

Memorandum for Record – Limiting Competition at or below the Simplified Acquisition Threshold

Medical Simulation Training Center (MSTC) for cadaver perfusion

1. Contracting Activity: Medical Readiness Contracting Office - West**2. Description of Action:**Nature: ☒ New RequirementContract Vehicle: ☒ Purchase Order Number: PR 0012402407Pricing/Contract Type: ☒ Fixed PriceFunds: ☒ Other Funds: OMA: FY: 26

Name of Proposed Contractor(s) and Address:

Combat Medical Systems
13359 Reese Blvd. E.
Huntersville, North Carolina 28078

Brand Name Buy: ☒ No

3. Description of Services or Supplies: The FY26 requirement is to procure two (2) cadavers and perfusion services for a military exercise lead by 1st Medical Brigade, Fort Hood, Texas at the Medical Simulation Training Center (MSTC) located at BLDG 1115 South 11th Avenue, Fort McCoy, Wisconsin, 54656.

The requirement is for commercial services with an estimated cost of \$43,000.00 and will be funded with currently available FY26 funds.

This is a supply-based requirement. A statement of work (SOW) was developed for this requirement and will be included in the contract award. The SOW describes the requirement outcomes and quality standards. The SOW outcomes to be satisfied include the contractor providing all supplies needed for the cadaver perfusion. The anticipated period of performance for a one-time training is 11 March 26 to 12 March 2026.

Controlled by: USAHCA

Controlled by: MRCO-W

CUI Category (ies): SSEL

Limited Dissemination Control: FED ONLY

4. Authority:

FAR 12.102(a): For purchases not exceeding the simplified acquisition threshold (SAT), only one source reasonably available, urgency, exclusive licensing agreements, brand name, or industrial mobilization.

5. Reasons for Authority Cited:

Background: 1st Medical Brigade has a need for a Perfused Cadaver Lab training that employs Perfusion Services of Human Cadavers and Reanimated Tissue Training. The requirement is for a training exercise that greatly enhances the live setting for the military medical and non-medical professional Soldiers in the Active Duty, Reserve and National Guard. The perfusion of the cadavers and associated training adds a level of complexity that greatly benefits the military medical and non-medical professional in a live field setting.

Currently one source is capable of providing the services and supplies required, at the level of quality due to the services being unique and highly specialized. Previous actions were evaluated and noted in the procurement history and found that one vendor, Combat Medical Systems has proven to be the only vendor that is consistently capable of providing both the cadavers and perfusion services for Reanimated Tissue Training for a Perfused Cadaver Lab training. The Contracting Officer is therefore recommending this action to be procured as a sole source action to Combat Medical Systems.

a. Alternatives: Currently, there are no other vendors that can meet the government's requirements

b. Impact if not approved: If this request is disapproved, the medical professional is not thoroughly and trained in order to support the warfighter in a battlefield environment.

6. Publicizing Contract Actions: For FAR Part 12 actions, the public display and synopsis requirements of FAR 5.101 and FAR 5.201 ☒ apply and will be followed.

A Notice of Intent to Sole Source will be posted on Sam.gov directly after Small Business Coordination Approval (DD2579).

Requirement to post justification in accordance with FAR 12.202, or FAR 16.507-6(f)

☒ Action NOT a brand name restriction and is under \$350K, no posting required

7. Market Research: Market Research was conducted in accordance with Federal Acquisition Regulation (FAR) Part 10 to identify all qualified sources. Market research was conducted on the General Services Administration (GSA) eLibrary, Electronic Catalogue ECAT and Internet research for Perfusion & Cadaver Training. Market research was conducted by the contract specialist on 24 February 2026 and found that Combat Medical Services is the only source that

has the capabilities to provide the perfusion training in a military setting. Market research has indicated that there is currently no reasonable indication of this requirement obtaining offers from two or more responsible small businesses. Due to the specific nature of the requirement, there is currently no other business that may provide the requested specialized training.

8. Other Facts:

- a. Procurement history.

N/A

9. Technical/Requirements Certification: I certify that the supporting data under my cognizance which are included in the justification are accurate and complete to the best of my knowledge and belief.

[REDACTED]

SFC J. Abel Carlos

Clinical Operations, 1st Medical Brigade, Fort Hood, Texas 76544

10. Contracting Officer Certification/Approval:

I hereby determine that the anticipated cost or price to the Government for this contract action will be fair and reasonable based upon pricing for similar monocular diagnostic testing system maintenance requirements and the independent Government estimate.

I certify that this justification is accurate and complete to the best of my knowledge and belief, and that completing this purchase as a sole source is in the best interest of the Government. Additionally, I approve this justification to limit competition, subject to the availability of funds, and provided that the services or supplies herein described have otherwise been authorized for acquisition.
