

Statement of Work (SOW)
ConMed Insufflators Equipment Maintenance Service
VA North Texas Healthcare System

General

The contractor shall provide a full-service contract for the ConMed AirSeal Insufflators located at the Dallas VA Medical Center which is part of the VA North Texas Healthcare System (VANTXHCS). Contract will be for a base year plus up to 4 option years where the government can execute additional years of service.

Description of Work

The contractor shall provide all required services including repairs, equipment maintenance services, hardware and software support, remote support, parts, loaners, shipping, labor, and travel to the Dallas VA Medical Center in accordance with the original equipment manufacturer (OEM) specifications. Upon contract award, the contractor agrees to assume responsibility for the equipment in its present state and undertake all required repairs, if determined necessary. A response time of at most 2 business days during facility's local time are required for all inquiries including but not limited to onsite repair and phone support. For on-site service and preventative maintenance, the contractor must check in to the biomedical engineering department to obtain a vendor badge before any work is done and must adhere with hospital personal protective equipment (PPE) requirements. The contractor must submit any mobile media devices that would be used on the system, to a virus scan. After work has been completed for the day, the contractor must check out with biomedical engineering department, return the vendor badge, and brief biomedical engineering staff or supervisor. The contractor must provide a service report (detailed in the Documentation section). All biomedical engineering staff can request service inquiries and pose questions under contract.

Documentation

At the completion of each service call or scheduled maintenance, the contractor shall provide a service report to the primary and/or alternate biomedical engineering point of contact. This report will clearly indicate the following:

- Date of Service
- Description of Service Completed
- Model
- Serial Number
- VA Barcode (EE)
- List of parts replaced
- Contract Number
- Purchase Order Number

Manufacturer and Model(s)
