Requirement restricted to qualified source(s). All non-qualified vendors that submit a proposal in support of this requirement must comply with qualification requirements found in clause 52.209-1, and the source qualification statement attached hereto, in order to be considered for award. Award shall not be delayed to qualify new sources.

"In accordance with the attached CAV AF Reporting Requirements (see the document listed in Section J), the contractor must include a DD1348-1 when serviceable assets are shipped. DCMA Quality Assurance Representatives (QARs) will not approve or sign the DD1348-1, but will ensure a DD1348-1 is included with each returned serviceable asset. If a DD1348-1 is not included with each returned serviceable asset, DCMA will not sign the receiving report (DD250)."

ACO AUTHORITY AND RESPONSIBILITIES:

- 1) All applicable contract admin functions as outlined in FAR 42.302(a) and DFARS 242.302(a)
- 2) Definitize order if it does not require supplemental funding.
- 3) Extend the delivery schedule as required and take consideration if deemed necessary.
- 4) Upon completion of review of cost information and negotiations, if required, the ACO shall issue definitization modification and approve all invoices for payment.
- 5) Deobligate excess funds after confirming all required assets have generated and contractor's final invoices are approved.
- 6) Initiate order close out when actions required in paragraph 4) are completed.
- 7) ACO is to verify Commercial Asset Visibility Air Force (CAVAF) inputs have been made before authorizing payment on the contract. Inputs can be verified by emailing 415thCMS.PMS.Contract@us.af.mil.
- 8) ACO is authorized to take consideration from the contractor for failure to comply with CAVAF inputs.

NOTE: In the event funds on the order are insufficient based on the contractor's proposal and the judgment of the ACO, the ACO will document what is a fair and reasonable price, and provide the pricing documentation to the PCO for action. The PCO will then address funding and supplemental agreement when approved, and will direct the contractor for commencement of work.

In the case of a Beyond Economical Repair (BER) determination, DCMA QAR shall request disposition instructions and/or condemnation approvals from the cognizant USAF Program Manager or customer, and supply disposition/condemnation instructions to the contractor.

To assure timely and equitable proposal evaluation, offerors shall propose in accordance with this section and all solicitation requirements (i.e. provisions, clauses, appendices, attachments, forms, etc.). Non-conformance with the instructions provided in this section or the requirements and statements of the solicitation may result in an unfavorable evaluation or proposal disqualification (i.e. the offeror was non-responsive to the solicitation requirements).

The government representatives identified below shall be the sole points of contact for this acquisition. All questions, comments, and/or concerns shall be directed to the below points of contact.

Contracting Officer
John Prather
6050 Gum Lane, Bldg 1215
Hill AFB, UT 84056
EMAIL: john.prather.3@us.af.mil

If an offeror believes that the solicitation contains errors, omissions, or is otherwise unsound (i.e. the offeror is unable to agree to the proposed delivery schedule), the offeror shall immediately notify the aforementioned government representative in writing with supporting rationale. Upon consideration the government may continue, amend, or cancel the solicitation.

The government reserves the right to award this effort based on initial proposals, as received, without discussions IAW FAR 52.215-1. However, if the Contracting Officer (CO) determines that entering into discussions is in the best interest of the Government, the CO may do so.

The government intends to award the requirement(s) represented in this solicitation to one awardee. However, the Government reserves the right to award no contract at all.

PROPOSAL FORMAT:

A digital proposal is required; however, offerors may submit a hardcopy proposal in addition to the digital proposal.

- 9) Email to the aforementioned government representative(s) is the preferred method for delivering digital proposals.
- 10) Hardcopy proposals shall be submitted via courier to the aforementioned government representative(s).

Offerors shall fill in their proposed prices and delivery dates in Part I, Section B of the Solicitation.

Offerors shall fill in the Inspection and Acceptance clause, as well as the F.O.B Origin clause in Part I, Section E of the solicitation.

SECTION M EVALUATION FACTORS FOR AWARD

11) INTRODUCTION:

This acquisition will utilize Lowest Priced procedures restricted to technically qualified offeror(s), identified as such by being listed as an approved source on the Contract Screening Analysis Worksheet (762).

The government intends to award the requirement(s) represented in this solicitation to one awardee. However, the Government reserves the right to award no contract at all.

12) EVALUATION FACTORS AND PROCEDURES:

The government shall evaluate proposals based on the evaluation factor below:

Factor 1- Price

The Offeror's price will be evaluated based upon the Total Evaluated Price (TEP). The Offeror's Price Proposal will be evaluated for the criteria of Price Reasonableness and Balance.

Price Reasonableness: The proposed prices will be evaluated for Price Reasonableness. For a price to be reasonable, it will represent a price to the Government that a prudent person would pay when consideration is given to

prices in the market. Normally, price reasonableness is established through adequate price competition, but may also be determined through cost and price analysis techniques as described in FAR 15.404. For additional information see FAR 31.201-3.

Balance: The Government may also determine a proposal unacceptable should the proposed prices be unbalanced. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more items/Contract Line Item Numbers (CLINs) is significantly overstated or understated as indicated by the application of price analysis techniques as those defined by FAR 15.404.

Total Evaluated Price (TEP): A TEP will be calculated to be used for evaluation of offers to determine the lowest-priced proposal. The TEP calculation will be a summation of all Contract Line Item Pricing.

Solicitation Requirements, Terms and Conditions: In addition to meeting the identified factor above, Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and required delivery schedules.

Furthermore, all Offeror's shall be listed as an approved source in the Government's Screening Analysis Worksheet Form 761 or 762 prior to contract award.

A qualification package request is attached to this solicitation for those contractors who are not already qualified; however, per FAR 9.202(e), the government reserves the right not to delay contract award in order to provide a potential offeror with an opportunity to demonstrate its ability to meet the standards.

The process for the evaluation of proposals is as follows:

This award will be made to the offeror that submitted the proposal with the lowest Total Evaluated Price and is a qualified source. In the rare instance where the two lowest-priced proposals from qualified sources are the same, the PCO may enter into discussions to provide both offerors an opportunity to supply a best and final offer.

Past performance record and history will be assessed as one of the multiple standards required for a successful offeror to be determined responsible as described in FAR 9.104. Contractors shall meet the required delivery dates, as well as the terms and conditions in this solicitation, to be determined responsible.
