(i) Page 1 of DD Form 1692 (or equivalent) shall be submitted for all ECPs. Pages 2-7 of DD Form 1692 shall be submitted when required to properly explain all the potential logistics and technical impacts of the proposed change. (2) RFVs - The Contractor may request to temporarily depart from a requirement specified in the TDP or any other baseline documentation, by submitting an RFV. RFVs may be submitted either pre-production (formerly known as Request for Deviation (RFD)) or post-production and prior to acceptance by the Government (formerly known as Request for Waiver (RFW)). DD Form 1694 (or equivalent) shall be submitted for all RFVs. The Contractor shall not present any production items for acceptance with any nonconformance to the requirements in the TDP or other baseline documentation until notified by the Government the RFV has been approved and incorporated in the contract.

(b) Submission of requested changes - The submission of an ECP or RFV by the Contractor does not affect the required delivery dates specified within the contract, shall not constitute excusable delay in the performance of this Contract by the Contractor or in any way relieve the Contractor from compliance with the contract delivery schedule. If a delivery date change is needed, it must be negotiated with the Procuring Contracting Officer and documented via modification to the contract. The submission of an ECP and/or RFV by the Contractor shall not preclude the Government from exercising its rights under any clause of the Contract.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples. (A) The taxpayer has received a statutory notice of deficiency, under I.R.C. \a76212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. (B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. \a76320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. \a76159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

Data and Communications Submitted to the Government Electronically

(a) The Government often employs Contractors as system administrators to operate and maintain Government computer systems. These systems include local area networks, web sites, databases, other electronic records, e-mail accounts, other electronic data transfer mechanisms and computer software. The employees of these contracted system administrators sign nondisclosure agreements obligating them not to reveal information contained in files, documents, computers or systems that they administer. However, unless such information is protected in some way, contracted system administrators do have the ability to access such information.

(b) Potential Contractors as well as any other parties are thus advised to take steps needed to prevent access by contracted system administrators to information submitted electronically to the Government. Absent such steps, it is assumed that contracted system administrators are permitted the capability to access the data. The access will be limited to that which is necessary for the contract system administrator to perform its duties for the Government. The access shall be subject to the condition that third party information is not to be revealed by the contracted system administrator.

Acquisition of New Facilities, Special test Equipment or Special Tooling

It is not the intent of the Government to acquire, or to have acquired for its account, any facilities, special test equipment, or special tooling. The Government shall under no circumstances reimburse the Offeror for the cost of any new facilities, special test equipment, or special tooling as a separate item. An Offeror may, however, amortize the cost of any such facilities, special test equipment, or special tooling it may require in the submitted price of the items. Reverse Auction

The Procuring Contracting Officer (PCO) may utilize on-line reverse auctioning as a means of conducting price discussions under this solicitation. If the PCO does not conduct a reverse auction, award may be made on the basis of initial offers or following discussions not using reverse auctioning as a pricing technique. If the PCO decides to use on-line reverse auctioning to conduct price negotiations, the PCO will notify offerors of this decision and the following provisions will apply.

