving talent development programs. Details include stakeholders, objectives, key activities, messages, change strategies, communication vehicles and tools, timelines and metrics (as appropriate).

2.2.4. Professional Development

Professional Development is the formal programming that provides educational and development opportunities for NGA civilian employees to develop critical skills and knowledge through informal, as well as formalized certificate and degree granting programs. HDN further supports the development of employees by providing in-house tools and means necessary to provide NGA employees' developmental insight into themselves and the opportunities to support their career. The Professional Development Programming also provides the tools and means necessary to aid

in the education and training of supervisors in conducting Professional Development discussions. The program's goal is to further develop, mature, execute and sustain professional development for the Agency on a continuous basis.

The Contractor shall perform the following, but not limited to:

2.2.4.1 Update and streamline the application and selection process methodology for the Competitive Call Program and the Tuition Assistance Program (TAP) for the HDNPL Officer Development branch. Conduct reviews and recommendations annually using SOPs and process mapping to determine the most efficient and effective application and selection process methodology.

2.2.4.2 In collaboration with the Government, identify and monitor PeopleSoft technical requirements linking the Integrated Talent Profile and other training and development planning tools into the decision-making business processes supporting Competitive Call and TAP. Perform various support functions daily within PeopleSoft for both programs, including data entry into modules such as the following: intent to separate, grade entry, interface updates and set up for each self-nomination cycle.

2.2.4.3 Export and analyze program data from PeopleSoft into reports, pivot tables, charts, graphs, tables and briefings on program metrics and return on investment as directed by the Government.

2.2.4.4 Conduct research and make recommendations for approved colleges/universities and program study areas against NGA work roles and occupations, NGA Strategic Workforce Plan, NGA Talent Development Priorities, and other supporting documents for the Competitive Call Program and TAP monthly or as requested by the Government to illustrate progress toward program goals.

2.2.4.5 Provide program evaluation support to include document reviews and updates, data collection and analysis, stakeholder interviews, surveys, focus groups, future state visioning, gap analysis, and recommendations for program improvement.

2.3. Talent Acquisition Office (HDR)

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outlined in the below section 2. 3.. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

2.3.1. Background

This section of the Performance Work Statement (PWS) lists the National Geospatial-Intelligence Agency's (NGA) requirements in support of its efforts to provide recruitment, applicant management and onboarding services to enable the United States global geospatial intelligence (GEOINT) mission within the Human Development (HD) Directorate – NGA Talent Acquisition Center (HDR).

NGA provides GEOINT, imagery intelligence, and geospatial data and information for planning, decision-making, and action in support of national security. It represents a unified community of GEOINT producers and users, leveraging expert tradecraft, regional expertise, and strength in numbers, in the delivery of multi-source, multi-intelligence products and services to policy makers, military decision makers, war fighters; and tailored support to civilian federal agencies and international organizations.

HD is a strategically focused organization responsible for the implementation and management of NGA's human development activities. HD's mission is to train, develop and retain a Government cadre of professionals and equip them with the knowledge and skills necessary to meet current and future GEOINT mission requirements.

This contract will support the mission of HDR and provide services that support development of the Agency Talent Acquisition Plan (ATAP), sourcing talent, marketing and outreach, campus recruitment, candidate application management, and onboarding.

HDR accesses priority talent at academic institutions and professional organizations that align to NGA mission. We prioritize institutions and organizations that meet mission requirements and schools that align directly with NGA's Strategic Workforce Goals that include student/member population, high graduation rate, Intelligence Community Centers of Academic Excellence (IC CAE) membership, USGIF accreditation, AI focused, STEM, and established relationships with the Agency. HDR sources talent for approximately 120 different work roles, including work roles that directly support mission imperatives. HDR works closely with internal Mission Partners to develop an ATAP that includes work roles, skill levels, and time frames for Agency hires for each fiscal year (FY). HDR actively recruits the future workforce at institutions and organizations through a rigorous schedule of career fairs, hiring events, and social media platforms. We build relationships through continuous engagement and influence potential hires by marketing and branding NGA as an employer of choice. HDR develops job announcements on multiple platforms and screens candidates for ability to meet minimum training and experience qualifications. We work closely with internal Mission Partners to run panels to review and select from qualified candidates. Once selections are made, HDR manages conditional offers of employment (COE's). We work with applicants throughout the security vetting process and schedule those who pass clearances, drug tests, and polygraph requirements for onboard. HDR ensures successful onboard of each selectee and coordination for access to accounts, networks, reasonable accommodations,

Skill Bridge Program, opportunities to intern through Student Programs, Wounded Warrior Program, Persons with Disability Program and MISP which is a 2 to 3 year program for Active-Duty Service Members that will help them successfully start work with the Agency.

The goal of HDR is for each candidate who goes through the recruitment, offer, and onboarding process with NGA to have exceptional customer service experience. This should include proactive engagement and regular communications and touch points with the HDR team so that candidates understand where they are in the process and what to expect. This goal supports candidate retention and satisfaction with the process. We also are focused on decreasing hiring timeframes at the direction of the Office of the Director of National Intelligence (ODNI), which directly impacts the candidate experience.

The Contractor shall provide HDR with human resource management services in support of NGA talent acquisition as described below.

2.3.1.1. NGA Talent Acquisition Center

HDR develops and delivers the ATAP and recruitment strategies and activities to attract, source, and recruit high-quality talent to meet NGA's emerging mission requirements. HDR builds, creates, and establishes NGA brand awareness, conducts outreach and recruitment services support for NGA. HDR works collaboratively with Career Field Managers and Mission Owners to identify the talent needed and develop solutions to source these candidates. HDR facilitates the selection process, offers preparation and delivery, pre-employment processing and onboarding.

2.3.1.2. HDR Future Strategy

While predicting the future may seem like an impossible feat, planning for the future is an achievable task. For any strategy to be successful, it shall align with the overarching strategy, mission, and vision of its parent organization. It shall also account for the ends, ways, and means in which it will be implemented. A sound strategy shall also factor in changes to the operating environment, staff, and leadership. The goal of the HDR Strategic Plan outlined below set direction for the organization and will shape the future look and feel of HDR. They will result in a more strategic approach to recruitment that provides the right people with the right skills at the right time to execute the GEOINT mission.

- Robust Talent Pipeline - Expert execution of the strategic workforce plan and ATAP will fill our personnel bench with the right people, including hard-to-hire science, technology, engineering, and mathematics (STEM) and data skill sets. Strong analytics systems will guide supervisors to convert interns or shop for and select the right people with the right skills at the right time.

2.3.2. Recruitment Strategy and Communications

HDR maintains a recruitment strategy with identified academic institutions and professional organizations based on agency needs and established criteria that include USGIF accreditation, STEM, AI, Cyber, high graduation rates, and established relationship with the Agency. The Contractor, as directed, shall conduct research on academic programs and military, governmental, and professional organizations to identify and validate those that align to NGA work roles requirements and investment areas in support of HDR recruitment strategy.

The Contractor shall provide the Government with a report outlining key findings and recommendations.

2.3.2.1. Engagement with Academic Institutions and Professional Organizations

- The Contractor shall provide recruitment support by engaging with approximately 100 academic institutions, military, governmental, and professional organizations, and job candidates in support of recruitment and recruitment events. This includes reaching out to institutions/organizations for event planning, for attendee data reports, and for marketing and branding purposes to provide an annual report identifying recommendations for changes.

2.3.2.2 Recruitment Communications

- The Contractor shall provide the necessary support to monitor and lead recruitment communications with internal and external customers by phone, email, and other forms of communication.
- The Contractor shall develop branding and templates for responses to all type of inquiries to automate, standardize, and speed responses to customers. This shall include the design, development and maintenance of recruitment communications from group email boxes and phone lines.
- The Contractor shall maintain templates, group email boxes, and group phone lines and incorporate changes into communications SOPs as needed.
- All event planning shall be done at least 30 days out from each scheduled recruitment event.

2.3.3. Recruitment Marketing and Outreach

HDR uses innovative and interactive approaches to increase the interest of potential NGA candidates across all NGA work roles. The goal of HDR's marketing and outreach efforts is to increase the quantity and quality of talent in NGA's hiring by increasing NGA brand awareness and direct response advertising targeting both active and passive jobseekers.

2.3.3.1. Recruitment Marketing and Outreach Strategy - HDR maintains recruitment marketing and outreach strategy with identified approaches to increase NGA brand awareness and source talent in support of the future NGA workforce.

- The Contractor shall conduct research into strategic approaches for use of web and social media, marketing campaigns (including segmented groups), promotional and print materials, recruitment technologies and innovations, and event support. The Contractor shall identify valuable approaches that meet the intent of the NGA recruitment strategy, NGA hiring goals, and investment area needs. This will be done on an annual basis at a minimum and is accomplished in coordination with internal mission partners. The Contractor, with Government approval, will execute the strategy.

2.3.3.2 Recruitment Pre-Event Support:

The Contractor shall perform the following but not limited to:

- Demonstrate NGA's value proposition through the utilization of exhibit booths to recruit and attract potential candidates. NGA typically participates in over 150 events per fiscal year. Approximately 50 events occur in the National Capital Region and approximately 50 events occur in the St. Louis area. The remainder are in nationwide locations. Approximately 80% of these events are college and university visits and are deemed to be small exhibits. These exhibits are usually one day in duration. The remaining 20% of events are to professional conferences and expos, and are larger, either in duration of the conference, or size of the exhibit or both. All items produced exclusively for NGA become the property of the Government.
- Research and identify in-person and virtual events that align to NGA's mission needs and create an Event Schedule on a semi-annual basis in collaboration with the NGA recruiters. The Contractor shall support NGA's presence at technical conferences, hiring events and career fairs focused on Government-identified audiences. They shall handle event registration and logistics to include any contractual obligations with the vendor, set-up and breakdown of large exhibit booths.
- Develop marketing campaigns in advance of each event, including web and social media postings. The Contractor shall post work roles on job aggregator boards and websites, and other job advertisement board(s) approved by the Government to identify NGA's talent needs for the event. Track and report ROI metrics and analytics on candidate sourcing initiatives monthly.
- Research and identify avenues to serve NGA banner advertisements and other marketing tactics to prospective candidates who meet a targeted demographic, or candidates located within specifically identified regions to support the development of the NGA talent pipeline. They shall gain Government approval prior to implementation.
- Research and identify job search engines, database subscriptions, and strategies/best practices for segmenting, sourcing, and engaging with active and passive technical candidates to generate interest in job opportunities. The Contractor-identified platforms and approaches shall be presented to the Government for review and approval prior to Contractor implementation.

