

**NWP Portland District Purchase Description
Bonneville Lock and Dam
PH2 Turbine Oil**

1. GENERAL.

The U.S. Army Corps of Engineers (COE), Bonneville Lock and Dam requires the purchase of (3000 gallons) Mobil DTE Heavy ISO VG 100 turbine oil to replenish Powerhouse 2 turbine lubrication oil reserves. This purchase will allow Bonneville Lock and Dam to maintain an adequate quantity of reserved turbine oil for Powerhouse 2 to operate without reorder for another 8-10 years. In the event a major failure occurs and results in a loss of large quantity of turbine oil, this purchase would allow Bonneville Lock and Dam to maintain enough oil to recover full use of turbines in Powerhouse 2, preventing forced unit outages.

1.1 Background

Bonneville Lock & Dam requires the Mobil DTE Heavy ISO VG 100 turbine oil brand to match the existing oil currently being used on all power generation turbines in Powerhouse 2. Existing turbine oil has been purchased from a Mobil Oil distributor under contract W9127N16P0123. The purchase and addition of oil other than Mobil DTE Heavy ISO VG 100 will void the warranties on both new and existing oils. Adding different oils will require extensive compatibility testing and is not without risk of adversely affecting the existing oil.

1.2 Scope of Work.

The Contractor shall provide, within 4 weeks of award date, the below listed items:

Supply Desc.	Manufacturer	Item/Model #	QTY	Estimated Unit Price	Estimated Total
Bulk Turbine Oil, including product delivery, pickup, and storage in a certified clean tank for 14 days, w/ secondary containment set up on-site	Mobil	100099 DTE Heavy ISO VG	3000 gallons		
On-site tank fee per additional day beyond 14 days	N/A	N/A	0 days		

1.3 Objectives

Delivery of materials must occur Monday through Thursday between the hours of 7:00am and 4:00pm, Federal holidays excluded. Please note, if a federal holiday occurs on a Sunday, it is observed the Monday after.

Deliver to:
US Army Corps of Engineers
Bonneville Lock and Dam
Interstate 84 Exit 40

NE Bonneville Way
Cascade Locks, OR 97014

2. Invoice Information

Invoice Information Invoices shall be submitted to the following:

USACE FINANCE CENTER
5722 INTEGRITY DRIVE
WILLINGTON, TN 38054-5005

Electronic copy also sent to: USACE, Finance Center at:
