Section M

SECTION M EVALUATION FACTORS FOR AWARD

A. Basis for Award

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract, to negotiate with offerors in the competitive range, and to award the contract to the offeror submitting the lowest priced, technically acceptable offer (LPTA).
2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.
3. The LPTA process is selected as appropriate for this acquisition because the best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.
4. An overall non-price factors rating must be at least "ACCEPTABLE" to be eligible for award. An "UNACCEPTABLE" rating in any factor results in the overall non-price factors proposal being rated "UNACCEPTABLE" unless corrected through discussions. An overall non-price factors rating of "UNACCEPTABLE" makes a proposal ineligible for award.

EVALUATION FACTORS FOR AWARD

NOTE: For any elements to be included in the solicitation that are included in the SSP (e.g., evaluation factors, significant subfactors, and relative order of importance, etc.), the solicitation language must be verbatim from the language in the SSP. The evaluation factors for award, basis of evaluation and submittal requirements specified in Sections L and M (or a non-UCF solicitation) of the RFP should be consistent with what is stated in the SSP.

1. The solicitation requires the evaluation of price and the following non-price factors:

Factor 1 – Technical and Management Approach
Factor 2 – Corporate Experience
Factor 3 – Safety
Factor 4 – Past Performance

The distinction between Corporate Experience and Past Performance is Corporate Experience pertains to the types of work and volume of work completed by a contractor that are comparable to the types of work covered by this requirement, in terms of size, scope, and complexity. Past Performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.

2. Basis of Evaluation and Submittal Requirements for Each Factor.

(a) Price (Non-technical):

(i) Solicitation Submittal Requirements:

Price shall be submitted on the Microsoft Excel Spreadsheet (Attachment J-0200000-07, ELINs) included in the solicitation. The Offeror shall submit one electronic copy per the instructions provided in the solicitation submittal requirements identified in this solicitation, Section L - Instructions to Offerors. All required proposal documents shall be submitted in accordance with DFARS 252.215-7009, Proposal Adequacy Checklist, using attachment J-0200000-07, ELINs and CLINs in Section B of this solicitation (B8.
