

DEPARTMENT OF VETERANS AFFAIRS

Justification for Single Source Awards IAW RFO [FAR 12.102\(a\)](#) For Over Micro-Purchase Threshold but Not Exceeding the SAT (\$350K)

Acquisition Plan Action ID: 36C250-26-AP-1832

1. **Contracting Activity:** Department of Veterans Affairs, VISN 10, Cincinnati VA Medical Center 3200 Vine Street, Cincinnati, OH 45220, submitted 2237 #539-26-2-043-0103 for Orthoview License and Maintenance Services.

2. **Brief Description of Supplies/ Services required and the intended use/Estimated Amount:**

Cincinnati VA Surgery Department requires a five-year option (Base + 4 years), modern digital templating software license and maintenance for use in operating room surgical procedures. Preoperative templating is essential for successful total joint replacement surgeries, ensuring precise implant selection and alignment to optimize patient outcomes.

Necessary supplies are:

Qty	Part	Description – Base Year
2	OrthoView Concurrent License	Floating Perpetual License 1-LAN
1	OrthoView Concurrent License Maintenance	Maintenance and technical support Floating Limited License 1-LAN Subscription duration: 12 months
Description – Option Years 1-4		
1	OrthoView Concurrent License Maintenance	Maintenance and technical support Floating Limited License 1-LAN Subscription duration: 12 months

Contracts cost for base and option years are as follows:

Base year (		
Option Year 1		
Option Year 2		
Option Year 3		
Option Year 4		
Contract Total		

3. Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:

OrthoView is a digital pre-operative planning solution designed specifically for orthopedic surgeons. OrthoView allows orthopedic surgeons to carry out pre-operative planning on screen with digital images. Implementing templating software will transform Total Joint Replacement procedures at the Cincinnati VA by enhancing precision, boosting efficiency, and reduction of cost. OrthoView software is compatible with the current PACS system. OrthoViews automation and PACS integration cut planning and surgery time, increase operating room capacity, and enable more veterans to receive timely care. Due to propriety licensures, this requirement is only available from Materialise USA LLC (OEM), who exclusively sells and provides the OrthoView perpetual concurrent license, along with maintenance services. After extensive collaboration and analysis of other templating software, Biomed and Surgery Leadership determined that OrthoView was the most compatible and best satisfied the requirements of the VA for digital templating. Electing any other brand could create inconsistency in the standard of care, standardization Issues, risk of non-compliance/reliability in function, require new training, and cost prohibitive.
Estimated delivery 3/24/2026.

4. Description of market research conducted and results or statement why it was not conducted:

SBA SBS was queried using NAICS 513210 and keywords "Digital Templating" for SD/VOSB with zero vendors found. Software was not identified on any contract vehicles. OEM confirmed this products software is proprietary and there are no authorized resellers/distributors. No other vendor examined can provide specific content, compatibility, and support for current system. Product not in NMR Class Waiver List. The VA Rule of Two cannot be met, nor can the SBA Rule of Two be satisfied. NMR not waived. No solicitation will be made. CO Intends to sole source award to OEM, large business, open market.

5. Contracting Officer's Certification: *Purchase is approved in accordance with RFO FAR12.102(a). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief.*
