1. Description of Need

The existing router at the Okefenokee NWR Visitor Center is at "end of life/service" per DOI Office of the Chief Information Officer. This is part of the DOI 819 Replacement Project. The router is outdated and cannot handle the upload/download speeds that our existing fiber optics internet should provide.

2. Market Research Conducted

Market research revealed no other provider that can support fiber service to this location.

3. Other Capable Sources

A search was conducted for other local business internet providers for fiber service. This search showed no other sources were available at our location.

4. Barriers to Competition

No action taken to overcome barriers to competition because this is a rural area and we have no other options within range.

5. Contractor's Qualifications

Uniti is a contractor with DOI/FWS and Okefenokee NWR has current service with them.

6. Determination of Fair and Reasonable Cost

Price is determined to be fair and reasonable based on previous similar awards.

7. Recommendation and Certification by Program Office

Based on the above justification, I recommend this acquisition to be conducted using sole source acquisition procedures. I hereby certify that this justification is accurate and complete to the best of my knowledge and belief.
