PRE-PROPOSAL QUESTIONS & ANSWERS

RFP N62742-26-R-1300
WON 1665555, FY24 AJJY183012 (P-012), PDI: NORTH AIRCRAFT PARKING RAMP,
ANDERSEN AIR FORCE BASE, GUAM

NOTE: The following questions and answers are provided for INFORMATION ONLY. The RFP remains unchanged unless it is amended in writing on a Standard Form 30.

11. Section 01 57 19 paragraph 3.14, page 37 states.... “Provide munitions and explosives of concern (MEC) screening and escort for any ground-disturbing activities, including vegetation clearance at Tarague FEA”.

The above specification requirement contradicts with Section 01 57 19.03 21 paragraph 1.1, page 1 which states that this construction contract is exempt from explosives safety requirements in Dept. of Defense Explosive safety regulation (DESR 6055.09) and other corresponding Dept. of Defense and Dept. of the Navy policies – with conditions to exemption (i.e. 3Rs training compliance, stop work protocol in the event suspected MEC is encountered, GIS submittals, etc.).

Please clarify.

ANSWER: The ground-disturbing activities in Tarague FEA can be performed by MEC 3R training, so MEC screening/escort will not be required. Specification Section 01 57 19.03 21 will be updated to reflect MEC 3R Training in forthcoming amendment.