2.3.3.3 Event Booth Design and Marketing Materials:

The Contractor shall perform the following but not limited to:

- Responsible for reserving and purchasing exhibit space and purchasing or renting ancillary exhibit logistical items (such as furniture, electrical connections, display supports, etc.) from the event provider's host management organization; provide administrative and logistical support services or products to NGA in support of all events.
- The Contractor shall secure event space for conducting interviews on an as needed basis. The Contractor shall provide the Government with the booth design details and draft layout schema and all other details of the reservation at least 30 days in advance of the event. The Contractor register and pay for the attendee registrations for those who will work the booth.
- Procure necessary NGA recruitment marketing materials for each event. The Contractor shall purchase marketing materials, on behalf of Government, to include brochures, flyers, posters, lanyards, and other materials that are commonly used for recruitment marketing at recruitment events. The Contractor shall create recruitment print materials (brochures and pamphlets) and maintain existing print materials by updating for currency and accuracy. The Contractor shall manage an inventory of promotional and print materials to ensure NGA has sufficient stock at each location for each event.
- Integrate solutions for candidate management tools (e.g., Handshake and Yellow). They shall accomplish this through; identifying and operationalizing approaches to utilize tools for sourcing and engaging with candidates during and in between events; developing best practices for using tools to execute virtual and in-person hiring events; and optimizing use of modules for enhanced access to source segmented populations. The Contractor shall utilize these solutions to support NGA hiring events and other recruitment activities.
- Identify platforms to purchase recruitment advertising and job postings in support of specific events, for priority external announcements, and on a regular basis to enhance public knowledge of NGA mission and careers.
- Provide analytics and reports from the recruitment marketing efforts in summary to the NGA monthly

2.3.3.4 Recruitment Post-Event Support:

- Based on the information gleaned, the Contractor shall provide recommendations to the Government for future events monthly.
- Create electronic surveys to send out to HDR recruiters and NGA Ambassadors following each recruitment event. Provide a summary of results to the Government.

2.3.3.5 Recruitment Engagement Sessions:

The Contractor shall perform the following but not limited to:

- Identify schools within the recruitment strategy (Minority Serving Institutions (MSI), Intelligence Community Center of Academic Excellence (ICCAE), etc) to elicit

participation for virtual engagement sessions. The purpose of the sessions is to familiarize the NGA supervisory workforce with different academic programs that align to NGA mission and for the schools to have an opportunity to get to know NGA mission and hiring requirements better.

- Coordinate availability with organizations (schools or STL Ecosystem) and develop engagement session layout. Create an annual calendar of events for engagement sessions. Establish a cadence of engagements with external representatives and NGA Supervisors. Host at a minimum of two engagement sessions per quarter, with a minimum of 8 sessions per calendar year.
- Research and recommend appropriate platforms to host and record engagement sessions. In addition, collect feedback from all stakeholders and develop key metrics.

2.3.3.6 Virtual Hiring Events:

- The Contractor shall deliver approximately six (6) virtual hiring events per year, including room reservations, invitations, speakers, talking points, setting up and running the virtual event, and associated marketing campaigns in coordination with the Recruiters and Student Program Managers.
- The Contractor shall develop marketing campaigns for the event, create and manage interviews, create events, and create attendee registration forms as directed by the Government.
- Post announcements for job vacancies on virtual platforms as identified by the government

2.3.3.7 Web and Social Media Recruitment:

The Contractor shall perform the following but not limited to:

- Develop strategies to utilize web and social media platforms for NGA recruitment. The Contractor shall provide media, web, and job board recommendations for specific NGA job postings, events, priority external job notices, and recruitment advertising needs as requested.
- The Contractor shall provide recommendations and maintain campaigns for offline recruitment marketing efforts. The Contractor shall notify NGA of any issues or changes to the recruitment advertising recommendations. Utilizing multiple social media platforms and improved web presence, the Contractor shall enhance the agency brand to market NGA as a leading employer.
- Evaluate and recommend best of breed recruiting technology for sourcing, event management, and other considerations. This shall be done through promoting employer brand, job advertising and proper location for display ads. For promoting employer brand, Contractor shall promote candidates and advertise NGA jobs to ideal candidates by offering company reviews, CEO approval ratings, interview reviews, benefit reviews, and more as identified.

- Job advertising, Contractor shall place NGA jobs in front of potential candidates prone to researching companies before applying, maximize reach by targeting relevant audience of job seekers based on behavior and interests and advertise NGA jobs across web, mobile, email and competitor profiles.
- Display Ads, Contractor shall be responsible for positioning NGA front and center with a highly visual full-screen ad, support hiring initiatives to include veterans, and recent graduates by occupation and geography, and retarget desirable candidates to increase awareness and engagement.
- Create marketing content for campaigns for events (approximately 40 per year), external job postings (approximately 40 per year) and passive recruitment. The Contractor shall execute marketing campaigns by posting ads and content to a variety of web and other platforms, job boards, social media and recruitment technologies, and coordination with the NGA Office of Corporate Communications (OCC) as needed.
- Deliver metrics and analytics on candidate sourcing initiatives. This should be (but not limited by); Track candidate interest in NGA brand and provide ROI metrics for recruitment events. Segment employee ratings by departments, locations, and employee type. Benchmark against competitors regarding culture, interview process, benefits, etc. Demonstrate NGA's value proposition through the utilization of exhibit booths to recruit and attract potential candidates. All items produced exclusively for NGA become the property of the Government. Provide online asset management software that tracks real-time inventory, event tracking, bar code inventory management, exhibit and display repairs, photographic inventory, ROI calculators, custom reporting metrics, job costing, staffing, and direct from site email communications.

2.3.3.8 Licenses for Web and Social Media Platforms:

- The Contractor shall provide up to fourteen (14) Commercial-Off-the-Shelf (COTS) licenses for social media platforms capability (i.e. LinkedIn, indeed, Glassdoor, etc) that require subscription for services that are approved by Government.
- The Contractor shall make purchases with the Government's permission. All purchases are processed through NGA's Office of Contracting Services (OCS), and all acquired licenses are the property of NGA.

2.3.4. Offers – Applicant Processing

The Contractor shall collaborate with the Government to process all applicants once an offer has been accepted until the applicant is on-boarded, in processed and PAR is completed based on time frames outlined in the NGA Agency Talent Acquisition Plan (ATAP).

2.3.4.1 Applicant Processing:

- The Contractor shall provide services for administration and processing of all applicants once an offer has been accepted. This includes the following tasks: ensure all required

on-boarding documents are verified and filed for each individual applicant, ensure disposition in PeopleSoft from offer extended until the applicant is successfully onboarded, processing of PAR's during EOD week within 4 business of receiving the requirement; review to ensure all information is included and prepare applicant for on-boarding within the required timeframe to sites as directed by the Government.

2.3.4.2 Applicant Data and Offers:

The Contractor shall perform the following but not limited to:

- Enter and maintain applicant data in the HRIS or other designated capabilities as identified by the Government. Applicant status shall be updated for all announcements. Key updates include but are not limited to:
 - 1) Code 071 - Offer Accepted Pending- Pre Employment Requirements
 - 2) Code 071 Offer Accepted Awaiting Placement
 - 3) 080 Ready to Hire
 - 4) 090 Hired
- The Contractor shall enter/update applicant data in HRIS once an applicant has accepted a conditional offer of employment which includes files, e.g., resumes, supporting documents, DD 214, SF50, SF75, transcripts and other materials; maintain data for approximately 2,000 applicants per month; create approximately 2,490 files per month; and process SF-813's on an as needed basis. Manage job candidates per month (Regular Hire, Persons with Disabilities (PWD), Direct Hire (DH), Interns and all other announcements externally that HDR led hiring actions on, coordinating with SI for accounts.
- Collect all documentation and build an electronic applicant file for each job candidate. The Contractor will initiate all action requests for the selectees and keep the HRIS/capability and the Government updated with the result of the pre-employment requirements.
- Obtain verification of a military retiree's service in non-wartime campaigns or expeditions (SF-813) and for selectees who are transferring from other federal agencies, negotiate release dates with that federal agency and request the Request for Preliminary Employment Data (SF-75); request all personnel data from external agencies; for prior civilian service, request OPF from National Personnel Record Center (NPRC) or current agency; for prior military service, request the Certificate of Release or Discharge From Active Duty (DD Form 214).
- The Contractor shall process the COEs in the Applicant Hub, monitoring Applicant Hub for all required documents from a selectee (to include signed conditional offer, transcripts, and other administrative documents). Upon receipt, the Contractor shall open the file, review for completion and accuracy, and then acknowledge as complete in the Hub. After all are marked to complete, they are moved to COE, where the Contractor shall create a folder (for each applicant), and adds/organizes the documents in the folder. Furthermore, the Contractor shall initiate the pre-employment condition workflows in the COE offer module of PeopleSoft; monitor responses from outside offices on the status of

the pre-employment requirements (poly, drug, security, etc.); and update the conditions in the offer module of PeopleSoft with results after receipt of notice of completion from the responsible office (SI, etc.).

2.3.5. Pre-Hire Assessments

The Contractor shall perform the following but not limited to:

2.3.5.1 Provide support for the pre-hire assessments program, including the identification of off-the-shelf solutions and the internal development and maintenance of assessments that enhance the agency's ability to hire applicants with needed knowledge and skills to successfully support NGA's mission.

2.3.5.2 The Contractor shall apply industrial-organizational psychology and psychometric expertise to develop and implement pre-hire assessments (e.g., occupational questionnaires, behavioral interviews, qualification libraries, and/or other assessments) for each NGA work role.

