CAPABILITY PROGRAM EXECUTIVE AMMUNITION & ENERGETICS

SFAE-AE, Building 151
 Picatinny Arsenal, NJ 07806-5000
 (973) 724-7101 (<https://jpeoaa.army.mil/>)

The Capability Program Executive Ammunition & Energetics' (CPE A&E), formerly the Joint Program Executive Office Armaments & Ammunition (JPEO A&A), mission is to develop, procure and field lethal armaments and ammunition, providing Joint Warfighters and Allied Partners overmatch capabilities. CPE A&E's vision of "Innovative and empowered Teams rapidly fielding dominating capabilities" ensures that the Munitions Enterprise meets its responsibilities now and in the future. CPE A&E is designated as the Single Manager for Conventional Ammunition (SMCA) Executor. The SMCA objective is to achieve the highest possible degree of effectiveness and efficiency in the DoW operations required to acquire conventional ammunition and integrate logistic functions for U.S. Forces.

CPE A&E is an innovative and empowered team committed to rapidly fielding dominating capabilities to the Soldier. The CPE is responsible for development, procurement and fielding lethal armaments and ammunition, providing Joint Warfighters and Allied Partners overmatch capabilities. This includes integrating budgets, acquisition strategies, R&D and life-cycle management across all ammunition families and energetics. CPE A&E is located at Picatinny Arsenal, New Jersey, and is comprised of four project offices and a directorate.

CPE Ammunition & Energetics Organization

PROJECT MANAGER COMBAT AMMUNITION SYSTEMS

Project Manager Combat Ammunition Systems (PM CAS) develops, produces, and equips the Joint Warfighters and Allied Partners with conventional and precision artillery and mortar ammunition. This office is responsible for the 155mm munition ramp-up to reach a capacity of 100K shots per month through significant expansion of the industrial base. PM CAS is responsible for developing and delivering advanced munitions for Army Modernization. Under the Single Manager for Conventional Ammunition (SMCA) responsibilities, PM CAS also procures ammunition for US Marine Corps, US Air Force, US Special Operations Command, and our allies. The PM is the life cycle program manager of artillery and mortar products in the following categories:

- Precision Guided and Anti-Armor Munitions (Excalibur, Precision Guidance Kit, Long Range Precision Guidance Kit, Bonus, Cannon Delivered Area Effects Munitions, and Extended Range Artillery Munitions)
- Conventional Munitions for Mortars and Artillery (High Explosive, Obscuration, Illumination, and Training)
- Artillery Propellants and Primers
- Fuzes and Fuze Setters

Points of Contact:

Project Manager, Combat Ammunition Systems, (973) 724-2003

Deputy Project Manager, Combat Ammunition Systems, (973) 724-9355

Product Manager, Artillery, Mortars & Precision Systems, (520) 673-4663

Product Manager, Extended Range Artillery Munitions, (520) 692-4497

Product Manager, Precision Attack Cannon Munitions, (973) 724-1839

Conventional Ammunition Division, (973) 724-7617

Business Management Division, (973) 724-2619

International Programs for Ammunition, (973) 865-0972

PROJECT MANAGER CLOSE COMBAT SYSTEMS

Project Manager Close Combat Systems (PM CCS) provides dominant and innovative lethal and protective capabilities for the Joint Warfighter. Team CCS' contributions span multiple Services, and support the spectrum of conflict from lethal to intermediate force, and end of life-cycle demilitarization for all Department of War conventional munitions. The capabilities are used in multi-domain operations to enable efficient and effective Joint Warfighter success. Mission areas include:

- Terrain Shaping Capabilities and Area Denial
- Lethal and Protective Payload from Small-Uncrewed Aircraft Systems (sUAS)
- Obstacle Breaching and Demolitions Capabilities
- Shoulder-Launched Munitions
- Hand Grenades
- Vehicle Protection Munitions
- Aviation Bombs, Counter-measures, and Actuated Devices
- Conventional Munition Demilitarization
- Explosive Hazard Detection and Neutralization Capabilities
- Signaling and Training Simulators
- Intermediate Force & Protection Systems

Points of Contact:

Project Manager, Close Combat Systems, (520) 706 - 2988

Product Manager, Terrain Shaping Obstacles, (520) 716 - 5024

Product Director, Combat Armaments and Protection Systems, (520) 693 -7645

Product Director, Joint Ammunitions and Weapons Systems, (520) 693 - 7649

Product Director Demilitarization, (520) 942 - 2852

PROJECT MANAGER MANEUVER AMMUNITION SYSTEMS

Project Manager Maneuver Ammunition Systems (PM MAS) as single manager for direct fire conventional ammunition, develops, and produces both tactical and training effects to provide the Army, Joint and Allied Warfighters' with lethal overmatch.

