

HRM II Attachment 2- Government Questions

Question #	PWS Section	Functional Area	Revised Capability Question (Focus on 'How')
1	2.1.2	PAR Processing	Describe your methodology for processing and validating Personnel Action Requests to ensure they are accurate and complete for federal review and approval.
2	2.1.7	Benefits & Retirement	Detail your quality control methodology for reviewing retirement packages to provide accurate and comprehensive advisory services to employees and federal benefits specialists.
3	2.2 (ER/LR)	Employee & Labor Relations	Describe your methodology for analyzing ER/LR cases and providing legally-sound recommendations and options for federal managers to consider when addressing performance or conduct issues.
4	2.3.3	Recruitment Marketing	Describe your framework for developing recruitment campaigns that attract qualified candidates for federal review. Provide examples of how you measure ROI for clients with hard-to-fill roles.
5	2.4.1	Human Capital Data	Describe your experience building predictive models to provide actionable human capital insights and recommendations to federal leadership.
6	3	Program Management	Describe your program management framework for supporting a contract of this size, emphasizing continuous improvement in service delivery.
Question #	PWS Section	Functional Area	AI Integration Question (Focus on 'Show Me')
7	2.1.2	PAR Processing	How would you use AI to audit PAR packages against OPM guidelines and agency policy, flagging potential errors or inconsistencies for a federal specialist to review?
8	2.1.7	Benefits & Retirement	How would an AI-powered engine provide personalized retirement forecasts and information to employees, enabling them to make more informed decisions and prepare their application for federal review?
9	2.2 (ER/LR)	Employee & Labor Relations	How could NLP be used to analyze ER case data to identify trends and patterns, providing objective insights to federal ER specialists to support consistent application of policy?
10	2.3.3	Recruitment Marketing	Propose an AI-driven approach to identify and conduct initial outreach to passive candidates, presenting a curated list of interested and potentially qualified individuals to federal hiring managers.
11	2.4.1	Human Capital Data	How would you move beyond descriptive dashboards to implement a real-time analytics capability that delivers predictive insights to federal decision-makers (e.g., forecasting attrition risk)?

12	3	Program Management	How are you using AI-driven tools within your own PMO to enhance scheduling, resource allocation, and report performance metrics and risk assessments to your federal counterparts?
Question #	PWS Section	Functional Area	AI Integration Question (Focus on 'Show Me')
13	2.1.2	PAR Processing	Describe your 90-day plan to ensure a seamless transition of PAR processing support with zero service interruption, assuming responsibility from an existing service provider.
14	2.1.7	Benefits & Retirement	The workforce is accustomed to well-established support structures. How would you manage this change and demonstrate immediate value through enhanced advisory tools and resources?
15	2.2 (ER/LR)	Employee & Labor Relations	How would you propose to earn the trust of senior leaders as a credible source of ER/LR advice and support, complementing their decision-making authority?
16	2.3.3	Recruitment Marketing	How would you differentiate our employer brand from other agencies competing for the same talent? What innovative outreach channels would you recommend?
17	2.4.1	Human Capital Data	How do you foster a culture of data-driven decision-making? Provide examples of how you have trained and equipped federal managers to better interpret and use human capital data.
18	3	Program Management	Describe your proposed transition-in plan. Given the mature nature of the program, how will you identify and recommend opportunities for innovation and efficiency gains within the first 180 days?