2.3.5.3 For behavioral interview and qualification library development and updates, the Contractor shall submit an interim and final technical report to document activities completed methodology used, data gathered, and results, alongside the final products necessary for implementation. The Contractor shall maintain assessments on an as needed basis, no less than annually.

2.3.5.4 Conduct research into available solutions, benchmark for best practices pay setting and pre hire assessments across the Intelligence Community, Department of Defense, and the private sector and provide at least 5 competitor solutions on an annual basis.

2.3.5.5 Follow NGA policies to ensure NGA develops tools that adhere to the Uniform Guidelines on Employee Selection Procedures and professional standards. All research shall be captured in a report, along with findings and recommendations. Contractor shall help acquire and implement assessments as needed.

2.3.5.6 Coordinate with HDS workforce strategy, workforce survey, and information analytics and workforce survey teams to ensure that relevant information and data are exchanged for the development of assessments. The Contractor shall identify gaps between required knowledge, skills, abilities, and tasks (KSATs) and those utilized by the pre-hire assessment team. The Contractor shall ensure pre-hire assessment databases and/or tools are updated to reflect changes completed by HDS to competencies, work roles, or requirements. The Contractor shall document all plans and work.

2.3.5.7 Coordinate with internal partners throughout the agency and provide support by coordinating meetings and briefings with stakeholders, including document requirements and

actions from meetings, assisting with developing analytics and briefings, and developing and monitoring timelines/plans to support the program.

2.3.5.8 Apply industrial-organizational psychology and psychometric expertise to assist in assessment validation, scoring, and support. The Contractor shall conduct assessment at least two validation studies and assessment scoring development efforts on an annual basis and provide monthly interim and final technical reports that document the methodology used, data gathered, and study results and recommendations. The validation studies may be criterion, construct, or content focused. NGA will provide participants for all studies. The Contractor will provide monthly reports to document the activities completed, methodology used, data gathered, and any findings.

2.3.5.9 Support and maintain automated tools that support pre-hire assessment and automation of HDR policies, procedures, and technologies. The Contractor shall provide interim and final reports to document recommendations for modernization and automation. Support development, validation, and/or evaluation of all tools.

2.3.6. Applicant Management, Pre-Employment Testing and Onboarding

The Contractor shall perform the following but not limited to:

2.3.6.1. Ensure that all PARs for new hires are completed by no later than the Friday of the EOD week.

2.3.6.2. Respond to all applicant emails and phone calls within 24hrs. addressing any concerns and providing professional and accurate responses. Confirm suitability of all current communication templates and messaging and conduct a quality review of modification.

2.3.6.3. Accurately complete service computations dates prior to EOD

2.3.6.4. Provide data reporting, charts, graphs, placemats, etc. on historical applicant management tracking and onboarding statistics

2.3.6.5. Provide world-class customer service in all communications via phone, email and/or in person with applicants and agency partners. Ensure appropriate messaging in all email communications to applicants to positively reflect and sustain the NGA brand. Develop templates and messaging to use for regular check-in with applicants to ensure they maintain interest in NGA as their employer, understand where they are in the hiring process, know what to expect (under normal conditions and in time of furlough and/or unexpected agency closures), and have the opportunity to ask questions.

2.3.6.6. Update all SOPs and process maps and conduct a quarterly review for accuracy and notate any changes to processes which occur within five business days to ensure business continuity.

2.3.7. Student Programs

The Contractor shall provide support to NGA student programs including the high school student internship program, the college internship program, and scholarship-for-service programs. The Contractor shall provide program management, communications, and administrative support.

The Contractor shall perform the following but not limited to:

2.3.7.1. Provide effective program management to ensure successful execution of efforts for student programs. The Contractor shall develop an annual Student Programs Strategy that identifies how the programs will be used for recruitment and entry-level hiring. The strategy will include programmatic goals and a clear plan for school and student engagement, talent sourcing, and approaches to marketing and communication with the general public about the program. The strategy will be developed to be complementary to, and integrated with, the recruitment strategy and the recruitment marketing and outreach strategy.

- Develop an annual execution plan for student programs. This shall include program schedules and program milestones to support the student application, selection, and onboarding processes. The Contractor shall identify key dates and outline assumptions and risks. The Contractor will keep the Government updated on execution monthly at a minimum.

2.3.7.2. Develop a communications plan for the programs. This will include communications with applicants and students to enhance their experience with the program and communications with internal stakeholders for operational purposes to maintain programmatic support across the agency.

- Provide the necessary support to monitor and lead communications with applicants and program participants by phone, email, and other forms of communication. The Contractor shall develop branding and templates for responses to all type of inquiries to automate, standardize, and speed responses to customers. This shall include the design, development and maintenance of communications from group email boxes and phone lines. The Contractor shall maintain templates, group email boxes, and group phone lines, surveys verifying graduation dates, create a collection point to verify transcripts or create a process map for verifying transcripts, and incorporate changes into communications SOPs as needed.
- Develop a plan that builds acceptance, support and readiness for student programs, including the high school internship program. The plan will detail stakeholders, objectives, key activities and messages, communication vehicles and tools, timelines, and metrics (as appropriate).

- Partner with HDR to identify and engage agency leaders to serve as champions. The Contractor will work with champions to reinforce efforts and amplify key messages.
- Identify and maintain a network of internal and external champions throughout the agency to build awareness of programs, respond to questions, and facilitate bi-directional communication among stakeholders.
- Build and maintain a communications plan that includes communications regarding events, milestones, requirements, decisions, timelines, training, and successes.
- Work with the Recruitment Marketing and Outreach Team to develop and maintain print materials (brochures and pamphlets) in support of student programs. The Contractor shall work with designated Government representatives (e.g. OCC, HD Communications, HD Web Team) to facilitate approvals and disseminations of communications and materials.

2.3.7.3. Provide administrative support to assist with managing student programs. The Contractor shall plan and integrate process and strategies for operations, including the development and maintenance of SOPs, guides and other products in accordance with NGA style manuals. This shall include processes and strategies for student application, vetting, selection, project identification, orientation and onboarding for all programs.

- Process and manage external applications and coordinate with NGA Recruiting, Career Services/Mission Owners, hiring managers and applicants to support the selection and external hiring processes.
- Contractor will enter and update Applicant data in HRIS at each stage of hiring process; files to include resumes, transcripts, supporting documents, summary sheets and other materials. Process approximately 200 student interns per year. Process approximately 15 STOKES Scholars annually.
- Develop and maintain intern co-op program guidance curriculum paths for program participants with across HD. Includes determination of occupational focus areas, work roles and key competencies and job task analyses to inform training requirements. Coordinate with across HD on existing training to incorporate and maintain into career paths.

2.3.8. Governance, Policy and Modernization

The Contractor shall perform the following but not limited to:

2.3.8.1. Support development and maintenance of governance documentation, CONOPs, policy, templates, communication plans, and procedural documentation.

2.3.8.2. Maintain a file of team governance documents that include standard operation procedures, visual workflow diagrams, guides, plans and other documentation on a regular basis, including an annual content review and update. Update approximately 45 governance documents on an annual basis at minimum. Create up to 8 new governance documents per year. Provide an annual summary of all governance documents.

2.3.8.3. Assist the Government in modernizing the talent acquisition functions and business processes. This includes making at least 10 recommendations for enhancements and automation per year. Contractor shall lead at least 6 modernization projects approved by Government per year. With Government approval of concept and approach, the Contractor shall provide coordination with technical experts and HDR staff to develop an implementation plan for execution of approved recommendations.

2.3.9. Data Analytics and Products

The Contractor shall perform the following but not limited to:

2.3.9.1. Process and analyze various sources of HDR data and develop/maintain data visualizations, reports, briefings, and discussion points for the Government. The Contractor shall collaborate with various stakeholders to determine the customer requirement for data products and work with the Government to determine the best approach to development. Data include but are not limited to: HRIS data, candidate sourcing data, applicant data, and other recruitment data.

2.3.9.2. Develop and run queries and reports regarding recruitment events, applicants, new hires, employment timeframes, and other areas of interest using HRIS and other data sources, collaboration with HDR and HDS staff to support data driven decision making.

2.3.9.3. Produce standardized monthly reports for HDR in formats including Tableau, in addition to providing continuous reporting. The Contractor shall support special projects and change management initiatives that require analysis of HDR information.

2.3.10. Talent Acquisition Strategy

The Contractor shall perform the following, but not limited to:

2.3.10.1. Provide strategic and operational level support to enable the design, implementation, evaluation and sustainment of the NGA talent acquisition strategy.

2.3.10.2. Design, plan and implement in coordination with key stakeholders, the activities associated with implementing the Agency Hiring Strategy and annual talent acquisition plan (ensuring alignment to the Strategic Workforce Plan).

2.3.10.3. Conduct continuous, comprehensive evaluations of talent acquisition strategy and implementation and provide recommendations for sustainment and improvements.

2.3.10.4. Provide strategic integration of multiple internal and external stakeholders to execute hiring strategies and onboarding plan annually.

2.3.10.5. Develop a change management strategy and a strategic communications plan each quarter to effectively communicate and build buy-in and commitment from stakeholders on the talent acquisition strategy and implementation. Details include stakeholders, objectives, key activities, messages, change strategies, communication vehicles and tools, timelines and metrics (as appropriate).

2.3.11. Assignment Management

Assignment management is a defined process in which NGA uses to reassign or fill vacancies to meet the mission need as well as address Professional Development aspirations of its employees.

The Contractor shall perform the following but not limited to:

2.3.11.1. Schedule and participate in engagement meetings, informational sessions, working groups, town halls and other events as required to support the Assignments Program

2.3.11.2 Assignment Support Team; Make Assignment Training and Training Support:

- Provide continued support to develop, refine and maintain training documents for the Make Assignments Process and Make Assignments Module (currently in PeopleSoft)
- Provide continued training to the HDCRC Assignment Support Team on the Make Assignments Process in the Make Assignments Module.

2.3.12. Promotions

The promotion process is used to evaluate and select employees for promotion and supports the further development, maturation, execution and sustainment of promotions.

The Contractor shall perform the following but not limited to:

2.3.12.1. Research, evaluate and update Program eligibility and promotion profile factors and selection criteria in coordination with Government program management to ensure alignment with Agency strategy to include mission imperatives at the end of each FY period annually.

