

Contract TBD, Attachment O

Draft Phase 2 Mission Suitability Evaluation Criteria

July 22, 2025

Section L

Subfactor A – Technical Approach

The Contract Data Requirements List (CDRL) item and Data Item Description (DID) is found within the following document: Near Earth Orbit Network (NEON) Series-1 Project Sounder for Microwave-Based Applications Contract Data Requirements List (NS1-SMBA-CDRL-0001). The Offeror shall provide its final Critical Design Review (CDR) Package (CDRL RE-3) with all CDR findings (including Requests for Action and Advisories), and responses to those findings. The final CDR Package shall include all information required in CDRL RE-3; all instrument information required to satisfy paragraph 6.2 (Success Criteria), paragraph 6.3 (Key Evaluation Factors for the Assessment of Success Criteria) and Appendix D-2 (Key Evaluation Factors Flight Element CDR) of GSFC-STD-1001A; and information required in the Offeror's governing documents for CDR. The CDR package shall also include progress to date on the scan drive, antenna, receiver, hyperspectral capability, Radio Frequency Interference detection capability, structural subsystem, thermal subsystem, and flight software subsystem.

The Offeror shall provide all Engineering Test Unit (ETU) performance testing data available to date including data showing compliance to and margins against the NEON Series-1 Sounder for Microwave-based Applications Performance Requirements Document (NS1-SMBA-REQ-0001), Section 4.

Subfactor B – Management Approach

The Offeror's proposal shall describe in detail its overall management approach, to include schedule and budget management, for the proposed activities at the Offeror's and all sub-tier suppliers' facilities both for the completion of the ETU work and to produce the flight models. The proposal shall describe the Offeror's approach to collaborating with the Government.

Section M

Subfactor A – Technical Approach

The Government will evaluate the Offeror's technical approach,, including all areas and information in Section L, GSFC TBD, Subfactor A, for adequacy, scope, soundness, completion, substantiation, efficiency, effectiveness, clarity, reasonableness, flexibility, innovation, and degree of risk.

Subfactor B – Management Approach

The Government will evaluate the Offeror's overall management approach, including all areas in Section L, GSFC TBD, Subfactor B, for adequacy, completeness, efficiency, efficiency, effectiveness, flexibility, clarity, reasonableness, teamwork, flexibility, degree of risk, and likelihood of successful implementation.