PM MAS accomplishes these missions through strategic lifecycle program management of ammunition for weapon systems in the following categories:

- Small Caliber Ammunition
- Medium Caliber Ammunition
- Large Caliber Ammunition
- Special Ammunition and Weapon Systems (SAWS)

Points of Contact:

Project Manager, Maneuver Ammunition Systems, (973) 724-5307

Product Manager, Small Caliber Ammunition, (973) 724-2650

Product Manager, Medium Caliber Ammunition, (973) 724-1261

Product Manager, Large Caliber Ammunition, (973) 724-4935

Product Lead, Special Ammunition and Weapon Systems, (973) 724-3197

PROJECT LEAD JOINT SERVICES

Project Lead Joint Services (PL JS) enables the Acquisition and Manufacturing of Munitions for the Joint Services. Responsibilities within these categories include:

- Coordinate and integrate the Single Manager for Conventional Ammunition (SMCA) functions, processes and governance
- Develop the Army's Ammunition Industrial Base Strategic Plan
- Execute facility modernization at Government Owned Government Operated (GOGO) Facilities and Government Owned Contractor Operated (GOCO) Army Ammunition Plants
 - Production Base Support Program: Provision of Industrial Facilities, Maintenance of Inactive Facilities, Layaway of Industrial Facilities and Armament Retooling and Manufacturing Support (ARMS) Program
- Lead the Army's competitions for the operation of the GOCO Ammo Production Plants
- Develop munitions manufacturing technology and prototyping programs
- Host the Industrial Committee of Ammunition Producers (ICAP)

Points of Contact:

Project Lead, Joint Services, (973) 724-7626

Deputy Project Lead, Joint Services, (973) 724-4344

DIRECTORATE OF INTEGRATION

The Directorate of Integration (DoI) influences and guides action at the system of systems level to facilitate the rapid delivery of emergent and disruptive capability across the CPE A&E portfolio by synchronizing program efforts, facilitating the definition of architectures/standards and identifying and cultivating technology investments. The Directorate leads efforts for the CPE A&E on the following topics:

- Assured Position Navigation and Timing (A-PNT) / Navigation Warfare (NAVWAR)
- Ammunition Logistics
- Assured Munitions/ Supply Chain Risk Management
- Digital Engineering and Modular Open Systems Architecture (MOSA)
- Technology transition to Programs of Record
- Externally funded R&D (e.g. Technology Maturation Initiative, ManTech, Small Business Innovation Research (SBIR))
- Environmental, Safety and Occupational Health policy
- CPE A&E Chief Technology Officer
- CPE A&E Chief Systems Engineer

Points of Contact:

Director of Integration, (520) 693-6549

Deputy Director of Integration, (973) 724-8518

Chief Technology Officer, (520) 684-3315

Chief Systems Engineer, (520) 708-0372

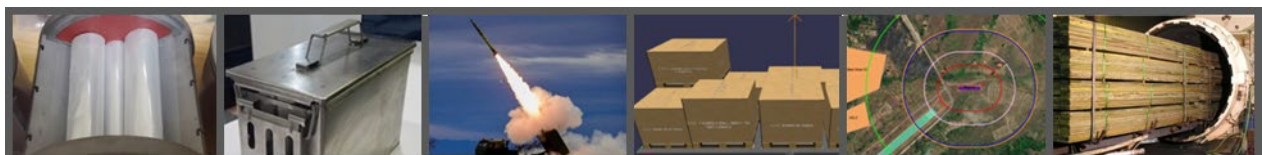

A-PNT/NAVWAR, (520) 684-3499

R&D Program Manager, (520) 672-6181

Assured Munitions Lead, (520) 684-3149

Ammunition Logistics, (520) 684-2668

Environmental, Safety and Occupational Health, (520) 684-2660

COMBAT CAPABILITIES DEVELOPMENT COMMAND ARMAMENTS CENTER

OVERVIEW

As the character of war evolves in real time, the U.S. Army Combat Capabilities Development Command (DEVCOM) Armaments Center is at the forefront of lethality innovation driving concept evolution. Headquartered at Picatinny Arsenal, N.J., the Armaments Center is the “Center of Mass” for armaments and ammunition systems. We unify efforts to provide integrated systems that are purpose-built, grounded in Soldier engagement, relevant and lethal. With a workforce of approximately 3,100 personnel, the majority of which hold advanced technical degrees, we are the innovative source for over 90% of the Army’s lethality technologies—including weapons, explosives, warheads, ammunition, and fire control systems—to deliver more lethal, agile, and future-ready formations to our warfighters.

OBJECTIVES

A primary objective of the Armaments Center is to create an agile framework that ensures readiness at the speed of relevance. We achieve this by establishing and leveraging partnerships with industry, academic institutions, and

other government organizations that support our mission. We value disciplined initiative and disruption to overcome the drawbacks of past processes, making our over 100 specialized laboratory and testing facilities available for industry use through testing and engineering service agreements.

To innovate with urgency, the Armaments Center works to transfer the results of Federal research and development investment to the industrial base. Our more than 120 active Cooperative Research and Development Agreements (CRADAs) are valuable tools for accelerating the transition of technology and are key collaborative non-procurement agreements. This approach also allows us to leverage industry developed technology for integrating into weapon systems and software engineering across the full lifecycle. Our Software Engineering Center, which has maintained a Capability Maturity Model Integration (CMMI) Level 5 certification for nearly two decades, provides optimized software architecture, ensuring our armaments systems are purpose-built for the future fight.

COMBAT CAPABILITIES DEVELOPMENT COMMAND ARMAMENTS CENTER

OUR SUPPORT TO THE PORTFOLIO ACQUISITION EXECUTIVES (PAE)

Agile Sustainment & Ammo

- Conventional and Precision Ammunition
- Effectors for Tactical Applications
- Agile Sustainment, Rearm, and Resupply
- Munitions Components
- Sustainment at the Edge

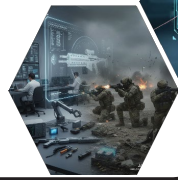

Fires

- Advanced Automation for Large Caliber Cannon
- Counter Unmanned Aerial System (UAS) and Swarming Technologies
- Automated Rearm Technologies
- U.S. Army's Artillery Execution Suite
- Blast Overpressure Reduction

Maneuver Ground

- Direct Fire Cannon Technologies
- Common Fire Control Technologies
- Medium Machine Gun for Mounted and Dismounted Maneuver
- Automated Lethality Integration

Maneuver Air

- Counter UAS for Common Remotely Operated Weapon Station (CROWS)
- Lethality Components for Purpose-Built Attributable System (PBAS)
- Lethal Payload Integration through Common Lethality Integration Kit (CLIK)
- Advanced Fire Control Solutions for Autonomous Engagements

FUTURE ARMAMENTS TECHNOLOGIES OF INTEREST

WEAPON SYSTEMS

- Attributable armament systems
- Automated or autonomous weapon systems
- Counter-UAS /swarm/ Rocket Artillery & Mortar (RAM) defense
- Increased weapon wear and operational life
- Signature reduction and decoys
- Non-Volume suppressive effects
- Adaptive terrain shaping
- Additive manufacturing at point of need for spare parts

MUNITIONS

- Collaborative seeking munitions / submunitions
- Adaptive Countermeasures
- Agile warhead concepts
- Munition-delivered sensors / non-kinetic effects
- Multi-Domain Operations (MDO) / Multimode submunitions
- Dynamic re-targeting
- Assured Position Navigation and Timing (PNT) for GPS denied environments
- Munition concepts for surge capacity

FIRE CONTROL

- AI-enabled / collaborative fire control
- Supervised autonomy
- Advanced ballistic algorithms
- Photonics solutions for fire control
- Soldier aim augmentation
- Tactical data collection and processing

ENABLING

- Tunable Effects
- Contested logistics & resupply
- Alternative materials / sources / manufacturing methods
- Advanced materials / point of need manufacturing
- Modular Open Systems Approach (MOSA), digital eng & predictive analytics
- Design for demil / reduced lifecycle environmental impact