2.3.12.2. Create and deliver written promotion guidance for Executive promotion cycle by 30 September each year and Pay Banded cycle promotions by 31 October each year in alignment with existing NGA Policy, and former year guidance while incorporating approved process changes into the written guidance as directed by the Government.

2.3.12.3. Create and/or update Promotion process training and guidance and produce slides in alignment with existing NGA policy and guidance and established timelines to meet established

promotion cycle timelines for the Office of Talent Development, Career Field Managers, Component Leadership and panel members. Contractor shall provide final slides NLT 1 Dec annually.

2.3.12.4. Build program measurements and instruments (to include guidance, metrics and tools) to ensure process implementation and improvements are measured for effectiveness and quality; Provide written program evaluation of processes for evaluation for program improvement for efficiency and effectiveness.

2.3.12.5 Conduct and document root cause analysis for promotion cycle change as it relates to efficiencies and effectiveness to mitigate root causes after each annual promotion cycle. Delivery of a final written report within 30 days after promotion cycle completion.

2.3.12.6. Create and deliver desk guides or SOPs for administrative functions associated with the Program to support continuity in promotion cycle planning, execution and after-action processes.

2.3.12.7. Provide program evaluation support by researching and establishing measurements to evaluate improvement effectiveness and efficiencies of program changes to include shortfalls, issues and performance trend analysis and review pre and post promotion cycle with the Program Manager.

2.3.12.8. Recover and store the compilation of Program Communication and decisional artifacts IAW Agency records management standards.

2.3.12.9. Provide various engagement and communication services; assist in drafting all promotions policy and communications, help to build and deliver Promotion process training and guidance, including FAQs, desk guides, and toolkits; post and maintain all relevant promotion information on the Talent Development website as directed by the Government.

2.3.13. Senior Executive Management

The Senior Executive Management Office (SEMO) is responsible for the development, execution and improvement of HD's training, communication, evaluation, knowledge management and related processes as they support the implementation of Defense Civilian Intelligence Personnel System (DCIPS) and the Executive performance management, performance-based compensation systems, senior executive assignments and allocations, senior executive initiatives applicable to the Defense Intelligence & Security Enterprise (DISE) and outreach to senior executives.

The Contractor shall perform the following but not limited to:

2.3.13.1. Support the development of tools, documentation; and, and outreach to; Defense Intelligence Senior Executive Service (DISES) and Defense Intelligence Senior Level (DISL) employees and equivalent to inform readiness decisions regarding hiring, professional development, pay and performance management, assignments, and succession planning.

2. 3.13.2. Create and deliver Executive Presentations related to senior executive processes. The Government will identify which topics and timeline for each effort (e.g., performance management, performance pay, compensation, DCIPS) to present to the appropriate audience.

2. 3.13.3. Create, coordinate, and deliver policy, SOPs, formal instructions charters, and guidance documents related to senior executive processes as directed by the Government. The Government will identify which topics to present to the appropriate audience.

2. 3.13.4. Review, evaluate and update executive level position descriptions and definitions to ensure they meet agency, OPM, and DoW criteria.

2. 3.13.5. Review and evaluate current fiscal year Executive Performance Plans. Prepare analysis and recommend changes to training and process (where appropriate) to improve participant performance in the process.

2. 3.13.6. Document internal processes and develop process maps, desk guides, SOPs, and FAQs that procedures and up-to-date information for SEMO activities

2.4. Human Capital Advanced Capabilities Office (HDS)

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outline in the below section 2.4. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

Mission & Functions:

- Enables data-driven human capital (HC) decisions that deliver NGA's mission-ready workforce
- Oversee the development and execution of the HC programs and policies as well as manage the lifecycle surveys and HC analytic activities within NGA
- Consults, develops, and executes appropriate modernization of processes and services across HD.
- Develops and executes HC and strategic workforce planning activities while ensuring centralized management of agency positions
- Oversee and develops partnership with internal and external organizations to support organizational development and design activities

- Coordinates the development of technology requirements in partnership with the HD Offices, stakeholders and support organizations (e.g. CIO-T)
- Ensures appropriate data access, as the authoritative source for all HC data reporting and analysis
- Oversee and implements the quality control function for HD.
- Tracks work and complete other administrative functions, providing a weekly update (ex: WAR) to the GPOC
- Attends team, division, or office meetings as they occur
- Provides strategic human capital and organizational change management support to ensure successful workforce planning to meet talent development strategy
- Provide data analysis and reporting that convey results, methodology use, and data sources identified to support data tables/views, KPIs and Metrics (CDRL A012).

To support NGA's HD Directorate as a data-centric, data-driven modern strategic partner, it is necessary to have data analysis, visualization, modeling, engineering, and technology capabilities that advance the HD Directorate's mission. This support will include consultation with process owners to ensure analytics are an integral part of human capital decision making and workforce planning. This will advance HD's role as a data-driven organization through persistent self-service solutions, analytics models that power web-based interfaces, and tools and services that require in-depth analysis and custom visualizations. Additionally, in support of NGA's strategic and mission imperatives, NGA must ensure human capital strategies, workforce skills and competencies are current and relevant. Support in these areas will ensure NGA has the appropriate positions and personnel talent.

2.4.1. Human Capital Data Analysis and Visualization

HD has prioritized people analytics as a key functionality to strengthen itself as a valued strategic partner within the organization. To support this prioritized initiative, HD is evolving this function to ensure ad-hoc and persistent data requests are analyzed and visualized to provide actionable insight to internal and external customers. To evolve HD into a data-centric, data-driven organization, it is essential to map data elements to business processes, and develop solutions to democratize data, allowing the analytics team to focus on long-term research. Analytic models that take into consideration attributes of NGA positions and personnel are essential to NGA's ability to match talent to mission. Many other models are necessary now and into the future to ensure any data that is presented or utilized during human capital-related business processes are accurate, easy to understand, and unbiased. Modeling is essential to the automation of the flow of data into user interfaces, business processes, and data visualization for persistent analytic products/tools throughout the entire life cycle. Finally, it is also important to work across the organization to ensure there is a connection from data entry to analysis and/or reporting.

The Contractor shall perform the following, but not limited to:

2.4.1.1. Provide data analysis and algorithm development in support of human capital data projects as directed by the government. Contractor shall document measures that capture how the algorithm was developed and what calculations were used to include comprehensively commented scripts. Documentation shall include but not be limited to description, algorithm, scope of measure, limitation to measure, and variations.

2.4.1.2. Provide advance varying methods to extract information from multiple data sources provided by the Government

2.4.1.3. Trace data outputs to human capital business processes by consulting with customers, mapping process flows, and building in data capture workflows through the process. Automate processes from collection to final product to increase speed of product delivery; consult with process owners when those processes are not data-driven and to ensure analytics are embedded in processes and workflows. Consult with process owners to define fields when collecting, ingesting, or creating new data; document metadata IAW approved Government processes within 10 business days.

2.4.1.4. Develop data visualizations or visual analytics applications using SQL, Tableau, Python, etc., using the NGA style-guide and industry best-practices. All analytic products and visualizations shall follow Government data and records management processes. Data visualizations and analytics provide sustained support (dashboards, etc. connected to live data), static visuals (tables, charts, etc.) and Leadership level metrics to support greater insights to decision-making and workforce planning. All analytic products, visualizations, and models will be documented IAW approved Government processes within 10 business days. Periodic review by the government monthly will ensure contractor adherence to meet standard.

2.4.1.5. Process and analyze various sources of HD data and develop/maintain data visualizations, reports, briefings, and discussion points for the Government. Collaborate with various stakeholders to determine the customer requirement for data products and work with the Government to determine the best approach to development. Data include, but are not limited to: HRIS data, candidate sourcing data, applicant data, and other recruitment data.

2.4.1.6. Work with HD to develop and run queries and reports regarding recruitment events, applicants, new hires, employment time frames, and other areas of interest using HRIS and other data sources. Produce standardized HD monthly reports in formats including Tableau, in addition to providing continuous reporting. Support special projects and change management initiatives that require analysis of HD information.

2.4.1.7. Reports that comprehensively convey results, methodology used, data sources identified, and partners coordinated are required. Contractor will create data reports and products that inform HD leadership and enable HD processes and data-driven decision-making. Contractor shall provide approximately 10 customer data requirements per month and develop best approach; Identify requirements for and implement approximately 15 queries and reports per

year; Create up to 20 new data products per year, including up to 4 new dashboards per year; maintain all created products.

2.4.1.8. Build reports, dashboards and data analysis that are critical to evaluating and tracking HD programs and activities. Understand data needs from HD Offices to build comprehensive analytic products that meet their needs. Data analysis and reporting include but are not limited to: Hiring Timelines and analysis of candidate experience; Analysis of different Hiring Types and Outyear projections; Analysis of STEM workforce and positions; Tracking HR Metrics and Assessing Organizational Health Analysis and projection of Fill Rate / Execution Rate; Position restructuring (Grade Plate / VERA-VSIP) tracking and analysis; Analysis of Competency Data for HD Strategy; Employee Engagement Results Dashboard and Response Rate Dashboard. (CDRL A012)

2.4.1.9. Extraction, transformation, and loading of data is a fundamental aspect of data analysis. The automation of data or process flows to increase the speed of product delivery. Increased automation will be a persistent goal especially as new technology or options become available. This covers the entire life cycle from ETL to product development to delivery. Contractor will look to continuously improve methods as new tools and approaches become available or as new data sources are identified (i.e. Tableau Prep). ETL will occur in compliance with standards set by NGA or HD specifically. All methods will be comprehensively documented.

2.4.1.10. Contractor shall map out of processes or data flows in coordination with customers, IT support, data stewards, and other experts. Contractor shall engage with customers via meetings, emails, surveys, or other messaging platforms to understand problems, existing processes, feedback on proposed opportunities to integrate analytics or new data sources, and on delivered solutions. Every solution should have continuously written confirmation through each product delivery from customer of successful delivery. Ensure Process/Data Mapping in the HD approved software conforms to established standards.

2.4.1.11 Create statistical and predictive analytic models for large data sets using modern programming languages (e.g. Python, R, SQL).

