2) Supply Chain Traceability Documentation

i. Supply chain traceability documentation shall include: basic item description, part number; drawing or specification; national stock number, manufacturing source, manufacturing source's Commercial and Government Entity (CAGE) code, and clear identification of the name and location of all supply chain intermediaries between the manufacturer to the contractor to Government acceptance. The documentation should also include, if available, the manufacturer's batch identification for the item(s), such as date codes, lot codes, or serial numbers.
