

SPECIAL NOTICE PHASE 2

THIS IS A SPECIAL NOTICE ONLY. The U.S. Government currently intends to award a contract for Accredited Calibration Services on a “Sole Source Basis”, as there was no interest in the related Sources Sought Notice posted on 02/18/2026.

A signed FAR Part 6 Sole Source Justification and Approval (JA) has been completed as no other sources have been identified.

The government intends to award, on a Sole Source basis utilizing:

Coast to Coast Calibrations
9150 Isanti Street NE
Blaine, MN 55449 USA
(952) 881-7716

Vision Research is the Original Equipment Manufacturer.

The FAR Authority and U.S. Code are: 6.302-1. Only one responsible source and no other supplies or service will satisfy agency requirements. This acquisition is conducted under the authority of United States Code (U.S.C.) 10 U.S.C. 2304(c)(1) or 41 U.S.C. 3304(a)(1).

It is the responsibility of potential offerors to monitor the Government-wide Point of Entry for additional information pertaining to this requirement. **The NAICS code is: 541380. SBA Size Standard is 19 Million. THE PSC IS J052.**

ACQUISITION PURPOSE AND OBJECTIVES: The Test Evaluation Division/West Desert Test Center located at US Army Dugway Proving Ground, Utah wishes to further extend its capabilities while meeting mission requirements. The contractor shall provide all personnel, equipment, supplies, facilities, transportation, tools, materials, supervision, and other items and non-personal services necessary to perform ISO 17025 Accredited Calibration Services in the Chemical Test Division (CTD). Specific tasks are outlined as follows:

- Provide ISO 17025 accredited calibration services four times per year, with each visit potentially spanning multiple days, as scheduled by the Government.
- Provide annual on-site calibration services at CTD for analytical balances, flow meters, and flow controllers, and biennial calibration for digital thermometers, using the contractor’s own calibration equipment.
- Provide calibration services for each weight sets every three years, with the flexibility for calibration to be performed either on-site or off-site, including all associated shipping costs in the contract price.
- Deliver a detailed ISO 17025 compliant report of calibration for each instrument, along with a physical stamp indicating the new calibration date and accreditation. Equipment will be calibrated annually, except for digital thermometers (every two years) and weight sets (every three years).
- Offer a flexible contract capable of accommodating changes in the Government’s equipment inventory. The contract shall allow for the annual adjustment of the amount of equipment calibrated, through the addition of new equipment and/or removal of obsolete equipment.
- Provide all-inclusive pricing covering calibration services, travel expenses, and shipping costs to and from Dugway for weight sets (if applicable).

The following equipment shall require calibration by the contractor:

Model	Type of equipment	Quantity	Manufacturer	Service Frequency	Location (On Site/Off Site)	Annual Service Count
-------	-------------------	----------	--------------	-------------------	-----------------------------	----------------------