2.4.1.12 Create machine learning, data mining, and statistical algorithms for pattern recognition and anomaly detection.

2.4.1.13 Create and execute appropriate maintenance plans in concert with the Government for all products, models, reports, etc.

2.4.1.14 Create and execute knowledge management processes to ensure continuity of work

2.4.1.15 Archive all analytic models to include well-commented scripts and ETL methodology in a government identified shared space for knowledge capture.

2.4.1.16 Support ontology and data view development and sustainment in accordance with data governance guidelines established by the NGA CDO and data governance council as well as industry best practices

2.4.1.17 Create and deliver statistical models using modern programming languages that provide new and/or comprehensive insights into HC challenges. All models will rely on close coordination with customers to ensure that they align with existing business processes. Models will be developed on an ad hoc basis as customer demand arises.

2.4.1.18 Create and deliver machine learning, data mining, and statistical algorithms for pattern recognition and anomaly detection and implement other artificial intelligence applications as appropriate. All algorithms will be comprehensively documented, including the data dictionary and DDL code. Models will be developed on an ad hoc basis as customer demand arises.

2.4.2 Human Capital Data Engineering/Management

Ensure analytic products and visualizations are accurate, models are developed using the correct data, and human capital business process owners are confident in the data used to make decisions, ensuring the accuracy of the data layer is essential. This data layer will consist of human capital data migrated from PeopleSoft and other human capital data sources to an analytic environment. The Contractor shall support the capture, storage, processing, and conditioning of data for use in analytic models and products; as well as identify and recommend people analytics solutions. They shall also participate in Government self-organization of interdisciplinary teams focused on modernizing HD processes and tools.

The Contractor shall perform the following, but not limited to:

2.4.2.1 Support and engage in continuous refinement of the human capital data architecture, including performing data modeling, defining principles, developing implementation strategies, and governance. Align to NGA and Human Capital Data Standards

2.4.2.2. Identify and recommend solutions for data issues.

2.4.2.3. Detect missing or incomplete data and identify collection strategies.

2.4.2.4. Support continuous coordination efforts between HD and CIO-T Services Directorate for data migration, validation, and future enhancements adjustments. Includes coordination with PeopleSoft, the Corporate Analytics and Visualization Environment (CAVE), and other cloud-based data environments.

2.4.2.5. Assist HD's Data Stewards in responding to NGA Data Governance Council taskers and in coordinating HC Data Governance Council taskers and activities.

2.4.2.6. Develop self-service data collection and/or analytics tools. All self-service analytics products will be comprehensively documented, including metadata for attributes, algorithm comments in scripts, and definitions for any business terms (i.e. attrition) IAW HD documentation requirements for the Human Capital Analytics Environment as directed by the government.

2.4.2.7. Support the HD Data Management Team with AWS cloud computing and database management and development in the HCloud environment (the HD analytic cloud platform), to include ETL monitoring and new data engineering development.

2.4.2.8. Contractor will refine and create data models for the Human Capital Analytics Environment. All models will be comprehensively documented, including the data dictionary and DDL code. Models will be created on an ad-hoc basis based on Government need.

2.4.2.9. Contractor will research and identify the cause of data issues and propose recommended solutions. The nature of the issue should be clearly described and documented with proposed solutions that comply with Government data standards as directed by the Government lead.

2.4.2.10. Assist with documenting and applying data standards, including responding to Request For Information (RFI) that originate from internal and external sources. All data calls will be completed timely with comprehensive documentation available for review to support response. Contractor shall be capable of shifting schedules on demand as priorities shift.

2.4.2.11. Create and document customized tables, views, and analytic tools in the Human Capital Analytics Environment

2.4.2.12. Create and document new databases, based on priorities set by the HD TSP and HDSC teams, in the Human Capital Analytics Environment. Serve as a back up to the Government Data Engineer, monitoring ETL and troubleshooting errors as needed. All databases, stored procedures, and ETL jobs will be comprehensively documented, including metadata for new DBs, tables, and fields, algorithm comments in scripts and definitions for any business terms as directed by the Government

2.4.2.13. Create reports or dashboards that highlight potential data integrity issues that can be used by subject matter experts to reconcile issues with data entry or transformation. Identify and deliver four (4) reports and/or dashboards each quarter for government use. (CDRL A013)

2.4.2.14. Track and document data lineage for all data points used by the HD Information Analytics team and its customers. Data lineage will be identified and documented at time of creation for all new products. Data lineage will be tracked for ten (10) previously existing tables on a quarterly basis until all data lineage has been documented with the HD data environment identified by the Government. Periodic review each month will ensure contractor compliance.

2.4.3. Strategic Workforce Planning

HD provides Human Capital (HC) workforce strategies, including the strategic workforce plan, managing the agency's competency/work role framework, conducting workforce assessments, and performing quality assurance of HC programs and policies. NGA administers an annual confidential Employee Engagement Survey (EES) to gather employee perceptions and has explored pulse surveys for specific topics. In accordance with DoD and DCIPS authorities, NGA implements an occupational structure designed around work roles and competencies. This structure is the basis for all personnel actions, including hiring, development, promotions, and strategic workforce planning. All elements are designed to meet legal and professional standards. Work roles describe common work with a shared set of duties, competencies, and qualifications. They are used in position management, hiring, GEOINT Professional Certification (GPC), and promotions. These roles are routinely evaluated to keep pace with mission shifts and technological upgrades. Specific roles in areas like STEM, Cyber, and Acquisitions have special coding that affects pay and qualifications. Competencies are essential to NGA's talent management, defining optimal work performance. Managed by the HD Advanced Capabilities Office and housed in PeopleSoft, they are foundational to agency assessments that identify talent gaps and inform mitigation strategies. The accuracy and currency of the competency library are critical to managing the lifecycle of human capital initiatives. All tasks and deliverables are conducted in accordance to industrial-organizational psychology methods and approaches. (CDRL A014)

The Contractor shall perform the following but not limited to:

2.4.3.1. Create and maintain technology tools (e.g. LimeSurvey) required to build automated survey response rate reports, result reports, and informational presentations to a variety of customers throughout NGA.

2.4.3.2. Create and maintain code for graphical user interfaces (GUIs) for NGA employees to participate in surveys and a robust reporting solution.

2.4.3.3. Conduct scheduled (e.g. annual Employee Engagement Survey) and ad-hoc (e.g. Employee Council survey) data pulls from PeopleSoft and other databases that store demographic and personnel data.

2.4.3.4 All survey products and visualizations shall follow Government data and records management processes. All survey products, visualizations, and models will be documented IAW approved Government processes within 10 business days.

2.4.3.5 Wrangle and extract appropriate HC data to support the Survey Team's launch of the EES and the processing of the results. All data sets will be comprehensively documented and

stored in the HC Analytics environment IAW HD Data Management system as directed by the Government.

2.4.3.6 Support occupational structure grouping through a systematic process ensuring alignment with NGA mission imperatives and DCIPS guidelines as directed by the Government. Evaluations shall consider external and internal environmental factors, mission objectives, strategic direction, and flex to shifts in mission, technology, and environmental influences. Additionally, the Contractor shall assist in all aspects of managing NGA's occupational structure and review existing alignment with mission imperatives and DCIPS guidelines at a minimum of twice per fiscal year.

2.4.3.7 Implement HD developed governance process for position description and work role development to include all documentation and presentations necessary for stakeholder review. Produce real-time updates, as necessary and approved by the Government to existing SOPs, templates, databases, guides, and instructions. Maintain these artifacts for accuracy to reflect Government approved business practices. Conduct quarterly review of artifacts to ensure alignment, accuracy and efficiency of HD related processes. Government will perform random sampling to validate contractor adherence.

2.4.3.8 Assist with all aspects of managing work roles including, but not limited to: conducting research; stakeholder engagement; SME outreach; collecting and validating qualitative and quantitative data, analyzing data, and interpreting data.

2.4.3.9 Assist in the development and execution of a job analysis review cycle to ensure work roles are reviewed every 3-5 years.

2.4.3.10 Conduct job analysis using legal, regulatory, and Government approved professional standards.

2.4.3.11 Conduct routine and ad-hoc job-tasks reviews including but not limited to: the support of the GPC reaccreditation process; strategic workforce planning; stakeholder-initiated request; and other requests as assigned.

2.4.3.12 Document and deliver technical reports for all work role reviews IAW Government-approved processes and standards and within 10 business days of completing review.

2.4.3.13 Assist with the development and implementation of work roles by producing workforce facing documentations (e.g., work role summaries and competency guides) and updating the system of record (i.e. PeopleSoft) within 10 days of completing a review. All documents shall be housed on both SBU and COE in the Agency's folder structure and/or web presence as directed by the Government.

2.4.3.14 Assist with integrating work roles across talent management activities including but not limited to: incentive programs; training and development; recruitment and hiring; and human capital data analytics. Provide a summary report of activities within 10 days of completion.

2.4.3.15 Assist with managing the accuracy in special work role coding. Review special work roles annually. Document and deliver reports on special work role coding activities within 10 days of completing a review as directed by the Government. Document and report on special work role coding activities to include awareness briefings, summary reviews, executive summaries, and other forms of written communication as directed by the Government. Conduct ad-hoc research, reviews, and reporting as determined by the Government.

2.4.3.16 The contractor shall produce real-time updates as necessary and approved by HD to existing SOPs, templates, databases, guides, and instructions; maintain artifacts for accuracy to ensure documents reflect the approved business practices. Contractor shall conduct quarterly review of artifacts to ensure alignment, accuracy, and efficiency of HD related processes for all work roles.

2.4.3.17 Conduct activities associated with managing the currency, relevancy, and accuracy of work roles/occupational groups to include, but not limited to: competency assessments and gap analysis; development of band-level descriptors, and review of occupational groupings, to be conducted on an annual basis

2.4.3.18 Build minimum qualification requirements for all work roles/occupations, to be used in the talent selection process. Provide real-time updates, as necessary and approved by Government documenting the minimum qualifications and the process used to develop them.

2.4.3.19 Produce a timeline and project plan for conducting job analysis reviews to include current and next fiscal year activities.

