QUESTIONS AND ANSWERS

1. Clinical Jack Panels

Please confirm the exact connectivity required (for example: XLR, 1/4", LAN, etc.), as we provide passive connection panels only. We do not include internal electrical wiring. Yes, we do need internal wiring.

2. Ventilation

Our booths operate with independent, extremely quiet ventilation systems. If connection to existing HVAC is required, that would instead require a passive muffler system placed on top of the booth, and ceiling height would need to allow for that. No HVAC Required.

3. Access Conditions

Please confirm ceiling height, delivery access (dock vs curbside), and whether there are any site constraints (sprinklers, soffits, etc.) that could impact installation

Delivery access- Curbside, no sprinklers, soffits that would impact installation.