- (a) The award decision will be made in accordance with the evaluation factors as set forth in the solicitation. The reverse on-line auction will be used as a pricing technique during discussions to establish the final offered prices from each offeror. These prices will be used in conjunction with the evaluation factors stated elsewhere in the solicitation in order to make the award decision in accordance with the basis for award stated in the solicitation.
- (b) Following the decision to conduct discussions using on-line reverse auctioning as a pricing technique, the PCO or his/her representative will provide offerors determined to be in the competitive range with information concerning the on-line auction process. The Government intends to use a commercial web-based product to conduct the reverse auction.
- (c) Prior to or simultaneously with conducting the on-line reverse auction, the PCO may hold discussions with the offerors concerning matters appropriate for discussion, such as issues involving technical proposals or unbalanced pricing.
- (d) The lowest offeror's price(s) for each round of the reverse auction will be disclosed to other offerors and anyone else having authorized access to the on-line auction. This disclosure is anonymous, meaning that each offeror's identity will be concealed from other offerors (although it will be known to the Government; only a generic identifier will be used for each offeror's proposed pricing, such as "Offeror A" or "lowest-priced offeror"). By submitting a proposal in response to the solicitation, offerors agree to participate in the reverse auction and that their prices may be disclosed, including to other offerors, during the reverse auction.
- (e) The reverse auction system currently in use designates offers as "Lead," meaning the current low price in that auction, or "Not Lead," meaning not the current low price in that auction. In the event of a tie offer, the reverse auction provider's system designates the first offer of that price as "Lead" and the second or subsequent offer of that price as "Not Lead." Offerors shall not submit a tie offer, since this is inconsistent with the purpose of the reverse auction. If a tie offer is submitted, the "Not Lead" offeror that submitted the tie offer must offer a changed price; it will be ineligible for award if the final price in the auction is the tie offer price.
- (f) An offeror's final auction price at the close of the reverse auction will be considered its final proposal revision. No price revisions will be accepted after the close of the reverse auction, unless the PCO decides that further discussions are needed and final proposal revisions are again requested in accordance with Federal Acquisition Regulation (FAR) 15.307, or the PCO determines that it would be in the best interest of the Government to re-open the auction.
- (g) The following information is provided regarding the procedures to be followed if a reverse auction is conducted.
 - (1) Each offeror identified by the PCO as a participant in the reverse auction will be contacted by Defense Logistic Agency's commercial reverse auction service provider to advise the offeror of the event and to provide an explanation of the process.
 - (2) In order for an Offeror to participate in the reverse auction, such offeror must agree with terms and conditions of the entire solicitation, including this provision, and agree to the commercial reverse auction service provider's terms and conditions for using its service. Information concerning the reverse auction process and the commercial service provider's terms and conditions is embedded within the email notification sent by the on-line reverse auction pricing tool system administrator.
 - (3) Offerors shall secure the passwords and other confidential materials provided by the commercial reverse auction service provider or the Government and ensure they are used only for purposes of participation in the reverse auction. Offerors shall keep their own and other offerors' pricing in confidence until after contract award.
 - (4) Any offeror unable to enter pricing through the commercial reverse auction service provider's system during a reverse auction must notify the PCO or designated representative immediately. The PCO may, at his/her sole discretion, extend or re-open the reverse auction if the reason for the offeror's inability to enter pricing is determined to be without fault on the part of the offeror and outside the offeror's control.
 - (5) The reverse auction will be conducted using the commercial reverse auction service provider's website as embedded in the email notification. Offerors shall be responsible for providing their own computer and internet connection.

- (i) The commercial reverse auction service provider will provide familiarization training to offerors' employees; this training may be provided through written material, the commercial reverse auction service provider's website, and/or other means.
- (ii) An employee of an offeror who successfully completes the training shall be designated as a 'trained offeror.' Only trained offerors may participate in a reverse auction. The PCO reserves the right to request that offerors provide an alternate offeror employee to become a 'trained offeror.' The PCO also reserves the right to take away the 'trained offeror' designation from any trained offeror who fails to abide by the solicitation's or commercial reverse auction service provider's terms and conditions.

Agency Protests

Companies protesting this procurement may file a protest 1) with the Procuring contracting officer, 2) with the General Accounting Office, or 3) pursuant to Executive Order No. 12979, with the Agency for a decision by the Activity's Chief of the Contracting Office. Protests filed with the agency should clearly state that they are an "Agency Level Protest under Executive Order No. 12979." (Note: DLA procedures for Agency Level Protests filed under Executive Order No. 12979 allow for a higher level decision on the initial protest than would occur with a protest to the Procuring Contracting Officer; this process is not an appellate review of a Procuring Contracting Officer's decision on a protest previously filed with the Procuring Contracting Officer). Absent a clear indication of the intent to file an agency level protest, protests will be presumed to be protests to the Procuring contracting officer.

- (5) "Virgin material" means previously unused raw material, including previously unused copper, aluminum, lead, zinc, iron, other metal or metal ore, or any undeveloped resource that is, or with new technology will become, a source of raw materials.
- (6) "Residual Inventory" means inventory from a transferred or terminated Government or commercial contract.