2.4.3.20 Conduct all job task analysis, to include Strategic Job Task Analysis (SJTA), activities to support strategic workforce planning, emerging work activities, position management, hiring, certifications and accreditation such as GEOINT Professional Certification (GPC), development, assignments, promotions and other personnel actions. Produce real-time updates, as necessary and approved by the Government to existing SOPs, templates, databases, guides, and instructions.

- 2.4.3.21 Document and deliver summary reports for all work role integration efforts within 10 business days of completing review.
- 2.4.3.22 Assist with managing all aspects of competency reviews as directed by the Government.
- 2.4.3.23 Routinely perform quality control checks on the competency library.
- 2.4.3.24 Conduct competency reviews twice a fiscal year or as needed ensuring accuracy, relevance, and currency of competencies using Government approved criteria. To include but not limited to ODNI competency resource guides, DoD competency resource guides, OPM competency resource guides, and industry and academia best practices.
- 2.4.3.25 Document and deliver a report of findings within 10 days of completing the competency review.
- 2.4.3.26 Develop and update competency definitions, behavioral indicators, and proficiency levels and provide a summary completion report within 10 days.
- 2.4.3.27 Perform updates to documents and PeopleSoft within 10 days of completing reviews.
- 2.4.3.28 Work with NGA developers to ensure competency guides and related documents are on both SBU and COE platforms.
- 2.4.3.29 Assist with integrating competencies across talent management activities-, including but not limited to: incentive programs; training and development; recruitment and hiring; document efforts in a report or other applicable presentation format.
- 2.4.3.30 Conduct reviews based on quality assurance framework and produce artifacts in support of this function.

2.5. Business Innovation (HDF)

The contractor shall provide a weekly and monthly activity report identifying accomplishments, issues, resources, emerging issues, roadblocks with action plan, and upcoming activities as outlined in the below section 2.5. The contractor shall highlight all impediments that require government assistance during the weekly and monthly activity report. (CDRL A001, A002).

The Contractor shall perform the following, but not limited to:

- 2.5.1. Develop Strategies, Concepts of Operations, and Implementation Plans.
- 2.5.2. Provide integration advisory services to the development of innovation strategies, program operations, and implementation plans.
- 2.5.3. Support the review and enhancement of missions, functions, process and integration of innovation.
- 2.5.4. Develop courses of action and plans for specific priorities and efforts that integrate goals and objectives of each effort into one cohesive direction.
- 2.5.5. Unify HD mission and functions, plans, processes, and integration.
- 2.5.6. Support prioritization of innovation, mission areas and mission capabilities.
- 2.5.7. Provide full spectrum organization design and integration between HD and Directorate for Support with internal (KC offices, portfolios, career services) and external (Agency and oversight) stakeholders.
- 2.5.8. Develop analytic methodologies to identify areas where NGA Directorate for Support can support the NGA mission – with emphasis on the Human Capital practices.
- 2.5.9. Provide implementation support to help HD realize the HD operational plans and develop of a range of analytic products that can drive that implementation.
- 2.5.10. Provide facilitation support including identifying topics & speakers, designing & facilitating meetings, and documenting/tracking action items.

3.0. PROGRAM MANAGEMENT – HDC/HDF/HDN/HDR/HDS

The Human Resources Management Program Support function provides for the overall program management, which is critical to ensuring the success of this service area. Resources include a Program Manager, Deputy Program Manager and Facility Security Officer (Key Personnel) at NGA-Washington in Springfield, VA plus other staff resources as needed to accomplish Program Management Support tasks.

The Contractor shall:

3.1. Provide effective program management to ensure the successful execution and completion of requirements and a seamless transition to and from this contract. The **Contractor** shall incorporate quality control and risk mitigation practices and report to Government on progress and program outcomes.

3.2. Prepare and present Quarterly Program Management Reviews (QPMRs) - The agenda and scheduling of the QPMR shall be coordinated with the COR, and its content shall accurately depict the current status of performance against contract requirements (included but not limited to staffing, financial, lessons learned, inefficiencies, best practices, process improvements, tool assessments, and innovations). Agenda shall be provided for Government review and concurrence, 2 business days prior to scheduled QPMR. **(CDRL A003)**

3.3. Identify process inconsistencies or inefficiencies for their functional area of responsibility.

3.4. Identify best practices and lessons learned along with implementing innovative approaches.

3.5. A weekly resource meeting to discuss various topics, such as changes in personnel, travel, schedules, emerging issues, and the Contractor's plan of action (Contract Data Requirements List (CDRL A0015). Weekly resource meetings shall only include topics pertinent to NGA management. In addition, the NGA PMO or the Contractor may convene additional separate meetings, as necessary, to discuss other issues or questions as they arise. The Contractor shall provide an electronic copy of the meeting minutes to the COR within two business days following the meeting. (CDRL A0016)

3.6 The Contractor shall provide all necessary support, collaboration, and active participation for the following cost tracking and invoicing.

3.6.1 Cost Tracking

The Contractor shall maintain and report out on all current and projected contract costs for each period of performance. This includes reporting once a month (20th of the month) the actuals incurred to date and estimated total at completion for every position in their staffing plan (CDRL A0017). This also includes creating a travel tracker at the beginning of each period of performance that includes estimates for all planned events, tracking projected costs for future trips and actual costs for trips that have already been invoiced (CDRL A0018).

5.0. TRANSITION PLAN

The Contractor shall develop and maintain a Transition Plan that includes an itemized list of program and project information critical to contract transition. The plan shall include, but not limited to, areas of potential cost savings, staffing, and service support. In addition, it shall address, at minimum, objectives of the transitions, the contractor’s roles and responsibilities, planning and implementation, and reporting as part of transition activities in order to ensure full performance is completed during all transitional activities. An initial transition plan shall be **provided at time of proposal**. The Transition Plan shall then be updated and delivered 10 days prior to the contract kick-off meeting, and then again 60 days before the end of the contract (CDRL A019).

5.1. Phase-In Period

The phase-in period shall be completed 60 days after the contract start date. The Contractor shall have all Key Personnel working full time at contract start. At least 50 percent of all remaining personnel shall be working full-time within 30 days of contract start and 100 percent by the end of the transition period.

During the phase-in period, the Contractor shall become familiar with performance requirements, obtain their IC badge, Common Access Card (CAC), and complete any Government required training.

5.1.1 Kick-Off Meeting (CDRL A020)

The contractor shall lead a contract kickoff meeting with the Government Program Management (GPM) Team within 5 business days of the contract start. The Kickoff Meeting Agenda is due at least 2 business days prior to the kick-off meeting, to the COR. To minimize any decreases in productivity and to prevent possible negative impact on additional services, the contractor shall have all key personnel available to perform at contract start.

At a minimum, the contractor shall present the following during the kickoff:

- introduction of all key personnel and transition team members
- overview of transition plan
- overview of staffing plan

5.2 Phase-Out Period

Prior to the completion of this contract, an observation period may occur, at which personnel of the incoming contractor may observe operations. This will allow for orderly turnover of information, facilities, equipment, and records and will help to ensure continuity of services. The outgoing contractor is ultimately responsible for performing full services IAW the contract during the phase-out period and shall not defer any requirements for the purpose of avoiding responsibility or of transferring such responsibility to the succeeding contractor. The outgoing contractor shall fully cooperate with the succeeding contractor and the government, as not to interfere with their work or duties.

5.2.1 The Transition Phase-Out plan shall be submitted 90 days after the last option period is exercised (CDRL A021). Execution of phase-out transition plan shall begin no later than 60 days before contract end date.

At a minimum the phase-out transition plan and activities shall address:

- Procedures to ensure that services and performance objectives required by the contract are met throughout the end of the contract.
- Plan and procedures to engage with the successor to ensure transition of provided services and capabilities without any degradation.
- Plan to achieve adequate staffing fill rate through the end of the contract.
- Plan, procedure and comprehensive listing of all hand-off activities and documents.

5.2.2 Transition Report

The outgoing contractor shall be prepared to transition the workload to the newly selected contractor during the Sixty (60) day phase-out period, which will occur at the end of the period of performance of the contractual effort.

The contractor shall include all up-to-date critical information needed to sustain the support services operations before this contract expires. The report shall include all Government owned property, inventories, Government owned software, standard operating procedures, status of deliverables and any other applicable documentation. The contractor shall submit a Transition Report. (CDRL A022)

5.3 Closeout Report

Upon expiration of this contract, the contractor shall provide the Government with a close-out report which at a minimum shall include status of contract funds and final invoice, disposition of GFE/GFP, the names of personnel who worked on the contract and written confirmation that they have been read off in accordance with NGA security policy.

At the end of the last option year, the contractor shall provide a close-out report on the timeline directed by the Government. The contractor shall submit a Contract Closeout Report. (CDRL A023)

6.0. SPECIAL PROJECTS

These requirements are defined as ad-hoc assignments in addition to the tasks detailed within the PWS. Special project requirements shall have a Period of Performance within the option year when the need is identified and will be executed by the Government through contract modifications. Requirements shall be fully funded at the time of the special project award.

7.0. PERIOD OF PERFORMANCE

The period of performance for this effort is composed of one (1) 12-month base, plus four (4) 12-month option years.

8.0. CONTRACTOR FURNISHED PROPERTY, EQUIPMENT, AND SERVICES

The Contractor shall provide all necessary qualified personnel, supervision, management, non-personal services, and tools of the trade, including software license compatible with NGA systems to accomplish the tasks for this contract.

9.0. GOVERNMENT FURNISHED PROPERTY

The Government will provide on-site facilities when necessary to perform work required under this contract. On-site facilities include desk, chair, telephone, computer equipment having local area network (LAN)/wide area network (WAN) interfaces, commercial-off-the-shelf (COTS) software, document file cabinets, office supplies, and access to copier and facsimile machines. The Government will also provide database access, as well as planning documents and related reports for the execution of these requirements. Upon completion of this contract, the Contractor shall return all non-expendable Government issued supplies to the COR.

10.0. PLACE OF PERFORMANCE

The majority of tasks require access to the NGA computer networks. Per approval of GPOC, some work may be completed offsite at no additional cost to the Government. The Government will provide desk space at NGA-Washington and at NGA-St. Louis (or N2W when operational).

