

Near Earth Orbit Network's  
Sounder for Microwave-Based Applications  
Draft Request for Proposal, Amendment 13  
Questions and Answers

The final contract clauses, attachments, and applicable documents shall take precedence over the answers below.

**Question 1:** Can you clarify whether Technology Readiness Level (TRL) 6 is required by Preliminary Design Review (PDR) or Critical Design Review (CDR)?

**Answer:**

The Draft Request for Proposal, page L-24, states, "The Offeror shall also describe how these prototype models are used to achieve TRL6 for the SMBA instrument technologies by PDR, how they will inform the CDR design, how they will inform the manufacturing process, and how they will be used after FM1 delivery." It should say, "The Offeror shall also describe how these prototype models are used to achieve TRL6 for the SMBA instrument technologies by CDR, how they will inform the manufacturing process, and how they will be used after FM1 delivery."

**Question 2:** Can you clarify the 533 reporting requirements for Firm Fixed Price subcontracts?

**Answer:**

The Government intends to revise Attachment B, Financial Management Reporting Requirements, to exempt from reporting Firm Fixed Price subcontract hours, rates, or other details not typically required for a Firm Fixed Price contract.
