

SCOPE OF WORK

Patient Escort/MVO:

Gurneys & Power Loader

EQUIPMENT: Service contract for cots and power loader. Coverage needs to include parts, labor, travel, annual preventive maintenance, and battery coverage.

Performance Plan: The contractor shall come on site to perform service at, Chinle Comprehensive Health Care Facility, U.S. Hwy 191 and IR 102 Chinle Az, 86503

EQUIPMENT USE: The service contractor shall come on site to service three, Stryker model 6390 Power load cot fastener systems. In addition, three Stryker Power-Pro XT cots. These cots are used to load and move our patients with on every transport, that is done out of the Chinle Comprehensive Health Care Facility, they power loaders load the gurneys into the ambulance with the ability to lift up to 750 pounds. The company that gets the contract needs to be certified to service the Stryker gurneys and power loaders that are currently owned by the hospital.

JUSTIFICATION: In 2023 patient transport did 1,125 transports, in 2024 we did 1473, in 2025 we are currently at 1225 transports. The Power gurney, and power loaders are used on every transport, the service agreement expired in August of 2025, for the mobile service that has been on site several times in the past three years servicing, wheels hydraulics, batteries, bushings, and electrical components. This service is absolutely essential to moving our patients in and out of Chinle Comprehensive Health Care Facility. The Stryker power system is the safest way to move and load our patients and to protect the CSU staff from injuries, it also reduces the incident of a dropped patient drastically.

LOCATION/Equipment use: It will be used on every patient transport call