11.0. HOURS OF OPERATION**11.1. Core Hours**

The Contractor is responsible for providing a workforce at Government facilities within the core working hours of 7:00AM to 5:00PM local time, daily, Monday through Friday, except when the Government facility is closed due to administrative closures or similar Government directed facility closings. The Contractor shall at all times maintain an adequate workforce for uninterrupted performance of all tasks as defined within this PWS when the Government facility is not closed for the below reasons. When hiring new Contractor employees, the Contractor shall keep in mind the stability and continuity of the workforce are essential.

11.2. Facility/Campus Closure

In the case of facility or campus closures (emergency closure to include closures due to inclement weather) or a Government holiday not observed by the contracting company, the Contracting Officer (CO) should refer to the contract terms and conditions addressing Government down time. If the contract does not address emergency closures, the CO shall permit the Contractor to (a) reschedule the time lost due to facility or campus closure; (b) report to an alternate duty location; or (c) provide an equitable adjustment in accordance with the contract terms and conditions.

12.0. OTHER DIRECT COSTS (ODCs)

ODCs for incidentals, materials, travel, and training are anticipated. ODCs will not exceed the ceiling value for the CLIN annually and will be reimbursed in accordance with applicable rules and regulations. All costs for incidentals, materials, travel and training must be approved by the NGA Contracting Officer's Representative (COR) or designee, prior to incurring costs. Although not anticipated any travel occurring under this contract will be within the continental United States (CONUS) and reimbursement will be in accordance with the Joint Travel Regulations.

13.0. SECURITY INFORMATION**13.1. Classified Work Performance Security Requirements**

Contractor personnel performing Top Secret/Sensitive Compartmented Information (TS/SCI) work on the contract are required to have active TS/SCI clearances for access to NGA facilities, when performing duties within TS/SCI environments, and for access to TS/SCI NGA computer systems. Contractors are subject to a Counterintelligence Scope Polygraph, as requested by the Government. All Contractor personnel shall possess a current Top-Secret Personnel Security Clearance and be eligible for favorable NGA adjudication for SCI access. The Government will be responsible for verifying security clearances/SCI eligibility of the Contractor personnel IAW Security Executive Agent Directive (SEAD) 7: "Reciprocity of Background Investigations and National Security Adjudications". NGA will sponsor SCI accesses, NGA Badges, Common Access Cards (CAC) and other items (e.g. parking hangtags) when applicable, for required contract personnel. All HR data shall reside on U.S.-only servers. Contractor shall provide 24-hour breach notification and conduct annual security assessments with Government-approved tools.

13.1.1. Contractors shall abide by the DD Form 254 - Contract Security Classification Specification and applicable security policies and regulations.

13.1.2. Contractor personnel shall follow all applicable NGA, IC, and DoD information security and operational security policies and guidance during performance of contract requirements.

13.1.3. The Contractor shall inform the Government when its employees no longer support the contract (see DD254). The Government desires notification prior to the day the individual no longer supports the contract but requires notification no later than the day support ends. If Contractor personnel will no longer be supporting NGA via an NGA contract, any debriefing paperwork, notifications, and/or requests for further direction from the COR or Industrial Security shall be turned into the NGA Workforce Support Center, NGA Site Security Office, or the COR. If Contractor personnel are unable to turn these items into the NGA Workforce Support Center, NGA Site Security Office, or COR then it is the Contractor's security office's responsibility to collect the items from the individual. If the Contractor debriefs the employee, the Contractor shall send a copy of the debriefing statement, plus any Government items (e.g. NGA Badge, CAC, Courier Card, parking hangtags, etc.) within four (4) business days (timeline may be extended with authorized documented exceptions by NGA Security) to an NGA Site Security Office or the NGA Workforce Support Center.

13.1.4. All classified work performed at a non-NGA facility must be approved by the COR. Any classified work performed at collaborator sites shall be performed in either an NGA accredited SCIF or an Other Government Agency (OGA) SCIF that has either a Memorandum of Agreement (MOA), Memorandum of Understanding (MOU), Joint Use Agreement or Co-Use Agreement with NGA for this contract.

13.1.5. Cleared Contractor personnel may hand-carry contract-related classified information as authorized by the COR. Contractor personnel will obtain NGA courier authorization prior to hand-carrying of contract-related classified information. Contractor personnel will be limited to hand-carrying classified information between the Contractor facilities and NGA facilities only.

13.1.6. Cleared Contractor personnel will be enrolled into Director of National Intelligence (DNI) Continuous Evaluation System (CES) throughout the lifecycle of the contract while at NGA IAW SEAD 6: "Continuous Evaluation". Cleared Contractor personnel shall self-report security issues, foreign contacts, and other reporting requirements in accordance with SEAD 3: "Reporting Requirements for Personnel With Access to Classified Information or Who Hold a Sensitive Position" and NGA Instruction 5205.3, "Security Reporting Requirements". In addition, cleared Contractors will be required to submit electronic fingerprints and will be enrolled in NGA's Report of Arrest and Prosecution Background (RAPBack) program, which supports CES.

13.1.7. Cleared Contractor personnel, who are designated as Tier 3 Privileged Users or holding enhanced access through a Special/Controlled Access Program (SAP/CAP), will be required to participate in NGA's annual Security Financial Disclosure Program (SFDP) as directed by D/NGA in the 20 November 2020 memorandum titled "Designation of NGA Personnel Required to Participate in the Security Financial Disclosure Program."

13.2. Unclassified Work Performance Security Requirements

13.2.1. With advanced approval by the COR and the CO, uncleared Contractor personnel are authorized to work on this contract up to the Unclassified level, with access to DoD Controlled Unclassified Information (CUI) at the Contractor site without the requirement of a security clearance.

13.2.2. Any Contractor personnel working with CUI information must receive a favorable HSPD-12 and/or HSPD-12 Tier 1 adjudication prior to accessing CUI information. Contractor personnel who require access to CUI for 60 days or less must receive a favorable HSPD-12 adjudication. Contractor personnel who require CUI access for greater than 60 days must receive a favorable HSPD-12 Tier 1 adjudication.

13.2.3. NGA will sponsor the HSPD-12 and HSPD-12 Tier 1 background investigation for required program personnel. NOTE: Contractor personnel submitted for SCI access cannot be submitted for a HSPD-12 or HSPD-12 Tier 1 adjudication while waiting for their SCI approval.

13.2.4. Foreign nationals *are not* permitted to perform unclassified work under the terms of this contract.

13.2.5. Contractor personnel shall not release any unclassified information, regardless of medium (e.g. film, tape, document), pertaining to any part of this contract or any program related to this contract, unless the COR has given prior written approval or in performance of a project that has been scoped and negotiated by NGA.

13.2.6. Contractor personnel visiting NGA facilities and/or sites will receive the appropriate visitor badge and be escorted, as appropriate. The visitor badge will be returned at the end of each visit day. NOTE: NGA reserves the right to refuse access to any personnel.

13.2.7. Contractor personnel are forbidden from bringing in prohibited, unauthorized, and/or Portable Electronic Devices (PEDs) items into any NGA installation or any secure office/working location covered under this agreement. A list of PEDs includes but is not limited to cell phones, cameras, two-way pagers, laptops, recorders (e.g. digital, tape, etc.), flash drives, or any other kind of removable media, without prior approval and approval paperwork from NGA. See NGA instructions/regulations/policy for a full list of prohibited and unauthorized items. Security violation repercussions will be determined on the severity of the violation.

13.3. Information Handling

13.3.1. Contractor personnel will comply with the NGA, DoD, and IC policies and regulations (to include, but not limited to, the Consolidated NGA (CoNGA) Security Classification Guide) to properly mark (to include portion marking) classified and unclassified documentation, media, etc.

13.3.2. Document markings will be in accordance with the lowest security classification possible to ensure the confidentiality and integrity for the greatest release to partners in accordance with NGA and mission partner marking guides for classified information.

13.3.3. All Government-furnished information released to the Contractor or created in the performance of this contract will be destroyed or returned by the Contractor to NGA upon contract termination or when no longer required for contract performance. The determination to destroy or return will be at the direction of the NGA CO or COR.

13.4. Compliance with DoD, IC, and NGA Policies

13.4.1. The Contractor shall comply with all applicable DoD, IC, and NGA issuances to include but not limited to policies, technical standards, directives, manuals, and other directive policy as written at the time this contract is approved. Additionally, the Contractor shall comply, within 6-months, with any new DoD, IC, and/or NGA policy, published by the DoD that adds new policy, or supersedes, modifies, or removes an existing policy published during the performance of the contract. Applicability is determined by the Government on recommendation of the Contractor.

14.0 CONTRACTOR PERSONNEL

The Contractor shall provide only personnel fully qualified and competent to perform the scope of work of the contract. The Contractor shall screen all candidates for assignment to the contract ensuring an acceptable rate of success in meeting the security requirements. The Contractor shall nominate for clearances only employees who are specifically intended for assignment to

this contract. The Contractor shall plan for attrition with careful screening of personnel, and advance preparation and submission of clearance requests. The Contractor shall have a plan that provides for a sufficient number of relief personnel to cover absenteeism and special events and shall be cleared to meet contract security standards to ensure quality service. The Contractor shall be solely responsible for ensuring its personnel, including that of any Subcontractor, comply with all security requirements.

All key personnel shall have current TS/SCI clearances in accordance with the security requirements of the contract before working on this contract. All key personnel shall be present on the first day of contract award or as soon thereafter as possible based on security requirements. The Contractor shall ensure appropriate work practices and standards are followed. The Government reserves the right to review qualifications at any time.

Training of Contractor personnel is the sole responsibility of the Contractor unless otherwise approved by the COR. The Contractor shall employ fully qualified employees; however, if the need for NGA-unique training of Contractor employees arises and is necessary for employees to function in their assigned work role, the Contractor shall seek prior approval for the required training from the COR. No requests for commercial training will be approved.

All Contractor personnel shall complete the mandatory NGA training courses in accordance with NGA policies. The COR will communicate all required courses and related NGA policies to the Contractor upon award of the contract. Contractor personnel shall be responsible for maintaining their training records. Failure to complete required training is failure to meet NGA security guidelines and shall result in removal of system accesses, badge deactivation, or removal from the contract.

The Contractor shall ensure hours of operation and work hours provide coverage in support of NGA's mission and service support level requirements.

The Contractor shall develop and maintain the Contractor Personnel List (CPL) detailing the processes and procedures to ensure its personnel performing under this contract meet all performance requirements.

14.1. Contractor Key Personnel

The Contractor shall assign seven key personnel to perform the following roles on the HRM II Contract—CPM, Deputy Program Manager, Facility Security Officer (FSO), HC Analytics Expert, Competencies Expert, Talent Acquisition Lead, Performance Management (PM)/Performance Pay Team Lead. The individuals identified to fill these seven key roles are considered essential for the work performed and shall meet the mandatory qualifications below to perform under the HRM II contract. Prior to diverting any of these key personnel to other programs, the Contractor shall provide advance notification of at least thirty (30) calendar days to the CO and shall submit resumes of the proposed substitutes in sufficient detail to permit evaluation of the proposed individual against the key personnel requirements. (see Appendix B)

15.0 MANDATORY TRAINING

All Contractor personnel shall complete the mandatory NGA training courses in accordance with NGA policies. The COR will communicate all required courses and related NGA policies to the Contractor upon award of the contract. Contractor personnel shall be responsible for maintaining their training records. Failure to complete required training is failure to meet NGA security guidelines and shall result in removal of system accesses, badge deactivation or removal from the contract.

16.0 PERFORMANCE REQUIREMENT SUMMARY

The Government will evaluate the Contractor's quality level of performance under the contract in accordance with the Performance Requirements Summary (PRS) found at Appendices A.1 through A.5. All of the performance standards in the PRS apply to all services under this HRM II contract.

In accordance with the Quality Assurance Surveillance Plan (QASP) Document, the COR will prepare a written report on a monthly basis for the CO, which summarizes overall results of the quality assurance surveillances during that month. This written report, which includes the Contractor's submitted monthly reports will become part of the QA documentation and will enable the Government to demonstrate whether the Contractor is meeting the stated performance standards.

The Government reserves the right to withhold the deductions/penalties from the Contractor's monthly invoice as a consequence should documented contract performance AQLs not be achieved in that month. The Contractor will be held accountable for missed AQLs using the following penalty formula: $\% \text{ Deducted} = (\text{AQL} - \text{Calculated measurement based on Contractor performance that month})$.

For example: If the Contractor achieves an 89.5% Monthly Availability Measurement, then $99.9\% - 89.5\% = 10.4\%$ shall be deducted from the associated CLIN/SLIN in the Contractor's invoice for that month of performance.

Funds withheld by the Government as a consequence of underperformance in any month will not be recoverable in later months.

The CO may require the CPM, or a designated alternate, meet with the CO and other Government personnel in accordance with the QASP, as necessary to discuss performance issues.

APPENDIX A
Deliverables Table
For HRM II

CDRL #	Title	PWS Section(s)	When Required	Delivered to	Format
A001	HD Office Level Weekly Activity Report (WAR)	Sections 2.1, 2.2, 2.3, 2.4, and 2.5	Award + 60 days; Weekly for each HD office	PM, COR, HD Office GPOCs	Contractor defined; Government approved
A002	HD Office Level Monthly Activity Report (MAR)	Sections 2.1, 2.2, 2.3, 2.4, and 2.5	Award + 30 days; Monthly for each HD office	PM, COR, HD Office GPOCs	Contractor defined; Government approved
A003	Quarterly Program Management Reviews (QPMR) // Financial review	HD Program Management Review for all for HD Offices under Sections 2.1, 2.2, 2.3, 2.4, and 2.5	Award + 90 days; Quarterly	PM, COR	Contractor defined; Government approved. Included but not limited to staffing, financial, lessons learned, inefficiencies, best practices, process improvements, tool assessments, and innovations
A004	HD Key Component Engagement/Affiliate Team Metrics and Reports	2.1.9.3. Metric Reporting	Weekly / Ad-Hoc	PM, COR	Government Defined
A005	Analysis report of compensation / pay setting structures	2.1.10 Pay Setting Support	Award +60 days; Monthly	PM, COR, HD Office GPOC	Detailed report in PDF/Word format with visual aids (charts, graphs, tables) for clarity. Included but not limited to trends, gaps, and alignment with market benchmarks

A006	Performance Management and performance-based compensation practices Metrics, Reports, and Tools	2.1.11.2 2.1.13.5 Metrics, Reports, and Tools	Award + 60 Weekly / Ad-Hoc	PM, COR, HD Office GPOC	Government Defined
A007	Performance Management Metrics, Reports, and Tools	2.1.12.2. Metrics, Reports, and Tools	Award + 60 Weekly / Ad-Hoc	PM, COR, HD Office GPOC	Government Defined
A008	Performance Development System Training	2.1.14.3 Training	Adhoc	HD Office GPOC	Contractor Defined; Government approved
A009	Workforce Weekly Mental Health and Work-Life Information Session Delivery	2.1.15.5 Workforce Education	Award +30 Weekly / Ad-Hoc	PM, COR, HD Office GPOC	Contractor Defined; Government approved
A010	EAP Promotional Campaign Design and Approval (Initial Submission and Annual Updates	2.1.15.6 Promotional Materials and Activities	Award +60 Annually thereafter no later than 30 September.	PM, COR, HD Office GPOC	Contract Defined; Government approved. Include but not limited to an outline of the strategy, materials, and activities for promoting event(s)
A011	AO/PAR Role Specific Training and Reporting	2.1.16 Role Specific Training	Ad hoc Training / Reports	HD Office GPOC	Government Defined; include but not limited to training schedule, training activity reporting of student outcomes and evaluation results
A012	Human Capital Data Analysis and Visualization Metrics,	2.4 and 2.4.1 Metrics, Reports, and Tools	Award + 30 Weekly / Ad-Hoc	HD Office GPOC	Contractor Defined; Government approved to provide insight to support HD Leadership and Program Managers

	Databases, Reports, and Tools				
A013	Human Capital Data Engineering/Management	2.4.2	Award +30 no more than four (4) reports each Quarter	HD Office GPOC	Contractor Defined; Government approved. May include electronic reports or Dashboard (or mix of both)
A014	Strategic Workforce Reporting	2.4.3	Award +30 Thereafter, twice in a Fiscal (FY) Period.	HD Office GPOC	Contractor Defined; Government approved.
A015	Weekly Resource Meeting	3.5	Award + 30 Weekly / Ad-Hoc	PM, COR, HD Office GPOC	Contractor Defined; Government approved
A016	Weekly Resource Meeting Minutes	3.5	Award + 30 Weekly / Ad-Hoc	PM, COR, HD Office GPOC	Contractor Defined; Government approved
A017	Contract Cost Tracker	3.6.1	Award + 30 Monthly	PM, COR, HD Office GPOC	Contractor Defined; Government approved
A018	Travel Tracker	3.6.1	Award + 30 Monthly	PM, COR, HD Office GPOC	Contractor Defined; Government approved
A019	Transition Plan	5.1	The initial transition plan shall be provided at time of proposal	Initial with Proposal	Contractor Defined; Government approved

			The Transition Plan updates shall be delivered 10 days prior to the contract kick-off meeting, and then again 60 days before the end of the contract	To PM. COR, HD Office GPOC and CO	
A020	Kickoff Meeting and Agenda	5.1.1	2 Business Days before meeting	COR, CO, PM	Contractor Defined; Government approved
A021	Phaseout Period	5.2.1	90 days after last option period start	COR, CO, PM	Contractor Defined; Government approved
A022	Transition Report	5.2.2	During days of phase out period	COR, CO, PM	Contractor Defined; Government approved
A023	Closeout Report	5.3	At the end of last option period	COR, CO, PM	Contractor Defined; Government approved

APPENDIX B

Key Personnel
For
HRM II

Key Position	Description	Qualifications	Education Equivalency
Program Manager (PM)	• Primary Point-of-Contact • Responsible for program management operations (technical, financial, and contractual requirements) and resourcing of all staffing and tasking responses • Ensures that management processes and business systems facilitate meeting performance requirements • Manage an integrated HRM program both Washington and St. Louis locations (or N2W when operational) • Provide oversight and monitoring of proposed Subcontractor's and/or other teaming partners • Introduce industry standards and best practices in this contract to improve contract administration and program management • Demonstrated experience in effective communication with senior level managers and executives	Required Education: Bachelor's degree in a related field required. Experience: Shall have a minimum of 10 years of human resources experience, including 5 years as a program manager with a program of similar scope and size. Project Management Professional or equivalent certification. Security Clearance: TS/SCI	Minimum of 15 years or more human resource experience, including 5 years as a program manager with a program of similar scope and size.
Deputy Program Manager (Deputy PM)	• Alternate Point-of-Contact • Responsible for program management operations (technical, financial, and contractual requirements) and resourcing of all staffing and tasking responses • Ensures that management processes and business systems facilitate meeting performance requirements	Required Education: Bachelor's degree in a related field required. Experience: Shall have a minimum of 8 years of human resources experience, including 4 years as a program manager with a program of similar scope and size. Project Management Professional or equivalent certification.	Minimum of 13 years or more human resource experience, including 5 years as a program manager with a program of similar scope and size.

Key Position	Description	Qualifications	Education Equivalency
	• Demonstrated experience in effective communication with senior level managers and executives • Manage an integrated HRM program both Washington and St. Louis locations (or N2W when operational) • Provide oversight and monitoring of proposed Subcontractors and/or other teaming partners • Introduce industry standards and best practices in this contract to improve contract administration and program management	Security Clearance: TS/SCI	
Facility Security Officer	• Supervise and direct security measures necessary for implementing the applicable requirements of this part and the related USG security requirements to ensure the protection of classified information.	• Security Clearance: TS/SCI • Be designated in writing with their designation documented in accordance with CSA guidance.	• Undergo a personnel security investigation and national security eligibility determination for access to classified information at the level of the entity's eligibility determination for access to classified information
